

September 20th, 1916.

Mr. W. Templeton Johnson,
508 Rincken Building,
C I T Y .

Dear Sir:

Regarding further the erection of sign boards at Torrey Pines Park, beg to advise that upon further investigation we find that the 2 large boards are not on park property, but on the right-of-way belonging to the city, which was donated to the city by Miss Scripps.

The small signs were on park property and have been removed and sign boards are being prepared and will be placed warning visitors from destroying park property and other infractions of park rules and regulations.

Very truly yours,

Secretary.
