Seeking the Public’s Help Identify a Suspect

San Diego – The San Diego Police Department is requesting the public’s help in identifying a man who sexually assaulted a 13-year-old girl.

On April 28th around 11:30 in the morning, the girl was on the 300 block of South Meadowbrook Drive when she was sexually assaulted. The victim escaped and immediately reported the attack to an adult, who then called SDPD for help. The suspect is described as a Black male who is bald, tall, in his 30’s with an injured or impaired left eye. During the time of the assault, the suspect was wearing a royal blue shirt, dark pants, and appeared to be “dirty”. Please see the composite sketch below.

While we need our community’s help in identifying the man, it is important that the public not approach the suspect or engage in any confrontation. The best way to help this investigation is to report the information to SDPD’s Child Abuse Unit (619) 531-2260.
