

The City of San Diego
M E M O R A N D U M

DATE: January 15, 2019
TO: James Nagelvoort, Director, Public Works
FROM: Claudia Abarca, Deputy Director, Public Works Contracts *CAbarca*
SUBJECT: Sole Source Agreement for Emergency Repairs at 3030 32nd Street

Dept. Est. Total: \$150,000
Contractor: Burtech Pipeline, Inc.
Expiration Date: December 31, 2020

Pursuant to SDMC §22.3108 (a), "Exceptions to Advertisement and Competitive Award of Public Works Contracts", this is to certify that a sole source agreement with the contractor named above is necessary and that strict compliance with a competitive process would be unavailing or would not produce an advantage, and soliciting bids or proposals would be undesirable, impractical or impossible for the following reasons:

JUSTIFICATION:

A service notification request was received on January 3, 2019, reporting a storm drain pipe that was causing erosion to the backyard slope at 3030 32nd Street in North Park. The 30-inch diameter reinforced concrete pipe (RCP) storm drain is located to the rear of the property, beginning from the Redwood Street right-of-way and terminating to the rear of the property just west of 32nd Street.

As determined from the site investigation, the slope failure begins eight feet from the back of the home. It has created a 15-foot vertical cut slope directly behind the property. The eroded slope has now impacted the structural stability of the property.

An investigation on January 7, 2019, by Development Services Department (DSD) staff resulted in a posting of yellow placard requiring the occupant not to use or occupy a specific portion of the building.

The RCP pipes must be repaired so that the storm drains no longer impact the slope. In addition, the impacted slope will need to be reconstructed to address the issues identified by DSD staff's structural inspection.

January 15, 2019

As we are in the rainy season and further rain events are anticipated, new rainfall will cause the pipe to continue to deteriorate the slope and potentially cause property damage and pose a hazardous situation to the property owner and public. The necessary repair is beyond the capabilities of the Transportation & Storm Water

AGREEMENT VALUE & DURATION:

The total fee for these services shall not exceed the amount noted above and the term of the agreement will be in effect from date of the agreement execution, until the agreement is completed/closed, but will not exceed the above expiration date without issuance of a modification to duration of both the agreement and this sole source.

Project Location-Specific: The project is located at 3030 32nd Street in the North Park Community Planning Area/Council District 3.

Project Location-City/County: San Diego/San Diego County

Description of nature and purpose of the Project: A request was received to evaluate a slope failure located behind the home at 3030 32nd Street. Upon evaluation it was determined that the slope could further erode, and potentially impact the structure located at 3030 32nd. To alleviate the emergency condition, prevent further erosion, and protect the structure, the storm drain outfall located behind the property will be extended approximately 80-feet and the slope will be backfilled. The storm drain outlet will be extended by slipping a 36-inch HDPE pipe over the existing 30-inch RCP outlet, and then backfilling around the 36-inch pipe to stabilize the pipe. The erosion will be backfilled with imported soil, and then compacted; BMPs will be installed to further stabilize the slope. The project is located within a residential area dominated by ornamental landscaping, impacts to biological resources are not anticipated. Excavation of previously undisturbed soils is not anticipated. Revegetation of areas disturbed by project work will be initiated within 90 days of project completion, and will be completed in accordance with the City's Landscape Standards.
