MEDICAL WASTE GENERATOR REQUIREMENTS

BUSINESS ADDRESS: 11011 N TORREY PINES RD CA JOLLA ZIP: 92037

VIOLATION REPORT: The items checked below refer to specific section numbers of the California Health and Safety Code Sections 25100 and 117600 et. al.; the San Diego County Code of Regulatory Ordinances Sections 68.1201 et. al.; and the California Code of Regulations, Title 22 Sections 65600 et. al. and 66262.10 et. al. All violations must be corrected. Please call (619) 338-2222 or your Inspector if you have any questions.

GENERAL REQUIREMENTS:

- [] An Environmental Health Permit as a medical waste generator has not been obtained. 68.1203, 68.1204, and 117705 V4101 W
[] Unlawful disposal of untreated medical waste to an unauthorized point. 118340 V4102 W
[] Improper treatment of medical waste using an unapproved method or procedure. 118215 V4103 W
[] Medical SOLID WASTE is not stored in a locked trash receptacle or enclosure so as to deny access to unauthorized persons. 68.1202 V4104 W
[] Improper clipping or cutting of sharps waste at the point of generation. 68.1205 V4105 W
[] Medical waste was not separated from other waste at the point of origin. 118275 V4106 W
[] Generator has not maintained reusable containers/bins for medical waste storage in a clean and sanitary manner. 118295 and 118305 V4107 W
[] Storage time exceeded for frozen medical waste, e.g. greater than 90 days. 118280 V4108 W
[] Generator did not clean-up a leak or spill of medical waste in an approved manner. 118300 V4109 W
[] Generator has not secured the enclosure or designated accumulation area for medical waste containers so as to deny access to unauthorized persons. 118310 V4110 W
[] Operator did not post an approved and legible biohazardous waste "warning sign" in English and Spanish at the waste storage area(s). 118310 V4111 W
[] Generator did not store medical waste in approved and properly marked red bags (non-sharps). 118275 V4112 W
[X] Did not place a label with the generator's name, address, and phone number on the outside of the red bag and/or sharps container. 68.1201 and 68.1205 V4113 W 901
[] Generator did not store sharps waste in approved and properly marked sharps container. 118275 V4114 W
[] Transportation of medical waste without State Hauler Registration or without a limited-quantity hauling exemption from County HMMD. 118025 V4115 W
[X] Generator did not have standardized written operating procedures for a steam sterilizer available onsite. 118215 V4116 W
[X] Did not have recording thermometer checked for calibration annually. 118215 V4117 W
[] Generator did not maintain records of thermometer calibration checks for at least 3 years. 118215 V4118 W
[] Operator did not use heat-sensitive tape or other approved method for each load of medical waste treated onsite. 118215 V4119 W
[] Need to use a biological indicator or other approved method at least once a month to confirm proper disinfection conditions. 118215 V4120 W
[X] Must tie-off red bags to prevent leakage or expulsion of contents during handling and storage. 118280 V4121 W
[X] Did not containerize and place red bags in rigid, leak resistant, and covered containers or bins. 118280 V4122 W 907
[] Must have waste container/bin labeled on the lid and side so as to be clearly visible. 118280 V4123 W
[X] Did not tape closed or tightly-lid a full sharps container ready for disposal, to preclude loss of contents. 118285 V4124 W 901

- [] Maximum holding time exceeded for non-putrescible medical waste, e.g. greater than 180 days. 68.1203 V4033 W

LARGE QUANTITY WASTE GENERATORS: (> 200 pounds of waste in a month)

- [X] Medical Waste Management Plan has not been submitted to County HMMD (Annual Requirement). 117960 and 68.1206 V4034 W
[] Must maintain and show proof of "onsite" medical waste treatment records for 3 years. 118215 and 117975 V4035 W
[] Generator did not retain on file disposal receipts and/or tracking documents for waste shipped offsite for at least 3 years. 117975 V4036 W
[] Storage time exceeded for full sharps container(s), e.g. greater than 7 days at room temperature. 118285 V4037 W
[] Storage time exceeded for red bag waste, e.g. more than 7 days at room temperature. 118280 V4038 W

PATHOLOGY WASTE AND CHEMOTHERAPY WASTE HANDLING:

- [] Did not segregate chemotherapy waste from other medical waste. 118275 V4039 W
[] Generator did not label container holding chemotherapy waste with the words "chemotherapy waste" or other approved markings on the lid and sides. 118275 V4040 W
[] Did not segregate pathology waste from other medical waste. 118275 V4041 W
[] Generator did not label container holding pathology waste with the words "pathology waste" or other approved markings on the lid and side. 118275 V4042 W
[] Unlawful disposal of pathology waste or chemotherapy waste to an unauthorized point. 118340 V4043 W

PHARMACEUTICAL WASTE HANDLING:

- [] Generator did not segregate pharmaceutical waste from other medical waste. 118275g V4044 W
[] Generator did not label container holding pharmaceutical waste with the words "incineration only" or other approved markings on the lid and side. 118275g V4045 W
[] Storage time exceeded for pharmaceutical waste, e.g. more than 90 days. (> 10 pounds per calendar year generated) 118280e V4046 W
[] Very small quantity generator of pharmaceutical waste (e.g. <10 pounds waste /calendar year) improperly storing waste for longer than one year. 118280e V4047 W
[] Unlawful disposal of pharmaceutical waste to an unauthorized point. 118340 and 118222 V4048 W

ON-SITE MEDICAL WASTE TREATMENT FACILITY REQUIREMENTS:

- [] Operator has not obtained an onsite medical waste treatment permit from the County. 117950, 118130, 118155, and CCR 65620 V4049 W
[] Must maintain an updated and complete copy of the medical waste treatment permit onsite and available for review. CCR 65621(f), 65623, 118165, and 118180 V4050 W
[] Did not comply with a condition of the medical waste treatment permit issued by the County. CCR 65623 V4051 W

PHOTOCHEMICAL and HAZARDOUS WASTE MGMT. AND DISPOSAL:

- [] Illegal disposal of photoprocessing/ hazardous waste to the sewer, trash, etc. 25189.5 V4052 W
[] Generator has not maintained waste disposal records, e.g. manifests/milk-run receipts, onsite for 3 years. 66262.40 V4053 W
[] Generator has not obtained an EPA Identification Number from the State DTSC for hazardous waste generation, e.g. photoprocessing/hazardous waste. 66262.12 V4054 W
[] Generator did not properly label the container holding hazardous waste. 66262.34 V4055 W
[] Generator did not maintain the container holding hazardous waste tightly closed except when adding or removing waste. 66265.173 V4056 W
[] Generator did not submit a notification to the County prior to treating photochemical waste onsite (e.g. > 10 gallons/month; tiered permitting). 25201.5 V4057 W

SMALL QUANTITY GENERATOR REQUIREMENTS: (<200 pounds per month of waste)

- [] Medical Waste Management Plan has not been submitted to County HMMD (Annual Requirement) 68.1206 and 117935 V4025 W
[] Must maintain and show proof of "onsite" medical waste treatment records for 3 years. 118215 and 117943 V4026 W
[] Generator did not retain on file disposal receipts and/or tracking documents for waste shipped offsite for at least 2 years. 117945 V4027 W
[] Need to apply for and receive a limited-quantity hauling exemption for "self-hauled" medical waste (<20 pounds of waste per week). 118030 and 118025 V4028 W
[] Did not renew a limited-quantity hauling exemption annually. 118030 V4029 W
[] Storage time exceeded for full sharps container(s), e.g. greater than 7 days at room temperatures (for >20 pounds/month generator). 118285 V4030 W
[] Storage time exceeded for red bag waste, e.g., more than 7 days at room temperature (> 20 pounds/month generator). 118280 V4031 W
[] Very small quantity generator (e.g., <20 pounds per month) improperly storing waste for greater than 30 days onsite at room temperature. 118280 V4032 W

GENERATION AND STORAGE OF BIOHAZARDOUS WASTE:

Describe below the type and quantity of biohazardous waste generated and managed at this facility. SEE SAMPLE PLAN AND ATTACHMENT FOR DEFINITION OF TERMS USED IN THIS PLAN

MEDICAL WASTE TYPE	QUANTITY (lbs/month)	STORAGE (container type)	TREATMENT METHOD	ON-SITE	OFF-SITE	HAULER NAME*
BIOHAZARDOUS WASTE Sharp Waste Needles/syringes/slides	≤50	sharps container	Autoclave	✓		N/A
Non-sharp Waste Articles containing Fluid Blood (gauze, bandages, tubing, etc.)	≤175 ≤25	red bags	Autoclave	✓		N/A
Solids (cultures, lab waste, etc.)	≤175	red bags	Autoclave	✓		N/A
Liquids (cultures, urine, etc.)	≤5	red baggy/flasks	sewer	✓		N/A
Trace chemotherapy waste	∅					
Contaminated animal carcasses	∅					
Other	∅					
MEDICAL SOLID WASTE Gloves, empty specimen containers, gauze with dry blood, treated biohazardous waste	N/A	regular trash bag	N/A	N/A	N/A	<i>tucked in dumpster</i> COAST WASTE <i>management</i>

* If applicable, attach a copy of biohazardous waste hauler contract or Limited Quantity Hauler exemption.

Biohazardous WASTE STORAGE LOCATION: [Please check the appropriate box(es)].

Biohazardous Waste: Inside establishment in secured area Outside in posted, secure area
Medical Solid Waste: Inside establishment Outside in Locked/secured dumpster

PERSONNEL TRAINING:

All personnel handling biohazardous waste have been trained in all aspects of this management plan. Training includes the legal definition of biohazardous waste, separation and proper storage, transportation, treatment, and disposal of biohazardous waste. Documentation for completed employee training will be kept onsite.

CERTIFICATION STATEMENT:

I certify that the above management plan is complete and accurate, and that this business will adhere to all aspects of the plan. I further understand that any violation of this plan or any applicable law or regulation may result in legal action.

MEDICAL WASTE GENERATOR REQUIREMENTS

BUSINESS ADDRESS: 11011 N TORREY PINES RD LA JOLLA ZIP: 92037-007

VIOLATION REPORT: The items checked below refer to specific section numbers of the California Health and Safety Code Sections 25100 and 117600 et. al.; the San Diego County Code of Regulatory Ordinances Sections 68.1201 et. al.; and the California Code of Regulations, Title 22 Sections 65600 et. al. and 66262.10 et. al. All violations must be corrected. Please call (619) 338-2222 or your Inspector if you have any questions.

GENERAL REQUIREMENTS:

- [] An Environmental Health Permit as a medical waste generator has not been obtained. 68.1203, 68.1204, and 117705 V4101 W
[] Unlawful disposal of untreated medical waste to an unauthorized point. 118340 V4102 W
[] Improper treatment of medical waste using an unapproved method or procedure. 118215 V4103 W
[] Medical SOLID WASTE is not stored in a locked trash receptacle or enclosure so as to deny access to unauthorized persons. 68.1202 V4104 W
[] Improper clipping or cutting of sharps waste at the point of generation. 68.1205 V4105 W
[] Medical waste was not separated from other waste at the point of origin. 118275 V4106 W
[] Generator has not maintained reusable containers/bins for medical waste storage in a clean and sanitary manner. 118295 and 118305 V4107 W
[] Storage time exceeded for frozen medical waste, e.g. greater than 90 days. 118280 V4108 W
[] Generator did not clean-up a leak or spill of medical waste in an approved manner. 118300 V4109 W
[] Generator has not secured the enclosure or designated accumulation area for medical waste containers so as to deny access to unauthorized persons. 118310 V4110 W
[] Operator did not post an approved and legible biohazardous waste "warning sign" in English and Spanish at the waste storage area(s). 118310 V4111 W
[] Generator did not store medical waste in approved and properly marked red bags (non-sharps). 118275 V4112 W
[] Did not place a label with the generator's name, address, and phone number on the outside of the red bag and/or sharps container. 68.1201 and 68.1205 V4113 W
[] Generator did not store sharps waste in approved and properly marked sharps container. 118275 V4114 W
[] Transportation of medical waste without State Hauler Registration or without a limited-quantity hauling exemption from County HMMD. 118025 V4115 W
[] Generator did not have standardized written operating procedures for a steam sterilizer available onsite. 118215 V4116 W
[] Did not have recording thermometer checked for calibration annually. 118215 V4117 W
[] Generator did not maintain records of thermometer calibration checks for at least 3 years. 118215 V4118 W
[] Operator did not use heat-sensitive tape or other approved method for each load of medical waste treated onsite. 118215 V4119 W
[] Need to use a biological indicator or other approved method at least once a month to confirm proper disinfection conditions. 118215 V4120 W
[] Must tie-off red bags to prevent leakage or expulsion of contents during handling and storage. 118280 V4121 W
[] Did not containerize and place red bags in rigid, leak resistant, and covered containers or bins. 118280 V4122 W
[] Must have waste container/bin labeled on the lid and side so as to be clearly visible. 118280 V4123 W
[] Did not tape closed or tightly-lid a full sharps container ready for disposal, to preclude loss of contents. 118285 V4124 W

- [] Maximum holding time exceeded for non-putrescible medical waste, e.g. greater than 180 days. 68.1203 V4033 W

LARGE QUANTITY WASTE GENERATORS:

- (≥ 200 pounds of waste in a month)
[X] Medical Waste Management Plan has not been submitted to County HMMD (Annual Requirement). 117960 and 68.1206 V4034 W
[] Must maintain and show proof of "onsite" medical waste treatment records for 3 years. 118215 and 117975 V4035 W
[] Generator did not retain on file disposal receipts and/or tracking documents for waste shipped offsite for at least 3 years. 117975 V4036 W
[] Storage time exceeded for full sharps container(s), e.g. greater than 7 days at room temperature. 118285 V4037 W
[] Storage time exceeded for red bag waste, e.g. more than 7 days at room temperature. 118280 V4038 W

PATHOLOGY WASTE AND CHEMOTHERAPY WASTE HANDLING:

- [] Did not segregate chemotherapy waste from other medical waste. 118275 V4039 W
[] Generator did not label container holding chemotherapy waste with the words "chemotherapy waste" or other approved markings on the lid and sides. 118275 V4040 W
[] Did not segregate pathology waste from other medical waste. 118275 V4041 W
[] Generator did not label container holding pathology waste with the words "pathology waste" or other approved markings on the lid and side. 118275 V4042 W
[] Unlawful disposal of pathology waste or chemotherapy waste to an unauthorized point. 118340 V4043 W

PHARMACEUTICAL WASTE HANDLING:

- [] Generator did not segregate pharmaceutical waste from other medical waste. 118275g V4044 W
[] Generator did not label container holding pharmaceutical waste with the words "incineration only" or other approved markings on the lid and side. 118275g V4045 W
[] Storage time exceeded for pharmaceutical waste, e.g. more than 90 days. (≥ 10 pounds per calendar year generated) 118280e V4046 W
[] Very small quantity generator of pharmaceutical waste (e.g. < 10 pounds waste /calendar year) improperly storing waste for longer than one year. 118280e V4047 W
[] Unlawful disposal of pharmaceutical waste to an unauthorized point. 118340 and 118222 V4048 W

ON-SITE MEDICAL WASTE TREATMENT FACILITY REQUIREMENTS:

- [] Operator has not obtained an onsite medical waste treatment permit from the County. 117950, 118130, 118155, and CCR 65620 V4049 W
[] Must maintain an updated and complete copy of the medical waste treatment permit onsite and available for review. CCR 65621(f), 65623, 118165, and 118180 V4050 W
[] Did not comply with a condition of the medical waste treatment permit issued by the County. CCR 65623 V4051 W

PHOTOCHEMICAL and HAZARDOUS WASTE MGMT. AND DISPOSAL:

- [] Illegal disposal of photoprocessing/ hazardous waste to the sewer, trash, etc. 25189.5 V4052 W
[] Generator has not maintained waste disposal records, e.g. manifests/milk-run receipts, onsite for 3 years. 66262.40 V4053 W
[] Generator has not obtained an EPA Identification Number from the State DTSC for hazardous waste generation, e.g. photoprocessing/hazardous waste. 66262.12 V4054 W
[] Generator did not properly label the container holding hazardous waste. 66262.34 V4055 W
[] Generator did not maintain the container holding hazardous waste tightly closed except when adding or removing waste. 66265.173 V4056 W
[] Generator did not submit a notification to the County prior to treating photochemical waste onsite (e.g. > 10 gallons/month; tiered permitting). 25201.5 V4057 W

SMALL QUANTITY GENERATOR REQUIREMENTS: (<200 pounds per month of waste)

- [] Medical Waste Management Plan has not been submitted to County HMMD (Annual Requirement) 68.1206 and 117935 V4025 W
[] Must maintain and show proof of "onsite" medical waste treatment records for 3 years. 118215 and 117943 V4026 W
[] Generator did not retain on file disposal receipts and/or tracking documents for waste shipped offsite for at least 2 years. 117945 V4027 W
[] Need to apply for and receive a limited-quantity hauling exemption for "self-hauled" medical waste (<20 pounds of waste per week). 118030 and 118025 V4028 W
[] Did not renew a limited-quantity hauling exemption annually. 118030 V4029 W
[] Storage time exceeded for full sharps container(s), e.g. greater than 7 days at room temperatures (for >20 pounds/month generator). 118285 V4030 W
[] Storage time exceeded for red bag waste, e.g. more than 7 days at room temperature (>20 pounds/month generator). 118280 V4031 W
[] Very small quantity generator (e.g., <20 pounds per month) improperly storing waste for greater than 30 days onsite at room temperature. 118280 V4032 W

BUSINESS NAME Stratagene Cloning Systems

ADDRESS 11011 N. Torrey Pines Rd.

CITY/ZIP San Diego 92037

PRSD 3/26/02 MC File

On the above date, an inspection of your business/facility was conducted in order to determine compliance with the California Health and Safety Code (H&S) Sections 25100 and 117600 et. al.; the San Diego County Code (SDCC) Sections 68.1201 et al.; and CCR Title 22 Sections 65600 et.al. and 66262.10 et.al. The following remarks are intended to provide guidance to correct the violations noted on the attached violation report.

Routine Inspection

MAR 07 2002

- Observation:** Facility is generating over 200 lbs. of biohazardous waste per month. Biohazardous waste is currently being treated onsite by steam sterilization. Generator has not obtained an onsite medical waste treatment permit from the CUPA.

Violation: H&S 117950, 118130, 118155, and CCR 65620

Corrective action: Within 5 days submit a completed onsite medical waste treatment permit application to this Department.
- Observation:** Generator has not kept records/log showing proof of medical waste treatment for the last three years.

Violation: H&S 118215, 117975

Corrective action: Immediately begin keeping tapes and/or charts of steam sterilization records on site available for review. These records are to be kept for at least the last three years.
- Observation:** A 55 gal. metal container storing an ignitable hazardous waste (methanol, acetonitrile) was not properly grounded to prevent an accidental explosion.

Violation: CCR 66265.31

Corrective action: Within 3 days properly ground the container to prevent an accidental explosion.
- Observation:** Sharps containers that are full have been stored at room temperature for longer than 7 days.

Violation: H&S 118285

Corrective action: Within 3 days properly and legally treat or dispose of the full sharps containers.
- Observation:** Hazardous waste labels on the waste container in the organic chemistry lab and the HPLC lab are not properly filled out.

Violation: CCR 66262.34

Corrective action: Within 24 hours fill in the hazardous properties section of the hazardous waste label on these two containers.

6. **Observation:** Containers storing hazardous waste are not tightly closed. The containers are a 55 gal. containers of methanol, acetonitrile and a 1 gal. container of 2 pyrolidnone.

Violation: CCR 66265.173

Corrective action: Immediately close these containers. Keep containers storing hazardous waste tightly closed except when adding or removing waste.

7. **Observation:** The majority of the red bags and sharps containers were properly labeled with the generator's name, address, and phone number. However, 5 were not labeled with the generator information.

Violation: SDCC 68.1205, 68.1206

Corrective action: Within 24 hours label the 5 containers with your generator label.

Remarks:

Health Permit for this facility is on site.

An updated Hazardous Materials Business Plan was submitted and reviewed on this day. The Medical Waste Management Plan is on site but needs to be updated due to the change of contact person information.

Monthly spore tests and results are on site. All results were negative.

Annual calibration records of the steam sterilizer thermometers are on site.

Medical solid waste is disposed of into a trash dumpster that is secured by a locked gate.

Hazardous waste manifest for the last three years are on site, in chronological order, and were reviewed on this day.

Biohazardous waste disposal tracking documents were on site and reviewed (1 biohazardous waste stream is picked up by KEM).

Employee training is currently being conducted on a monthly basis. Training documentation is on site and was reviewed on this day.

On the above date, an inspection of your business/facility was conducted in order to determine compliance with the California Health and Safety Code (H&S) Chapters 6.5, 6.7, 6.95; Titles 19, 22 and 23 of the California Code of Regulations (CCR); and the San Diego County Code (SDCC). The following remarks are intended to provide guidance to correct the violations noted on the attached violation report.

Office Use Only

ADDITIONAL REPORT

PER item #2 on Summary of Violations;

what is specifically REQUIRED is,
"PROOF" must be kept on site that shows
the medical waste was properly treated
in compliance with CALIFORNIA STATE LAW.
MEDICAL WASTE must be treated inside
the steam sterilizer for a minimum
time at a minimum temperature as
required by CA Health & Safety Code.

"PROOF" would be either RUN TAPES OR
Run charts that clearly show the length
of Run (time) and at what temperature.
These results can be recorded in a log
book. Minimum 250°F for 30 minutes.

Tapes and/or charts need to be kept on
site, available for review for a minimum
of 3 years.

BUSINESS NAME: Stratogene Cloning Systems
ADDRESS: 11011 N. Torrey Pines Road
CITY/ZIP: La Jolla, CA 92037

ON THE ABOVE DATE AN INSPECTION OF YOUR BUSINESS/FACILITY WAS CONDUCTED IN ORDER TO DETERMINE COMPLIANCE WITH THE CALIFORNIA HEALTH AND SAFETY CODE (H&S) CHAPTERS 6.5, 6.7, 6.95; TITLES 19, 22 AND 23 OF THE CALIFORNIA CODE OF REGULATIONS (CCR); AND THE SAN DIEGO COUNTY CODE (SDCC). THE FOLLOWING REMARKS ARE INTENDED TO PROVIDE GUIDANCE TO CORRECT THE VIOLATIONS NOTED ON THE ATTACHED VIOLATION REPORT.

HAZARDOUS WASTE VIOLATIONS NOTICE TO COMPLY

1.OBSERVATION: A 5-GAL. CONTAINER OF LIQUID HAZARDOUS WASTE STORED UNDER THE HOOD (#7) IN THE SHUT DOWN LABORATORY AND A 5-GAL. CONTAINER OF HAZARDOUS WASTE UNDER HOOD #9 WAS NOT PROPERLY LABELED WITH A HAZARDOUS WASTE LABEL. A 15-GAL. BLUE CONTAINER OF HAZARDOUS WASTE WAS MISSING THE CONTENTS ON THE HAZARDOUS WASTE LABEL.

VIOLATION: CCR TITLE 22, SECTION 66262.34

CORRECTIVE ACTION: WITHIN 24 HOURS ENSURE THAT ALL CONTAINERS STORING HAZARDOUS WASTE ARE PROPERLY LABELED. CHECK THE HAZARDOUS WASTE LABELS THAT ALL OF THE REQUIRED INFORMATION FOR "STORAGE" IS ENTERED ON THE LABEL.

2. OBSERVATION: A 55-GAL. CONTAINER OF SILVER NITRATE HAZARDOUS WASTE, A 55-GAL. CONTAINER OF ETHIDIUM BROMIDE HAZARDOUS WASTE, AND A CONTAINER OF PHENOL CHLOROFORM HAZARDOUS WASTE WERE NOT KEPT TIGHTLY CLOSED.

VIOLATION: CCR TITLE 22, SECTION 66265.173

CORRECTIVE ACTION: IMMEDIATELY REMOVE THE FUNNELS FROM THE HAZARDOUS WASTE CONTAINERS. TIGHTLY CLOSE THESE CONTAINERS WITH THE PROPER CAP/LID FOR THE CONTAINER. CONTAINERS ARE TO BE KEPT TIGHTLY CLOSED EXCEPT WHEN IT IS NECESSARY TO ADD OR REMOVE WASTE.

BUSINESS NAME: Stratogene Cloning Systems

ADDRESS: 11011 N. Torrey Pines Road

CITY/ZIP: La Jolla, CA 92037

3. OBSERVATION: SATILLITE STORAGE CONTAINERS OF PHENOL CHLOROFORM (12/15/01), SODIUM AZIDE (8/28/01), WATER/ACETONITRILE (3/02/01), AND A CONTAINER OF UNKNOWN CONTENTS (12/01/01) HAVE BEEN STORED ON SITE LONGER THAN THE ALLOWABLE TIME.

VIOLATION: CCR TITLE 22, SECTION 66262.34

CORRECTIVE ACTION: THE MAXIMUM ACCUMULATION TIME FOR SATILLITE CONTAINERS IS ONE YEAR AFTER ACCUMULATION BEGINS OR THREE DAYS AFTER THE CONTAINER IS FULL. WITHIN 30 DAYS HAVE THESE WASTES PROPERLY REMOVED OFF SITE.

4. OBSERVATION: THE LAND DISPOSAL RESTRICTION (LDR) DOCUMENTATION WAS NOT AVAILABLE FOR REVIEW.

VIOLATION: CCR TITLE 22, SECTION 66268.7

CORRECTIVE ACTION: ALL HAZARDOUS WASTE MANIFESTS FOR THE DISPOSAL OF RCRA HAZARDOUS WASTES AND CERTAIN NON RCRA HAZARDOUS WASTES MUST HAVE A COMPLETED LDR NOTIFICATION DOCUMENT FILLED OUT. THE LDR NOTIFICATION FOLLOWS THE MANIFESTS TO THE TSDF. A GENERATOR COPY IS TO BE KEPT ON SITE AVAILABLE FOR REVIEW. WITHIN 30 DAYS CONTACT YOUR HAZARDOUS WASTE HAULER TO OBTAIN COPIES OF THE LDR'S FOR THE LAST THREE YEARS.

MEDICAL WASTE VIOLATIONS NOTICE TO COMPLY

1. OBSERVATION: OVERALL, THE SHARPS CONTAINERS IN USE ARE PROPERLY LABELED WITH THE GENERATOR'S INFORMATION. HOWEVER, THREE CONTAINERS WERE MISSING THE INFORMATION.

VIOLATION: SDCC 68.1206

CORRECTIVE ACTION: WITHIN 24 HOURS ENSURE THAT ALL SHARPS CONTAINERS AND RED BAGS THAT ARE IN USE ARE LABELED WITH THE NAME, ADDRESS, AND PHONE NUMBER OF THE FACILITY.

