**SUMMARY OF EQUAL BENEFITS ORDINANCE REQUIREMENTS**

The Equal Benefits Ordinance [EBO] requires the City to enter into contracts only with contractors who certify they will provide and maintain equal benefits as defined in SDMC §22.4302 for the duration of the contract. To comply:

- Contractor shall offer equal benefits to employees with spouses and employees with domestic partners.
  - Benefits include health, dental, vision insurance; pension/401(k) plans; bereavement, family, parental leave; discounts, child care; travel/relocation expenses; employee assistance programs; credit union membership; or any other benefit.
  - Any benefit not offer an employee with a spouse, is not required to be offered to an employee with a domestic partner.
- Contractor shall post notice of firm's equal benefits policy in the workplace and notify employees at time of hire and during open enrollment periods.
- Contractor shall allow City access to records, when requested, to confirm compliance with EBO requirements.
- Contractor shall submit *EBO Certification of Compliance*, signed under penalty of perjury, prior to award of contract.

NOTE: This summary is provided for convenience. Full text of the EBO and Rules Implementing the EBO are available at [www.sandiego.gov/administration](http://www.sandiego.gov/administration).

**CONTRACTOR EQUAL BENEFITS ORDINANCE CERTIFICATION**

Please indicate your firm's compliance status with the EBO. The City may request supporting documentation.

I affirm **compliance** with the EBO because my firm (*contractor must select one reason*):

- Provides equal benefits to spouses and domestic partners.
- Provides no benefits to spouses or domestic partners.
- Has no employees.
- Has collective bargaining agreement(s) in place prior to January 1, 2011, that has not been renewed or expired.

I request the City's approval to pay affected employees a cash equivalent in lieu of equal benefits and verify my firm made a reasonable effort but is not able to provide equal benefits upon contract award. I agree to notify employees of the availability of a cash equivalent for benefits available to spouses but not domestic partners and to continue to make every reasonable effort to extend all available benefits to domestic partners.

It is unlawful for any contractor to knowingly submit any false information to the City regarding equal benefits or cash equivalent associated with the execution, award, amendment, or administration of any contract. [San Diego Municipal Code §22.4307(a)]

Under penalty of perjury under laws of the State of California, I certify the above information is true and correct. I further certify that my firm understands the requirements of the Equal Benefits Ordinance and will provide and maintain equal benefits for the duration of the contract or pay a cash equivalent if authorized by the City.

PROJECT TITLE: 9995 RUE CHANTEMAR EMERGENCY STORM DRAIN REPAIR

PROJECT LOCATION-SPECIFIC: The project is located downslope from 9995 Rue Chantemar.

PROJECT LOCATION-CITY/COUNTY: San Diego/San Diego

DESCRIPTION OF NATURE AND PURPOSE OF THE PROJECT: Environmental Exemption to perform necessary emergency work to permanently repair a failed slope and collapsed 36-inch CMP (corrugated metal pipe) storm drain pipe with a new 36-inch RCP (reinforced concrete pipe) pipe within the existing City easement. The damaged storm drain has caused the slope below the property at 9995 Rue Chantemar to collapse. First part of the work would involve stabilization of the collapsed slope for safety. Stabilization would require grading of the damaged area into 2:1 slopes on either side of pipe alignment without increasing the size of the collapsed area. The pipe replacement would require a trench ranging from five feet to 20 feet in depth, extending from the cleanout at the back yard of 9995 Rue Chantemar to the outfall, a distance of about 225 feet. Trench width would depend on soil consistency and depth of the trench, but in general, trench depth of over six feet would require a wider trench, a 2:1 slope on either side of pipe alignment to ensure worker safety. The use of shoring is infeasible because of the steepness of the slope. The Project would include the construction of a 15-foot wide access road, construction of cleanouts, replacement in place of a headwall, reconstruction of an energy dissipator, temporary repair of slope prior to the start of construction, and filling of sink hole to pre-emergency grade and compaction. The lower portion of the project is located within the MHPA, and therefore MHPA Land Use Adjacency Guidelines apply. As part of the scope of work, best management practices will prevent drainage to the MHPA, construction will only occur during the day. A pre-impact nest survey of the impact area will be conducted to comply with the Migratory Bird Treaty Act. If work must occur during the breeding seasons for California gnatcatchers (March 1 to August 15) and Least Bell's vireo (March 15 to September 15) then construction noise monitoring by a certified acoustician shall occur at least twice weekly to verify that noise levels at the edge of occupied habitat are maintained below 60 dB(A) hourly average or to the ambient noise level if it already exceeds 60 dB(A) hourly average. If not, other measures such as noise walls shall be implemented. Within 90 days of the completion of construction, the project will revegetate the exposed soils within the project area with native species in accordance with the City's Biology Guidelines and Landscape Standards. A biologist or City staff will demarcate the limits of work in order avoid or minimize impacts to adjacent environmentally sensitive lands. If the emergency work results in permanent impacts to Environmentally Sensitive Lands, a subsequent Site Development Permit is required in accordance with Section 126.0716 of the Land Development Code. The application for the Site Development Permit shall be submitted within 60 days of completion of the emergency work.
