September 21, 1925.

Hon. Board of Park Commissioners,
Administration Bldg.,
Balboa Park,
San Diego, California.

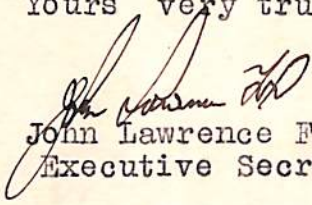

Gentlemen:

The San Diego Chamber of Commerce has written you in the past in regard to the desirability, in their opinion, of allowing automobiles to park on the Torrey Pines viewpoint on the left hand side of the Coast Highway from San Diego north.

We have always felt that this view is one of the most beautiful and worthwhile in all of Southern California and that our policy should be to urge our tourists and residents to see it instead of discouraging them as at present. We believe that the removal of the present fence and the installation of a life-guard rail could inexpensively be done and would be most worthwhile. As we understand that you are again considering the matter, we would sincerely appreciate being informed of your decision at an early moment.

JLF-F

Yours very truly,

John Lawrence Fox,
Executive Secretary.
