

Coleen Cusack  
Trial Attorney & K12 Educator

I am a teacher and public interest attorney, running for District 3 to put residents first, to provide leadership and representation based on inclusion and critical thinking, and not simply serve as a rubber stamp. I will be your critical voice.

I moved to San Diego 34 years ago to attend law school in District 3. I've lived in North Park for 26 years, deeply rooting myself in our community.

My experience as a trial attorney, where I demand adherence to constitutional rights, and as a K-12 educator, where I support students, highlights my commitment to justice and community.

With over 800 students and their families in District 3 facing homelessness. I commiserate with residents' frustration over high rents, poor infrastructure, and a city that dismisses shared community perspectives.

In my experience anti-camping ordinances and the Mega shelters are futile and flawed. I will instead apply a human rights-based approach to governance and unite us through shared goals to ensure everyone has the opportunity to thrive.

I am honored to have endorsements, among others, from the San Diego Union-Tribune (primary), and the San Diego Education Association.