2. OBSERVATION: FULL SHARPS CONTAINERS HAVE BEEN STORED ON SITE LONGER THAN SEVEN DAYS.

VIOLATION: H&SC 118285

CORRECTIVE ACTION: WITHIN 24 HOURS TRANSFER THE FULL SHARPS CONTAINERS TO THE MEDICAL WASTE TREATMENT AREA. TREAT THE SHARPS CONTAINERS WITHIN THREE DAYS.

3. OBSERVATION: SEVERAL CONTAINERS STORING MEDICAL WASTE HAD BIOHAZARDOUS WASTE LABELS THAT WERE IN POOR CONDITION.

VIOLATION: H&SC 118280

CORRECTIVE ACTION: WITHIN 24 HRS. REMOVE AND REPLACE ALL OF THE BIOHAZARDOUS WASTE STICKERS THAT ARE TORN, FADED, WRINKLED, OR ARE NOT CLEARLY VISABLE.

4. OBSERVATION: THE MONTHLY SPORE TEST TO CONFIRM PROPER DISINFECTION WAS NOT CONDUCTED IN MARCH OR APRIL.

VIOLATION: H&SC 118215

CORRECTIVE ACTION: ENSURE THAT THIS PROCEDURE IS CONDUCTED AT LEAST ONCE PER MONTH. IF JERRY CAN NOT RUN THE TEST, ANOTHER TRAINED EMPLOYEE MUST RUN THE TEST.

5. OBSERVATION: RED BAGS TO BE USED FOR THE STORAGE OF BIOHAZARDOUS WASTE WERE BEING USED TO STORE ICE FOR THE PURPOSE OF CONDUCTING AN EXPERIMENT.

VIOLATION: H&SC 118275

CORRECTIVE ACTION: IMMEDIATELY DISCONTINUE THIS PRACTICE. ONLY USE RED BAGS FOR THEIR INTENDED PURPOSE.

6. OBSERVATION: THE DUMPSTER USED TO STORE MEDICAL SOLID WASTE WAS NOT SECURED TO PREVENT ACCESS TO UNAUTHORIZED PERSONS.

VIOLATION: SDCC 68.1211

CORRECTIVE ACTION: WITHIN 24 HRS. PROVIDE A LOCK ON THE DUMPSTER TO SECURE IT TO PREVENT ACCESS TO UNAUTHORIZED PERSONS. SUGGEST KEEPING THE DUMPSTER LOCKED EVEN AFTER THE GARAGE DOOR HAS BEEN REPAIRED.

REMARKS

1. THE HAZARDOUS MATERIALS BUSINESS PLAN IS ON SITE AND WAS REVIEWED ON THIS DAY. AN UPDATED BUSINESS PLAN WAS ACCEPTED ON 2/13/02.
2. EMPLOYEE TRAINING RECORDS ARE ON SITE AND WERE REVIEWED ON THIS DAY.
3. HAZARDOUS WASTE MANIFESTS WERE REVIEWED ON THIS DAY.
4. HEALTH PERMIT IS ON SITE, EXPIRES 11/30/03.
5. EMERGENCY CONTACTS WERE VERIFIED ON THIS DAY. CHEMICAL INVENTORY WAS VERIFIED AND UPDATED ON THIS DAY.
6. AUTOCLAVE OPERATING INSTRUCTIONS ARE POSTED NEXT TO THE PERMITTED UNIT.
7. MONTHLY SPORE TESTS ARE BEING CONDUCTED. MARCH AND APRIL WAS MISSED.
9. GRAPHS AND LOGS (OPERATING RECORDS) FOR AT LEAST THE LAST TWO YEARS ARE ON SITE. SITE HAS BEEN OPERATING THE AUTOCLAVE FOR TWO YEARS.
10. TRACKING DOCUMENTS FOR THE DISPOSAL OF MEDICAL WASTE FOR THE LAST THREE YEARS ARE ON SITE.
11. AUTOCLAVE THERMOMETER CALIBRATION RECORDS ARE ON SITE.
12. MEDICAL WASTE MANAGEMENT PLAN IS ON SITE. SUBMIT UPDATES FOR THE CONTACT PERSON AND MONTHLY AMOUNT OF MEDICAL WASTE BEING GENERATED.
13. HEAT SENSITIVE TAPE IS BEING USED ON EACH LOAD OF MEDICAL WASTE THAT IS BEING TREATED.

14. THE CURRENT COPY OF THE MEDICAL WASTE TREATMENT PERMIT IS NOT AVAILABLE. THE HMD WILL RESEARCH THIS AND HAVE A DUPLICATE PERMIT ISSUED.

15. OUR RECORDS INDICATE THAT YOUR EPA ID # IS CAL913475948. THE PREFIX CAL IS FOR NON-RCRA WASTES ONLY. AN EPA ID # WITH THE PREFIX CAR SHOULD BE OBTAINED. YOU CAN CALL DTSC AT (800) 618-6942 TO CANCEL YOUR CURRENT NUMBER AND CALL US EPA AT (415) 495-8895 TO OBTAIN A NEW NUMBER.

16. THE SIGN ON THE DUMPSTER BEING USED TO STORE SOLID MEDICAL WASTE READS, BIOHAZARDOUS WASTE ONLY. STRONGLY SUGGEST ADDING THE WORD "TREATED" TO THE SIGN ON THE DUMPSTER.

ON THE ABOVE DATE AN INSPECTION OF YOUR BUSINESS/FACILITY WAS CONDUCTED IN ORDER TO DETERMINE COMPLIANCE WITH THE CALIFORNIA HEALTH AND SAFETY CODE (H&S) CHAPTERS 6.5, 6.7, 6.95; TITLES 19, 22 AND 23 OF THE CALIFORNIA CODE OF REGULATIONS (CCR); AND THE SAN DIEGO COUNTY CODE (SDCC). THE FOLLOWING REMARKS ARE INTENDED TO PROVIDE GUIDANCE TO CORRECT THE VIOLATIONS NOTED ON THE ATTACHED VIOLATION REPORT.

HAZARDOUS WASTE MINOR VIOLATIONS NOTICE TO COMPLY

FEB 25 2005

1.OBSERVATION: A 1-GAL. CONTAINER OF PUMP OIL AND A 1-GAL. CONTAINER OF HPLC LIQUID HAZARDOUS WASTE INSIDE THE O-CHEM LABORATORY ARE NOT PROPERLY LABELED WITH A HAZARDOUS WASTE LABEL.

VIOLATION: CCR TITLE 22, SECTION 66262.34

CORRECTIVE ACTION: WITHIN 30 DAYS ENSURE THAT ALL CONTAINERS STORING HAZARDOUS WASTE ARE PROPERLY LABELED. THE HAZARDOUS WASTE LABELS ARE TO BE IN GOOD CONDITION AND CLEARLY LEGIBLE.

2. OBSERVATION: A 1-GAL. CONTAINER OF PUMP OIL WAS NOT KEPT TIGHTLY CLOSED.

VIOLATION: CCR TITLE 22, SECTION 66265.173

CORRECTIVE ACTION: IMMEDIATELY REMOVE THE FUNNEL AND CLOSE THE PUMP OIL CONTAINER. CONTAINERS ARE TO BE KEPT TIGHTLY CLOSED EXCEPT WHEN IT IS NECESSARY TO ADD OR REMOVE WASTE.

MEDICAL WASTE VIOLATIONS NOTICE TO COMPLY

1. OBSERVATION: THE MONTHLY SPORE TEST TO CONFIRM PROPER DISINFECTION WAS NOT CONDUCTED IN DECEMBER 2004.

VIOLATION: H&SC 118215

CORRECTIVE ACTION: ENSURE THAT THIS PROCEDURE IS CONDUCTED AT LEAST ONCE PER MONTH. IF JERRY CAN NOT RUN THE TEST, ANOTHER TRAINED EMPLOYEE MUST RUN THE TEST.

2. OBSERVATION: SEVERAL CONTAINERS STORING MEDICAL WASTE WERE MISSING THE WORDS "BIOHAZARDOUS WASTE" OR THE INTERNATIONAL SYMBOL AND THE WORD "BIOHAZARD" ON THE SIDES AND LIDS OF THE CONTAINER.

VIOLATION: H&SC 118280

CORRECTIVE ACTION: WITHIN 30 DAYS REMOVE AND REPLACE ALL OF THE BIOHAZARDOUS WASTE STICKERS THAT ARE TORN, FADED, WRINKLED, OR ARE NOT CLEARLY VISABLE. LABEL CONTAINERS THAT ARE MISSING LABELS.

3. OBSERVATION: A RED BAG WAS ON A SHELF INSIDE THE CENTRIFUGE ROOM AND WAS NOT STORED INSIDE A RIGID CONTAINER.

VIOLATION: H&SC 118280

CORRECTIVE ACTION: IMMEDIATELY TRANSFER THIS RED BAG INTO A RIGID CONTAINER OR TO THE MEDICAL WASTE TREATMENT AREA.

GENERATION AND STORAGE OF BIOHAZARDOUS WASTE:

Describe below the type and quantity of biohazardous waste generated and managed at this facility. **SEE SAMPLE PLAN AND ATTACHMENT FOR DEFINITION OF TERMS USED IN THIS PLAN**

MEDICAL WASTE TYPE	QUANTITY (lbs/month)	STORAGE (container type)	TREATMENT METHOD	ON-SITE	OFF-SITE	HAULER NAME*
BIOHAZARDOUS WASTE Sharp Waste Needles/syringes/slides	2	SHARPS Container	Autoclaving	Yes	No	Waste Management
Non-sharp Waste Articles containing Fluid Blood (gauze, bandages, tubing, etc.)	30	Red Biohazard Bags	Autoclaving	Yes	No	Waste Management
Solids (cultures, lab waste, etc.)	110	Red Biohazard Bags	Autoclaving	Yes	No	Waste Management
Liquids (urine, etc.)	10	Glass I asks	Sewer	Yes		Waste Management N/A
Trace chemotherapy waste	-----	-----	-----			N/A
Contaminated animal carcasses	-----	-----	-----			N/A
Other	-----	-----	-----			N/A
MEDICAL SOLID WASTE Gloves, empty specimen containers, gauze with dry blood, treated biohazardous waste	N/A	Red Biohazard Bags	N/A	N/A	N/A	Waste Management

* If applicable, attach a copy of biohazardous waste hauler contract or Limited Quantity Hauler exemption.

Biohazardous WASTE STORAGE LOCATION: [Please check the appropriate box(es)].

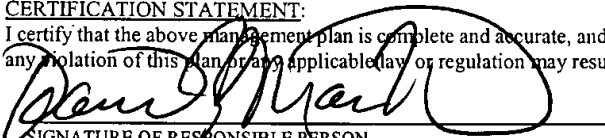

Biohazardous Waste:-- Inside establishment in secured area Outside in posted, secure area
 Medical Solid Waste: Inside establishment Outside in Locked/secured dumpster

PERSONNEL TRAINING:

All personnel handling biohazardous waste have been trained in all aspects of this management plan. Training includes the legal definition of biohazardous waste, separation and proper storage, transportation, treatment, and disposal of biohazardous waste. Documentation for completed employee training will be kept onsite.

CERTIFICATION STATEMENT:

I certify that the above management plan is complete and accurate, and that this business will adhere to all aspects of the plan. I further understand that any violation of this plan or any applicable law or regulation may result in legal action.

Dear Mr. MacNeil:

RE: ONSITE MEDICAL WASTE TREATMENT PERMIT

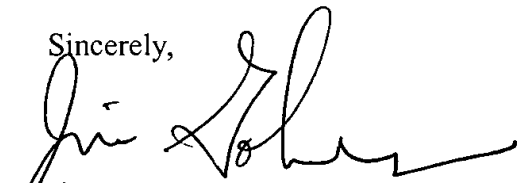

On August 7, 2006 the County of San Diego Hazardous Materials Division (HMD) received your request to add a new autoclave to your onsite medical waste treatment permit. The change is reflected in the list of equipment listed below.

The amended permit will have the same expiration date of the original permit. **This permit will expire on August 14, 2007.** If the treatment of medical waste is to continue after this period, a renewal permit application must be submitted to the HMD. If this activity is to cease whereby the closure plan must be implemented, the HMD must be notified at least 30 days prior to initiation of closure activities.

The On Site Medical Waste Treatment Permit now lists the following equipment: the original AMSCO autoclave and the new AMSCO Eagle Series, model 2043 autoclave.

If you have any questions pertaining to the onsite medical waste treatment permit, please call me at (858) 694-2750.

Sincerely,

Jim Gohres, EHS III

A routine compliance inspection was conducted on July 18, 2006 with Mr. John Sullivan, Facilities Manager and on July 31, 2006 with Mr. Dan Mac Neil, Safety Officer. Mr. Mac Neil granted permission to conduct the inspection. Stratagene Corporation is biotechnology company that develops products and technologies for life science research. The inspection covered the following CUPA program elements; hazardous waste generator, the hazardous materials business plan requirements, and medical waste. Stratagene Corporation is a small quantity generator (SQG) of hazardous waste and a larger quantity generator (LQG) of medical waste. The following observations were made during the inspection:

Minor Hazardous Waste Violation

Notice to Comply

RECEIVED AUG 16 2006

- Observation:** A 5-gallon container of waste pyrrolidione in the Microarray Q.C. laboratory was not properly labeled. The label was too faded to be legible.

Corrective action: Within 30 days replace the label with a new label. Ensure that all containers of hazardous waste are labeled with a hazardous waste label. The labels are to be in good condition and clearly legible.

Remarks

- Hazardous waste manifests for the last three years are on site and were reviewed on this day.
- The hazardous waste storage areas are being inspected at least once per week. Containers are properly labeled, closed and in good condition.
- The CUPA facility permit is on site.
- Employee training is being conducted on a continual basis. Records are on-site.

Re: **Action Item Status – County of San Diego DEH Compliance
Inspection conducted on 7/31/06.**

Listed below are the abatement dates referring to the two observations described in the County of San Diego Compliance Inspection Report dated 7/31/06. (See attached)

Violation #1: The hazardous waste label in the Microarray Q.C. lab on the 5 gallon pyrrolidinone container that was not originally legible was immediately replaced on 8/1/06 with a new label.

Violation #2: The draft Hazardous Waste Business Plan (HMBP) in question was never approved by Stratagene and will not be submitted for approval to DEH.

SCORING SYSTEM FOR VIOLATIONS FOUND DURING INSPECTIONS

Significant Violations (Each violation is worth 15 points):

1. Unified Program Facility permit not obtained
2. Failed to obtain & maintain a valid EPA ID Number
3. Operating Treatment Storage Disposal Facility (TSDF) without authorization
4. Failed to notify the CUPA of onsite hazardous waste treatment
5. Failed to properly separate incompatible wastes
6. Container incompatible with waste
7. Unauthorized disposal of hazardous waste
8. Unlawful transportation of hazardous waste
9. Did not use a hazardous waste manifest for disposal
10. Did not report release or threatened release
11. Enclosure or designated accumulation area for medical waste containers not secured

Class II or minor violations (Each violation is worth 5 points): All other violations

Incidental Violations

(Each violation is worth 2 points)

1. Annual carcinogen / reproductive toxin list not sent to HMD
2. Medical SOLID WASTE not secured to deny access to unauthorized persons
3. Did not have records of battery disposal
4. Spill Prevention, Control and Countermeasure Plan (SPCC) not completed and onsite

ENVIRONMENTAL PROTECTION INDICATORS FOR CALIFORNIA (EPIC) A Pilot Program for Biotech and Research Labs in San Diego County

The County of San Diego, Department of Environmental Health (DEH), Hazardous Materials Division (HMD) is the local Certified Unified Program Agency (CUPA) and is responsible for implementing the elements of the Unified Program in San Diego County. The Unified Program regulates facilities that handle hazardous materials, hazardous waste, medical waste and/or underground storage tanks.

HMD is now implementing the last phase of the EPIC Pilot Project Program, which measures unified program compliance through education. Facilities participating in this program are eligible for reduced permit fees and decreased inspection frequencies when they meet established compliance goals. Earlier phases of the project included identification of the Top Ten Violations and training workshops to calibrate both, CUPA inspectors and facility operators in how to correct these violations.

The goal of this project is to reduce the most common hazardous waste, medical waste and hazardous materials violations found in the Biotech and Research & Development industry sector. The program is open to facilities primarily engaged in *biotechnology and laboratory testing in the County of San Diego.

Businesses interested in participating in this program must meet the performance standards outlined below:

1. Have had 2 or fewer Class II or minor violations and no significant violations at their last inspection.
2. Have at least one business employee attend the annual EPIC training workshop.
3. Rate less than 15 points during HMD compliance inspections (see reverse for violation scoring system). Businesses already in the program that score 15 or more points during a compliance inspection will be ineligible to continue in the EPIC program.
4. New businesses must have had at least 2 inspections to participate. New facilities are eligible after the initial inspection if parent business achieved performance standards.

Complete and submit a completed application form on the reverse and submit to your Area Specialist for evaluation. Applications will be reviewed within 30 days and a written response will be mailed to all applicants.

Businesses that meet the EPIC Program performance standards will receive the following benefits:

1. Decreased inspection frequency. The inspection frequency of 18 months will be changed to 36 months for qualified participants of the EPIC Program. For businesses that are large quantity generators of medical waste and/or have a regulated underground storage tank onsite an annual inspection is required. For these sites HMD will conduct an abbreviated 12-month inspection covering the medical waste and/or underground storage tank element(s).
2. 25% reduction in the Unified Program Facility Permit base fee, the hazardous waste fees and/or the hazardous materials fees.

NOTE: For the purposes of this project, biotechnology facilities include process development, manufacturing and development of analytical laboratory devices and instruments, medical and surgical instruments, medicinal chemicals, botanical products, pharmaceutical preparations, and biological products. Testing laboratories are laboratories where relatively small quantities of hazardous chemicals are handled or used for purposes of research, analysis, clinical testing, or product development, testing, or quality control.

PERFORMANCE FEE REDUCTION

A Pilot Program for Biotech and Research Labs in San Diego County

Application Evaluation Procedures for Specialists

All performance standards must be met to be eligible for this program.

If applicant does not meet conditions listed below, they are not eligible to participate.

Business Name: Stratagene Permit #: 123318

1. Specialist must review application and business compliance history to determine if business meets all performance standards. Application reviewer must verify that business has:

- A valid Unified Program Facility Permit in good standing. Expires: _____
- Been inspected by HMD in the last 18 months and is not overdue for an inspection. If facility has not been inspected in the last 18 months, an inspection must be conducted in order to evaluate their eligibility for this program. Last Inspection: 7-31-06
- Submitted to HMD a completed and signed the Performance Fee Reduction Incentive Program application. Application Date: _____
- Had 2 or fewer Class II or minor violations and no significant violations at their last inspection. Violation History: _____
- At least one business employee that attended the annual training workshop or completed online training during the last calendar year.
Name(s) Date(s): Daniel MacNeil
- Rated less than 15 points during the last HMD compliance inspection. Businesses already in the program that score 15 or more points during a compliance inspection will be ineligible to continue in the EPIC program.
- Had at least 2 HMD inspections. New facilities are eligible after the initial inspection if parent business achieved all performance standards. Dates: _____
- Had the same business operator for the last two HMD inspections. A change of ownership may have caused a change in facility operator.

2. All applications must be reviewed within 30 days of receipt.

3. Reviewer must mail a copy of the approved/denied application to all applicants. Denied applications must have a cover letter listing the reason(s) why the application was denied.

4. Reviewer must complete all information at the top portion of the application, including the next inspection date and the Kiva scope/project for businesses with approved applications.

5. Supervisor will send application to HMD's Senior Office Assistant to initiate changes in Kiva to the HMD Permit and to identify business as a participant in the project.

NOTE: For the purposes of this project, biotechnology facilities include process development, manufacturing and development of analytical laboratory devices and instruments, medical and surgical instruments, medicinal chemicals, botanical products, pharmaceutical preparations, and biological products. Testing laboratories are laboratories where relatively small quantities of hazardous chemicals are handled or used for purposes of research, analysis, clinical testing, or product development, testing, or quality control.

PERFORMANCE FEE REDUCTION
A Pilot Program for Biotech and Research Labs in San Diego County

Data Processing Procedures for Office Assistants

When Office Assistants receive an approved application, they will change the activity code in KIVA and will mail out a copy of the approved application to the business. When Office Assistants receive a rejected application, they will send it to file.

New businesses in the Performance Fee Reduction Program

1. Change Scope/Project in Kiva as instructed by Specialist (K66P or K67P)
2. Add a Quantity to apply 25% credit to permit
3. Add a comment that states:

"Business approved for Performance Fee Reduction.

By: ___(Specialist's last name and first initial) Date: ___/___/___".

4. Change next inspection date as indicated by Specialist on the top right side of the application.

7-31-2009

5. Check UFPF expiration date. Determine if special handling is required to process their fee reduction credit. Credit will be applied to applications that are received at least 30 days before the UFPF expiration date.
6. Initial and date the application to indicate that it has been processed.

NOTE: The inspection frequency for businesses accepted in the Performance Fee Reduction Project must be changed from once every 18 months to once every 36 months.

Returning a business to the standard fee/inspection cycle:

1. Change Scope/Project in Kiva as instructed by Specialist (to K66 or K67)
2. Remove the Quantity that applied 25% credit to permit
3. Add a comment that states:

"Business no longer meets standards required for Performance Fee Reduction.

By ___(Specialist's last name and first initial) Date: ___/___/___".

4. Change the re-inspection date as indicated by Specialist.

NOTE: The inspection frequency for businesses no longer eligible for the Performance Fee Reduction Project must be changed from once every 36 months to once every 18 months.

State: CA
Zip Code: 92037
APN#: X340 010 3900
Mailing Address: Same as above
City: La Jolla, CA
State: CA
Zip Code: 92037
Plan File#: X 165139
Project Contact: Gregory B. Port
Telephone #: (858) 699-5798

The following questions represent the facility's activities, NOT the specific project description.

PART I: FIRE DEPARTMENT - HAZARDOUS MATERIALS DIVISION: OCCUPANCY CLASSIFICATION: Will your business use, process, store or dispense any of the following hazardous materials? Indicate by circling the item(s) that apply. If any of the items are circled (except item 15), a San Diego Fire Department Hazardous Materials Information Sheet (form FPB-500) must be submitted with your project review to: Planning & Development Review, Fire Hazardous Materials Plan Review, 1222 First Avenue, 4th Floor, San Diego, CA 92101 (619) 446-5438.

- 1. Explosive or Blasting Agents
- 2. Compressed Gases
- 3. Flammable/Combustible Liquids
- 4. Flammable Solids
- 5. Organic Peroxides
- 6. Oxidizers
- 7. Pyrophorics
- 8. Unstable Reactives
- 9. Water Reactives
- 10. Cryogenics
- 11. Highly Toxic or Toxic Materials
- 12. Radioactives
- 13. Corrosives
- 14. Other Health Hazards
- 15. None of These.

PART II: SAN DIEGO COUNTY DEPARTMENT OF ENVIRONMENTAL HEALTH - HAZARDOUS MATERIALS DIVISIONS (HMD): If the answer to any of the questions is yes, applicant must contact the County of San Diego Hazardous Materials Division, 1255 Imperial Avenue, 3rd floor, San Diego, CA 92101. Call (619) 338-2222 prior to the issuance of a building permit.

FEE'S ARE REQUIRED

Expected Date of Occupancy: Currently Occupied

- | | | |
|-------------------------------------|-------------------------------------|---|
| YES | NO | |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | 1. Is your business listed on the reverse side of this form? (check all that apply) |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | 2. Will your business dispose of Hazardous Substances or Medical Waste in any amount? |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | 3. Will your business store or handle Hazardous Substances in quantities equal to or greater than 55 gallons, 500 pounds, 200 cubic feet, or carcinogens/reproductive toxins in any quantity? |

San Diego, CA 92186-5261

Dear Sir,

I am writing to inform you that Stratagene no longer has facilities located at 11099 N. Torrey Pines Rd. Consequently, the company no longer needs a permit for the treatment and disposal of medical waste at that site. Please discontinue the processing of documents for this purpose.

With thanks,

Albert J. Graftsky, M.A.
Director of Safety
Stratagene

Allison Fowler
Startagene Cloning Systems

Attention Dick Thurlow:

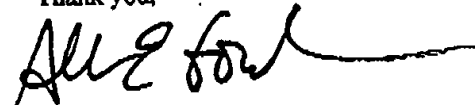

Hello Dick. I am sorry that I was not able to fax this information to you yesterday, I'm hoping "better late than never" will prevail!

Calibration on (3) Market Forge Sterilizers & (1) Temp Recorder:
S/N #730323-4, 156859, C-1188, 100930.

These are the autoclaves that are located in the media sterilizing room, any of which potentially could be used for sterilizing biohazardous waste. The primary autoclave used is the Temp Recorder, and is so labeled.

Please contact me if you have any questions regarding this matter.

Thank you,

Allison Fowler

ONSITE MEDICAL WASTE TREATMENT PERMIT APPLICATION DETERMINATION OF COMPLETENESS

SITE: 11011 NORTH TORREY PINES ROAD, SAN DIEGO, CA 92037

Dear Mr. Mac Neil:

On April 16, 2002, the County of San Diego Hazardous Materials Division (HMD) received your application for an onsite medical waste treatment facility permit (renewal). An initial review of your application was done to determine whether or not your application was complete. After reviewing this information, the HMD has determined that your application is complete.

Before the HMD will grant or deny you a permit, a site visit must occur in order to verify that the information submitted to the HMD in the permit application is correct and that your facility is currently in compliance with the Medical Waste Management Act, Health and Safety Code, Sections 25100 and 117600 et al; the San Diego County Code of Regulatory Ordinances Sections 68.120 et al; and the California Code of Regulations, Title 22 Sections 65600 et al. I will contact you in the near future to set up an appointment for this inspection.

If you have any questions, please contact me at (858) 694-2750.

Sincerely,

JIM GOHRES, Environmental Health Specialist III
Hazardous Materials Division

D.E.H.
MAILROOM

I. GENERAL

A. Type of Permit Requested

Place an "X" on the appropriate line below to indicate the type of permit being applied for:

1. Type of Treatment

a. Steam Sterilization

b. Incineration

c. Other State DHS approved method (please specify):

B. Facility Status

Place an "X" on the appropriate line to indicate whether this application is for a new or existing facility.

1. New Facility

2. Existing Facility

If an existing facility, please indicate the purpose of this application. Place an "X" on the appropriate line below to indicate whether this is a renewal application, a facility modification, transfer of ownership, revised application, or a initial request for permit.

a. Initial Request for Permit

b. Modification

c. Transfer of Ownership

d. Permit Revision

e. Permit Renewal

C. Application Information (Note: Provide the information requested below on a separate page attached to the completed application.)

1. Estimated Weight and Volume → See Attachment C

A summary of the weight or volume of medical waste handled or expected to be handled during the permit period. For renewals, the amount handled during the previous permit period.

2. Special Occurrences → See Attachment C

A listing of any special occurrences such as fires, injury, property damage, accident or other unusual occurrences, or incidents involving medical waste which have occurred at the facility during the previous three years.

