Compliance Review Committee Oversight

Franchise (Section 6.b):

- “The City shall use a competitive process to retain a qualified, independent, third-party auditor (independent auditor) every two (2) years. The independent auditor shall perform an audit of Grantee’s conformance and compliance with all conditions of the Franchise and produce a written report documenting the work performed and the conclusions reached. The audit shall address Grantee’s fulfillment of financial, operational, documentary, and cooperative requirements under the Franchise.” [O-21328]
- “The Review Committee shall review the independent auditor’s report and shall provide the auditor’s report and its own written report and recommendations to the City Council within one hundred eighty (180) calendar days of the end of each two-year period of the Franchise term. The Review Committee shall provide a recommendation to the City Council on the question of the automatic renewal for the secondary term of the Franchise, based on compliance with the Franchise and the Energy Cooperation Agreement.” [O-21328]

Franchise

- * Design & construction by SDG&E
 - * Reimbursement to SDG&E
- * Design & construction by City (“Joint projects”)

Energy Cooperation Agreement

- * Commitments by SDG&E on items on areas of policy or operational importance outside the PROW
 - * Alignment with Climate Action Plan
- * Cooperation with San Diego Community Power (SDCP)
- * Coordination and data sharing with SDFD and OES on wildfire safety and emergency operations
- * Equity programs for rooftop solar, affordable housing, workforce development, energy efficiency
- * Regular meetings / presentations to Council/Committees, City staff, and Compliance Review Committee

Administrative MOU

Purpose

Franchise (9.a): “Grantee’s exercise of rights to install, maintain, and operate its facilities in the Streets of the City shall at all times be subject to obtaining and maintaining in force an Administrative MOU.” [O-21328]

- Establish a better working relationship between SDG&E and the City
- Utilizing enhanced communication and data-sharing technology to develop streamlined operational pathways where it is effective, safe, and to the benefit of the residents and businesses of San Diego
- Establish categories of work for which no specific permit is required and outline the conditions and restrictions on the authority of the MOU

Key Areas of MOU

1. Project Criteria for MOU Permit
2. Construction Standards and Requirements
3. Coordination with City CIP Projects
4. Data Sharing

1. Project Criteria for MOU Permit

MOU Permit applies for Category 1 projects that meet all criteria:

- a) Like-kind replacements
- b) No permanent impact or alteration to any City infrastructure.
- c) No work in ROW under moratorium.
- d) SDG&E facilities are not being installed in a manner that would restrict sidewalk clearance to less than 48" or within 10' of a pedestrian ramp/curb return.
- e) Work will not take place in any sensitive archeological or paleontological areas.
- f) Work does not create major disturbances of City landscaping.

Projects are entered into the DSD permitting system as "no review" plans.

2. Construction Standards & Requirements

MOU reinforces commitments in the Franchise agreements

- Emergency Projects
 - Immediate notification of emergency work
 - Temporary work standards and ongoing inspections
 - Immediate response on notification of safety hazard of temporary measures
 - Retroactive permit timelines
- Construction Impacts to City Infrastructure
 - Restoration of all city assets impacted by construction
 - City infrastructure brought to current accessibility standards if out of compliance

3. Coordination with City CIP Projects

- Both City and SDG&E will exchange project schedule information.
- SDG&E will conduct preliminary conflict checks for City CIP projects.
- Where feasible, Traffic Control for City CIP projects will be utilized for SDG&E relocation projects.

