

Clairemont Drive and Burgener Boulevard Work Update

June 10, 2024

Crews are expected to complete pipeline installation near the Clairemont Drive and Burgener Boulevard intersection this week. Once completed, this crew will relocate to Clairemont Drive and Balboa Avenue to continue preparing the intersection for future pipeline installation.

An initial temporary paving will be installed before crews leave the area. The area where work took place will receive a final curb-to-median paving in the future. Additional notification will be sent once that work has been scheduled.

With the completion of this work, crews will have installed nearly four combined miles of the 30-inch and 48-inch pipeline within Clairemont Drive, between Denver Street and Ute Drive.

Thank you for your continued patience as crews continue to make progress on this important project.
