

SEAN ELO-RIVERA
City Council President

I am a father, husband, son, and brother building my family in District 9.

I lead with my values — honesty, integrity, hard work, respect, and love.

I understand the struggles of raising a family in a city that is too expensive for the working class.

Together, you and I have confronted our greatest challenges and will continue creating a better future for our families by:

Protecting against homelessness and increased housing costs:

- Creating a protection program for seniors and families at risk of homelessness
- Passing a law protecting against unfair evictions

Cleaning up our community and environment:

- Partnering with community to clean up over 150 tons of trash and plant hundreds of trees
- Securing more than \$50,000,000 for safer streets, parks and infrastructure
- Strengthening rules against pollution
- Dedicating \$7 million to support flood recovery

Improving safety, services, and economic opportunity:

- Strengthening gun control laws
- Expanding protections for those seeking reproductive care
- Keeping San Diego amongst America's safest big cities, decreasing violent crime
- Supporting small businesses and youth employment programs

I'd be honored to continue serving you.

Sincerely,
Sean
