Description

The Stormwater Department works in all weather conditions to build, maintain and modernize efficient stormwater infrastructure that lays the foundation for safe, sustainable and thriving San Diego communities. The Stormwater Department achieves this by safeguarding water quality, reducing pollution and the risk of flooding, pursuing the use of stormwater to enhance water supplies, and protecting and restoring natural habitats and recreation areas. Clean stormwater ensures clean water and clean beaches for all San Diegans.

The vision is:

Create vibrant, sustainable communities by reducing flood risk and protecting water quality.

The mission is:

Proactively build and maintain efficient stormwater infrastructure for safe, sustainable, and thriving San Diego communities.

Goals and Objectives

- Goal 1: Clean Water: Provide safe, clean water and meet the requirements of the Clean Water Act
 Meet current and future MS4 Permit requirements
- Goal 2: Flood-Safe Communities: Ensure stormwater is safely conveyed away from streets and property to safeguard our communities from floods and minimize community and economic impacts.
 - Inspect, maintain and repair all existing asset infrastructure
- Goal 3: Clean and Green Streets: Increase neighborhood livability, sustainable development, adding green spaces, and smart stormwater management along City streets and rights-of-way.
 - Optimize debris removal programs (street sweeping & catch basin cleaning)
- Goal 4: Habitat and Community Enhancement: Restore habitat, revitalize streams, and integrate community features in stormwater management along water bodies.

- Establish mitigation projects to meet maintenance needs
- Goal 5: Stormwater Capture and Use: Increase stormwater capture to improve water quality, flood management and value as a resource to boost local water supply.
 - Implement structural and non-structural stormwater harvesting projects
- Goal 6: Education, Outreach, and Engagement: Educate, outreach to, and engage local businesses, industry, and residents to increase awareness of the value of stormwater, stormwater in general, and create behavior change essential to pollution prevention.
 - Increase public awareness of stormwater issues and inspire behavioral changes to protect and improve water quality

Budget Equity Impact Statement

Equity Highlights

Examples from the current fiscal year.

- Secured Flood Insurance Discounts for ~3,000 property owners. Entered the National Flood Insurance Program's Community Rating System at Level 7
- Revamped Approach to Parking Enforcement Promotion of sign maintenance, tree trimming, and public education to increase public awareness of the street sweeping program and reduce need for parking citations.
- Utilized emergency permitting to clear vegetation, trash, and debris from more than 18 miles of storm channels, including 12 miles within the highly impacted Chollas Creek Watershed, following the unprecedented storm event of January 22, 2024. Enhanced process to prioritize Channel Maintenance and Pollution Abatement Efforts Equity now built in explicitly as a scoring factor in allocating resources

Budget Equity Lens Summary

Ongoing Operations

Is there an opportunity to adjust the department's ongoing operations to address a disparity?

Yes

With Stormwater's ongoing operations budget, the department will reassign staffing resources to ensure that the 18 miles of storm channels cleared of debris and vegetation following the January 22, 2024, storm event, most of which are located within the highly impacted Chollas Creek Watershed, will continue to be maintained during FY2025. In addition, the Department will continue to: Collaborate with Human Resources to source and provide staff trainings that sustain and enhance employee industry knowledge, skills and growth; Collaborate with Department of Race & Equity on community engagement and education; Use an equity lens to optimize: Street Sweeping and Catch Basin Cleaning with our limited resources; Prioritize water quality pollution investigations impacting communities of concern.

Budget Adjustment(s)

Do the Budget Adjustments address a disparity?

Yes

2% reduction of \$1,237,070 will impact: Training and professional development opportunities for staff; Consultant contracts – stop work on a master drainage plan for the San Diego River Watershed as an example; Efforts to track down and abate sources of pollution detected in storm drains Citywide. Requested budget increases would support: State Mandated Time Schedule Order - monitoring of bacteria levels in communities that drain to the San Diego River and Chollas/Tecolote. The City's ability to deploy monitoring resources in other neighborhoods will be limited; Establishment of more than 9 acres of new wetlands in communities along the Otay River and Los Peñasquitos Canyon Preserve providing benefits such as improved water quality, flood storage capacity, and enhanced wildlife habitat.

Key Performance Indicators

| Performance Indicator | Definition | Baseline | FY2024 Performance | Goal |
|--|--|----------|-----------------------|--------|
| Channel capacity | Percentage of channels that can carry stormwater flows as originally designed | 34% | 71% | 100% |
| Drain inlet inspections | Percentage of storm drain inlets inspected | 55% | 85% | 100% |
| Levees | Percentage of identified levee deficiencies addressed | 12.6% | 12.6% | 100% |
| Drain pipes useful life | Percentage of total storm drain miles past their useful life | 6.89% | 6.70% | 0% |
| Pump station uptime | Percentage of days during wet season (Oct - Apr) when stormwater pump stations are at 100% functionality | 70% | 86% | 100% |
| Street sweeping | Amount of debris collected (tons) per mile of street sweeping | 0.05 | 0.07 | 0.05 |
| Illicit Discharge Detection and Elimination (IDDE) | Percentage of IDDE cases, which are illegal discharges of substances to the City's stormwater system, investigated and abated within 30 days. | 85.33% | 81.67% | 100% |
| Commercial and industrial business inspections | Percentage of stormwater inspections for commercial and industrial facilities conducted once every five years | 52.70% | 70% | 80% |
| Think Blue - Education and outreach | Number of advertisement or media story impressions (millions) | 53 | 33 | 45 |
| Think Blue - Community cleanups | Amount of trash and debris removed (pounds) during watershed cleanups | 35,000 | 38,000 | 35,000 |
| Corrugated Metal Pipe (CMP) drainage infrastructure | Miles of CMP drainage infrastructure replaced and/or rehabilitated annually | 1.20 | 0.78 | 5.00 |

Department Summary
