

Certified Recyclable Material Collectors (CRMCs) are mid-scale recyclers that have been certified by the City of San Diego to ensure collection vehicles and containers are properly maintained, and acceptable recyclable materials are collected and reported to the City. According to the City's Recycling Ordinance, all businesses and privately-serviced residences are required to have recycling, organic waste recycling and trash collection from one Franchise Hauler. In addition to the required services from a Franchise Hauler, a business or privately-serviced residence may supplement recycling and/or organic waste recycling service from one of the following optional CRMCs. The City does not assign haulers or set service rates for businesses and privately-serviced residences.