3. Compliance History —————> See ATTACHMENT D

A description of your compliance history relative to local, state, or federal regulation regarding the handling, storage, or treatment of medical waste during the previous three years. Include information from other facilities under your control for the same period.

II. FACILITY INFORMATION

A. Facility Name STRATAGENE HOLDING COMPANY

B. Facility Contact Person(s)

1. Name (last, first, middle initial) and Job Title:

MAC NEIL, DANIEL R. - SAFETY OFFICER

2. Telephone Number (area code and number):

(858) 535-5400 x-11111

C. Facility Mailing Address

1. Street, Route Number, or P.O. Box Number

11011 N. Torrey Pines Rd.

2. City or Town, State, and Zip Code:

LA JOLLA, CA. 92037

D. Facility Location (if different from above)

1. Street, Route Number or other specific site location, or address:

—————

2. City or Town, State and Zip Code:

—————

3. Telephone Number (area code and number):

—————

E. Ownership status PRIVATE ENTITY

(Federal, state, local government, or other public or private entity.)

III. OPERATOR INFORMATION

A. Name STRATAGENE HOLDING COMPANY (SHC)

B. Owner or Operator JOSEPH SORGE M.D.

Is the name listed in III. (A.) above also the owner? of property? No

1. Yes

2. No

OF BUSINESS: yes

If no, please complete the following additional information.

a. Telephone Number (area code and number):

()

b. Street or P.O. Box Number:

c. City or Town, State, and Zip Code:

IV. FACILITY OWNER

A. If the facility owner is also the facility operator as listed in III. above, disregard the B. portion of this section.

B. If the facility owner is not the facility operator as listed in III. above, complete the following items.

1. Name of legal owner of facility:

SLOUGH TPSP, LLC. c/o BURNHAM REAL Estate

2. Telephone Number (area code and number):

858 558-0383

3. Street or P.O. Box Number:

11011 N. Torrey Pines Rd., Suite 101

4. City, State, and Zip Code:

LA JOLLA, CA. 92037

V. ENVIRONMENTAL CLEARANCES

A. Pursuant to Section 65610, Chapter 21, California Code of Regulations, provide all necessary information relating to environmental clearances/permits as required.

1. A copy of the environmental impact report (EIR) or negative declaration prepared by the lead agency or evidence that a lead agency is preparing or will prepare environmental documentation, if applicable.
2. Other information (please specify):

Not applicable

VI. MAP → SEE ATTACHMENT A

Attach to this application a map extending for one mile beyond the property boundary identifying access roads and the type of development surrounding the facility (e.g. residential, commercial, recreational, schools, etc.)

VII. PRIMARY ACTIVITIES OF THE FACILITY → See Attachment A

Provide a description of the nature and activities of the business which requires a permit.

VIII. FACILITY INFORMATION → SEE ATTACHMENT B

A. Provide the following facility information.

1. Average monthly quantity of medical waste to be stored and/or treated on property.
2. The rated capacity per operational cycle, the time per cycle, the number of operating hours per day, and days per week of operation.
3. Type and description of medical waste being treated. What measures are employed to prevent unauthorized waste (i.e. chemical waste, chemotherapy waste, etc.) from being treated at the facility?

B. Total capacity of primary waste storage area in use.

IX. FACILITY PLAN → SEE ATTACHMENT F

Provide a site map of the facility with a description of the ingress, egress, medical waste storage area(s), treatment facility location, security measures, and other areas which will be used as a part of the ongoing operation.

X. OPERATION PLAN → SEE ATTACHMENT H.

Append a copy of the facility Medical Waste Operation Plan and Procedures with this application.

XI. **EMERGENCY ACTION PLAN** ——— See attachment E
Append a copy of your Emergency Action Plan with this application.

XII. **TRAINING PLAN** —————→ See ATTACHMENT J
Append a copy of your employee Training Plan for medical waste management with this application.

XIII. **CLOSURE PLAN** —————→ See ATTACHMENT K
Append a copy of your Closure Plan and a written estimate of the cost of closing the medical waste storage and treatment areas.

XIV. **MONITORING SCHEDULE** —————→ See ATTACHMENT K
Append a copy of the Monitoring Schedule, the schedule for installation of monitoring equipment and a copy of the Operating Procedures for maintenance and testing of the monitoring equipment.

GO TO PAGE 8.

Medical Waste Treatment Equipment Specifications:

Each medical waste treatment unit must be described below. The following information shall be completed and submitted along with the application. Submit a separate sheet for each medical waste treatment unit.

Must complete the following information: (please print or type information)

- 1. Date of equipment installation: 1990
- 2. Manufacturer's Name: AMSCO STMF
- 3. Model Number: 72A-AS ✓
- 4. Serial Number: 78A-4571 ✓

5. Describe the method of treatment for the equipment (e.g. autoclaving; chemical disinfection; thermal treatment; microwaves; etc.):

Autoclaving - For 30 minutes at 16 PSI

6. Give the exact location and/or room number where the treatment unit will be operated:
Room 183 in the Media Lab, 1st Floor

7. What is the rated capacity of the treatment unit? 70 ✓ pounds/hour of waste treated.

8. Give the date when the treatment equipment was last serviced by a "manufacturer-authorized" technician:
Date: 2/5/2002 by Steris Corporation - Luis Morgan

9. The permittee must photocopy and submit to the HMMD the manufacture's operating instructions and recommended maintenance schedule for the waste treatment equipment. Also, submit a photocopy of the manufacturer's diagrams or schematics of the equipment.

→ See attachment H.

SIGNATURE CERTIFICATION

Owner and operator certification:

I certify under penalty of perjury that this document and all the attachments have been prepared under my direction and supervision in accordance with a system to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those directly responsible for gathering the information, the information is to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.

Owner Name (print or type): Responsible person: Thomas W. Collins
City: SAN DIEGO State: CA.
Date: 4/2/02
Signature: TW Collins

Operator certification (if different from above):

I certify under penalty of perjury that this document and all the attachments have been prepared under my direction and supervision in accordance with a system to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those directly responsible for gathering the information, the information is to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.

Operator Name and Official Title (print or type):

DANIEL MAC NEIL - SAFETY OFFICER
City: SAN DIEGO State: CA.
Date: 2-27-02
Signature: Daniel MacNeil

Attachment B

1. Estimated Weight and Volume: 334 pounds treated and stored / month ✓

2. Rated Capacity of AMSCO Sterilizer:

Capacity per cycle:	30 pounds
Time per cycle:	30 minutes
Number hours/day:	6 hours per day
Days/week operated:	5 days per week

3. Type and description of medical waste listed in order of decreasing percent of the total:

- -Laboratory media plates and cultures
- -plastic test tubes
- -pipette tips
- -paper towels
- -gloves

4. Security measures in place:

- Keyless entry doors surround the lab spaces (see Attachment F).
- 24 hour guards patrol the premises through Heritage Security Services.
- Lab spaces are labeled with warning signs for biological, chemicals and radiological hazards.
- Only two, designated employees have been authorized and trained to treat medical waste.
- Other hazardous waste streams are inspected daily by Safety Committee members to ensure that waste treatment on other materials is not performed.
- New employees are trained not to alter the labeling, container or composition of any hazardous waste material at Stratagene.

Attachment C

1. Estimated Weight and Volume: 334 pounds treated per month

Source:

Month: Bags Treated: (from operational log book)

July - 2001	69
August - 2001	73
September - 2001	59
October - 2001	80
November - 2001	101
December - 2001	83
January - 2002	70
<u>Total</u>	<u>535 bags / 7 months = 76 bags/month average</u>

76 Bags / month average x 4.4 pounds / bag (avg weight) = 334 pounds / month

- 2. Special Occurrences: No fires, property damage, injuries or unusual incidents involving medical waste have occurred during the past three years.**

Department: Safety	Department Number: 00615	Effective Date: November 2001	Revision Number: Rev C
Title: EMERGENCY ACTION PLAN			

I. Purpose:

This Emergency Action Plan addresses Stratagene Holding Company's (SHC) planned response to various man-made or natural emergency situations. The purpose of the Plan is to provide information that will save lives during emergency events and hasten the resumption of normal company operations during the recovery process. This document designates authority to activate the Plan and lists responsibilities of key personnel critical to the success of the program. Plan training requirements are also addressed.

II. Authority

Any employee trained in these procedures who witnesses an event in or near company facilities that constitutes an actual or potential serious danger to other employees or the property, has the authority to activate this Plan.

III. Universal Evacuation Procedure for all Emergencies: "EAR" – Evacuate, Alert and Rescue

Employees with disabilities are required to inform Human Resources or the Safety Office of the need for special assistance during emergencies or evacuations.

Evacuate yourself and all employees in your work area to the *Primary Evacuation Area* (see map on page 17). If the *Primary Evacuation Area* becomes obstructed for any reason, then immediately proceed to the *Alternate Evacuation Area* near the Fujitsu building. **Employees with disabilities must evacuate to the South Evacuation Area located near the front door on the first floor.** Sign the *Evacuation Roster* or equivalent document that your supervisor uses to record your presence at the Evacuation Area.

Alert authorities and the building staff.

Rescue missing or injured employees only if it is safe and if you have been specially trained to do so.

The following situations **warrant mandatory evacuation:**

- Large fire
- Earthquake
- Power Outage or utility failure
- Large chemical spill
- Bomb threat
- Any spill considered to be too large or too hazardous for in-house response.

Evacuation **may be necessary** in the following situations:

- Small chemical spill
- Suspicious package
- Workplace violence
- Medical emergency
- Rolling Blackout

If an employee is ordered to remain in the building during an emergency by a non-Stratagene official, and they know that the commands to remain in the building are inconsistent with the facts of the emergency, the employee has every right to continue to evacuate the building.

Never use the elevator in any emergency under any circumstances. Utilize the pull-boxes for fire emergencies only.

Department: Safety	Department Number: 00615	Effective Date: November 2001	Revision Number: Rev C
Title: EMERGENCY ACTION PLAN			

SHC employees may initiate the evacuation using any of the following warning signals; Life Safety System bell tones, phone system or phone page, shouted commands, etc.

Once an evacuation is initiated, each employee, visitor, or vendor must leave in an orderly fashion immediately through the nearest, or safest escape route (see posted Evacuation Maps) and proceed to the designated Primary Evacuation Area in the East Parking Lot (see map on page 17). Employees with disabilities must evacuate to the South Evacuation Area.

Each employee must immediately report to their supervisor at the evacuation area. Supervisors will have their employees sign their *Evacuation Roster* or separate sheet of paper in order to document their presence at the Evacuation Area.

The employee who activated the evacuation or a designee thereof should immediately contact an Incident Commander at the Primary Evacuation Area located at the East Parking Lot (see map on page 17) and report the facts of the emergency.

Dial or page one of these extensions to reach one of the designated Incident Commanders:

Incident Commanders / Emergency Plan Contacts:		
Safety Officer:	Daniel Mac Neil	x-11111 – pager-(619)-526-8301
Safety Director:	Cindy Murray	x-13004 – no pager
Facilities Manager:	John Sullivan	x-15435 – pager-(619)-973-1401
Northern Lab:	Scott Basehore	x-13005 – pager-(619)-973-6445

If no answer, dial "0" and have the Receptionist page the Incident Commanders.

Dial 911 and report emergency to official authorities. When you report the emergency, tell the operator, "This is an emergency" and calmly state:

Your name

The building and room location of the emergency:
Stratagene is Building #6 at 11011 North Torrey Pines Road

The nature of the emergency – fire, chemical spill, etc.

Whether injuries have occurred, and hazards present that may affect responding emergency personnel

Termination of evacuation:

Once evacuated, employees *may not re-enter* the building unless cleared to do so by one of the Incident Commanders or local emergency authorities.

Department:
SafetyDepartment Number:
00615Effective Date:
November 2001

Revision Number: Rev C

Title: **EMERGENCY ACTION PLAN****IV. RESPONSIBILITIES****Incident Commander:**

In the event of Plan activation all the responsibility for coordinating the Plan is transferred to the Incident Commander(s). The Incident Commander will direct the Plan from the Command Center. During business hours the Command Center locations are as follows: (see map on page 17):

Primary Evacuation Area - Stratagene East Parking Lot (during evacuations)
Safety Office (for incidents that *do not require* immediate evacuation)

After business hours (evening, nights and weekends) Command Center duties will be handled by:

Heritage Security Service is responsible for implementing emergency procedures after hours and on weekends. Security is on duty 24 hours.

Console telephone 458-0406 24 hour security pager 989-0175

The Incident Commander has the following responsibilities and will prioritize them based upon the nature and extent of the emergency:

1. Report to the appropriate Command Center wearing an orange-colored identification vest once the evacuation has been activated. Additional vests are located in the Safety Office.
2. If an evacuation has not been initiated, make the decision whether or not to evacuate the building based upon information received from the individual who activated the Plan. If indicated, initiate the evacuation immediately by utilizing phone system page, Life Safety System alarms, or shouted voice commands. Notify Property Management immediately by calling 558-0383 (24 hours).
3. If an evacuation has been initiated meet with the managers and supervisors at the Primary Evacuation Area to determine if there are any absent employees or visitors. Immediately notify Property Management officials and other emergency personnel of any absent employees or visitors.

Managers

Managers, Supervisors or their designated alternates have the following responsibilities:

1. Possess a working knowledge of all the employees in their work area. It is *highly recommended* that supervisors maintain a roster of existing employees at an available location in the department to facilitate roll call at the Primary Evacuation Area. This will be called an *Evacuation Roster*. Ensure your visitors and vendors have signed in with the Receptionist.
2. During an evacuation, ensure that each employee, visitor, vendor or disabled/handicapped person(s) leaves in an orderly fashion through the nearest, or safest escape route (see posted Evacuation Maps) and proceeds immediately to the Primary Evacuation Area or the South Evacuation Area (disabled employees). Bring either the Evacuation Roster or a blank sheet of paper with you so that employees may sign the sheet after evacuation.

Department: Safety	Department Number: 00615	Effective Date: November 2001	Revision Number: Rev C
Title: EMERGENCY ACTION PLAN			

3. Take roll call and account for each employee in your department. Have each employee sign the sheet confirming their presence at the evacuation site. Include any visitors or vendors. Note any absentees, initial the sheet, and immediately report attendance status to the Incident Commander(s).
4. Ensure employees remain together as a departmental group in the Primary Evacuation Area until further instruction from the Incident Commander. No one will attempt to reenter the building until emergency personnel announce that it is safe to do so and the Plan is terminated by the Incident Commander.
5. Managers are responsible for designating and training alternates for themselves if they leave the site during the workday. If a manager is removing the entire group offsite for any part of the workday, he or she is responsible for ensuring that another manager will be able to account for the entire group in the event of an evacuation.

Department Wardens

Selected employees from each work area will be designated as the *Department Wardens*.

Department wardens have the following responsibilities in the event of an actual emergency or fire drill:

- If it is safe to do so, quickly check all rooms, corridors, stairwells and not-so-obvious areas such as bathrooms near their designated area to ensure all personnel are evacuating the area.
- Personnel refusing to evacuate will be reported as "absent" to the Incident Commander and their supervisor.

List of Department Wardens (Safety Committee members):			
Don Johnson	Andrew Cox	Julie Bonnardel	Kelly Wynne
Michelle Harris	Al Grafsky	Rosenda Lindquist	Scott Basehore
Alex Stevens	Dick Mason	Lisa Hexdall	Erikka Breedlove

Safety Officer

The Safety Officer has the following responsibilities during an evacuation:

- Wearing an orange-colored identification vest, supervise and coordinate the evacuation from the Primary Evacuation Area.
- Account for the Receptionist and ensure all managers and/or supervisors report attendance status. Record the names of absent employees, visitors, or vendors onto a sheet of blank paper. Ensure other Incident Commanders, Property Managers, and emergency responders are aware of absent employees, visitors, or vendors.
- Collect and file the attendance status sheets from all managers and/or supervisors after the incident is resolved.

Department: Safety	Department Number: 00615	Effective Date: November 2001	Revision Number: Rev C
Title: EMERGENCY ACTION PLAN			

- Conduct a review of the incident or drill as soon as possible. Present findings at the bimonthly Safety Committee meeting and to management.

Receptionist:

The Receptionist has the following responsibilities:

1. Ensure all visitors and vendors sign in and record the name of the manager or employee they are visiting. Ensure visitors and vendors sign out upon exiting the building.
2. Provide a communication relay (using the telephone paging system) for the dissemination of emergency information if necessary.
3. Upon evacuation the Receptionist should bring the visitors sign-in book and the mobile radio with him or her and report immediately to the South Evacuation Area located in the Parking Lot at the front of the building while assisting the evacuation of employees with disabilities.

V. Specific Emergency Procedures:

- | | | |
|--------------------|-------------------------|-----------------|
| Fire | Earthquake | Bomb Threat |
| Hazardous Spill | Major Medical Emergency | Utility Failure |
| Workplace Violence | Elevator Failure | |

A) FIRE EMERGENCY

If You Discover A Fire, Remember To "RACE"

Remove yourself and other persons in danger if it is safe to do so. Confine the fire by closing doors and windows in the area. Do not lock the doors.

Alert authorities and the building by calling 911 and the Incident Commander (x11111, 13004 or 15435). If no answer dial "0" and have the Receptionist page an Incident Commanders.

Communicate the nature and location of the emergency to the occupants of the building and whether or not to evacuate. If there is a large fire in or near the building utilize the nearest fire alarm pull-box.

Extinguish the fire if you have been trained to handle a fire extinguisher and if it is safe to do so. If you are unable to extinguish the fire **evacuate** quickly and calmly using the nearest emergency exit and report immediately to your designated Evacuation Area.

Assist those with disabilities.

Never use the elevators. If you are in an elevator, get off at the first possible stop and proceed to the nearest and safest exit. Do not attempt to return to your place of work if the alarm stops ringing. Advise your manager and emergency personnel if anyone remains trapped or immobilized in the area.

If you are notified of a fire or if you smell smoke...

Department: Safety	Department Number: 00615	Effective Date: November 2001	Revision Number: Rev C
Title: EMERGENCY ACTION PLAN			

Before opening any door, feel the top with your hand. If the door is hot, do not open it. If no alternate door is available, call 911 and the Incident Commander and give your exact location. If no answer dial "0" and have the Receptionist page an Incident Commander. Seal the doors and any vents with cloth material to keep out smoke and retreat. Close as many doors between you and the fire as possible. If there is smoke, stay low. Air is cooler and cleaner closer to the floor. If water is available keep a wet cloth over your mouth and nose. Do not break windows, instead signal at windows by waving colorful objects. Remain calm, help is on the way.

If the door is not hot...

Brace the door with your hand and open it cautiously. Check corridor for smoke. If there is no smoke, use your primary escape route and proceed to the Evacuation Area. If you do encounter smoke, crawl low under the smoke to the nearest stairwell or exit. Walk down or out and proceed to the Evacuation Area.

If someone's clothes are on fire...

Drop the person to the floor and roll him or her to smother the flames, or drench him or her with water if a safety shower is immediately available. Call 911 to obtain medical help.

1) Fire Extinguisher Operation

When using a fire extinguisher keep the following in mind:

Do not attempt to use a Fire Extinguisher if you have not been trained !

Never enter a room containing a fire without a backup person. Never enter a room if the top half of the door is warm to the touch or the room is smoke-filled.

Keeping an exit between you and the fire, locate the nearest appropriate fire extinguisher. Bring the extinguisher within six feet of the fire and follow the **P-A-S-S** procedures to activate the extinguisher:

- P - Pull the pin located in the extinguisher's handle.
- A - Aim the nozzle, horn or hose at the base of the fire.
- S - Squeeze or press the handle.
- S - Sweep from side to side at the base of the fire until it is extinguished.

After the fire has been completely extinguished, notify an Incident Commander. If no answer dial "0" and have the Receptionist page one of the Incident Commanders. Report the empty extinguisher to the Safety Office (x-11111) .

B) SPILLS

KEM, SHC's hazardous waste disposal vendor, responds quickly to large hazardous chemical spills 24 hours a day. Small spills are to be handled directly by laboratory personnel **provided the spilled material does not generate hazardous fumes**. KEM should be contacted in the event of a larger spill. The team is activated via pager and will arrive as quickly as possible. An incidental chemical spill is one that the

Department: Safety	Department Number: 00615	Effective Date: November 2001	Revision Number: Rev C
Title: EMERGENCY ACTION PLAN			

laboratory staff is capable of handling safely without the assistance of KEM responders. All other chemical spills are considered major.

1) Chemical - Minor Spill (< 5 gallons) of a Low Hazard (irritant) substance :

Alert people in the immediate area. Avoid breathing vapors and quickly determine what material has spilled.

Isolate the affected area and prevent entry by other employees. Consult the Material Safety Data Sheet.

Wear the protective equipment provided in the green spill kits located in the San Andreas Lab including safety goggles, gloves, lab coat and confine the spill to a small area.

For most low-hazard chemical spills, use Spill Defense Universal Wipes (provided in each lab) or absorb the spill with vermiculite or another non-reactive absorbent material. Place the saturated absorbent in a plastic bag.

If the spill kits are not available then use sodium bicarbonate (for acid spills) or citric acid (for base spills) to neutralize and absorb inorganic acids and bases.

Properly label the bag as hazardous waste and notify the area Safety Coordinator.

Clean spill area thoroughly and report incident to the departmental manager, Facilities and the Safety Office.

2) Chemical - Major Spill (> 5 gallons) of a Low Hazard (irritant) substance:

Immediately evacuate the area and close all doors.

Alert people in the immediate area. Avoid breathing vapors and quickly determine what material has spilled.

Consult the Material Safety Data Sheet. Notify KEM of the identity and location of spilled material.

Keep all personnel away from the spill area until KEM personnel arrive to evaluate and control the situation. Place signs at doors near the spill advising personnel to not enter the area.

3) Chemical - Spill of a Toxic, Flammable, Corrosive or Reactive material:

If the spill involves a flammable material turn off all ignition sources if it can be done safely.

If the spilled material **is less than 2 liters** in volume and does not generate (hazardous) toxic or severely irritating (hazardous) fumes, then locate one of the two green-colored spill kits in the San Andreas Lab (from EM Science). Using the personal protective equipment supplied in the kit, neutralize and then absorb the spilled material.

If the spilled material **exceeds 2 liters** in volume and is known to generate hazardous fumes, do not attempt to contain or clean up the spill. Leave area immediately and page the Safety Officer at (619) 526-8301 for instructions. After hours call KEM at (619) 409-9292.

STRATAGENE®

Department: Safety	Department Number: 00615	Effective Date: November 2001	Revision Number: Rev C
Title: EMERGENCY ACTION PLAN			

4) Chemical Spill on Body

Remove contaminated clothing and ensure chemical has not accumulated in shoes. Have someone not assisting locate and consult the Material Safety Data Sheet.

Rinse exposed body area thoroughly with water, 10 to 15 minutes, using the safety shower.

If the eyes have been contaminated find the nearest eyewash, spread open eyelid(s) and flush eyeball(s) with running water for 15 minutes. Contact or page the Emergency Medical Technician listed in Section C of this document.

If necessary, call the Poison Center at 543-6000 for advice and seek medical attention immediately.

Report the incident to the Safety Office and departmental manager as soon as possible.

RADIATION SPILLS

OSI contact: Todd Hansen – (858) 708-8132

Occupational Services Inc., (OSI) , Stratagene's radiation consulting service, responds to radiation spills 24 hours a day. Small spills are to be handled directly by laboratory personnel, however, OSI should be contacted in the event of a larger spill. The consultant is activated via pager and will arrive as quickly as possible. A minor radiation spill is one that the laboratory staff is capable of handling safely without the assistance of OSI. All other radioactive material spills are considered major. The Radiation Safety Officer must be notified of spills involving personal contamination.

Minor Radiation Spill Procedure:

Alert personnel in the immediate area to avoid and isolate the spill area.

Wear protective equipment including safety goggles, disposable gloves, and lab coat. Confine the spill and identify the spilled radionuclide with radioactive label tape.

Place Spill Defense Universal Wipes or absorbent towels over liquid spill. Place towels dampened with water over spills of solid material.

Clean the spill from the outer most area towards the center with decontamination solution. Place towels in plastic bag. Dispose of bag in appropriate radiation waste container. Monitor area, hands, and shoes for contamination with an appropriate survey meter or do a wipe test. Repeat cleanup until residual contamination is less than 2,200 dpm/cm².

Notify your manager and provide a written record of the circumstances involving the spill and all remedial actions to the Radiation Safety Officer as soon as possible.

Major Radiation Spill Procedure

Wear protective equipment including safety goggles, disposable gloves, and lab coat. Secure container and stop the spill. Place absorbent towels over liquid spill. Place towels dampened with water over spills of solid material.

Department:
SafetyDepartment Number:
00615Effective Date:
November 2001

Revision Number: Rev C

Title: **EMERGENCY ACTION PLAN**

Attend to contaminated or injured personnel and remove them from further exposure. Have potentially contaminated personnel stay in one area until they can be monitored and shown to be free of contamination.

Page the Radiation Safety Officer at (619) 526-8301. After hours call Heritage Security at 989-0175 and Occupational Services consultants at (858) 558-6736, 252-2211 or 708-8136.

Alert non-contaminated personnel to evacuate the area.

Close doors to prevent entrance to the spill area and post a sign warning others to stay away. Have someone knowledgeable about the incident assist responding personnel.

Notify your manager and provide a written record of the circumstances involving the spill and all remedial actions to the Radiation Safety Officer as soon as possible.

Radioactive Material Spill on Body

Remove contaminated clothing. If radioactive contamination is found on skin, gently wash with soap and warm water. Survey for remaining contamination and repeat washing as necessary. Use only detergents intended for use on skin. Do not scrub with a brush or other abrasive material. Report all incidents of personal contamination to the Radiation Safety Officer and the departmental manager.

Biological Material Spill Procedure (also see Bloodborne Pathogens Plan)

Biological material spills outside biological safety cabinets may generate aerosols that can be dispersed into the air throughout the laboratory.

Allow 30 minutes for aerosols to settle before beginning decontamination. Wear protective equipment such as double gloves, safety glasses and lab coat.

1) Spill Involving a Microorganism Requiring BL1 Containment Procedure (also see Bloodborne Pathogen Plan)

- Notify the departmental manager.
- Wearing disposable gloves soak paper towels in a 10% bleach solution and place them over the spill. Absorb the spill and place absorbent materials in a red, plastic, biohazard bag for disposal.
- Clean the spill area a second time with fresh absorbent materials soaked in a 10% bleach solution.

2) Spill Involving a Microorganism Requiring BL2 Containment Procedure (also see Bloodborne Pathogen Plan)

- Notify the departmental manager. Alert people in immediate area of the spill. Evacuate the area for at least 30 minutes. Close doors to prevent entrance to the spill area and post a sign warning others to stay away.
- Wearing disposable gloves and other protective equipment cover the spill with paper towels or other absorbent material.

