

 **OUR CLIMATE
OUR FUTURE**

City of San Diego Climate Action Plan

Children's Activity Book
In partnership with San Diego Public Library

Did you know that San Diego has a plan to tackle climate change? That plan is getting updated and we want your ideas for the future!

These five strategies are going to take us to a bold, sustainable future! Follow along with the activities in this book for ideas on how you can get involved.

1

**ENERGY & WATER
EFFICIENT BUILDINGS**

2

**CLEAN &
RENEWABLE ENERGY**

3

**BICYCLING, WALKING,
TRANSIT & LAND USE**

4

**ZERO WASTE (GAS &
WASTE MANAGEMENT)**

5

CLIMATE RESILIENCY

We want to see what you create! Share your completed pages with the City using #SDSustainability on social media or email to sustainability@sandiego.gov to be featured.

GROWN-UPS, WE WANT TO HEAR YOUR IDEAS, TOO!

**Take part in the future of climate action in San Diego at SDClimateSurvey.org
Follow our progress at sandiego.gov/sustainability.**

If you are printing this out at home, consider the trees and use recycled or scrap paper.

Greetings from the future!

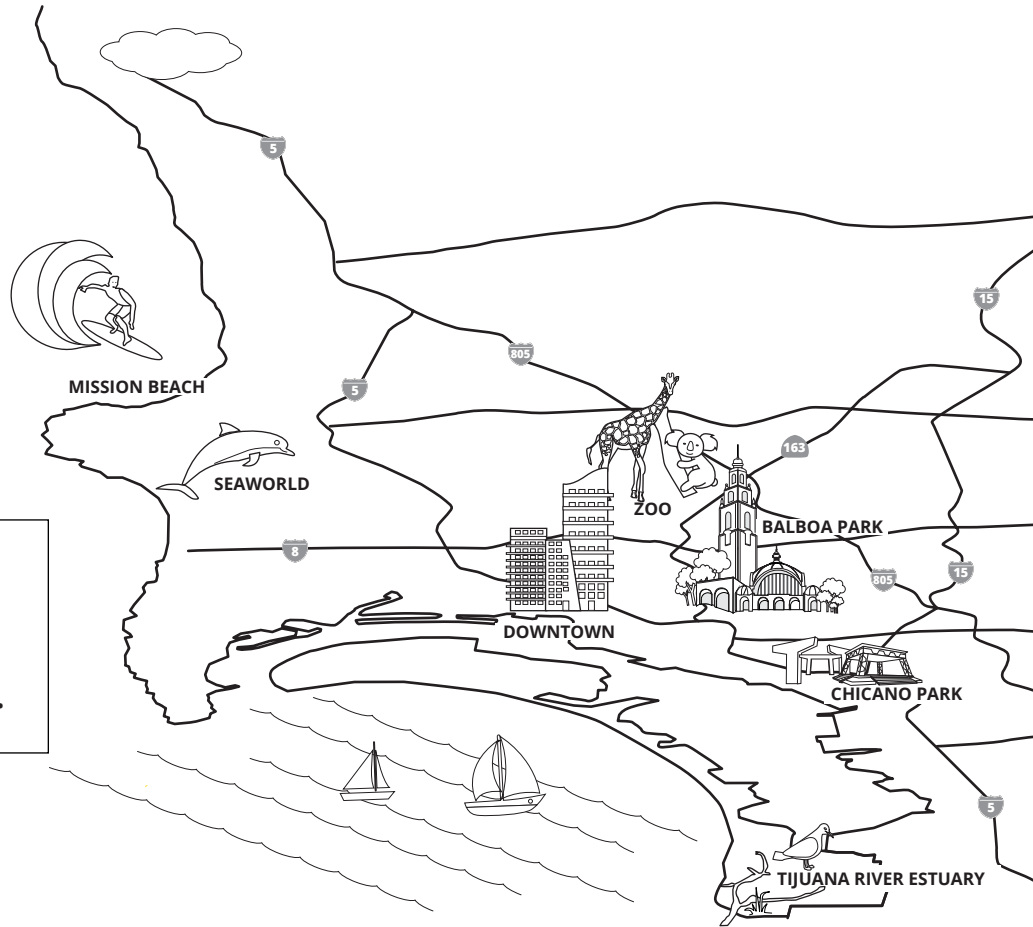

We want to see your ideas for a sustainable San Diego.

Show us what San Diego looks like from your time machine.

Where are your favorite places to play in San Diego?

Show us where by drawing on this map.

MIRAMAR RESERVOIR

MISSION BASILICA
SAN DIEGO DE ALCALA

LAKE MURRAY

OTAY RESERVOIR

AQUATICA SEAWORLD'S WATERPARK

Trees help clean our air. If we keep our trees strong and plant more each year, they will keep us and future generations healthy. Want to learn more about San Diego's trees? Check out sandiego.gov/trees.

GOLD MEDALLIAN TREE
Cassia leptophylla

HONG KONG ORCHID
Bauhinia x blakeana

JACARANDA
Jacaranda mimosifolia

This spot looks perfect for a new park. What would your perfect park look like?

