

Commission on Police Practices

Statement Regarding Officer's Death

The Commission on Police Practices (CPP) is saddened to learn of the death of a San Diego Police officer, and injury to another officer, in the line of duty. We send our condolences to the Police Department and the families of those who died or were injured.

We commend Chief Wahl for requesting an independent California Highway Patrol investigation into this tragic accident and look forward to seeing what can be learned from the outcome. The CPP's mission is to promote policies and practices that support the safety of officers and the public.