Department: Safety	Department Number: 00615	Effective Date: November 2001	Revision Number: Rev C
Title: EMERGENCY ACTION PLAN			

- Carefully pour a 10% bleach solution around the edges of the spill and then into the spill. Allow a 20 minute contact period.
- Absorb the spill and place towels in a plastic bag for disposal into a biohazardous waste container.
- Clean spill area a second time with fresh towels soaked in a 10% bleach solution.

C) MAJOR MEDICAL EMERGENCY

Unconscious person: *If any SHC employee comes across an unconscious person or a person in a life-threatening medical emergency, call 911 immediately.*

- Do not move the victim unless he or she is in immediate danger of further injury.
- In order to provide emergency support while waiting for paramedics to arrive, contact a member of the Medical Response Team (see below).
- Arrange for someone to meet and guide paramedics to the injured person.

Conscious person: *If an SHC employee comes across an injured yet conscious person, immediately contact a member of the Medical Response Team (see below).*

SHC has trained a group of employees comprising the *Medical Response Team* to respond to both life-threatening emergencies and less severe injuries or illnesses. Members are trained in Adult CPR and comprehensive First Aid procedures that allow them to respond to medical situations that include but are not limited to:

- Loss of or difficulty breathing
- Loss of pulse/heart beat
- Lacerations, cuts
- Burns
- Choking
- Bites
- Sprains
- Fractures
- Heat stroke

Medical Response Team:	
Jennifer Crodian	x-15571 - Proteins
Tricia Zwiefelhofer	x-15571 - Proteins
Veronica Gallego	x-15410 - Proteins
Julie Bonnardel	x-15569 - BPI
Donna Antes	x-15618 - Production Control
Erikka Breedlove	x-14055 – Human Resources
Dick Mason	x-14010 – Instrument R & D
Daniel Mac Neil	x-11111 – Safety

Department: Safety	Department Number: 00615	Effective Date: November 2001	Revision Number: Rev C
Title: EMERGENCY ACTION PLAN			

- If an injured or ill person requires transport to a medical facility or provider, the following employees have been designated to provide that transportation:
 - Cindy Murray -Safety
 - Erikka Breedlove -Human Resources
 - Dennis Ferguson -Human Resources
 - Don Johnson - Facilities
- If none of the above employees are available, then contact the injured person's supervisor.

D) EARTHQUAKES

If you are inside the building during the quake...DUCK, COVER and HOLD !

1) DUCK

Duck or drop to the floor.

2) COVER

Take cover under a desk, sturdy table, stairwell, or door jamb and beware of doors swinging back and forth. If that is not possible, seek cover against an interior wall, protecting your head and neck with your arms. Hallways are among the safest areas but avoid large windows, tall furniture and heavy hanging objects.

3) HOLD

Hold securely on to furniture during the shaking. If the furniture moves, you want to move with it to maintain protection. Remain in that position until the shaking stops. After the shaking subsides, immediately evacuate the building to the nearest safe refuge area outside.

After the quake...

Be prepared for aftershocks. Aftershocks will occur following larger quakes and can topple structurally weakened buildings or cause landslides. If functioning, use the telephones quickly to report only life-threatening emergencies. Only 20% of residential phones can be used simultaneously before the system overloads. It is important to leave these lines open for those individuals who must receive emergency help as soon as possible.

Remain calm and wait for help.

E) BOMB THREAT RESPONSE

All bomb threats will be taken seriously. If a bomb threat notice is received:

Remain calm.

Do not search for an explosive device.

Do not touch any unusual or suspicious objects.

Department: Safety	Department Number: 00615	Effective Date: November 2001	Revision Number: Rev C
Title: EMERGENCY ACTION PLAN			

Report threat immediately to your manager and to an Incident Commander . If no answer dial "0" and have the Receptionist page an Incident Commander.

1) Phone Call Threats

If you receive a bomb threat phone call, signal a coworker to notify Heritage Security 989-0175 (24 hours), the Safety Officer (11111) or the Facilities Manager (15435) and to call 911. Try to get as much information from the caller as possible. Be courteous and do not interrupt the caller. Ask the caller to repeat the message. Record the time of the call and ask the following questions:

- When will the bomb go off?
- Where is it?
- What does it look like?
- Why was it placed in the building?
- Who is calling?

Try to determine any of the following information:

- Caller's gender
- Approximate age
- Is the voice familiar?
- Does the person have an accent or unique speech attribute?
- Any unique background noises?

If the bomb threat was hand-delivered, try to recall a description of the messenger or other suspicious persons in the area.

2) Suspicious Packages

Suspicious Packages should not be moved or disturbed. Report them immediately to Heritage Security at 989-0175 (24 hours), the Safety Officer (11111) and the Facility Manager (15435) . If no answer dial "0" and have the Receptionist page an Incident Commander.

Give the exact location of the package including the room number and location. Look for possible owners. Record a description of the package including the size, color, markings and noises it may be emitting. Do not use phones or walkie-talkies near the package because radio transmission may detonate explosive devices.

F) UTILITY FAILURE

SINGLE COMPONENT UTILITY FAILURE

Gas Leaks Do not use spark-producing devices. Evacuate the area immediately and inform an Incident Commander. If no answer dial "0" and have the Receptionist page the Safety Officer or an Incident Commander.

Department:
SafetyDepartment Number:
00615Effective Date:
November 2001

Revision Number: Rev C

Title: **EMERGENCY ACTION PLAN**

Ventilation	If smoke or a burning odor is present without a known reason, evacuate the area. Inform an Incident Commander . If no answer dial "0" and have the Receptionist page the Safety Officer or an Incident Commander.
Elevator	Push emergency button in elevator to contact Heritage Security.
Plumbing	If personal safety allows, disconnect electrical devices and evacuate the area.
Flooding	Inform an Incident Commander . If no answer dial "0" and have the Receptionist page the Safety Officer or an Incident Commander.
Electrical	Contact the Facilities Office at extension 15435.

MAJOR UTILITY FAILURE

Notify your manager and the Safety Officer (11111) . If no answer dial "0" and have the Receptionist page the Safety Officer or an Incident Commander. After hours, page Heritage Security at 989-0175. Security is on-duty 24 hours a day.

Remain calm and follow the directions of the Incident Commander.

G) WORKPLACE VIOLENCE

Safety and security measures have been established at the company to help prevent the likelihood of workplace violence. These include issuing employee access cards, providing adequate lighting in garages, offering an escort service after hours, and requiring guests and visitors to sign in at the front desk.

While there is no exact method to predict which persons will become violent, there are warning signs. These include:

- An employee who has irrational beliefs and ideas, verbally threatens a co-worker or devises a plan to do harm to an individual.
- An employee who is fascinated with weapons
- A person who displays unwarranted anger or an erratic change in mood, appearance or conduct.
- An employee who expresses a lack of concern for the safety of others.

People behaving in such a manner must be immediately reported to the Human Resources or the Safety Officer .

Department: Safety	Department Number: 00615	Effective Date: November 2001	Revision Number: Rev C
Title: EMERGENCY ACTION PLAN			

H) ELEVATOR EMERGENCY

If the elevator stops between floors:

- Stay calm and push the alarm button provided in all elevators.
- Use the elevator telephone or intercom to request help from Heritage Security.
- Wait for assistance.
- Never try to climb out of a stalled elevator unless assisted by a trained emergency crew.

If there is a building fire, blackout or power failure:

- Use the stairways and leave the building by way of designated emergency exits.
- Avoid using elevators because fire can interrupt the flow of electricity to the elevator system or emergency crews may need the elevators for rescue work.

If you are in an elevator when the fire alarm sounds:

- Don't panic. Most modern elevators are designed to return you to the lobby immediately.

Can an elevator fall?

Elevators are equipped with safety features that make it virtually impossible for them to fall. Steel cables raise and lower the elevator, any one of which is strong enough to support the weight of the entire elevator. The cables attached to the elevator can support the weight of the car plus the maximum allowable weight of the passengers. A counter weight is attached to the other end of the cables to balance the weight of the car.

If an elevator should overspeed during descent, two emergency features would automatically intervene. First, a switch turns off the elevator's drive power. Second, spring-loaded wedges, called "safeties", grip the guide rail. Since the guide rail is securely fastened to the building structure, it is virtually impossible for a car to fall.

This Emergency Action Plan is hereby approved:

Security Measures:

No access is allowed in the laboratory spaces without a company-provided identification card that will open the security doors.

Only two, trained employees are authorized to operate the AMSCO sterilizer in the Media Lab for the purpose of medical waste treatment.

Autoclaved medical waste is delivered to the dedicated dumpster located in the underground parking garage on level P-2 just prior to pick-up by Waste Management Inc.

Underground parking garage is also secured by electronic gating system and security detail 24/7. The same identification card system used in the lab spaces is also utilized in the parking garage.

GENERATION AND STORAGE OF BIOHAZARDOUS WASTE:

Describe below the type and quantity of biohazardous waste generated and managed at this facility. SEE SAMPLE PLAN AND ATTACHMENT FOR DEFINITION OF TERMS USED IN THIS PLAN

BIOHAZARDOUS WASTE Sharp Waste Needles/syringes/slides	≤50	Sharps containers	Autoclave	✓		N/A
Non-sharp Waste Articles containing Fluid Blood (gauze, bandages, tubing, etc.)	≤75 ≤25	red bags	Autoclave	✓		N/A
Solids (cultures, lab waste, etc.)	≤175	red bags	Autoclave	✓		N/A
Liquids (cultures, urine, etc.)	≤5	red bags/ flasks	sewer	✓		N/A
Trace chemotherapy waste	∅					
Contaminated animal carcasses	∅					
Other	∅					
MEDICAL SOLID WASTE Gloves, empty specimen containers, gauze with dry blood, treated biohazardous waste	N/A	regular trash bag	N/A	N/A	N/A	locked to dumpster COAST WASTE Mgmt

* If applicable, attach a copy of biohazardous waste hauler contract or Limited Quantity Hauler exemption.

Biohazardous WASTE STORAGE LOCATION: [Please check the appropriate box(es)].

Biohazardous Waste: Inside establishment in secured area Outside in posted, secure area
 Medical Solid Waste: Inside establishment Outside in Locked/secured dumpster

PERSONNEL TRAINING:

All personnel handling biohazardous waste have been trained in all aspects of this management plan. Training includes the legal definition of biohazardous waste, separation and proper storage, transportation, treatment, and disposal of biohazardous waste. Documentation for completed employee training will be kept onsite.

CERTIFICATION STATEMENT:

I certify that the above management plan is complete and accurate, and that this business will adhere to all aspects of the plan. I further understand that any violation of this plan or any applicable law or regulation may result in legal action.

Safety Document #
SD 001Department Number:
00-61500Effective Date:
Nov / 2001

Revision Number: C

Title: **INJURY AND ILLNESS PREVENTION PROGRAM****APPENDIX****LABORATORY SAFETY RULES****General**

1. A strict "No Smoking, Eating, Drinking, or Application of Cosmetics" rule must be followed and enforced in each laboratory area.
2. Food or drink should not be stored anywhere in the laboratory including cabinets, refrigerators, and freezers.
3. Using or being under the influence of alcohol or illegal drugs while working or on company property is prohibited.
4. No open-toed or open-heeled shoes; i.e. sandals, clogs, Birkenstocks, are to be worn while working in the labs or when walking through the labs.
5. Accidents or injuries, no matter how minor or insignificant, should be reported to your manager immediately.
6. Report unsafe conditions you may observe to your manager immediately.
7. If unsure how to operate equipment or perform any assigned task inform your manager before proceeding.
8. Unsafe acts and risk taking will not be tolerated in the laboratories.
9. Visitors and vendors may not enter or remain in laboratories unless accompanied by an employee.

Housekeeping

10. Keep all areas neat and clean. You are responsible for cleaning all equipment used and the area around it in a timely manner. This includes the biological safety cabinets and fume hoods.
11. Thoroughly rinse all materials before you put them on the Media dish cart to be cleaned. If toxic, corrosive, radioactive, or possibly infectious materials have been in the container, you must decontaminate the container before sending to be cleaned.
12. All reagents, chemicals and equipment should be returned to the proper place of storage when work is finished.

Ergonomics

13. If a repetitive task causes you discomfort report it to your supervisor immediately.
14. Do not lift an item that is bulky, awkward, or too heavy to be lifted safely.

Personal Protective Equipment

15. Personal protective equipment should be worn or used as designated by company safety policy, in procedures, or as designated by area. This rule applies to all visitors and contracted workers in areas requiring such protection. The manager of the area will ensure that such equipment is supplied to visitors.
16. Personal protective equipment should fit properly, be replaced when damaged or contaminated, and not be disinfected or re-used if designed to be "disposable".
17. Cuts, abrasions or breaks in the integrity of the skin, especially the hands, whether acquired on or off the job should be properly protected; i.e. band aids, finger cots, or disposable gloves, prior to doing any subsequent work in the lab.
18. Before leaving a laboratory work area, or after removing personal protective equipment (PPE) hands must be thoroughly washed. Keep hands away from your face, mouth and eyes when working with laboratory materials.
19. Mouth pipetting is strictly prohibited in all laboratories.

Emergencies

20. Know where safety equipment; i.e. absorbent spill pads, emergency eyewash, shower, fire extinguisher, and fire blanket, is located and be familiar with the use of such equipment.
21. Know the primary and secondary evacuation routes for the area you are located and where the exits lead. Count the doors to the exits. Know where your safe refuge area is.
22. When the Life System Alarm is activated begin evacuation procedures immediately.

Biohazards

23. All biohazard containers, plastic or bags must be labeled with the company's name and address. When the red, biohazard bags are used to collect contaminated waste, they must be double-bagged with both inner **and** outer bags labeled with the company name and address. **No SHARPS objects can be placed in the biohazard waste bags !**
24. Routinely clean or decontaminate equipment and work surfaces that may come in contact with blood or body fluids. Wear PPE when cleaning contaminated equipment.
25. Use a biological safety cabinet for procedures likely to produce bioaerosols or droplets; i.e. vigorous mixing, blending, etc.

Safety Document #
SD 001Department Number:
00-61500Effective Date:
Nov / 2001

Revision Number: C

Title: **INJURY AND ILLNESS PREVENTION PROGRAM****APPENDIX E (LABORATORY SAFETY RULES Continued)**

26. Centrifuges should be covered and locked when in use. If the centrifuge is designed for use with bucket covers they must be used when centrifuging blood or body fluids.

Radioactive Materials

27. Radioactive material and waste must be handled and disposed of in accordance with the company's Radiation Safety Program. Only authorized users recognized by the Safety Office are permitted to handle radioactive materials.
28. Protect our radioactive material license by ensuring external doors are kept closed and secured.

Sharps

29. Dispose of glass and other sharp waste in puncture-proof containers. Ensure a company address label is affixed to the container.
30. Do not attempt to recap, break, or bend needles before disposing in puncture-proof containers. Manipulation of needles, when necessary, shall be performed using a one-hand technique.
31. All broken glass must be carefully wiped off counters and table tops with a damp cloth to prevent slivers of glass from cutting hands, arms and elbows.

Fire Protection

32. Flammable liquids should be kept in designated storage places and stored only in quantities necessary for current work. If the flammable volume is greater than 500 milliliters it must be stored in a flammable storage cabinet or in a safety can. Flammables may only be stored in refrigerators that are explosion proof.
33. Keep volatile or flammable materials away from flame and heat and use a fume hood when handling these materials. Wear appropriate personal protective equipment when working with volatile materials.
34. The use of extension cords as permanent power supplies is prohibited. Power strips must never be plugged into each other.
35. Do not handle electrical connections with wet hands or when standing on a damp floor. Report defective cords or other defective electrical equipment to Facilities to ensure proper repair or replacement.
36. All new electrical equipment should be evaluated for electrical safety prior to being utilized.
37. Keep Fire Doors closed at all times. Fire Doors have metal arms extending from the top.
38. The width of corridors is regulated by state fire codes and must be kept free and clear to allow a maximum number of occupants along the route in the shortest possible amount of time. Keep corridors free and clear at all times.
39. Do not store combustible materials on the floor.
40. Report defective lights in Exit signs to the Facilities Department.

Hazardous Materials

41. All laboratory materials, bottles, specimens, etc should be plainly labeled. Report any unlabeled items to your supervisor immediately so they can be labeled properly.
42. Know the location of Material Safety Data Sheets for all hazardous materials in your work area.
43. Learn the proper way to store all of our chemicals, and be aware of incompatible chemicals. Chemicals that are incompatible should be separated in storage areas.
44. Be able to recognize chemicals that are hazardous and flammable. Chemicals must be labeled with identification of contents and possible hazards.
45. Concentrated organic solvent wastes, including flammables and silver, must never be discharged to the sewer. Report such wastes to the Safety Coordinator if an established waste stream collection container is not available.
46. Hazardous waste containers must always be stored in secondary containers.
47. Any spills, chemical or otherwise, solid or liquid, must be reported to your supervisor immediately. The spill should be cleaned thoroughly. If the material spilled emits hazardous vapors, the area must be evacuated and the spill cleaned up by personnel using proper protective equipment and materials. Spills of biological fluids should be cleaned up using a fresh 1:10 dilution of household bleach.
48. When mixing acids with water always pour acid into water, never water into acid. Pour strong acids or alkalis slowly down the side of the receiving container to prevent splashing.
49. Use bottle carriers to transport large glass containers of hazardous materials.
50. Gas cylinders must be chained firmly to walls or dollies at all times. Safety glasses must be worn when dispensing gases from cylinders.

Effective Date: November 1998
Title: Bloodborne Pathogen Exposure Control Plan

EMPLOYEE TRAINING → CONDUCTED 1X year.

Maintenance of employee training records is the responsibility of the Safety Department.

- Training under the bloodborne pathogen requirements provides an opportunity for interactive questions and answers with the person conducting the training session. Training and annual re-training is documented and consists of:
 - an explanation of the regulations.
 - epidemiology and symptoms of bloodborne diseases.
 - modes of transmission of bloodborne pathogens,
 - exposure control plan.
 - methods for recognizing tasks and other activities that may involve exposure to blood and other potentially infectious materials.
 - types, use, location, removal, handling, decontamination and disposal of personal protective equipment. + waste materials.
 - use and limitations of methods for preventing or reducing exposure.
 - explanation of the basis for selecting personal protective equipment.
 - safety, efficacy, means of administration and benefits of the Hepatitis B vaccination and the fact that there is no cost to the employee.
 - actions to take and persons to notify in the event of an emergency involving blood or other potentially infectious materials.
 - procedures to follow if an exposure incident occurs and the method of reporting the incident and the medical follow-up that will be made available.
 - post-exposure evaluation and follow-up procedures that are provided for the employee.
 - labels, signs and color codes.

RECORD KEEPING

Maintenance of the following records is the responsibility of the Human Resources Department.

- A medical record will be kept for each employee with occupational exposure to human blood or other potentially infectious materials that includes the name; Social Security Number; Hepatitis vaccination status and dates of vaccination (if any) and medical records relating to the employee's ability to receive this vaccination; copy of the results of examinations, medical testing and follow-up procedures resulting from an exposure incident; a copy of the health care professional's written opinion; and copies of the exposure incident reporting and documentation.
- Medical records will be kept confidential and will not be disclosed or reported without the employee's express written consent to any person within or outside the workplace except as required by the regulation or may be required by law. These records will be maintained for at least the duration of employment plus 30 years.

MEMO

To: Safety Files

From: Daniel Mac Neil – Safety Officer

Date: March 11, 2002

Re: **Closure Plan and Monitoring Schedule for Medical Waste Treatment Area**

Enclosed are the procedures and estimated costs associated with the closure and decontamination of the Media Lab where medical waste treatment is currently performed.

Procedure:	Cost:
1) The sterilizer and related equipment will be disassembled and removed by a Steris Corporation technician.	\$ 550.00
2) The Media Lab will be cleaned by Pegasus Cleaning Services.	\$300.00
3) In-house spore testing will be conducted to determine the presence of any residual biohazardous contamination.	\$100.00
4) Notification of closure to DEH – Hazardous Materials Division.	\$0.00
<hr/>	
Total Cost:	\$950.00

Monitoring Schedule:

-Monitoring is currently performed and documented once a month in the AMSCO sterilizer using sterilization indicators sold by Propper (Temptubes).

These indicators (ampules) are placed in the chamber during sterilization and if a color change is observed then the unit is considered to be working properly.

John,

Good afternoon. Anna asked to give you the cost for the cleaning and sanitizing the cold room. It was \$150.00.

Respectfully,

Gisella Fernandez

COMPLIANCE INSPECTION REPORT

BUSINESS NAME Depotech Corporation

ADDRESS 11025 N Torrey Pines Rd

CITY/ZIP La Jolla CA 92037

On the above date an inspection of your business/facility was conducted in order to determine compliance with the California Health and Safety Code (H&S) Chapters 6.5, 6.7, 6.95; Titles 19, 22 and 23 of the California Code of Regulations (CCR); and the San Diego County Code (SDCC). The following remarks are intended to provide guidance to correct the violations noted on the attached violation report.

Processed 3/29/96 HSC

Office Use Only

R

Violations : MAR 0 5 1996

1) Clear plastic bags of trash were observed piled up in front of two 55 gallon black metal drums containing hazardous waste carbon with chloroform (next to dumpster area in front of receiving).

To comply: Keep areas around hazardous waste drums free of obstructions to provide for emergency access and inspection.

2) Drums of hazardous waste, chloroform, 3 bottles of expired sodium hydroxide, and 2 bottles of expired sulfuric acid are stored in the same storage cabinet (receiving area).

To comply: segregate incompatible wastes and materials with secondary containment and/or separate storage areas.

3) Hazardous materials business plan is not maintained on site at 11025 N. Torrey Pines Rd. Plan is kept at 10450 Science Center Dr.

To comply: Maintain a copy of the business plan on site for immediate access and review.

RE: Delinquent fee
Depotech Corp.
11025 N Torrey Pines Rd.
La Jolla, CA 92037

On 2/8/96 I did an inspection of Depotech (H19659) at 11011/11025 Torrey Pines Rd, La Jolla 92037. This H# permit covered both the 11025 and 11011 sites for Depotech. In October of 1995, Depotech moved out of the 11025 address but remained in the 11011 address. The October 1995 Health Permit payment from Depotech was credited to the wrong permit (H35405). H35405 has been billed for payment in February 1996.

Please credit the 1995 payment to the new H# (H36185) and keep the expiration date as 10/31. H36185 was just assigned to Depotech as of the 2/8/96 inspection.

Sincerely,

Matt Trainor 694-2875

- Facility not designed to minimize release 66265.31
- Spill control equip not available 66265.32
- Aisle space is obstructed 66265.35
- Contingency plan not prepared and/or on file 66265.51, 66265.53

MISCELLANEOUS

- Waste oil contaminated 25250.7
- Used oil filters improperly managed 66266.130
- Damaged batteries improperly managed 66266.81
- Facility has failed to notify local CUPA and DTSC of onsite treatment of hazardous waste (tiered permitting)
- Onsite treatment of waste without authorization 25201

III HAZARDOUS MATERIALS BUSINESS PLAN REQUIREMENTS:

RECORD KEEPING

- Health Permit not obtained SDCC 68.1105
- Business Plan not established/implemented 25503.5
- Business Plan not submitted to HMMMD 25505
- Business Plan not amended 25505
- Personnel Training Records not available 19 CCR 2732

RELEASE REPORTING

- Failure to report a release/threatened release 25507

II UNDERGROUND STORAGE TANK (UST) REQUIREMENTS:

GENERAL UST REQUIREMENTS

- Health Permit not obtained 68.1005, 25284
- Repair/modify/close permit not obtained 68.1005
- UST Permit Application not submitted 25286(a)
- Operating permit conditions violated 2712
- Failed to notify HMMMD of changes 25284
- No owner/operator agreement 25284
- No records of financial coverage 25292.2
- No maint/monit/calib records available 2712(b), 2641(j)
- Monitoring Equip. not tested annually 2630, 2641

MONITORING REQUIREMENTS (SINGLE WALL)

- Leak Detection Method does not meet performance standards 2643
- Integrity test not conducted 25292
- Copy of tank test not submitted to HMMMD within 30 days 2643
- Manual tank gauging (<2000 gal) 2645 not done properly
- Reconciliation not done properly 2646
- Reconciliation not approved for facility 2646
- Dispenser meter(s) not calib annually 2646
- Improper liquid measurements 2646
- Stick in poor condition 2646
- Improper monthly reconciliation 2646
- Failed to report excessive variation 2646
- Pressurized Product Piping Leak Device not tested annually 25292
- No written monitoring procedure 2641
- No written emergency response plan 2641
- SIR reporting incorrectly done 2646.1

MONITORING REQUIREMENTS (DOUBLE WALL)

- Monitoring system not functional 2632
- No written monitoring procedure 2632
- Written emergency response plan not available 2632
- Spill/Overfill equip. not maintained or installed 2635

RELEASE REPORTING

- Failure to report an unauthorized release 25295
- Release record log not available 2651, 2650
- No leak report/investigation/action 2652

CLOSURE

- Temporary closure req. not completed 2671
- Unused tank not properly closed 25298
- Permanent closure req. not completed 2672
- Failed to apply for temporary closure 25298

BUSINESS PLAN ELEMENTS

- Emergency Response Plan inadequate 25504
- Emergency Contacts not provided/current 25509
- Personnel Training Program inadequate 25504
- Inventory is incomplete 25504
- Site Map is not sufficient 25509
- Acutely Haz. Mat. not registered 25533

ALL VIOLATIONS MUST BE CORRECTED. PLEASE CALL (619) 338-2222 OR YOUR INSPECTOR IF YOU HAVE ANY QUESTIONS.

COMPLIANCE INSPECTION REPORT

BUSINESS NAME DEPOTECH CORPORATION
 ADDRESS 11011 N TORREY PINES RD
 CITY/ZIP LA JOLLA 92037

On the above date an inspection of your business/facility was conducted in order to determine compliance with the California Health and Safety Code (H&S) Chapters 6.5, 6.7, 6.95; Titles 19, 22 and 23 of the California Code of Regulations (CCR); and the San Diego County Code (SDCC). The following remarks are intended to provide guidance to correct the violations noted on the attached violation report.

JUL 21 1998

P: 7/22/98 (C)

Office Use Only

ROUTINE INSPECTION VIOLATIONS:

1) MEDICAL WASTE MGMT PLAN IS UNAVAILABLE. ANNUALLY UPDATE AND MAINTAIN ON SITE THE MEDICAL WASTE MGMT PLAN. WITHIN 15 DAYS, COMPLETE AND SUBMIT A COPY OF THIS PLAN TO THE ADDRESS BELOW.

2) THERE ARE TWO-30 GALLON WASTE PHARMACEUTICAL DRUMS LABELED "EXPIRED PHARMACEUTICAL WASTE." LABEL PHARMACEUTICAL WASTE DRUMS WITH THE WORDS "INCINERATION ONLY."