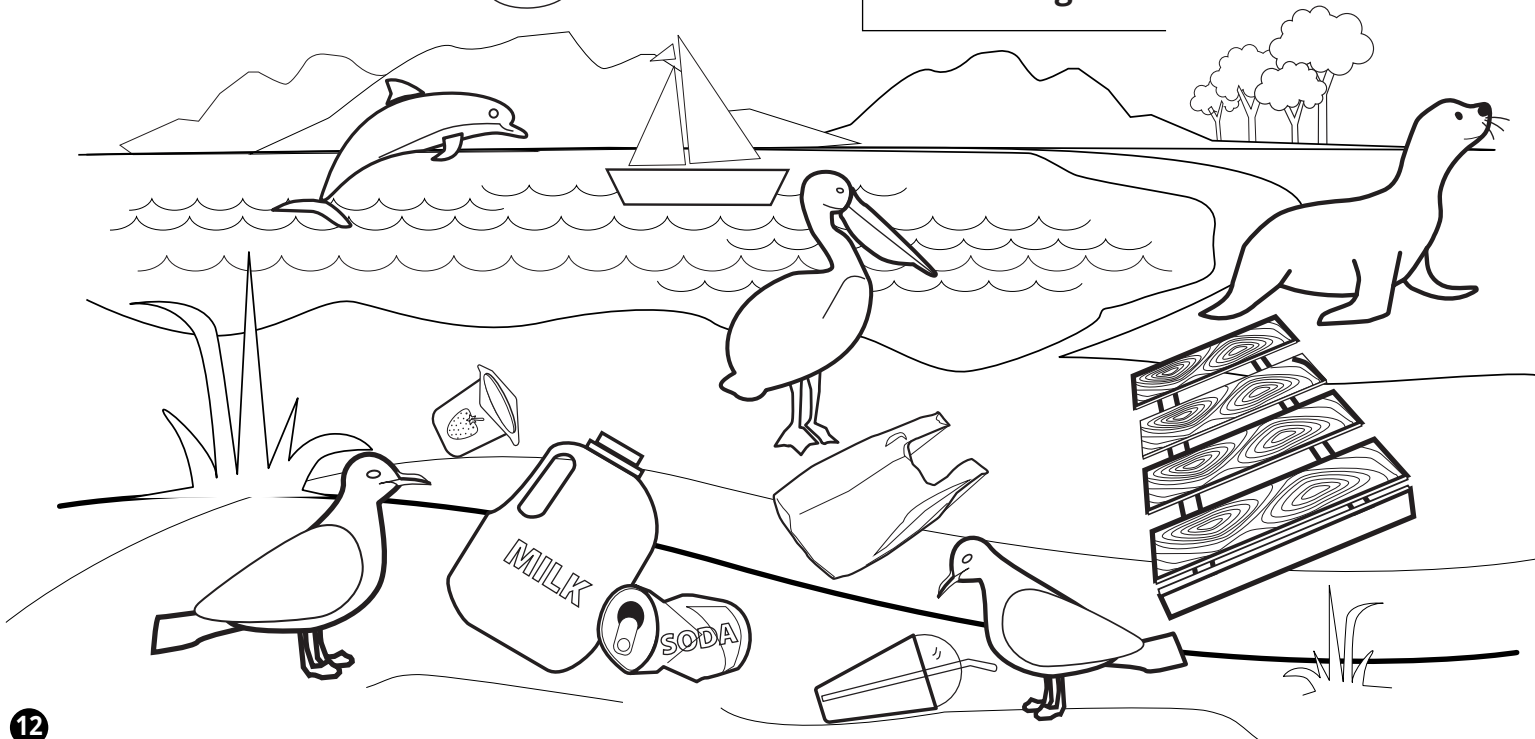

What do you see from your window?

Oh no, look at all of this litter! If this goes in the ocean, birds or fish might eat it and get sick.

Draw your favorite ocean creatures and activities to remember why it is so important to protect our oceans.

Currently, humans produce **WAY** too much waste!
 You can help by making sure these items go in the correct bin below.

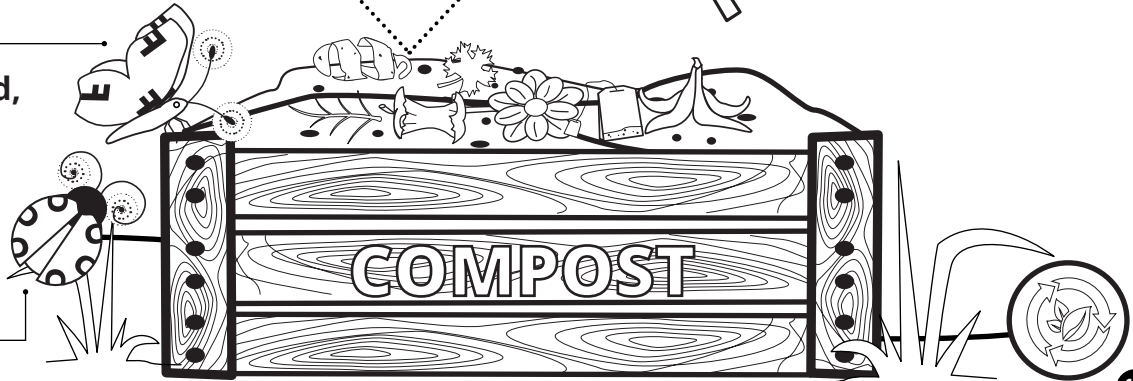

HAZARDOUS WASTE: Paint
LANDFILL: Plastic utensils and Plastic grocery bag

Key:
RECYCLING: Milk carton, Newspaper, Plastic yogurt cup, Aluminum can, Glass container and Plastic milk jug
COMPOST: Apple core

**In the natural world,
nothing is wasted.
All of these items
can be returned to
the soil through
composting!**

Miramar Reservoir is bursting with life, but it looks so quiet here! Draw the animals and people who love this space.

LEGEND:

California towhee

Lesser scaups

Turkey vultures

California quail

Pelican

Mallard

Bluegill fish

Southwestern pond turtle

What's your favorite way to play in nature?

Look at this library from the future.
Color in everything that makes
this library special.

The future is bright for San Diego because of kids like you!

Can you find the five strategies
hidden around the city?

UNLESS

someone like you cares a whole awful lot,

NOTHING

is going to get better. It's not.

— DR. SEUSS
