Project Title: 202 Coast Boulevard Beach Access Stair Replacement

Project Location-Specific: 100 – 202 Coast Boulevard, San Diego, CA 92037

Project Location-City/County: San Diego/San Diego

Description of nature and purpose of the Project: The winter storm events of 2015-16 destroyed the previously existing beach access stairway. Lack of a functional stairway at this location jeopardizes the timely response of lifeguards requiring access to the beach during an emergency situation. The proposed replacement stairway will be sited in roughly the same location and designed to meet current California Building Code Stair Regulations and City Standards. A technical study will be conducted to evaluate the feasibility of ADA accessible elements (e.g., ramp, elevator, etc.) at this location. During construction, signage will be provided indicating the stairway is not accessible and include directions to the nearest accessible beach. The contractor will implement storm water best management practices to prevent illicit construction-related storm water discharges from entering the ocean. Access to the construction area will be from the walkway between Coast Boulevard and the stairway, and along the beach from the northern end of Vista Del Mar Avenue and/or western end of Marine Street. Staging will be on paved surfaces in the City right-of-way at the northern end of Vista Del Mar Avenue or western end of Marine Street, and/or the walkway between Coast Boulevard and the stairway. The project is located within the City's Multi-Habitat Planning Area (MHPA), and therefore the MHPA Land Use Adjacency Guidelines will be implemented. The project is located within environmentally sensitive lands. If the emergency work results in permanent impacts to environmentally sensitive lands, a subsequent Site Development Permit (SDP) and/or Coastal Development Permit (CDP) is required in accordance with Section 126.0718 of the Land Development Code. The application for the SDP and/or CDP shall be submitted within 60 days of completion of the emergency work.