REMARKS:

- HAZARDOUS MATERIALS BUSINESS PLAN ON SITE.
- HAZARDOUS WASTE MANIFESTS ON FILE.
- MEDICAL WASTE TRACKING DOCUMENTS ON FILE.
- EMPLOYEE TRAINING DOCUMENTATION OBSERVED.
- HEALTH PERMIT EXPIRES 5-31-99.

MEDICAL WASTE GENERATOR REQUIREMENTS

BUSINESS ADDRESS: 11011 N TORREY PINES RD LA JOLLA, CA ZIP: 92037

VIOLATION REPORT: The items checked below refer to specific section numbers of the California Health and Safety Code Sections 25100 and 117600 et. al.; the San Diego County Code of Regulatory Ordinances Sections 68.1201 et. al.; and the California Code of Regulations, Title 22 Sections 65600 et. al. and 66262.10 et. al. All violations must be corrected. Please call (619) 338-2222 or your Inspector if you have any questions.

GENERAL REQUIREMENTS:

- [] An Environmental Health Permit as a medical waste generator has not been obtained. 68.1203, 68.1204, and 117705 V4101 W
[] Unlawful disposal of untreated medical waste to an unauthorized point. 118340 V4102 W
[] Improper treatment of medical waste using an unapproved method or procedure. 118215 V4103 W
[] Medical SOLID WASTE is not stored in a locked trash receptacle or enclosure so as to deny access to unauthorized persons. 68.1202 V4104 W
[] Improper clipping or cutting of sharps waste at the point of generation. 68.1205 V4105 W
[] Medical waste was not separated from other waste at the point of origin. 118275 V4106 W
[] Generator has not maintained reusable containers/bins for medical waste storage in a clean and sanitary manner. 118295 and 118305 V4107 W
[] Storage time exceeded for frozen medical waste, e.g. greater than 90 days. 118280 V4108 W
[] Generator did not clean-up a leak or spill of medical waste in an approved manner. 118300 V4109 W
[] Generator has not secured the enclosure or designated accumulation area for medical waste containers so as to deny access to unauthorized persons. 118310 V4110 W
[] Operator did not post an approved and legible biohazardous waste "warning sign" in English and Spanish at the waste storage area(s). 118310 V4111 W
[] Generator did not store medical waste in approved and properly marked red bags (non-sharps). 118275 V4112 W
[] Did not place a label with the generator's name, address, and phone number on the outside of the red bag and/or sharps container. 68.1201 and 68.1205 V4113 W
[] Generator did not store sharps waste in approved and properly marked sharps container. 118275 V4114 W
[] Transportation of medical waste without State Hauler Registration or without a limited-quantity hauling exemption from County HMMD. 118025 V4115 W
[] Generator did not have standardized written operating procedures for a steam sterilizer available onsite. 118215 V4116 W
[] Did not have recording thermometer checked for calibration annually. 118215 V4117 W
[] Generator did not maintain records of thermometer calibration checks for at least 3 years. 118215 V4118 W
[] Operator did not use heat-sensitive tape or other approved method for each load of medical waste treated onsite. 118215 V4119 W
[] Need to use a biological indicator or other approved method at least once a month to confirm proper disinfection conditions. 118215 V4120 W
[] Must tie-off red bags to prevent leakage or expulsion of contents during handling and storage. 118280 V4121 W
[] Did not containerize and place red bags in rigid, leak resistant, and covered containers or bins. 118280 V4122 W
[] Must have waste container/bin labeled on the lid and side so as to be clearly visible. 118280 V4123 W
[] Did not tape closed or tightly-lid a full sharps container ready for disposal, to preclude loss of contents. 118285 V4124 W

- [] Maximum holding time exceeded for non-putrescible medical waste, e.g. greater than 180 days. 68.1203 V4033 W

LARGE QUANTITY WASTE GENERATORS:

- (> 200 pounds of waste in a month)
[] Medical Waste Management Plan has not been submitted to County HMMD (Annual Requirement). 117960 and 68.1206 V4034 W
[] Must maintain and show proof of "onsite" medical waste treatment records for 3 years. 118215 and 117975 V4035 W
[] Generator did not retain on file disposal receipts and/or tracking documents for waste shipped offsite for at least 3 years. 117975 V4036 W
[] Storage time exceeded for full sharps container(s), e.g. greater than 7 days at room temperature. 118285 V4037 W
[] Storage time exceeded for red bag waste, e.g. more than 7 days at room temperature. 118280 V4038 W

PATHOLOGY WASTE AND CHEMOTHERAPY WASTE HANDLING:

- [] Did not segregate chemotherapy waste from other medical waste. 118275 V4039 W
[] Generator did not label container holding chemotherapy waste with the words "chemotherapy waste" or other approved markings on the lid and sides. 118275 V4040 W
[] Did not segregate pathology waste from other medical waste. 118275 V4041 W
[] Generator did not label container holding pathology waste with the words "pathology waste" or other approved markings on the lid and side. 118275 V4042 W
[] Unlawful disposal of pathology waste or chemotherapy waste to an unauthorized point. 118340 V4043 W

PHARMACEUTICAL WASTE HANDLING:

- [] Generator did not segregate pharmaceutical waste from other medical waste. 118275g V4044 W
[] Generator did not label container holding pharmaceutical waste with the words "incineration only" or other approved markings on the lid and side. 118275g V4045 W
[] Storage time exceeded for pharmaceutical waste, e.g. more than 90 days. (> 10 pounds per calendar year generated) 118280e V4046 W
[] Very small quantity generator of pharmaceutical waste (e.g. < 10 pounds waste /calendar year) improperly storing waste for longer than one year. 118280e V4047 W
[] Unlawful disposal of pharmaceutical waste to an unauthorized point. 118340 and 118222 V4048 W

ON-SITE MEDICAL WASTE TREATMENT FACILITY REQUIREMENTS:

- [] Operator has not obtained an onsite medical waste treatment permit from the County. 117950, 118130, 118155, and CCR 65620 V4049 W
[] Must maintain an updated and complete copy of the medical waste treatment permit onsite and available for review. CCR 65621(f), 65623, 118165, and 118180 V4050 W
[] Did not comply with a condition of the medical waste treatment permit issued by the County. CCR 65623 V4051 W

PHOTOCHEMICAL and HAZARDOUS WASTE MGMT. AND DISPOSAL:

- [] Illegal disposal of photoprocessing/ hazardous waste to the sewer, trash, etc. 25189.5 V4052 W
[] Generator has not maintained waste disposal records, e.g. manifests/milk-run receipts, onsite for 3 years. 66262.40 V4053 W
[] Generator has not obtained an EPA Identification Number from the State DTSC for hazardous waste generation, e.g. photoprocessing/hazardous waste. 66262.12 V4054 W
[] Generator did not properly label the container holding hazardous waste. 66262.34 V4055 W
[] Generator did not maintain the container holding hazardous waste tightly closed except when adding or removing waste. 66265.173 V4056 W
[] Generator did not submit a notification to the County prior to treating photochemical waste onsite (e.g. > 10 gallons/month; tiered permitting). 25201.5 V4057 W

SMALL QUANTITY GENERATOR REQUIREMENTS:

- (< 200 pounds per month of waste)
[] Medical Waste Management Plan has not been submitted to County HMMD (Annual Requirement) 68.1206 and 117935 V4025 W
[] Must maintain and show proof of "onsite" medical waste treatment records for 3 years. 118215 and 117943 V4026 W
[] Generator did not retain on file disposal receipts and/or tracking documents for waste shipped offsite for at least 2 years. 117945 V4027 W
[] Need to apply for and receive a limited-quantity hauling exemption for "self-hauled" medical waste (< 20 pounds of waste per week). 118030 and 118025 V4028 W
[] Did not renew a limited-quantity hauling exemption annually. 118030 V4029 W
[] Storage time exceeded for full sharps container(s), e.g. greater than 7 days at room temperatures (for > 20 pounds/month generator). 118285 V4030 W
[] Storage time exceeded for red bag waste, e.g. more than 7 days at room temperature (> 20 pounds/month generator). 118280 V4031 W
[] Very small quantity generator (e.g. < 20 pounds per month) improperly storing waste for greater than 30 days onsite at room temperature. 118280 V4032 W

STORAGE AND HANDLING

- Waste stored longer than 90, 180, or 270 days 66262.34 V0221 W
- Failure to clean up hazwaste off of floor surface 66262.108 V0313 W
- Waste container missing/improperly labeled 66262.34 V0222 W
- Haz Materials not properly labeled 25124 V0223 W
- Waste container not kept closed 66265.173 V0202 W
- Waste container in poor condition 66265.171 V0205 W
- Waste container(s) not properly managed 66265.173 V0210 W
- Damaged container not repackaged 66265.171 V0226 W
- Container incompatible with waste 66265.172 V0207 W
- Incompatibles in the same container 66265.177 V0224 W
- Incompatibles not stored separately 66265.177 V0213 W
- Ignitable Waste less than 50 feet 66265.176 V0214 W
- Ignitable Waste not grounded 66265.31 V0215 W
- Storage area not inspected weekly 66265.174 V0216 W

DISPOSAL AND TRANSPORTATION

- Unauth. disposal of waste to 25189.5 V0313 W
- Waste determination not made 66262.11 V0319 W
- Unlawful transport of haz. waste 25163 V0315 W
- Waste transported without manifest 66262.20 V0316 W
- Extremely Haz Waste Permit not obtained 25205.7 V0317 W

TRAINING, CONTINGENCY PLAN & EMERGENCY PROCEDURES

- Training records unavailable 66265.16 V0405 W
- Training program not adequate 66265.16 V0406 W
- Facility not designed to minimize release 66265.31 V0501 W
- Spill control equip not available 66265.32 V0508 W
- Aisle space is obstructed 66265.35 V0509 W
- Contingency plan not prepared and/or on file 66265.51, 66265.53 V0609 W

MISCELLANEOUS

- Waste oil contaminated 25250.7 V0225 W
- Used oil filters improperly managed 66266.130 V0701 W
- Damaged batteries improperly managed 66266.81 V0702 W
- Facility has failed to notify local CUPA and DTSC of onsite treatment of hazardous waste (tiered permitting) V0125 W
- Onsite treatment of waste without authorization 25201 V0125 W

II UNDERGROUND STORAGE TANK (UST) REQUIREMENTS:

GENERAL UST REQUIREMENTS

- Health Permit not obtained 68.1005, 25284 V3002 T
- Repair/modify/close permit not obtained 68.1005 V3007 T
- UST Permit Application not submitted 25286(a) V3010 T
- Operating permit conditions violated 2712 V3011 T
- Failed to notify HMMD of changes 25284 V3012 T
- No owner/operator agreement 25284 V3005 T
- No records of financial coverage 25292.2 V3013 T
- No maint/monit/calib records available 2712(b), 2641(j) V3001 T
- Monitoring Equip. not tested annually 2630, 2641 V3003 T

MONITORING REQUIREMENTS (SINGLE WALL)

- Leak Detection Method does not meet performance standards 2643 V3014 T
- Integrity test not conducted 25292 V3015 T
- Copy of tank test not submitted to HMMD within 30 days 2643 V3016 T
- Manual tank gauging (<2000 gal) 2645 not done properly V3017 T
- Reconciliation not done properly 2646 V3018 T
- Reconciliation not approved for facility 2646 V3019 T
- Dispenser meter(s) not calib annually 2646 V3020 T
- Improper liquid measurements 2646 V3021 T
- Stick in poor condition 2646 V3022 T
- Improper monthly reconciliation 2646 V3023 T
- Failed to report excessive variation 2646 V3024 T
- Pressurized Product Piping Leak Device not tested annually 25292 V3025 T
- No written monitoring procedure 2641 V3027 T
- No written emergency response plan 2641 V3027 T
- SIR reporting incorrectly done 2646.1 V3004 T

MONITORING REQUIREMENTS (DOUBLE WALL)

- Monitoring system not functional 2632 V3026 T
- No written monitoring procedure 2632 V3027 T
- Written emergency response plan not available 2632 V3028 T
- Spill/Overfill equip. not maintained or installed 2635 V3029 T

RELEASE REPORTING

- Failure to report an unauthorized release 25295 V3009 T
- Release record log not available 2651, 2650 V3030 T
- No leak report/investigation/action 2652 V3031 T

CLOSURE

- Temporary closure req. not completed 2671 V3006 T
- Unused tank not properly closed 25298 V3032 T
- Permanent closure req. not completed 2672 V3033 T
- Failed to apply for temporary closure 25298 V3008 T

III HAZARDOUS MATERIALS BUSINESS PLAN REQUIREMENTS:

RECORD KEEPING

- Health Permit not obtained SDCC 68.1105 V2001 W
- Business Plan not established/implemented 25503.5 V2002 W
- Business Plan not submitted to HMMD 25505 V2007 W
- Business Plan not amended 25505 V2003 W
- Personnel Training Records not available 19 CCR 2732 V2302 W

RELEASE REPORTING

- Failure to report a release/threatened release 25507 V2008 W

BUSINESS PLAN ELEMENTS

- Emergency Response Plan inadequate 25504 V2201 W
- Emergency Contacts not provided/current 25509 V2203 W
- Personnel Training Program inadequate 25504 V2301 W
- Inventory is incomplete 25504 V2005 W
- Site Map is not sufficient 25509 V2202 W
- Acutely Haz. Mat. not registered 25533 V2009 W

ALL VIOLATIONS MUST BE CORRECTED. PLEASE CALL (619) 338-2222 OR YOUR INSPECTOR IF YOU HAVE ANY QUESTIONS.

MEDICAL WASTE GENERATOR REQUIREMENTS

BUSINESS ADDRESS: 11011 N TORREY PINES RD LA JOLLA, CA 92037

VIOLATION REPORT: The items checked below refer to specific section numbers of the California Health and Safety Code Sections 25100 and 117600 et. al.; the San Diego County Code of Regulatory Ordinances Sections 68.1201 et. al.; and the California Code of Regulations, Title 22 Sections 65600 et. al. and 66262.10 et. al. All violations must be corrected. Please call (619) 338-2222 or your Inspector if you have any questions.

GENERAL REQUIREMENTS:

- [] An Environmental Health Permit as a medical waste generator has not been obtained. 68.1203, 68.1204, and 117705 V4101 W
[] Unlawful disposal of untreated medical waste to an unauthorized point. 118340 V4102 W
[] Improper treatment of medical waste using an unapproved method or procedure. 118215 V4103 W
[] Medical SOLID WASTE is not stored in a locked trash receptacle or enclosure so as to deny access to unauthorized persons. 68.1202 V4104 W
[] Improper clipping or cutting of sharps waste at the point of generation. 68.1205 V4105 W
[] Medical waste was not separated from other waste at the point of origin. 118275 V4106 W
[] Generator has not maintained reusable containers/bins for medical waste storage in a clean and sanitary manner. 118295 and 118305 V4107 W
[] Storage time exceeded for frozen medical waste, e.g. greater than 90 days. 118280 V4108 W
[] Generator did not clean-up a leak or spill of medical waste in an approved manner. 118300 V4109 W
[] Generator has not secured the enclosure or designated accumulation area for medical waste containers so as to deny access to unauthorized persons. 118310 V4110 W
[] Operator did not post an approved and legible biohazardous waste "warning sign" in English and Spanish at the waste storage area(s). 118310 V4111 W
[] Generator did not store medical waste in approved and properly marked red bags (non-sharps). 118275 V4112 W
[] Did not place a label with the generator's name, address, and phone number on the outside of the red bag and/or sharps container. 68.1201 and 68.1205 V4113 W
[] Generator did not store sharps waste in approved and properly marked sharps container. 118275 V4114 W
[] Transportation of medical waste without State Hauler Registration or without a limited-quantity hauling exemption from County HMMD. 118025 V4115 W
[] Generator did not have standardized written operating procedures for a steam sterilizer available onsite. 118215 V4116 W
[] Did not have recording thermometer checked for calibration annually. 118215 V4117 W
[] Generator did not maintain records of thermometer calibration checks for at least 3 years. 118215 V4118 W
[] Operator did not use heat-sensitive tape or other approved method for each load of medical waste treated onsite. 118215 V4119 W
[] Need to use a biological indicator or other approved method at least once a month to confirm proper disinfection conditions. 118215 V4120 W
[] Must tie-off red bags to prevent leakage or expulsion of contents during handling and storage. 118280 V4121 W
[] Did not containerize and place red bags in rigid, leak resistant, and covered containers or bins. 118280 V4122 W
[] Must have waste container/bin labeled on the lid and side so as to be clearly visible. 118280 V4123 W
[] Did not tape closed or tightly-lid a full sharps container ready for disposal, to preclude loss of contents. 118285 V4124 W

- [] Maximum holding time exceeded for non-putrescible medical waste, e.g. greater than 180 days. 68.1203 V4033 W

LARGE QUANTITY WASTE GENERATORS:

- (≥ 200 pounds of waste in a month)
[] Medical Waste Management Plan has not been submitted to County HMMD (Annual Requirement). 117960 and 68.1206 V4034 W
[] Must maintain and show proof of "onsite" medical waste treatment records for 3 years. 118215 and 117975 V4035 W
[] Generator did not retain on file disposal receipts and/or tracking documents for waste shipped offsite for at least 3 years. 117975 V4036 W
[] Storage time exceeded for full sharps container(s), e.g. greater than 7 days at room temperature. 118285 V4037 W
[] Storage time exceeded for red bag waste, e.g. more than 7 days at room temperature. 118280 V4038 W

PATHOLOGY WASTE AND CHEMOTHERAPY WASTE HANDLING:

- [] Did not segregate chemotherapy waste from other medical waste. 118275 V4039 W
[] Generator did not label container holding chemotherapy waste with the words "chemotherapy waste" or other approved markings on the lid and sides. 118275 V4040 W
[] Did not segregate pathology waste from other medical waste. 118275 V4041 W
[] Generator did not label container holding pathology waste with the words "pathology waste" or other approved markings on the lid and side. 118275 V4042 W
[] Unlawful disposal of pathology waste or chemotherapy waste to an unauthorized point. 118340 V4043 W

PHARMACEUTICAL WASTE HANDLING:

- [] Generator did not segregate pharmaceutical waste from other medical waste. 118275g V4044 W
[] Generator did not label container holding pharmaceutical waste with the words "incineration only" or other approved markings on the lid and side. 118275g V4045 W
[] Storage time exceeded for pharmaceutical waste, e.g. more than 90 days. (> 10 pounds per calendar year generated) 118280e V4046 W
[] Very small quantity generator of pharmaceutical waste (e.g. < 10 pounds waste /calendar year) improperly storing waste for longer than one year. 118280e V4047 W
[] Unlawful disposal of pharmaceutical waste to an unauthorized point. 118340 and 118222 V4048 W

ON-SITE MEDICAL WASTE TREATMENT FACILITY REQUIREMENTS:

- [] Operator has not obtained an onsite medical waste treatment permit from the County. 117950, 118130, 118155, and CCR 65620 V4049 W
[] Must maintain an updated and complete copy of the medical waste treatment permit onsite and available for review. CCR 65621(f), 65623, 118165, and 118180 V4050 W
[] Did not comply with a condition of the medical waste treatment permit issued by the County. CCR 65623 V4051 W

PHOTOCHEMICAL and HAZARDOUS WASTE MGMT. AND DISPOSAL:

- [] Illegal disposal of photoprocessing/ hazardous waste to the sewer, trash, etc. 25189.5 V4052 W
[] Generator has not maintained waste disposal records, e.g. manifests/milk-run receipts, onsite for 3 years. 66262.40 V4053 W
[] Generator has not obtained an EPA Identification Number from the State DTSC for hazardous waste generation, e.g. photoprocessing/hazardous waste. 66262.12 V4054 W
[] Generator did not properly label the container holding hazardous waste. 66262.34 V4055 W
[] Generator did not maintain the container holding hazardous waste tightly closed except when adding or removing waste. 66265.173 V4056 W
[] Generator did not submit a notification to the County prior to treating photochemical waste onsite (e.g. > 10 gallons/month; tiered permitting). 23201.5 V4057 W

SMALL QUANTITY GENERATOR REQUIREMENTS:

- (< 200 pounds per month of waste)
9 X Medical Waste Management Plan has not been submitted to County HMMD (Annual Requirement) 68.1206 and 117935 V4025 W
[] Must maintain and show proof of "onsite" medical waste treatment records for 3 years. 118215 and 117943 V4026 W
[] Generator did not retain on file disposal receipts and/or tracking documents for waste shipped offsite for at least 2 years. 117945 V4027 W
[] Need to apply for and receive a limited-quantity hauling exemption for "self-hauled" medical waste (< 20 pounds of waste per week). 118030 and 118025 V4028 W
[] Did not renew a limited-quantity hauling exemption annually. 118030 V4029 W
[] Storage time exceeded for full sharps container(s), e.g. greater than 7 days at room temperatures (for > 20 pounds/month generator). 118285 V4030 W
[] Storage time exceeded for red bag waste, e.g. more than 7 days at room temperature (> 20 pounds/month generator). 118280 V4031 W
[] Very small quantity generator (e.g., < 20 pounds per month) improperly storing waste for greater than 30 days onsite at room temperature. 118280 V4032 W

SUPPLEMENTAL INSPECTION REPORT

Office Use Only

BUSINESS ADDRESS: 11011 N. Torrey Pines Rd. ZIP CODE: 92037

inside a 55 gallon drum.

Wayne York stated that the waste was cleaned-up from the floor with absorbent pads and clean-up workers used personal protective equipment (PPE) and supplied air (SCBA). Also, he stated that the waste liquid was removed from the metal drum and placed into a leakproof, closed and labeled plastic drum. Furthermore, the waste absorbents were placed into a leakproof, labeled and closed drum. Lastly, he stated the waste will be disposed as a hazardous waste.

Observations:

- No Steins were observed in the spill area
- Waste drums holding the spill material and waste

COMPLIANCE INSPECTION REPORT

DATE 7/23/01

PAGE 3 OF 3

BUSINESS ADDRESS: 11011 N. Torrey Pines Rd. La Jolla CA 92037

VIOLATION REPORT: The items checked below refer to specific section numbers of Titles 19/22/23 of the California Code of Regulations (CCR), Chapters 6.5, 6.7, 6.95 of the Health and Safety Code (HSC), and/or the San Diego County Code (SDCC).

I HAZARDOUS WASTE REQUIREMENTS:

RECORD KEEPING

- Health Permit not obtained SDCC 68.905 **V0108 W** _____
- No EPA Identification Number 66262.12 **V0105 W** _____
- Waste Manifests/Receipts not on-site for 3 years 66262.40 **V0118 W** _____
- Manifest not properly completed 66262.23 **V0120 W** _____
- Manifest copy not sent to DTSC 66262.23 **V0115 W** _____
- TSDF signed-manifest not on-site 66262.40 **V0121 W** _____
- Biennial report not sent to DTSC 66262.41 **V0122 W** _____
- LDR Documentation not available 66268.7 **V0123 W** _____
- Exception Rpt. not filed with DTSC 66262.42 **V0116 W** _____
- Operating TSDF without authorization 25201 **V0124 W** _____

STORAGE AND HANDLING

- Waste stored longer than 90, 180, or 270 days 66262.34 **V0221 W** _____
- Failure to clean up hazwaste off of floor surface 66262.10b **V0313 W** _____
- Waste container missing/improperly labeled 66262.34 **V0222 W** _____
- Haz Materials not properly labeled 25124 **V0223 W** _____
- Waste container not kept closed 66265.173 **V0202 W** _____
- Waste container in poor condition 66265.171 **V0205 W** _____
- Waste container(s) not properly managed 66265.173 **V0210 W** _____
- Damaged container not repackaged 66265.171 **V0226 W** _____
- Container incompatible with waste 66265.172 **V0207 W** _____
- Incompatibles in the same container 66265.177 **V0224 W** _____
- Incompatibles not stored separately 66265.177 **V0213 W** _____
- Ignitable Waste less than 50 feet 66265.176 **V0214 W** _____
- Ignitable Waste not grounded 66265.31 **V0215 W** _____
- Storage area not inspected weekly 66265.174 **V0216 W** _____

DISPOSAL AND TRANSPORTATION

- Unauth. disposal of waste to _____ 25189.5 **V0313 W** _____
- Waste determination not made 66262.11 **V0319 W** _____
- Unlawful transport of haz. waste 25163 **V0315 W** _____
- Waste transported without manifest 66262.20 **V0316 W** _____
- Extremely Haz Waste Permit not obtained 25205.7 **V0317 W** _____

TRAINING, CONTINGENCY PLAN & EMERGENCY PROCEDURES

- Training records unavailable 66265.16 **V0405 W** _____
- Training program not adequate 66265.16 **V0406 W** _____
- Facility not designed to minimize release 66265.31 **V0501 W** _____
- Spill control equip not available 66265.32 **V0508 W** _____
- Aisle space is obstructed 66265.35 **V0509 W** _____
- Contingency plan not prepared and/or on file 66265.51, 66265.53 **V0609 W** _____

MISCELLANEOUS

- Waste oil contaminated 25250.7 **V0225 W** _____
- Used oil filters improperly managed 66266.130 **V0701 W** _____
- Damaged batteries improperly managed 66266.81 **V0702 W** _____
- Facility has failed to notify local CUPA and DTSC of onsite treatment of hazardous waste (tiered permitting) **V0125 W** _____
- Onsite treatment of waste without authorization 25201 **V0125 W** _____

III HAZARDOUS MATERIALS BUSINESS PLAN REQUIREMENTS:

RECORD KEEPING

- Health Permit not obtained SDCC 68.1105 **V2001 W** _____
- Business Plan not established/implemented 25503.5 **V2002 W** _____
- Business Plan not submitted to HMMD 25505 **V2007 W** _____
- Business Plan not amended 25505 **V2003 W** _____
- Personnel Training Records not available 19 CCR 2732 **V2302 W** _____

RELEASE REPORTING

- Failure to report a release/threatened release 25507 **V2008 W** _____

II UNDERGROUND STORAGE TANK (UST) REQUIREMENTS:

GENERAL UST REQUIREMENTS

- Health Permit not obtained 68.1005, 25284 **V3002 T** _____
- Repair/modify/close permit not obtained 68.1005 **V3007 T** _____
- UST Permit Application not submitted 25286(a) **V3010 T** _____
- Operating permit conditions violated 2712 **V3011 T** _____
- Failed to notify HMMD of changes 25284 **V3012 T** _____
- No owner/operator agreement 25284 **V3005 T** _____
- No records of financial coverage 25292.2 **V3013 T** _____
- No maint/monit/calib records available 2712(b), 2641(j) **V3001 T** _____
- Monitoring Equip. not tested annually 2630, 2641 **V3003 T** _____

MONITORING REQUIREMENTS (SINGLE WALL)

- Leak Detection Method does not meet performance standards 2643 **V3014 T** _____
- Integrity test not conducted 25292 **V3015 T** _____
- Copy of tank test not submitted to HMMD within 30 days 2643 **V3016 T** _____
- Manual tank gauging (<2000 gal) 2645 not done properly **V3017 T** _____
- Reconciliation not done properly 2646 **V3018 T** _____
- Reconciliation not approved for facility 2646 **V3019 T** _____
- Dispenser meter(s) not calib annually 2646 **V3020 T** _____
- Improper liquid measurements 2646 **V3021 T** _____
- Stick in poor condition 2646 **V3022 T** _____
- Improper monthly reconciliation 2646 **V3023 T** _____
- Failed to report excessive variation 2646 **V3024 T** _____
- Pressurized Product Piping Leak Device not tested annually 25292 **V3025 T** _____
- No written monitoring procedure 2641 **V3027 T** _____
- No written emergency response plan 2641 **V3027 T** _____
- SIR reporting incorrectly done 2646.1 **V3004 T** _____

MONITORING REQUIREMENTS (DOUBLE WALL)

- Monitoring system not functional 2632 **V3026 T** _____
- No written monitoring procedure 2632 **V3027 T** _____
- Written emergency response plan not available 2632 **V3028 T** _____
- Spill/Overfill equip. not maintained or installed 2635 **V3029 T** _____

RELEASE REPORTING

- Failure to report an unauthorized release 25295 **V3009 T** _____
- Release record log not available 2651, 2650 **V3030 T** _____
- No leak report/investigation/action 2652 **V3031 T** _____

CLOSURE

- Temporary closure req. not completed 2671 **V3006 T** _____
- Unused tank not properly closed 25298 **V3032 T** _____
- Permanent closure req. not completed 2672 **V3033 T** _____
- Failed to apply for temporary closure 25298 **V3008 T** _____

BUSINESS PLAN ELEMENTS

- Emergency Response Plan inadequate 25504 **V2201 W** _____
- Emergency Contacts not provided/current 25509 **V2203 W** _____
- Personnel Training Program inadequate 25504 **V2301 W** _____
- Inventory is incomplete 25504 **V2005 W** _____
- Site Map is not sufficient 25509 **V2202 W** _____
- Acutely Haz. Mat. not registered 25533 **V2009 W** _____

ALL VIOLATIONS MUST BE CORRECTED. PLEASE CALL (619) 338-2222 OR YOUR INSPECTOR IF YOU HAVE ANY QUESTIONS.

