LIST OF UPDATES	INTRODUCTION
------------------------	---------------------

12-7-2018: Additions to Doyle Community Park and Villa La Jolla Neighborhood Park.

The Unfunded Park Improvements List is a compendium of proposed improvements for properties maintained and operated by the City of San Diego's Parks and Recreation Department. Parks listed in this document include population based parks (neighborhood and community parks), developed regional parks such as Balboa Park and Mission Bay Park, Open space parks such as Mission Trails and Tecolote Canyon, and parks maintained by maintenance assessment districts.

The listings in this document were gathered from Parks and Recreation advisory bodies (recreation councils, area committees, citizen advisory committees) and Parks and Recreation Department staff to identify desired or needed improvements in the City's park system. This document is intended to be a general guideline to identify potential projects as funding becomes available through various sources. It is not intended to be a comprehensive listing of park needs.

The 2018 Unfunded Park Improvements List now includes a separate section for Aquatics. All aquatics related items can be found here, including proposals for new pools at various locations such as NTC Park and Southcrest Community Park.

A Park Index has been added to allow you to easily find which section a park is located.
