

Mch. 28, 1922.

Mr. J. C. Harper,
LaJolla, Calif.,

Dear Sir:

At a regular meeting of the City Council, held on Monday, Mch. 27th, an ordinance was passed appropriating \$5,000 from the Pueblo Land Fund, which sum is to be set aside for the purpose of building a lodge and comfort station on Pueblo Lot No. 1337. This lot contains the site which has been selected and agreed upon between you and ourselves.

The ordinance becomes effective 30 days from the date mentioned, at which time the money will be available.

At the same time, an ordinance was proposed but not acted upon appropriating \$5,000 from the Park Improvement Fund for the same purpose. This latter ordinance is to be passed after the Park Board receives from you and turns in to the City Treasurer the \$5,000 which you have promised to the Park Board. All the difficulties are now cleared away, and the matter will immediately be pushed to a successful conclusion.

It is understood, of course, that the plans when finally drawn for the site will be first submitted to you for your approval, but we feel sure there can be no differences of opinion on that point. We therefore trust that you will see that this money is paid over so that the work can proceed without delay.

We wish to assure you of the sincere appreciation of Miss Scripps' generosity, not only on the part of the Park Board, but of the City Council and of all the people of San Diego.

Yours very truly,
BOARD OF PARK COMMISSIONERS.

By

Executive Secretary.
