

**CONSTRUCTION NOTICE:**

**Pipeline Work to Begin on Nobel Drive from Towne Centre Drive to Genesee Avenue  
for the Morena Northern Pipelines and Tunnels Project**

On **Monday, May 6**, traffic on a segment of Nobel Drive will move into the eastbound lanes for the construction of the City of San Diego Morena Northern Pipelines and Tunnels project in University City.

The new section of pipeline construction will include traffic control setup and construction in the westbound lanes of Nobel Drive between Towne Centre Drive and Genesee Avenue. Crews will be installing one 48-inch wastewater pipeline and one 30-inch brine pipeline.

Two-way traffic will be maintained at all times, and flaggers will be onsite as needed to help direct traffic. Parking restrictions will be in place around the construction area. Please see the map on Page 2 for details on the affected areas.

Working hours for this segment will be from Monday through Friday from 7 a.m. to 5:30 p.m. and occasionally on Saturday from 9 a.m. to 5 p.m. This work will continue through Summer 2024.

This schedule is contingent on unforeseen circumstances like inclement weather.

**What to Expect:**

- There will be one lane in each direction in the Nobel Drive eastbound lanes. The westbound lanes will continue to be closed for pipeline construction.
- Work will occur in segments along Nobel Drive moving westward.
- "No parking" signs will be placed on Nobel Drive. Parking restrictions will be enforced; please avoid parking in areas with "no parking" signs. Vehicles in violation of these signs will be towed.
- 24/7 access for emergency vehicles, residences and businesses will be maintained.
- For safety reasons, please follow all posted signage. Please anticipate traffic delays, construction noise and overnight construction lights.

The City is committed to clear communication and providing up-to-date information about construction activities. Properties along the construction area will receive printed notices before work begins near their address, and construction notices will be posted on [utc.purewatersd.org](https://www.utc.purewatersd.org). Please contact [purewatersd@sandiego.gov](mailto:purewatersd@sandiego.gov) or **833-UTC-PWSD (833-882-7973)** with questions about the City's Pure Water Program and the Morena Northern Pipelines and Tunnels project. A team member will get back to you within one business day.

**Why:** Pure Water San Diego is the City of San Diego's phased, multi-year program that will provide nearly half of San Diego's water supply locally by 2035. The Pure Water San Diego Program will use proven water purification technology to clean recycled water to produce safe, high-quality drinking water. The Program offers a cost-effective investment for San Diego's water needs and will provide a reliable, sustainable water supply. The Morena Northern Pipelines and Tunnels project is one of several major water infrastructure projects in Phase 1 of Pure Water San Diego.