On the above date, an inspection of your business/facility was conducted in order to determine compliance with the California Health and Safety Code (H&S) Chapters 6.5, 6.7, 6.95; Titles 19, 22 and 23 of the California Code of Regulations (CCR); and the San Diego County Code (SDCC). The following remarks are intended to provide guidance to correct the violations noted on the attached violation report.

Send 9/10/01 to file

AUG 22 2001

Office Use Only

This was a Compliance inspection regarding hazardous materials, hazardous waste and biomedical waste management.

During this inspection, the following hazardous waste items were not labeled with a "Hazardous Waste label."

- One Container holding waste pharmaceutical waste
- Three Containers holding waste Carbon.

Corrective Action: Provide a Completed hazardous waste label on the above containers. The label must have the following information: Name, & Address of generator, Physical State, hazard properties, Contents and Discontinuation Start date (Date waste was first put into container). Hazardous waste labels were placed on the above containers during the inspection.

SUPPLEMENTAL INSPECTION REPORT

Office Use Only

BUSINESS ADDRESS: 11011 N. Torrey Pines La Jolla ZIP CODE: 92037

The following containers holding biohazardous waste lacked a "Generator's Identification Label."

3. Biohazardous waste Red Bag

1. Sharps Container holding used Sharps (Microbiology slides) (Biohazardous waste).

Corrective Action: Provide a completed "Generator's Identification Label" on the above containers. The label must have the following information: Name, Address and phone number of Generator.

During this inspection, The medical waste management Plan was unavailable.

Corrective Action: Maintain The medical waste Management Plan on-site. It will be reviewed during our inspection.

Note: The biohazardous waste containers were labeled with "Generator's Identification tags", ~~then~~ during the inspection.

MEDICAL WASTE GENERATOR REQUIREMENTS

PAGE 3 OF 4

BUSINESS ADDRESS: 11011 N. Torrey Pines Rd. La Jolla CA ZIP: 92037

VIOLATION REPORT: The items checked below refer to specific section numbers of the California Health and Safety Code Sections 25100 and 117600 et. al.; the San Diego County Code of Regulatory Ordinances Sections 68.1201 et. al.; and the California Code of Regulations, Title 22 Sections 65600 et. al. and 66262.10 et. al. All violations must be corrected. Please call (619) 338-2222 or your Inspector if you have any questions.

GENERAL REQUIREMENTS:

- [] An Environmental Health Permit as a medical waste generator has not been obtained. 68.1203, 68.1204, and 117705 V4101 W
[] Unlawful disposal of untreated medical waste to an unauthorized point. 118340 V4102 W
[] Improper treatment of medical waste using an unapproved method or procedure. 118215 V4103 W
[] Medical SOLID WASTE is not stored in a locked trash receptacle or enclosure so as to deny access to unauthorized persons. 68.1202 V4104 W
[] Improper clipping or cutting of sharps waste at the point of generation. 68.1205 V4105 W
[] Medical waste was not separated from other waste at the point of origin. 118275 V4106 W
[] Generator has not maintained reusable containers/bins for medical waste storage in a clean and sanitary manner. 118295 and 118305 V4107 W
[] Storage time exceeded for frozen medical waste, e.g. greater than 90 days. 118280 V4108 W
[] Generator did not clean-up a leak or spill of medical waste in an approved manner. 118300 V4109 W
[] Generator has not secured the enclosure or designated accumulation area for medical waste containers so as to deny access to unauthorized persons. 118310 V4110 W
[] Operator did not post an approved and legible biohazardous waste "warning sign" in English and Spanish at the waste storage area(s). 118310 V4111 W
[] Generator did not store medical waste in approved and properly marked red bags (non-sharps). 118275 V4112 W
[X] Did not place a label with the generator's name, address, and phone number on the outside of the red bag and/or sharps container. 68.1201 and 68.1205 V4113 W
[] Generator did not store sharps waste in approved and properly marked sharps container. 118275 V4114 W
[] Transportation of medical waste without State Hauler Registration or without a limited-quantity hauling exemption from County HMMD. 118025 V4115 W
[] Generator did not have standardized written operating procedures for a steam sterilizer available onsite. 118215 V4116 W
[] Did not have recording thermometer checked for calibration annually. 118215 V4117 W
[] Generator did not maintain records of thermometer calibration checks for at least 3 years. 118215 V4118 W
[] Operator did not use heat-sensitive tape or other approved method for each load of medical waste treated onsite. 118215 V4119 W
[] Need to use a biological indicator or other approved method at least once a month to confirm proper disinfection conditions. 118215 V4120 W
[] Must tie-off red bags to prevent leakage or expulsion of contents during handling and storage. 118280 V4121 W
[] Did not containerize and place red bags in rigid, leak resistant, and covered containers or bins. 118280 V4122 W
[] Must have waste container/bin labeled on the lid and side so as to be clearly visible. 118280 V4123 W
[] Did not tape closed or tightly-lid a full sharps container ready for disposal, to preclude loss of contents. 118285 V4124 W

- [] Maximum holding time exceeded for non-putrescible medical waste, e.g. greater than 180 days. 68.1203 V4033 W

LARGE QUANTITY WASTE GENERATORS: (> 200 pounds of waste in a month)

- [] Medical Waste Management Plan has not been submitted to County HMMD (Annual Requirement). 117960 and 68.1206 V4034 W
[] Must maintain and show proof of "onsite" medical waste treatment records for 3 years. 118215 and 117975 V4035 W
[] Generator did not retain on file disposal receipts and/or tracking documents for waste shipped offsite for at least 3 years. 117975 V4036 W
[] Storage time exceeded for full sharps container(s), e.g. greater than 7 days at room temperature. 118285 V4037 W
[] Storage time exceeded for red bag waste, e.g. more than 7 days at room temperature. 118280 V4038 W

PATHOLOGY WASTE AND CHEMOTHERAPY WASTE HANDLING:

- [] Did not segregate chemotherapy waste from other medical waste. 118275 V4039 W
[] Generator did not label container holding chemotherapy waste with the words "chemotherapy waste" or other approved markings on the lid and sides. 118275 V4040 W
[] Did not segregate pathology waste from other medical waste. 118275 V4041 W
[] Generator did not label container holding pathology waste with the words "pathology waste" or other approved markings on the lid and side. 118275 V4042 W
[] Unlawful disposal of pathology waste or chemotherapy waste to an unauthorized point. 118340 V4043 W

PHARMACEUTICAL WASTE HANDLING:

- [] Generator did not segregate pharmaceutical waste from other medical waste. 118275g V4044 W
[] Generator did not label container holding pharmaceutical waste with the words "incineration only" or other approved markings on the lid and side. 118275g V4045 W
[] Storage time exceeded for pharmaceutical waste, e.g. more than 90 days. (> 10 pounds per calendar year generated) 118280e V4046 W
[] Very small quantity generator of pharmaceutical waste (e.g. < 10 pounds waste /calendar year) improperly storing waste for longer than one year. 118280e V4047 W
[] Unlawful disposal of pharmaceutical waste to an unauthorized point. 118340 and 118222 V4048 W

ON-SITE MEDICAL WASTE TREATMENT FACILITY REQUIREMENTS:

- [] Operator has not obtained an onsite medical waste treatment permit from the County. 117950, 118130, 118155, and CCR 65620 V4049 W
[] Must maintain an updated and complete copy of the medical waste treatment permit onsite and available for review. CCR 65621(f), 65623, 118165, and 118180 V4050 W
[] Did not comply with a condition of the medical waste treatment permit issued by the County. CCR 65623 V4051 W

PHOTOCHEMICAL and HAZARDOUS WASTE MGMT. AND DISPOSAL:

- [] Illegal disposal of photoprocessing/ hazardous waste to the sewer, trash, etc. 25189.5 V4052 W
[] Generator has not maintained waste disposal records, e.g. manifests/milk-run receipts, onsite for 3 years. 66262.40 V4053 W
[] Generator has not obtained an EPA Identification Number from the State DTSC for hazardous waste generation, e.g. photoprocessing/hazardous waste. 66262.12 V4054 W
[] Generator did not properly label the container holding hazardous waste. 66262.34 V4055 W
[] Generator did not maintain the container holding hazardous waste tightly closed except when adding or removing waste. 66265.173 V4056 W
[] Generator did not submit a notification to the County prior to treating photochemical waste onsite (e.g. > 10 gallons/month; tiered permitting). 25201.5 V4057 W

SMALL QUANTITY GENERATOR REQUIREMENTS: (< 200 pounds per month of waste)

- [] Medical Waste Management Plan has not been submitted to County HMMD (Annual Requirement) 68.1206 and 117935 V4025 W
[] Must maintain and show proof of "onsite" medical waste treatment records for 3 years. 118215 and 117943 V4026 W
[] Generator did not retain on file disposal receipts and/or tracking documents for waste shipped offsite for at least 2 years. 117945 V4027 W
[] Need to apply for and receive a limited-quantity hauling exemption for "self-hauled" medical waste (< 20 pounds of waste per week). 118030 and 118025 V4028 W
[] Did not renew a limited-quantity hauling exemption annually. 118030 V4029 W
[] Storage time exceeded for full sharps container(s), e.g. greater than 7 days at room temperatures (for > 20 pounds/month generator). 118285 V4030 W
[] Storage time exceeded for red bag waste, e.g. more than 7 days at room temperature (> 20 pounds/month generator). 118280 V4031 W
[] Very small quantity generator (e.g. < 20 pounds per month) improperly storing waste for greater than 30 days onsite at room temperature. 118280 V4032 W

COMPLIANCE INSPECTION REPORT

DATE 6/22/01PAGE 4 OF 4BUSINESS ADDRESS: 11011 N. Torrey Pines Rd. La Jolla CA 92037

VIOLATION REPORT: The items checked below refer to specific section numbers of Titles 19/22/23 of the California Code of Regulations (CCR), Chapters 6.5, 6.7, 6.95 of the Health and Safety Code (HSC), and/or the San Diego County Code (SDCC).

I HAZARDOUS WASTE REQUIREMENTS:

RECORD KEEPING

- Health Permit not obtained SDCC 68.905 **V0108 W**
- No EPA Identification Number 66262.12 **V0105 W**
- Waste Manifests/Receipts not on-site for 3 years 66262.40 **V0118 W**
- Manifest not properly completed 66262.23 **V0120 W**
- Manifest copy not sent to DTSC 66262.23 **V0115 W**
- TSDF signed-manifest not on-site 66262.40 **V0121 W**
- Biennial report not sent to DTSC 66262.41 **V0122 W**
- LDR Documentation not available 66268.7 **V0123 W**
- Exception Rpt. not filed with DTSC 66262.42 **V0116 W**
- Operating TSDF without authorization 25201 **V0124 W**

STORAGE AND HANDLING

- Waste stored longer than 90, 180, or 270 days 66262.34 **V0221 W**
- Failure to clean up hazwaste off of floor surface 66262.10b **V0313 W**
- Waste container missing/improperly labeled 66262.34 **V0222 W**
- Haz. Materials not properly labeled 25124 **V0223 W**
- Waste container not kept closed 66265.173 **V0202 W**
- Waste container in poor condition 66265.171 **V0205 W**
- Waste container(s) not properly managed 66265.173 **V0210 W**
- Damaged container not repackaged 66265.171 **V0226 W**
- Container incompatible with waste 66265.172 **V0207 W**
- Incompatibles in the same container 66265.177 **V0224 W**
- Incompatibles not stored separately 66265.177 **V0213 W**
- Ignitable Waste less than 50 feet 66265.176 **V0214 W**
- Ignitable Waste not grounded 66265.31 **V0215 W**
- Storage area not inspected weekly 66265.174 **V0216 W**

DISPOSAL AND TRANSPORTATION

- Unauth. disposal of waste to 25189.5 **V0313 W**
- Waste determination not made 66262.11 **V0319 W**
- Unlawful transport of haz. waste 25163 **V0315 W**
- Waste transported without manifest 66262.20 **V0316 W**
- Extremely Haz Waste Permit not obtained 25205.7 **V0317 W**

TRAINING, CONTINGENCY PLAN & EMERGENCY PROCEDURES

- Training records unavailable 66265.16 **V0405 W**
- Training program not adequate 66265.16 **V0406 W**
- Facility not designed to minimize release 66265.31 **V0501 W**
- Spill control equip not available 66265.32 **V0508 W**
- Aisle space is obstructed 66265.35 **V0509 W**
- Contingency plan not prepared and/or on file 66265.51, 66265.53 **V0609 W**

MISCELLANEOUS

- Waste oil contaminated 25250.7 **V0225 W**
- Used oil filters improperly managed 66266.130 **V0701 W**
- Damaged batteries improperly managed 66266.81 **V0702 W**
- Facility has failed to notify local CUPA and DTSC of onsite treatment of hazardous waste (tiered permitting) **V0125 W**
- Onsite treatment of waste without authorization 25201 **V0125 W**

III HAZARDOUS MATERIALS BUSINESS PLAN REQUIREMENTS:

RECORD KEEPING

- Health Permit not obtained SDCC 68.1105 **V2001 W**
- Business Plan not established/implemented 25503.5 **V2002 W**
- Business Plan not submitted to HMMMD 25505 **V2007 W**
- Business Plan not amended 25505 **V2003 W**
- Personnel Training Records not available 19 CCR 2732 **V2302 W**

RELEASE REPORTING

- Failure to report a release/threatened release 25507 **V2008 W**

II UNDERGROUND STORAGE TANK (UST) REQUIREMENTS:

GENERAL UST REQUIREMENTS

- Health Permit not obtained 68.1005, 25284 **V3002 T**
- Repair/modify/close permit not obtained 68.1005 **V3007 T**
- UST Permit Application not submitted 25286(a) **V3010 T**
- Operating permit conditions violated 2712 **V3011 T**
- Failed to notify HMMMD of changes 25284 **V3012 T**
- No owner/operator agreement 25284 **V3005 T**
- No records of financial coverage 25292.2 **V3013 T**
- No maint/monit/calib records available 2712(b), 2641(j) **V3001 T**
- Monitoring Equip. not tested annually 2630, 2641 **V3003 T**

MONITORING REQUIREMENTS (SINGLE WALL)

- Leak Detection Method does not meet performance standards 2643 **V3014 T**
- Integrity test not conducted 25292 **V3015 T**
- Copy of tank test not submitted to HMMMD within 30 days 2643 **V3016 T**
- Manual tank gauging (<2000 gal) 2645 not done properly **V3017 T**
- Reconciliation not done properly 2646 **V3018 T**
- Reconciliation not approved for facility 2646 **V3019 T**
- Dispenser meter(s) not calib annually 2646 **V3020 T**
- Improper liquid measurements 2646 **V3021 T**
- Stick in poor condition 2646 **V3022 T**
- Improper monthly reconciliation 2646 **V3023 T**
- Failed to report excessive variation 2646 **V3024 T**
- Pressurized Product Piping Leak Device not tested annually 25292 **V3025 T**
- No written monitoring procedure 2641 **V3027 T**
- No written emergency response plan 2641 **V3027 T**
- SIR reporting incorrectly done 2646.1 **V3004 T**

MONITORING REQUIREMENTS (DOUBLE WALL)

- Monitoring system not functional 2632 **V3026 T**
- No written monitoring procedure 2632 **V3027 T**
- Written emergency response plan not available 2632 **V3028 T**
- Spill/Overfill equip. not maintained or installed 2635 **V3029 T**

RELEASE REPORTING

- Failure to report an unauthorized release 25295 **V3009 T**
- Release record log not available 2651, 2650 **V3030 T**
- No leak report/investigation/action 2652 **V3031 T**

CLOSURE

- Temporary closure req. not completed 2671 **V3006 T**
- Unused tank not properly closed 25298 **V3032 T**
- Permanent closure req. not completed 2672 **V3033 T**
- Failed to apply for temporary closure 25298 **V3008 T**

BUSINESS PLAN ELEMENTS

- Emergency Response Plan inadequate 25504 **V2201 W**
- Emergency Contacts not provided/current 25509 **V2203 W**
- Personnel Training Program inadequate 25504 **V2301 W**
- Inventory is incomplete 25504 **V2005 W**
- Site Map is not sufficient 25509 **V2202 W**
- Acutely Haz. Mat. not registered 25533 **V2009 W**

ALL VIOLATIONS MUST BE CORRECTED. PLEASE CALL (619) 338-2222 OR YOUR INSPECTOR IF YOU HAVE ANY QUESTIONS.

HAZARDOUS MATERIALS BUSINESS PLAN CERTIFICATION

The California Health & Safety Code (H&SC), Division 20, Chapter 6.95, Section 25505 provides for the following:
The San Diego County, Department of Environmental Health, Hazardous Materials Division (HMD), as the administering agency, requires a business that handles hazardous materials to submit the hazardous materials inventory, a list of emergency contacts, and a site plan, in lieu of a complete Hazardous Materials Business Plan (HMBP), only after the initial submittal of a complete HMBP. The business must certify that a complete HMBP has been prepared and is maintained at the site where the hazardous materials are stored. A complete HMBP includes the items to be submitted to the HMD and an Emergency Response Plan and Employee Training Plan, as established in H&SC Section 25504. The business must also annually certify that the HMBP is current and maintained on site. See Back for instructions and further clarification.

I. IDENTIFICATION

II. CERTIFICATION STATEMENT

CARCINOGEN/REPRODUCTIVE TOXIN ANNUAL RENEWAL WITHOUT CHANGES: This is an annual renewal to certify that the list of carcinogens and/or reproductive toxins last provided is a current list as specified in the San Diego County Code of Regulatory Ordinances Section 68.1113.

Check only one of the following boxes:

INITIAL CERTIFICATION: This is to certify (H&SC Section 25505(e)(1)) that a complete HMBP, which includes the hazardous materials inventory, a list of emergency contacts, a site plan, emergency response plan, and employee training plan, has been prepared and is maintained at the site where the hazardous materials are stored.

ANNUAL CERTIFICATION WITHOUT CHANGES: This is an annual certification (H&SC Section 25505(d)&(e)(2)) that the HMBP, which includes the hazardous materials inventory, a list of emergency contacts, a site plan, emergency response plan, and employee training plan, is current and includes all the information required in H&SC Section 25504, and 25509, and is maintained at the site where the hazardous materials are stored.

CERTIFICATION OF CHANGES/REVISIONS: This is to certify that the HMBP has been reviewed (H&SC Section 25505(c) & 25510) and all necessary changes/revisions have been made. The HMBP is current and is maintained at the site where the hazardous materials are stored. Attached are changes to the hazardous materials inventory and/or list of emergency contacts. For site map revisions, submit only the pages that have a change or revision and attach to this certification. This submittal satisfies annual certification requirements specified in H&SC Section 25505(d)&(e)(2).

AS AN AUTHORIZED REPRESENTATIVE, I CERTIFY UNDER THE PENALTY OF LAW, THAT I HAVE PERSONALLY EXAMINED AND AM FAMILIAR WITH THE INFORMATION SUBMITTED AND BELIEVE THE INFORMATION IS TRUE, ACCURATE, AND COMPLETE.

ROUTINE INSPECTION

- NO VIOLATIONS WERE OBSERVED DURING THIS INSPECTION.
- THE HAZARDOUS MATERIALS INVENTORY WAS UPDATED TO INCLUDE THE 60 GALLONS OF ISOPROPANOL.
- THE HAZARDOUS MATERIALS BUSINESS PLAN WAS REVIEWED TODAY.
- A CURRENT MEDICAL WASTE MANAGEMENT PLAN IS ONSITE.

RECEIVED FEB 28 2007

This is an annual certification that the Hazardous Materials Business Plan (inventory, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored.

| <input type="checkbox"/> V4215 | Frozen (0C/32°F) MW stored > 90 days. 118280 |
| <input type="checkbox"/> V4306 | Full sharps container stored > 7 days at room temp. 118285 |
| <input type="checkbox"/> V4307 | Red bag waste stored > 7 days at room temperature (for generators of > 20 lbs/month). 118280 |
| <input type="checkbox"/> V4308 | Red bag waste stored > 30 days at room temperature (for generators of < 20 lbs/month). 118280 |

Treatment and Disposal

- V4251** MW treated by unapproved method/procedure. 118215
- V4252** Standardized written operating procedures for steam sterilization not available. 118215
- V4253** Recording thermometer not calibrated annually. 118215
- V4254** No records of thermometer calibration checks onsite for at least the past 3 years. 118215
- V4255** Heat-sensitive tape/other approved method not used for each load treated onsite. 118215
- V4256** Monthly biological indicator or other approved method not used to confirm proper disinfection. 118215
- V4257** Onsite Steam Sterilization did not reach 121° C/250° F for 30 minutes. 118215
- V4258** Treatment records/logs of dates, time and temperature not available for 3 years. 118215
- V4259** Disposal of untreated MW to an unauthorized point. 118340

Transportation Requirements

- | Violation | Violation Description |
|---------------------------------------|---|
| <input type="checkbox"/> V4260 | Transportation of MW without State Hauler Registration or a (LQHE) from HMD. 118025 |
| <input type="checkbox"/> V4304 | No LQHE for "self-hauled" MW (<20 pounds of waste/wk). 118030, 118025 |
| <input type="checkbox"/> V4305 | LQHE not renewed annually as required. 118030 |
| <input type="checkbox"/> V4311 | Medical Waste tracking documents not in vehicle transporting MW. 118040 |
| <input type="checkbox"/> V4312 | MW tracking documents/logs not maintained for 3 years for LQHE. 118040 |

Small Quantity Generators Only (<200 lbs/mo MW)

- V4301** Medical Waste Mgmt. Plan (MWMP) not submitted to HMD (initial/updates if onsite treatment). 117935
- V4302** Did not maintain or show proof of "onsite" medical waste treatment records for 3 years. 118215, 117943
- V4303** Did not retain on file disposal receipts/tracking documents for waste shipped offsite for 2 years. 117945
- V4309** MWMP or equivalent information not onsite. 117945

Large Quantity Generators Only (>=200 lbs/mo MW)

- V4351** MWMP not submitted to HMD (initial/updates). 117950, 117960, 117970
- V4352** Records of MW treatment not available for 3 years. 118215, 117975
- V4353** Did not retain on file disposal receipts/tracking documents for at least 3 years for waste shipped offsite. 117975

Pathology, Chemotherapy, Pharmac & Hazardous Waste

- V4401** Chemo waste not segregated from other MW. 118275
- V4402** Chemo waste container not properly labeled. 118275
- V4403** Illegal disposal of chemo waste. 118340
- V4411** Pathology waste not segregated from other MW. 118275
- V4412** Pathology waste container not properly labeled. 118275
- V4413** Illegal disposal of pathology waste. 118340
- V4421** Pharmwaste not segregated from other MW. 118275 (g)
- V4422** Pharmwaste not properly labeled. 118275(g)
- V4423** Pharmwaste stored > 90 days. (>= 10 lbs/yr). 118280(e)
- V4431** VSQG of pharmwaste (<10 lb/yr) stored > 1 yr. 118280(e)
- V4432** Illegal disposal of pharmaceutical waste. 118340, 118222
- V4441** Illegal disposal of photo/hazwaste to sewer/trash. 25189.5

Onsite MW Treatment Facility Requirements

- V4501** Onsite MW treatment to permit not obtained/renewed. 117950, 118130, 118115, 65620/65623
- V4502** Current copy of the MW treatment permit not available. 65621(f), 65623, 118165, 118180
- V4503** Condition(s) of the MW treatment permit violated. 65623

NO VIOLATIONS OBSERVED!

NEW SITE INSPECTION

SEP 01 2005

Specialist rec'd permit application and Hazardous Materials Business Plan in January 2005. Business started AB 3205 March 2005. Tenant improvement is nearly complete in Manufacturing Area. Upon completion of tenant improvement submit all paperwork through AB 3205 which will be then transferred to Specialist (HAHN) AB3205 is Veronica Garmio.

REMARKS:
 Business uses PROTECH to handle hazardous waste on a weekly basis. Ensure their hazardous waste training documents are on-site. Business will be a large quantity hazardous waste + perhaps medical waste generator. Business will revisit medical waste procedures - all waste may not be "medical waste" and may be "medical solid waste" which can be disposed to a secured locked dumpster. ~~to SH~~
 Weekly haz waste storage area log reviewed.

This is an annual certification that the Hazardous Materials Business Plan (inventory, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored.

BUSINESS ADDRESS: 11011 Surryana ZIP CODE: 92121

• Insure all hazardous waste labels are legible.

• During inspection water observed going to storm drain. Business has close off valve to prevent release to canyon. This water will be pumped to neutralization tank.

Employee questioned was unsure if water being released or not + a stormwater drain requirements. Nothing but stormwater can enter storm drain. Referral to S.D. City Stormwater will be made for reference material. Recommend including storm water drain issues during employee training.

Business has a 2,000 gal emergency generator on site. SPC newly finished.