4. Data Sharing

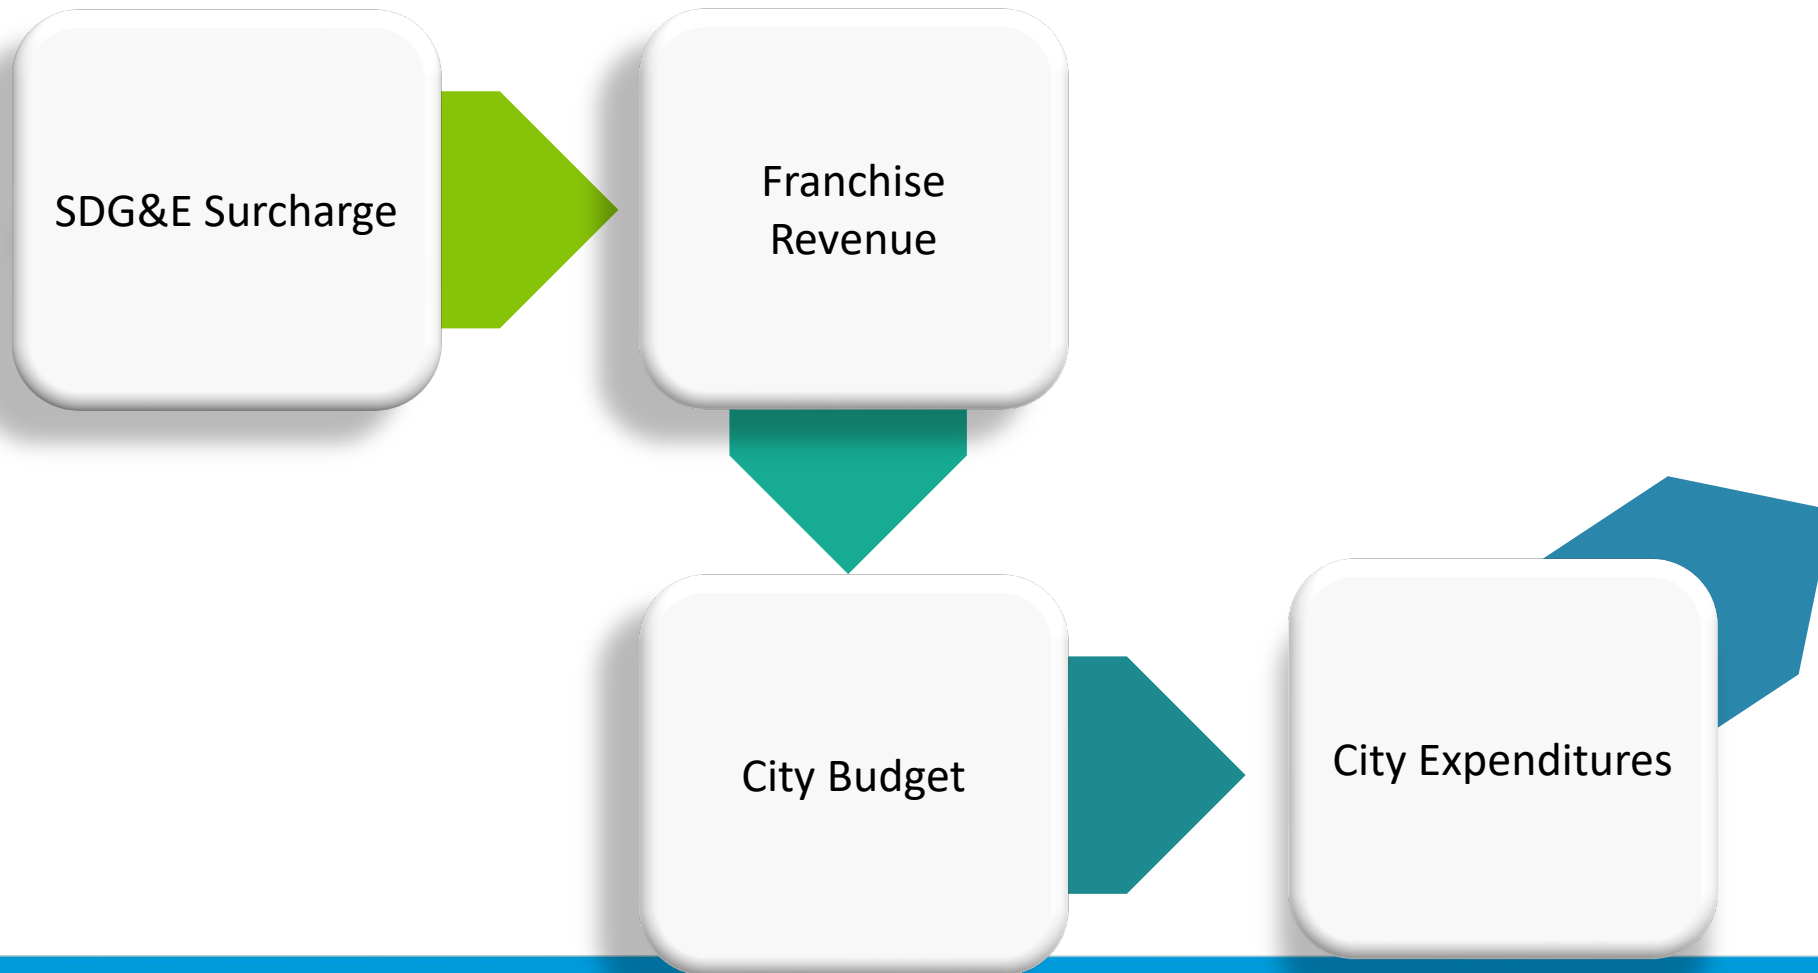

- Development of a shared-data portal for real-time project information
- SDG&E will make available as-built data of their assets in the ROW
 - Shared through ArcGIS layer
 - Both gas and electric assets
- Ongoing coordination to develop an additional Project Data ArcGIS site to identify all ongoing SDG&E projects to be used in conjunction with City CIP project GIS data for coordination, deconfliction, and tracking.
