

Certified Local Government Program -- 2022-2023 Annual Report

(Reporting period is from October 1, 2022, through September 30, 2023)

INSTRUCTIONS: This a Word form with expanding text fields and check boxes. It will probably open as Read-Only. Save it to your computer before you begin entering data. This form can be saved and reopened.

Because this is a WORD form, it will behave generally like a regular Word document except that the font, size, and color are set by the text field.

- Start typing where indicated to provide the requested information.
- Click on the check box to mark either yes or no.
- To enter more than one item in a particular text box, just insert an extra line (Enter) between the items.

Save completed form and email as an attachment to info.calshpo@parks.ca.gov. You can also convert it to a PDF and send as an email attachment. Use the Acrobat tab in WORD and select Create and Attach to Email. You can then attach the required documents to that email. If the attachments are too large (greater than 10mb total), you will need to send them in a second or third email.

D. Review Responsibilities

1. Who takes responsibility for design review or Certificates of Appropriateness?

All projects subject to design review go the commission.

Some projects are reviewed at the staff level without commission review.

What is the threshold between staff-only review and full-commission review? **The City of San Diego has a three-tiered system of design review for historical sites. The HRB has authority for recommendations on projects that may have adverse impacts on historical resources. The Design Assistance Subcommittee (DAS) of the HRB provides informal input to applicants and staff on projects affecting historical resources. Historical Resources staff reviews and approves minor modifications to historical resources that are consistent with the Secretary of the Interior's Standards. If staff approves a project as a minor modification or if the DAS review concludes that a project is consistent with the Standards, the full HRB would not normally consider the project, although projects with major community interest may go forward to the full HRB for review and comment.**

2. California Environmental Quality Act (CEQA)

- Explain the historic preservation staff and commission role in *providing input* to CEQA documents prepared for or by the local government. **Historical Resources staff reviews all environmental documents for projects prepared for the City that may have an effect on a designated historical resource or on a potentially significant historical resource during the public review period. Historical Resources staff prepares the Historical Resources section of environmental documents prepared by the City of San Diego.**

Certified Local Government Program -- 2022-2023 Annual Report

(Reporting period is from October 1, 2022, through September 30, 2023)

- Explain the staff and commission role in *reviewing* CEQA documents for projects that are proposed within the jurisdiction of the local government. **Draft CEQA documents are reviewed and approved by Historical Resources staff prior to public review when a designated historical resource would be impacted by a proposed project. The final CEQA document for projects affecting designated historical resources is formally reviewed by the HRB in association with review of a site development permit for the substantial alteration of a historical resource. In this circumstance, the HRB makes a formal recommendation on the project and the environmental document, specifically the adequacy of the proposed mitigation measures, to the Planning Commission.**

3. Section 106 of the National Historic Preservation Act

- Explain the staff and commission role in *providing input* to Section 106 documents prepared for, or by, the local government. **Historical Resources staff reviews and approves the Historical Resources section of all Section 106 documents for projects prepared for the City that may have an effect on a National Register eligible resource prior to the public review period. Historical Resources staff prepares the Historical Resources section of Section 106 documents prepared by the City of San Diego.**
- Explain the staff and commission role in *reviewing* Section 106 documents for projects that are proposed within the jurisdiction of the local government? **The Section 106 consultation process is completed before the Section 106 document is distributed for public review. The HRB reviews all of the information for projects on which they make a recommendation. The HRB along with its Policy and Design Assistance Subcommittees and/or appointed ad hoc committees also participates in Section 106 consultations initiated by other agencies for federal projects affecting National Register eligible sites, including negotiations on any Programmatic Agreements.**

II. Establish an Adequate and Qualified Historic Preservation Review Commission by State or Local Legislation.

Hillcrest Focused Plan Amendment area – Hillcrest Neighborhood, Uptown Community Plan	Yes	Intensive	380	302	In progress	N/A

Explain how you are using the survey data: These surveys are conducted as part of a community plan update or amendment process. The community plan constitutes the land use element of the City’s General Plan for the subject area and is used to make land use and planning decisions for 10 or more years. The community plan survey, guided by a historic context, will be used as a planning tool to inform the plan update by making it possible to evaluate resources for land use planning purposes and to identify and preserve significant historical resources, particularly areas of shared development history. Areas of shared development history may either be identified as potential historic districts and mapped and flagged for future intensive survey or as areas not rising to a level of historic significance to be exempted from further historic evaluation when undergoing a development project review (typically generic post-war tracts). Areas identified as potential historic districts or containing many individually eligible resources are reviewed to determine whether land use designations and zoning would have the potential to apply overwhelming development pressure that could adversely impact these resources. Potentially significant individual resources identified by the surveys are evaluated at the project level when a permit application is submitted.