Business has a neutralization tank (700 gal) for non-haz waste. Cell Culture media waste is also collected thru a conveyance system & treated (heat) & cooled & released to sewer.

Please complete the following by entering the chemical name in the chemical name column and then place a check "V" in the quantity column that most closely estimates the amount on hand. If measured by volume, check the appropriate gallon column(s). If measured by weight, check the appropriate pound column(s). If the chemical is a trade secret, you should check the trade secret box. For example, if you have one pint of benzene you would write benzene in the chemical name column and place a check in the "<1 gallon" column. (PLEASE NOTE: the symbol < means less than).

On the above date, an inspection of your business/facility was conducted in order to determine compliance with the California Health and Safety Code (HSC) Chapters 6.5, 6.7, 6.95; Titles 19, 22 and 23 of the California Code of Regulations (CCR); and the San Diego County Code (SDCC). The following remarks are intended to provide guidance to correct the violations noted on the attached violation report.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

Business is a biotech manufacturing AIDS treatments. A walk through and inspection was conducted today with Judi Gaitler, Sr. Fac. Services Coordinator. Tanox West, Inc is about to be purchased. Manufacturing is not occurring today. Business has two underground tanks in vaults (confined spaces). These tanks hold waste water from 2 distinct waste water pipes/lines. Facilities personnel state that at no time do these tanks hold "hazardous substances". Photos will be provided to inspector. Business does not appear to generate Medical Waste - please check the MWMMA especially sections regarding what is and is not medical waste and by 3/21/07 let me know how you plan to manage these wastes under what timeline. If you generate more than 200 # of Medical Waste/mo you are subject to Annual Inspections. You are currently a small quantity generator of RCRA wastes.

RECEIVED MAY 03 2007

NOTICE TO COMPLY:

*1) Satellite container of flammable/corrosive waste in the waste accumulation/storage shed was labeled with "weekly" as the accumulation start date. Satellite containers must be stored at or near the point of generation and be in control of the person generating the waste per 416262.34(e).
 Corrective action: Relabel the container w/ appropriate date of accumulation or keep it at or near the point of generation. If it needed to be emptied weekly be sure to have a larger container to accumulate/store in the storage shed with proper labeling.*

This is an annual certification that the Hazardous Materials Business Plan (inventory, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored.

PAGE: 2 OF 3

BUSINESS ADDRESS: 11011 Torreyana Rd ZIP CODE: 92121

Office Use Only

Annual Carcinogen/Reproductive toxin list should either be updated annually by submitting changes or recertified annually if no changes by checking box on the Hazardous Materials Business Plan Recertification form.

Weekly medical waste pick ups are occurring. Some inventory changes were made today. Be sure to annually check your HMBP and alert the DEH when you have changes of 100% or greater in any item or if you are handling a previously undisclosed item within 30 days of change. Changes in Emergency Contacts should also be made within 30 days of change.

Submit MWMP by 3/26/06. 107 (MM) I will send you: Medical Waste Management Act handout on aerosol cans, handout on container management, and the EPIC 2005 presentation on e-mail "zipped".

Please respond to the violation within 30 days of today.

VIOLATION REPORT: The items checked below refer to specific section numbers of Titles 19 & 22 of the California Code of Regulations (CCR), Chapters 6.5 & 6.95 of the Health and Safety Code, and/or the San Diego County Code (SDCC), Small Quantity Hazardous Waste Generator=(SQG); Large Hazardous Waste Quantity Generator=(LQG); Code 40 of Federal Regulations=(CFR). All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form (HM-926) to document your return to compliance. Your Specialist can provide this form. Please call (619) 338-2222 or your Specialist if you have any questions.

HAZARDOUS MATERIALS REQUIREMENTS

Table with 3 columns: Viol #, V, VIOLATION DESCRIPTION. Contains 18 rows of violations related to HMD requirements.

HAZWASTE REQUIREMENTS FOR LOGs & SOGs

Table with 3 columns: Viol #, V, VIOLATION DESCRIPTION. Section: STORAGE AND HANDLING. Contains 10 rows of violations.

HAZWASTE REQUIREMENTS FOR SOGs ONLY

STORAGE AND HANDLING-Pursuant to 66262.34(d)

Table with 3 columns: Viol #, V, VIOLATION DESCRIPTION. Contains 10 rows of violations related to SOG storage and handling.

HAZWASTE REQUIREMENTS FOR LOGs & SOGs RECORDKEEPING

Table with 3 columns: Viol #, V, VIOLATION DESCRIPTION. Contains 18 rows of violations related to recordkeeping.

TRAINING, CONTINGENCY PLAN & ER PROCEDURES Pursuant to 66262.34(d)(2)

Table with 3 columns: Viol #, V, VIOLATION DESCRIPTION. Contains 6 rows of violations related to training and ER procedures.

DISPOSAL AND TRANSPORTATION

Table with 3 columns: Viol #, V, VIOLATION DESCRIPTION. Contains 8 rows of violations related to disposal and transportation.

HAZARDOUS WASTE TANK SYSTEMS Pursuant to 66262.34(d)(2)

Table with 3 columns: Viol #, V, VIOLATION DESCRIPTION. Contains 5 rows of violations related to hazardous waste tank systems.

Hello Manon,

Regarding Notice to Comply dated 21 February 2007:

This letter is to notify you that the contents of the satellite container of flammable/corrosive waste in our waste accumulation storage shed has been transferred to a larger container and properly labeled with an accumulation date. This action was taken the day after the inspection to comply.

Please feel free to contact me if you need any additional information. You can reach me on Nextel at 858-864-6576 or via email at jgaither@tanox.com.

Thank you for your time and input during the inspection and I'll keep you posted on the other items that required follow up.

Thank You,

Judi Gaither

Manon,

I think the email is fine to attached to report. This way it says we both realize it. I'll change and initial and date on my copy.

Thanks
Judi

Subject: RE: Inspection

Hi Judi,

That's a great catch, thank you. I think it's ok to leave it as it stands (because of all the other dates one type-o should be able to be figured out), if you'd like, I can print this PDF and PDF it back with my initials so it doesn't appear as though you've passed the deadline by a year and 30 days!

Alternately you could print this e-mail conversation and attach it to the report and I think that would suffice.

Tell me which makes you more comfortable and I'll do my part!

Best,

Manon Maschue

Hi Manon,

I just noticed on the Inspection Report there is an error on a date. (Page 2 of 3 shows "submit MWMP by 3/26/06". I know you mean 2007, however, does this need to be changed on the report? I've attached.

Annual Carcinogen and Reproductive Toxin Reporting List

Business Name: Tanox West, Inc
Business Address: 11011 Torreyana Rd. San Diego CA 92121
Business Owner or Operator: Tanox, Inc.

Please complete the following by entering the chemical name in the chemical name column and then place a check in the quantity column that most closely estimates the amount on hand. If measured by volume, check the appropriate gallon column(s). If measured by weight, check the appropriate pound column(s). If the chemical is a trade secret, you should check the trade secret box. For example, if you have one pint of benzene you would write benzene in the chemical name column and place a check in the <1-gallon column.

(PLEASE NOTE: the symbol < means less than).

DISCLOSURE OF HAZARDOUS MATERIALS INFORMATION BULLETIN

The County of San Diego Board of Supervisors approved changes to the San Diego County Code of Regulatory Ordinances (County Code) that changed the requirements for the disclosure of hazardous materials, which became effective June 1996. The changes were the result of a Smart Commission recommendation to correct the over breadth of the County's hazardous materials reporting requirements while preserving the perceived benefits in hazardous materials response planning and the community's right-to-know. The ordinance affects the disclosure of highly toxic gases, reproductive toxins and carcinogens.

REQUIREMENTS UNDER SECTION 68.1113 OF THE COUNTY CODE

- ◆ Businesses which handle hazardous materials in amounts greater than or equal to 55 gallons, 500 pounds or 200 cubic feet at standard temperature and pressure remain subject to the chemical inventory disclosure and Business Plan requirements of the California Health and Safety Code, Chapter 6.95.
- ◆ Businesses which handle highly toxic compressed gases (compressed gases with a Threshold Limit Value of 10 parts per million or less as referenced by the ACGIH) shall disclose these gases as part of their chemical inventory in any quantity and prepare a Business Plan (see attached Fact Sheet and list of TLV gases).
- ◆ Businesses that are subject to the chemical inventory disclosure and Business Plan requirements as noted above, that handle carcinogens and reproductive toxins in small amounts (amounts below the California disclosure requirements of 55 gallons, 500 pounds or 200 cubic feet of gas at standard temperature and pressure); are not required to disclose these carcinogens and reproductive toxins as chemical inventory. Instead, they are required only to submit to the HMD, a list of each of these materials that are in small amounts handled during the previous year. The list shall be based on the amount handled at any one time during the previous reporting year and be in ranges based on volume or weight (see sample list format attached).
- ◆ The list that is required for the smaller amounts of carcinogens and reproductive toxins must be renewed each year pursuant to the ordinance.

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). **This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6.** This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

Consent to inspect granted by: Inspection Contact Other: Routine Inspection

Today I conducted a routine inspection to determine compliance in the handling, storage, and disposal of hazardous substances and medical waste. Nuria Ibarra, EHS Supervisor, granted consent for the inspection.

This facility handles reportable amounts of hazardous materials and is a small quantity generator of hazardous waste. This facility is also a small quantity generator of medical waste.

This facility is in the EPIC+ Program.

Hazardous Materials Inventory was updated during today's inspection.

The Hazardous Materials Business Plan (inventory & site map, emergency contacts, emergency response plan, and employee training plan) is required by law to be certified online through the California Environmental Reporting System (CERS). For additional information about hazardous materials business plans and CERS, go to: <http://www.sdcounty.ca.gov/deh/hazmat/hmd-cers-info.html>

UNIFIED PROGRAM FACILITY PERMIT APPLICATION

This business or service is required to obtain a Unified Program Facility Permit from the San Diego County Department of Environmental Health. I answered "yes" to one or more of the questions on the "Business Activities" form.

Date assumed business ownership at this location: 2007-06-01

This permit does not excuse any owner or operator from complying with all applicable federal, state, county or local laws, ordinances or regulations. The owner or operator is required to determine if another permit or approval from any other agency or department is necessary. The County, by issuing this permit, does not relinquish its right to enforce any violation of law.

I have determined that this business or service does not require a Unified Program Facility Permit from the San Diego County Department of Environmental Health.

I declare under penalty of perjury that to the best of my knowledge and belief the statements made herein are correct and true. I consent to all necessary inspections allowed by law and incidental to the issuance of required permit(s) and the operation of this business.

Annual Carcinogen and Reproductive Toxin Reporting List**

Business Name: Pacira Pharmaceuticals, Inc.

Business Address: 11011 North Torrey Pines Rd. (B6) La Jolla, CA 92037

Business Owner or Operator: Pacira Pharmaceuticals, Inc. 10450 Science Center Drive San Diego, CA 92121

Please complete the following by entering the chemical name in the chemical name column and then place a check in the quantity column that most closely estimates the amount on hand. If measure by volume, check the appropriate gallon column(s). If measured by weight, check the appropriate pound column(s). If the chemical is a trade secret, you should check the trade secret box. For example, if you have one pint of benzene you would write benzene in the chemical name column and place a check in the A<1 gallon column. (PLEASE NOTE: the symbol < means less than).

Chemical Name	<1 gallon	<1 pound	<10 gallons	<10 pounds	<55 gallons	<500 pounds	Trade Secret
Dichloromethane (Methylene chloride)			<input checked="" type="checkbox"/>				
o-Phenylphenate, sodium			<input checked="" type="checkbox"/>				
Tetrachloroethylene (Perchloroethylene)			<input checked="" type="checkbox"/>				
Toluene			<input checked="" type="checkbox"/>				

The above Prop 65 chemicals are found in the following products in the Pacira Inventory:

Prop 65 chemical	Product
o-Phenylphenate, sodium	Buffer Solution Red
o-Phenylphenate, sodium	Buffer solution Yellow
Tetrachloroethylene (Perchloroethylene)	KwikEe Penetrant -Lawson
Tetrachloroethylene (Perchloroethylene)	Liquid Wrench Super Lubricant -Soldier Seal
Dichloromethane (Methylene chloride)-	Super 77 Spray Adhesive -Lawson
Tetrachloroethylene (Perchloroethylene)	Sheila Shine, Polish
Toluene	Color Guard -Loctite
Toluene	Contact Cement -Weldwood
Toluene	ARMAFLEX pipe insulation 520 adhesive -Armstrong

Re: Pacira Pharmaceuticals, Inc. Facility
Facility ID # 136185, Hazardous Material Business Plan Submittal

Pacira Pharmaceuticals hereby submits the Hazardous Material Business Plan for the B6 facility located at 11011 North Torrey Pines Rd.

Effective June 1, 2007, SkyePharma Inc. completed a name change to Pacira Pharmaceuticals, Inc. The name change is a result of the transformation from a former business unit of SkyePharma PLC to an independent, private company.

Updated information is contained in the submitted Business Plan. Pacira has recently contracted Protech to complete a physical inventory. Upon receipt of their report, Pacira will submit updated information related to the Hazardous Materials Inventory and applicable reporting requirements.

Please contact me with any additional questions at 858-625-2424. Thank you for your attention to this matter.

Sincerely,

A handwritten signature in black ink, appearing to read 'Phil Duffy', written over a horizontal line.

Phil Duffy
Vice President, Operations
Pacira Pharmaceuticals, Inc.

CHANGE OF OWNERSHIP INSPECTION

RECEIVED JAN 29 2008

ON 1/22/08, AN INSPECTION OF PACIRA PHARMACEUTICALS WAS CONDUCTED WITH MARCUS WEBB, NURIA IBARRA, SHARON VIDAL, AND MARTIN SKIPPER. THE FOLLOWING VIOLATION WAS OBSERVED.

NOTICE TO COMPLY:

1. ONE 55 GALLON CONTAINER HOLDING FLAMMABLE HAZARDOUS WASTE LOCATED INSIDE THE HAZARDOUS WASTE STORAGE AREA IS NOT PROPERLY GROUNDED TO PREVENT FIRE OR EXPLOSION.

- CORRECTIVE ACTION REQUIRED: PROPERLY BOND AND GROUND ALL FLAMMABLE HAZARDOUS WASTE STORAGE CONTAINERS IN THE HAZARDOUS WASTE STORAGE AREA.

REMARK: ONE HAZARDOUS WASTE SATELLITE CONTAINER LOCATED INSIDE THE FORMULATION ROOM WAS PROPERLY LABELED WITH A HAZARDOUS WASTE LABEL DURING THIS INSPECTION.

THE HAZARDOUS MATERIALS INVENTORY WAS COMPILED AND VERIFIED DURING THIS INSPECTION INCLUDING ANNUAL CARCINOGEN AND REPRODUCTIVE TOXIN LIST.

This is an annual certification that the Hazardous Materials Business Plan (inventory, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored.

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

- Y N/A NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

ROUTINE INSPECTION

RECEIVED FEB 24 2011

THIS FACILITY HANDLES REPORTABLE QUANTITIES OF HAZARDOUS MATERIALS, IS A SMALL QUANTITY GENERATOR OF HAZARDOUS WASTES, AND IS A SMALL QUANTITY GENERATOR OF MEDICAL WASTE. THIS BUSINESS IS IN THE EPIC PLUS PROGRAM.

NO VIOLATIONS WERE OBSERVED DURING THIS INSPECTION.

THE HAZARDOUS MATERIALS BUSINESS PLAN (HMBP) WAS REVIEWED WITH NURIA. AT LEAST ANNUALLY, SUBMIT A COMPLETED HMBP CERTIFICATION FORM TO THE COUNTY HAZARDOUS MATERIALS DIVISION.*

A CURRENT MEDICAL WASTE MANAGEMENT PLAN IS MAINTAINED ON SITE.

PLEASE REFER TO THE PRINTED FACT SHEET FOR MORE INFORMATION REGARDING HAZARDOUS WASTE ACCUMULATION TIME LIMITS FOR GENERATORS.

YOUR BUSINESS CHEMICAL INVENTORY WILL BE UPDATED FOR THE BOILER WATER CORROSION INHIBITOR.

This is an annual certification that the Hazardous Materials Business Plan (inventory & site map, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored.

HAZARDOUS MATERIALS BUSINESS PLAN CERTIFICATION

The California Health & Safety Code (H&SC), Division 20, Chapter 6.95, Section 25505 provides for the following:
 The County of San Diego, Department of Environmental Health, Hazardous Materials Division (HMD), as the administering agency, requires a business that handles hazardous materials to submit the hazardous materials inventory, a list of emergency contacts, and a site plan, in lieu of a complete Hazardous Materials Business Plan (HMBP), only after the initial submittal of a complete HMBP. A complete HMBP includes the items to be submitted to the HMD and an Emergency Response Plan and Employee Training Plan, as established in H&SC Section 25504. The business must annually certify that a complete HMBP has been prepared, is current and is maintained at the site where the hazardous materials are stored. See *Back* for instructions and further clarification

II. CERTIFICATION STATEMENT

CARCINOGEN/REPRODUCTIVE TOXIN ANNUAL RENEWAL WITHOUT CHANGES: This is an annual renewal to certify that the list of carcinogens and/or reproductive toxins last provided is a current list as specified in the San Diego County Code of Regulatory Ordinances Section 68.1113.

Check only ONE of the following boxes:

INITIAL CERTIFICATION: This is to certify (H&SC Section 25505(e)(1)) that a complete HMBP, which includes the hazardous materials inventory, a list of emergency contacts, a site plan, emergency response plan, and employee training plan, has been prepared and is maintained at the site where the hazardous materials are stored.

ANNUAL CERTIFICATION WITHOUT CHANGES: This is an annual certification (H&SC Section 25505(d) & (e)(2)) that the HMBP, which includes the hazardous materials inventory, a list of emergency contacts, a site plan, emergency response plan, and employee training plan, is current and includes all the information required in H&SC Section 25504, and 25509, and is maintained at the site where the hazardous materials are stored.

CERTIFICATION OF CHANGES/REVISIONS: This is to certify that the HMBP has been reviewed (H&SC Section 25505(c) & 25510) and all necessary changes/revisions have been made. The HMBP is current and is maintained at the site where the hazardous materials are stored. Attached are changes to the hazardous materials inventory and/or list of emergency contacts. For site map revisions, submit only the pages that have a change or revision and attach to this certification. This submittal satisfies annual certification requirements specified in H&SC Section 25505(d) & (e)(2).

As an Authorized Representative, I certify, under the penalty of law, that I have personally examined and am familiar with the information submitted and believe the information is true, accurate, and complete. By checking any of the boxes above I also certify that: a) The information contained in the hazardous materials inventory most recently submitted to the CUPA or Administering Agency is complete, accurate, and up to date; b) There has been no change in the quantity of hazardous materials reported in the most recently submitted inventory; and c) All hazardous materials subject to inventory requirements are listed on the most recently submitted inventory.

6-FOLLOWUP FOLLOW UP TO INITIAL COMPLAINT SROSECEH 22-APR-2012

4/22/12 - HIRT went out there; it was not nearly as bad as the report sounded. Fish & Game showed up, but it never made it out of the first drop box. I would guess more like 20 gallons, most of which was on the pavement between the leak and the drain. Probably 100 yards between the two.

San Diego, CA 92112

Re: Pacira Pharmaceuticals, Inc., 11011 North Torrey Pines Road, La Jolla, CA
Hazardous Materials Release on Sunday, April 22, 2012

Dear Mr. Mann:

As requested, Pacira Pharmaceuticals, Inc. is providing this written report to the San Diego Department of Environmental Health (DEH) regarding the accidental hazardous materials release which occurred at our facility located at 11011 N. Torrey Pines Road on April 22, 2012, at 7:13pm. The spill consisted of diluted ethylene glycol from a failed pipe flange within the cooling system.

The leak was first noticed by the building security guard, who notified the emergency point of contact (Mr. Mike Chalfant, Senior Facility Technician), who was onsite within twenty minutes. On arriving, Mr. Chalfant immediately worked to stop the flow from the breached pipe, which he estimates was less than one gallon per minute. He put a trash can under the leak at approximately 7:40pm, placed absorbent pigs to block the out flow of residual fluid from the loading dock, and the leak was stopped by approximately 7:45pm. Mr. Chalfant then telephoned Ms. Nuria Ibarra, EH&S Supervisor at 7:51pm to notify her of the spill. Ms. Ibarra requested additional support for spill clean-up from Protech ECS, Pacira's emergency response management contractor.

The majority of the released fluid spread across the driveway outside the building area where the equipment is located, but a small stream, less than 8 inches wide, reached a storm drain located approximately 50 yards away from the building in an adjacent parking lot. It is estimated that less than 50 gallons were released in total.

Pacira and Protech ECS employees worked to complete surface decontamination and absorption of accessible liquid from the spill using absorbent booms and pads.

Ms. Ibarra notified the California Emergency Management Agency (EMA) of the spill at 9:35pm and the County of San Diego Environmental Health Department at 9:47pm. Mr. Scott Rosecrans from the County of San Diego DEH arrived onsite at 10:30pm, along with a representative from the California Department of Fish and Game. They approved of the clean-up method being implemented and asked that a man hole in the path of the leak flow be cleaned out as soon as possible. Ms. Ibarra called Advanced Chemical Transport (ACT) on Monday, April 23 to arrange for this cleaning.

ACT performed clean-out of the man hole in question on Tuesday morning, April 24, 2012. A pressure washer and wet vacuum were used to clean out the smaller storm drain in the adjacent parking lot, as well as the larger storm drain on the adjacent main road (N. Torrey Pines Road). Please see attached for a copy of the manifest documenting this work.

Although the California EMA and San Diego DEH were notified as per Pacira's Business Plan, a "lesson learned" is that 911 emergency response should have been called first so that there is written documentation of the incident. In the future, and following Pacira's Business Plan, 911 will be called first, followed by California EMA and San Diego DEH.

Should you require further documentation or information about this incident, please contact Nuria Ibarra, Environmental Health & Safety Supervisor at (858) 625-2414.

Sincerely,

John R. Pratt
General Manager

Dear Rafaela:

Attached you will find four (4) HM-9703 forms notifying you of a recent increase of our inventory at Pacira Pharmaceuticals, Inc. The increase is for Sodium Hydroxide, Phosphoric Acid and compressed air.

One of the increases is for the Torrey Pines facility (#208961) and the other three are for the Science Center site (#135405).

Should you have any questions or require additional information, please feel free to contact me at 858.625.2414 ext: 3117 or via email nuriai@pacira.com.

Thank you in advance for your time.

Kind Regards,

Nuria Ibarra

HAZARDOUS MATERIALS BUSINESS PLAN CERTIFICATION

The California Health & Safety Code (H&SC), Division 20, Chapter 6.95, Section 25505 provides for the following:

The County of San Diego, Department of Environmental Health, Hazardous Materials Division (HMD), as the administering agency, requires a business that handles hazardous materials to submit the hazardous materials inventory, a list of emergency contacts, and a site plan, in lieu of a complete Hazardous Materials Business Plan (HMBP), only after the initial submittal of a complete HMBP. A complete HMBP includes the items to be submitted to the HMD and an Emergency Response Plan and Employee Training Plan, as established in H&SC Section 25504. The business must annually certify that a complete HMBP has been prepared, is current and is maintained at the site where the hazardous materials are stored. See *Back* for instructions and further clarification

II. CERTIFICATION STATEMENT

CARCINOGEN/REPRODUCTIVE TOXIN ANNUAL RENEWAL WITHOUT CHANGES: This is an annual renewal to certify that the list of carcinogens and/or reproductive toxins last provided is a current list as specified in the San Diego County Code of Regulatory Ordinances Section 68.1113.

Check only ONE of the following boxes:

INITIAL CERTIFICATION: This is to certify (H&SC Section 25505(e)(1)) that a complete HMBP, which includes the hazardous materials inventory, a list of emergency contacts, a site plan, emergency response plan, and employee training plan, has been prepared and is maintained at the site where the hazardous materials are stored.

ANNUAL CERTIFICATION WITHOUT CHANGES: This is an annual certification (H&SC Section 25505(d) & (e)(2)) that the HMBP, which includes the hazardous materials inventory, a list of emergency contacts, a site plan, emergency response plan, and employee training plan, is current and includes all the information required in H&SC Section 25504, and 25509, and is maintained at the site where the hazardous materials are stored.

CERTIFICATION OF CHANGES/REVISIONS: This is to certify that the HMBP has been reviewed (H&SC Section 25505(c) & 25510) and all necessary changes/revisions have been made. The HMBP is current and is maintained at the site where the hazardous materials are stored. Attached are changes to the hazardous materials inventory and/or list of emergency contacts. For site map revisions, submit only the pages that have a change or revision and attach to this certification. This submittal satisfies annual certification requirements specified in H&SC Section 25505(d) & (e)(2).

As an Authorized Representative, I certify, under the penalty of law, that I have personally examined and am familiar with the information submitted and believe the information is true, accurate, and complete. By checking any of the boxes above I also certify that: a) The information contained in the hazardous materials inventory most recently submitted to the CUPA or Administering Agency is complete, accurate, and up to date; b) There has been no change in the quantity of hazardous materials reported in the most recently submitted inventory; and c) All hazardous materials subject to inventory requirements are listed on the most recently submitted inventory.

Business Name: Pacira Pharmaceuticals, Inc.

Business Address: 11011 N Torrey Pines Rd., La Jolla, CA 92037

Business Owner or Operator: Pacira Pharmaceuticals, Inc.

Please complete the following by entering the chemical name in the chemical name column and then place a check ✓ in the quantity column that most closely estimates the amount on hand. If measured by volume, check the appropriate gallon column(s). If measured by weight, check the appropriate pound column(s). If the chemical is a trade secret, you should check the trade secret box. For example, if you have one pint of benzene you would write benzene in the chemical name column and place a check ✓ in the <1-gallon column.

(PLEASE NOTE: the symbol < means less than).

**SAN DIEGO COUNTY DEPARTMENT OF ENVIRONMENTAL HEALTH
HAZARDOUS MATERIALS DIVISION
Annual Carcinogen and Reproductive Toxin Reporting List**

Business Name: Pacira Pharmaceuticals, Inc.

Business Address: 11011 N Torrey Pines Rd., La Jolla, CA 92037

Business Owner or Operator: Pacira Pharmaceuticals, Inc.

Please complete the following by entering the chemical name in the chemical name column and then place a check ✓ in the quantity column that most closely estimates the amount on hand. If measured by volume, check the appropriate gallon column(s). If measured by weight, check the appropriate pound column(s). If the chemical is a trade secret, you should check the trade secret box. For example, if you have one pint of benzene you would write benzene in the chemical name column and place a check ✓ in the <1-gallon column.

(PLEASE NOTE: the symbol < means less than).

