Subject: [EXTERNAL] 8305 calle del cielo

****This email came from an external source. Be cautious about clicking on any links in this email or opening attachments.****

Hi Marlon, I am writing about the Advisory Board meeting for this Wednesday. Along with my architect I have fully reviewed the plans for this project and the fact that it states the height of the structure is 30 feet is inaccurate.

The property will be graded with the existing grade and the structure will be four stories including the parking level and will be greater than 40 feet above the existing grade where the current house sits. Just because the current grade is how they are measuring is a complete misrepresentation of what the final structure will be. I strongly feel this notice should be modified before your committee meets and votes on this project.

Thank you for your consideration,

Dave