Medical Waste Management Plan

Facility Information

Business Name: Pacira Pharmaceuticals, Inc. **Unified Program Facility Permit #:** 208961
Type of Business: Commercial Drug Manufacturer **Date:** 2/24/2014
Address: 11011 N. Torrey Pines Road, La Jolla **CA 92037**
Street No. Street Name City State Zip Code

Person Responsible for implementing the Medical Waste Management Plan

Name: John Sisco **Phone:** 858 625-2424 ext: 3266
Title: Manager, EH&S

Types of wastes generated

- | | |
|--|---|
| <input checked="" type="checkbox"/> Sharps - e.g., needles, blades, scalpels, or broken glass or syringes contaminated with biohazardous waste.
Estimated monthly amount <u>20</u> lbs | <input type="checkbox"/> Blood or body fluids - liquid blood or blood products, or other regulated body fluids, or articles contaminated with liquid blood or body fluids.
Estimated monthly amount _____ lbs |
| <input type="checkbox"/> Home-Generated Sharps
Estimated monthly amount _____ lbs | <input type="checkbox"/> Pathology waste - recognizable human anatomical parts.
Estimated monthly amount _____ lbs |
| <input checked="" type="checkbox"/> Laboratory wastes - specimens or microbiological cultures, stocks of infectious agents, live and attenuated vaccines, biologicals, and culture media.
Estimated monthly amount <u>99</u> lbs | <input type="checkbox"/> Surgical specimens - human or animal parts or tissues removed surgically or by autopsy and are suspected to be contaminated by agents which are contagious to humans.
Estimated monthly amount _____ lbs |
| <input type="checkbox"/> Liquid or semi-liquid biohazardous laboratory waste - treated on site by chemical disinfection* and discharged to sewer.
Estimated monthly amount _____ lbs | <input type="checkbox"/> Isolation waste - waste contaminated with excretion, exudates or secretions from humans or animals who are isolated due to highly communicable diseases.
Estimated monthly amount _____ lbs |
| <input type="checkbox"/> Waste contaminated with fixatives or chemotherapeutic agents.
Estimated monthly amount _____ lbs | <input type="checkbox"/> Contaminated animals - animal carcasses, body parts, tissues or fluids suspected to be contaminated by agents which are contagious to humans.
Estimated monthly amount _____ lbs |
| <input type="checkbox"/> California-regulated pharmaceutical waste
Estimated monthly amount _____ lbs | <input type="checkbox"/> Other (specify):
Estimated monthly amount _____ lbs |

Estimate of *TOTAL* monthly medical waste generated: 119 lbs

ONSITE MEDICAL WASTE TREATMENT ONLY: Method of medical waste treatment *if performed onsite*:

- Steam Autoclaving Other state approved alternative technology (specify below):

Onsite medical waste treatment records must be maintained for three years. HSC §117975

*Per HSC §118215(c), for liquid or semi-liquid biohazardous laboratory waste (§117635(a)), the treatment method must be recognized by the NIH, the CDC, or the American Biological Safety Association. If the chemical disinfection of the medical waste causes the waste to become a hazardous waste, the waste shall be managed in accordance with the requirements of HSC Chapter 6.5 (commencing with §25100) of Division 20.

Medical Waste Management Plan

Registered Medical Waste Hauler used to remove untreated medical waste (if applicable):

Name: Advance Chemical Transport (ACT)

Address: 2010 Mission Road

City: Escondido State CA ZIP Code 92029

Phone #: 760-489-5600

Contact Person: Annette Peck, Account Manager

Offsite treatment facility to which medical waste is transported (if applicable):

Facility Name: Waste Management Solutions

Address: 4280 Bandini Blvd

City: Los Angeles State CA ZIP Code 90058

Phone #: 323-307-0514

Contact Person: _____ Phone #: _____

I hereby certify to the best of my knowledge and believe the statements made herein are correct and accurate.

Business Name: Pacira Pharmaceuticals, Inc.

Business Address: 11011 N Torrey Pines Rd., La Jolla, CA 92037

Business Owner or Operator: Pacira Pharmaceuticals, Inc.

Please complete the following by entering the chemical name in the chemical name column and then place a check ✓ in the quantity column that most closely estimates the amount on hand. If measured by volume, check the appropriate gallon column(s). If measured by weight, check the appropriate pound column(s). If the chemical is a trade secret, you should check the trade secret box. For example, if you have one pint of benzene you would write benzene in the chemical name column and place a check ✓ in the <1-gallon column.

(PLEASE NOTE: the symbol < means less than).

Medical Waste Management Plan

Facility Information	
Business Name Pacira Pharmaceuticals, Inc.	Unified Program Facility Permit # 208961
Type of Business Commercial Drug Manufacturer	Date 3/16/16
Street Address 11011 North Torrey Pines Road	City/ZIP La Jolla, CA 92037
Person Responsible for implementing the Medical Waste Management Plan (MWMP)	
Name Nuria Ibarra	
Title Environmental Health & Safety Supervisor	Phone 858-625*-2424 ext.: 2203
Types of medical wastes (MW) generated	
<input checked="" type="checkbox"/> MW Sharps - e.g., needles, blades, scalpels, or broken glass or syringes contaminated with biohazardous waste. (human or animal) Estimated monthly amount <u>30</u> lbs	<input type="checkbox"/> Blood or blood products - liquid blood or blood products, or other regulated body fluids, or articles contaminated with liquid blood or body fluids. Estimated monthly amount _____ lbs
<input checked="" type="checkbox"/> Laboratory wastes - infectious specimens or microbiological cultures, stocks of infectious agents, live and attenuated vaccines, biologicals, and culture media. Estimated monthly amount <u>195</u> lbs	<input type="checkbox"/> Pathology waste - human or animal tissues suspected to be infectious to humans Estimated monthly amount _____ lbs
<input type="checkbox"/> Liquid or semi-liquid biohazardous laboratory waste - treated on site by chemical disinfection* and discharged to sewer. Estimated monthly amount _____ lbs	<input type="checkbox"/> Isolation waste - waste contaminated with excretion, exudates or secretions from humans or animals who are isolated due to highly communicable diseases. Estimated monthly amount _____ lbs
<input type="checkbox"/> Trace chemotherapeutic waste Estimated monthly amount _____ lbs	<input type="checkbox"/> Contaminated animals w/Highly communicable animal carcasses, body parts, tissues or fluids suspected to be contaminated by agents which are contagious. Estimated monthly amount _____ lbs
<input type="checkbox"/> California-regulated pharmaceutical waste (non-RCRA, non-radioactive) Estimated monthly amount _____ lbs	<input type="checkbox"/> Other (specify): _____ Estimated monthly amount _____ lbs
Estimate of <u>TOTAL</u> monthly medical waste for generator classification: <u>225</u> lbs	
Estimate of other monthly medical wastes (does not count towards generator class):	
<input type="checkbox"/> Home Generated MW Sharps Estimated Monthly Amount _____ lbs.	<input type="checkbox"/> Home Generated Pharmaceutical Waste Estimated monthly amount _____ lbs.
ONSITE MEDICAL WASTE TREATMENT ONLY: Method & capacity of medical waste treatment <i>if performed onsite:</i>	
<input type="checkbox"/> Steam Autoclaving <input type="checkbox"/> Other state approved alternative technology (specify below): _____	
Treatment records must be maintained for three years for small quantity generators, and maintained two years for large quantity generators. (HSC§117943; HSC§117975)	

*Per HSC §118215(c), for liquid or semi-liquid biohazardous laboratory waste (§117690(b)(1)(B)), the treatment method must be recognized by the NIH, the CDC, or the American Biological Safety Association. If the chemical disinfection of the medical waste causes the waste to become a hazardous waste, the waste shall be managed in accordance with the requirements of HSC Chapter 6.5 (commencing with §25100) of Division 20.

Medical Waste Management Plan

The following requirements apply to LQGs (HSC§117960), and SQGs that treat MW on-site, or use the Pharmaceutical Waste Hauling Exemption. (HSC§118032)

Emergency Action Plan

This plan is to be followed to ensure the proper disposal of medical waste, including controlled substances in compliance with DEA, approved incineration of pharmaceutical and trace chemotherapy in the event of a natural disaster, spill, treatment system break down, power failure, etc., and closure plan at termination (600 characters max. for WORD interactive form - use additional sheets if necessary). (LQG HSC§117960(h); SQG HSC§117935).

Registered hazardous waste hauler/common carrier used to remove untreated medical waste (if applicable)	
Primary Hauler Name Advance Chemical Transport (ACT)	Phone # 760-489-5600
Street Address 2010 Mission Road	City/ZIP Escondido 92029
Contact Person Annette Peck, Account Manager	Contact Phone # 760-489-5600
Offsite treatment facility to which medical waste is transported (if applicable)	
Facility Name Waste Management Solutions	Phone # 323-307-0514
Street Address 4280 Bandini Blvd	City/ZIP Los Angeles, 90058
Contact Person	Contact Phone #
<u>Pharmaceutical Waste Categorization</u> If applicable, the steps taken to categorize the pharmaceutical wastes generated at the facility to ensure that the wastes are properly disposed of as follows: (1) Pharmaceutical wastes classified by the federal Drug Enforcement Administration (DEA) as "controlled substances" are disposed of in compliance with DEA requirements. (2) <u>The name and business address of the registered hazardous waste hauler used by the generator to have wastes that are not regulated pursuant to the federal Resource Conservation and Recovery Act of 1976 and nonradioactive pharmaceutical wastes regulated as medical waste safely removed for treatment in compliance with subdivision (b) of Section 118222 as waste requiring specific methods.</u> (LQG:HSC§117960(i); SQG:HSC§117935(i))	
<u>Closure Plan</u> A closure plan for the termination of treatment at the facility using, at a minimum, one of the methods of decontamination specified in subdivision (a) or (b) of Section 118295, thereby rendering the property to an acceptable sanitary condition following the completion of treatment services at the site. (LQG: HSC§117960(j); SQG: HSC§117935(j))	
<i>I hereby certify to the best of my knowledge and believe the statements made herein are correct and accurate.</i>

HAZARDOUS MATERIALS DIVISION
Annual Carcinogen and Reproductive Toxin Reporting List**

Business Name: Pacira Pharmaceuticals, Inc.

Business Address: 11011 N Torrey Pines Rd., La Jolla, CA 92037

Business Owner or Operator: Pacira Pharmaceuticals, Inc.

Please complete the following by entering the chemical name in the chemical name column and then place a check ✓ in the quantity column that most closely estimates the amount on hand. If measured by volume, check the appropriate gallon column(s). If measured by weight, check the appropriate pound column(s). If the chemical is a trade secret, you should check the trade secret box. For example, if you have one pint of benzene you would write benzene in the chemical name column and place a check ✓ in the <1-gallon column.

(PLEASE NOTE: the symbol < means less than).

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

CONSENT TO CONDUCT INSPECTION GRANTED BY: Nuria Ibarra

TITLE: Manager EH&S

INTRODUCTION:

Today a routine Certified Unified Program Agency (CUPA) inspection was completed at Pacira Pharmaceuticals to verify compliance with hazardous materials, hazardous waste, and medical waste regulations. At the time of inspection this facility is a large quantity hazardous waste generator, stores on-site reportable amounts of hazardous materials, and is a small quantity medical waste generator. At the time of inspection this facility is subject to hazardous materials business plan requirements.

This facility is a commercial pharmaceutical manufacturing company.

Observed on-site during facility walk-through were the following hazardous waste and hazardous materials in reportable amounts:

- Carbon/Chloroform acetonitrile waste
- Cytarabine Waste
- Sharps Waste
- Lab Waste Chemicals (waste code 551)
- Waste Alkaline Solution
- Microbiology waste (solid)
- Salt
- Phosphoric Acid
- Compressed Nitrogen Gas
- Compressed Hydrogen
- Boiler treatment
- Chloroform
- Liquified Nitrogen
- Sodium Hydroxide

Manifests were on-site and reviewed. Pick-ups for hazardous waste are monthly. Weekly inspection log on-site and reviewed. Per medical waste disposal records this facility generates approx. 170 pounds of medical waste a month.

Employee training documentation on-site and reviewed.

COUNTY OF SAN DIEGO

SUPPLEMENTAL COMPLIANCE INSPECTION REPORT

California Environmental Reporting System (CERS) Hazardous Materials Business Plan (HMBP) submittal has been made by facility representative within the past year. Information submitted in CERS was verified during inspection. Verbal guidance was provided to facility representative during inspection on inventory updates.

At the time of inspection this facility is part of the EPIC+ program. Online training has been completed for 2017 by facility employee.

COUNTY OF SAN DIEGO

COMPLIANCE INSPECTION REPORT

Medical Waste Generators

Each violation checked below is for the section(s) of the California health and Safety Code (HSC), California Code of Regulation (CCR), or the San Diego County Code (SDCC) indicated in italics. All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form (HM-926) to document your return to compliance. Please call (858) 505-6880 or your Specialist if you have any questions. UPF = Unified Program Facility; MW = Medical Waste; USPS = United States Postal Service; DOT = Department of Transportation

STORAGE AND LABELING

- | # | HMD | VIOLATION DESCRIPTION |
|--------------------------|------|---|
| <input type="checkbox"/> | 4201 | UPF Permit not obtained. HSC 117705; SDCC 68.905, 68.1202 |
| <input type="checkbox"/> | 4202 | Medical waste (MW) not separated from other waste at the point of origin. HSC 118275 |
| <input type="checkbox"/> | 4203 | Enclosure or designated accumulation area for MW containers not secured. HSC 118307, 118310 |
| <input type="checkbox"/> | 4204 | MW designated accumulation area not posted with an approved, legible biohazardous waste "warning sign" in English & Spanish which can be read from 25 ft. HSC 118310 |
| <input type="checkbox"/> | 4205 | Medical SOLID WASTE not secured to deny access to unauthorized persons. SDCC 68.1211 |
| <input type="checkbox"/> | 4206 | Spill of MW not properly cleaned up. HSC 118300 |
| <input type="checkbox"/> | 4207 | Sharps not stored in approved and properly marked sharps container. HSC 118285(a) & (d) |
| <input type="checkbox"/> | 4208 | Full sharps container not taped closed or tightly-lidded to preclude loss of contents. HSC 118285(b) |
| <input type="checkbox"/> | 4209 | Primary containers accumulating MW not labeled with generator's name, address, and phone number. SDCC 68.1205 |
| <input type="checkbox"/> | 4210 | Medical waste not stored in approved and properly marked biohazard bags. HSC 118275(a) |
| <input type="checkbox"/> | 4211 | Biohazard bags not tied off to prevent leakage/expulsion of contents during handling and storage. HSC 118280(a) |
| <input type="checkbox"/> | 4212 | Biohazard bags not containerized in rigid, leak resistant, and covered containers or bins when placed for storage, handling, or transport. HSC 118280(b) |
| <input type="checkbox"/> | 4213 | Waste container/bin not labeled with the words "Biohazardous Waste" or with the international biohazard symbol and the word "BIOHAZARD" on the lid and sides. HSC 118280(c) |
| <input type="checkbox"/> | 4214 | Reusable containers/bins for MW storage not kept clean and sanitary. HSC 118295, 118305 |
| <input type="checkbox"/> | 4215 | Frozen (0°C/32°F) biohazardous waste stored >90 days. HSC 118280(e)(2) |
| <input type="checkbox"/> | 4306 | Full sharps container stored >30 days at >0°C. HSC 118285(c) |
| <input type="checkbox"/> | 4307 | Biohazard bag waste stored >7 days at >0°C (for generators of >20lbs/month). HSC 118280(e)(1)(A) |
| <input type="checkbox"/> | 4308 | Biohazard bag waste stored >30 days at >0°C (for generators of <20lbs/month). HSC 118280(e)(1)(B) |
| <input type="checkbox"/> | 4219 | MW interim storage area not marked with warning sign or biohazard symbol legible from 5 ft. HSC 118307, 118310 |
| <input type="checkbox"/> | 4220 | MW interim storage area not properly secured. HSC 118307 |

TREATMENT AND DISPOSAL

- | | | |
|--------------------------|------|--|
| <input type="checkbox"/> | 4251 | MW treated by unapproved method/procedure. HSC 118215 |
| <input type="checkbox"/> | 4252 | Standardized written operating procedures for steam sterilization not available. HSC 118215(a)(2)(A) |
| <input type="checkbox"/> | 4253 | Recording thermometer not calibrated annually. HSC 118215(a)(2)(B) |
| <input type="checkbox"/> | 4254 | No records of annual thermometer calibration checks onsite for at least the past 2 years. HSC 118215(a)(2)(B) |
| <input type="checkbox"/> | 4255 | Heat-sensitive tape/other approved method not used for each load treated onsite. HSC 118215(a)(2)(C) |
| <input type="checkbox"/> | 4256 | Monthly biological indicator or other approved method not used to confirm proper disinfection. HSC 118215(a)(2)(D) |
| <input type="checkbox"/> | 4257 | Onsite steam sterilization did not reach 121°C/250°F for 30 minutes. HSC 118215(a)(2)(B) |
| <input type="checkbox"/> | 4258 | Treatment records/logs of dates, time, and temperature not available for 2 years. HSC 118215(a)(2)(E) |
| <input type="checkbox"/> | 4259 | Disposal of untreated MW to an unauthorized point. HSC 118340 |

TRANSPORTATION REQUIREMENTS

- | # | HMD | VIOLATION DESCRIPTION |
|--------------------------|------|---|
| <input type="checkbox"/> | 4260 | Transportation of MW without State Hauler Registration, USPS or requirements of the DOT "Materials of Trade Exceptions." HSC 118025 |
| <input type="checkbox"/> | 4311 | Medical waste tracking documents/logs not in vehicle transporting medical waste. HSC 118040 |

SMALL QUANTITY GENERATORS ONLY

(<200 pounds of medical waste generated per month)

- | | | |
|--------------------------|------|---|
| <input type="checkbox"/> | 4301 | Medical Waste Management Plan (MWMP) not submitted to HMD (initial/updates), if onsite treatment. HSC 117935 |
| <input type="checkbox"/> | 4302 | Did not maintain and show proof of "onsite" medical waste treatment records for 3 years. HSC 117943 |
| <input type="checkbox"/> | 4303 | Did not retain on file disposal receipts, tracking/shipping documents for medical waste shipped offsite for 3 years. HSC 117945 |
| <input type="checkbox"/> | 4309 | MWMP or equivalent information not onsite (only for SQG doing onsite treatment or comply with pharmaceutical waste hauling exemption). HSC 117935, 118032 |

LARGE QUANTITY GENERATORS ONLY

(≥ 200 pounds of medical waste generated per month)

- | | | |
|--------------------------|------|--|
| <input type="checkbox"/> | 4351 | MWMP not submitted to HMD (initial/updates). HSC 117960, 117970 |
| <input type="checkbox"/> | 4352 | Records of medical waste treatment not available for 2 years. HSC 117975, 118215(a)(2)(E) |
| <input type="checkbox"/> | 4353 | Did not make available disposal receipts, tracking/shipping documents for at least 2 years for medical waste shipped offsite. HSC 117975 |

CHEMOTHERAPY, PATHOLOGY, PHARMACEUTICAL HAZARDOUS & UNIVERSAL WASTES

- | | | |
|--------------------------|---------|--|
| <input type="checkbox"/> | 4401 | Trace Chemo waste not segregated from other MW. HSC 118275(a)(4) |
| <input type="checkbox"/> | 4402 | Trace Chemo waste container not labeled "Chemotherapy Waste" or "CHEMO" on the lid and the sides. HSC 118275(a)(4) |
| <input type="checkbox"/> | 4403 | Illegal disposal of chemo waste. HSC 118340 |
| <input type="checkbox"/> | 4411 | Pathology waste not segregated from other MW. HSC 118275(a)(5) |
| <input type="checkbox"/> | 4412 | Pathology waste container not labeled "Pathology Waste" or "PATH" on the lid and the sides. HSC 118275(a)(5) |
| <input type="checkbox"/> | 4413 | Illegal disposal of pathology waste. HSC 118340 |
| <input type="checkbox"/> | 4421 | Pharm waste not segregated from other MW. HSC 118275(a)(6) |
| <input type="checkbox"/> | 4422 | Pharm waste not labeled "Incineration Only or HIGH HEAT" on the lid and the sides. HSC 118275(a)(6) |
| <input type="checkbox"/> | 4423 | Pharm waste stored >90 days when container full, or stored longer than one year (maximum allowable time). HSC 118280(f) |
| <input type="checkbox"/> | 4432 | Illegal disposal of pharm waste. HSC 118340, 118222(b) |
| <input type="checkbox"/> | 4441 | Disposal of photo/hazwaste to an unauthorized point. HSC 25189.5 |
| <input type="checkbox"/> | 3030046 | Failed to keep records of offsite universal waste shipment(s) available for inspection for 3 years. HSC 25185(a)(4); 22 CCR 66273.39(c),(d)(2) |
| <input type="checkbox"/> | 3050003 | Disposed of universal waste to an unauthorized point. HSC 25189.5(a); 25189(c),(d); 25189.2(c); 22 CCR 66273.31(a) |

LOG MW ONSITE TREATMENT FACILITY

(≥ 200 pounds of medical waste generated per month)

- | | | |
|--------------------------|------|--|
| <input type="checkbox"/> | 4501 | Onsite MW treatment permit not obtained/renewed. HSC 117950, 118130, 65620, 65623 |
| <input type="checkbox"/> | 4502 | Current copy of the MW treatment permit not available. HSC 65621(f), 65623, 118165, 118180 |
| <input type="checkbox"/> | 4503 | Condition(s) of the MW treatment permit violated. HSC 65623 |

Subject: RE: Question: Vacating a Property
Date: Thursday, February 8, 2018 2:51:33 PM

Hello Kelly – I hope you are doing well and the beginning of the year is treating you nice. I wanted to communicate to you our status on our property at 11011 N. Torrey Pines Road, Ste 130, La Jolla with CERS ID 10371421 which is a small pharmaceutical manufacturing site (a few batches of commercial product annually). We had expected to vacate the property at the end of the year; however, due to a client requirement, we must maintain the site to return to manufacturing service if required until some legal commitments are completed – we will then vacate the property. We are maintaining all permits and we did update the CERS inventory last December because we only have minimal reporting materials to maintain the site in a return-to-service status (e.g., boiler chemical maintenance, air pollution activated-carbon drums).

We do have maintenance personnel inspecting the site periodically as well as our security personnel on a daily basis. Our fire system, security system, as well as our central Business Management System (BMS) still is active for the site. Please let me know if there is anything else to do since we do not meet all the conditions of the County’s Remote Site Notification, specifically, “The facility is located in an isolated sparsely populated area (i.e., remote mostly mountainous or backcountry area).”

Please do not hesitate to contact me to discuss so we ensure continued compliance and public and environment health and safety. My mobile number (see below) is best to reach me or else Nuria Ibarra, EHS Mgr, at 858-625-2424 x 2203 who is cc’d on this e-mail.

Subject: RE: Question: Vacating a Property

Good afternoon John,

Indeed, Louise found an exciting new job last month, so I apologize that no one got back to you sooner. I am the supervisor for Louise's position (which is currently being filled). I was hoping the County would maintain her email address, or forward them to me, but no such luck.

In regards to you vacating the facility at 11011 N. Torrey Pines Rd. Ste 130, The County of San Diego, Hazardous Materials Division (HMD) would need the following information/actions to take place prior to inactivation of the Unified Program Facility Permit and CERS ID number. I am not familiar with the needs of other agencies or jurisdictions though, so I am only speaking from the HMD's perspective.

1. The Hazardous waste storage area can simply be cleaned like you described below, however, make sure to determine if any rinsate or residue from your cleaning activities are considered hazardous waste. Since you have 55 gallon drums instead of hazardous waste *tank* systems, you have less closure requirements. Please maintain any hazardous waste manifests for inspection upon request.
2. No concerns with your plan for the microbiology lab area. Be cautious when doing your lab cleanout that old, expired, or off-spec chemicals don't get accidentally disposed of improperly.
3. In CERS, edit the Facility Information, Business Activities section, and mark "NO" to all of the questions about the activities at that location. This is the formal way to inform the HMD and CalEPA that you do not need to be regulated under the Unified Program or Medical Waste Programs at that location any longer. Make a submittal of the Facility Information with a comment to regulator that you are closing the facility. Once that is reviewed by our department, we will follow the process to archive the CERS information.
4. No additional concerns about these systems.

Once we receive notification via a CERS submittal, an inspection will need to be conducted by one of our staff to verify that a permit is no longer required. After that inspection, the permit will be inactivated.

I hope this answers your questions. Thank you for reaching out to us.

Kelly Robertson

Subject: FW: Question: Vacating a Property

Hello Ms. Robertson.

I discovered today from the Duty Specialist, Joan Swanson, that Louise Norton no longer works for the SDCounty Env Hlth Dept. Below is an e-mail I had sent to her to ensure we properly notify the agency and clean the premises in accordance with any requirements prior to closing the account in CERS. Could you please let me know (your preference of e-mail or phone call) regarding requirements when exiting a building?

Thank you.

Subject: Question: Vacating a Property

Hi Louise – I hope all has been going well with you. We are preparing to vacate a property (our “B6” site located at 11011 N. Torrey Pines Road, Ste 130, La Jolla). Could you please summarize what the expectations from the agency would be since the site is a LQG? I did not see anything on the SDC Env Health website addressing this.

Background

1. We have a 90-day Storage Area (55-gal drum and lab pack only, no tanks) which we are going to appropriately clean (e.g., typically we do a 3x rinse cleaning using Simple Green or other cleaning material).
 - a. No history of spills
 - b. All drum stored on containment pallets (pallets cleaned/properly disposed as well)
2. We did have a microbiology lab there that we managed waste under the Medical Waste Management Act (no pathogens or regulated medical waste but we regulated as such since disposal of the petri dishes, soy broth, etc. all have the appearance as a medical waste); tests were to ensure aseptic conditions were being met per FDA GMP requirements by

checking for typical organism counts found in the natural environment.

- a. Area will be wiped clean in accordance with our GMP cleaning process (IPA wipe clean).
 - b. Bio-safety cabinet/hood will be aseptically cleaned (e.g., paraformaldehyde or hydrogen peroxide tenting).
3. CERS Inventory
- a. Will be properly updated (we have the 30-day requirement for inventory changes)
 - b. Appears that we would contact our regulator to update and be *“transferred out of your business at your request or by your regulator due to an owner/operator change for the facility”* per the Facility Management>Archive page.
4. We do have a wastewater treatment system onsite with a sump and above-ground neutralization tank that will be properly characterized, cleaned, and disposed of or left-in-place based upon Landlord right to maintain *“tenant improvements”*.

Not sure if there is any cleaning plan for approval required prior to exit, inspection and certification of clean by agency, or other task required by SDC Env Health (only closed down the old Hybritech facility back in ca. 1999 and not much requested back then).

Thnx – John S.

Subject: RE: Question: Vacating a Property
Date: Thursday, February 8, 2018 2:51:33 PM

Hello Kelly – I hope you are doing well and the beginning of the year is treating you nice. I wanted to communicate to you our status on our property at 11011 N. Torrey Pines Road, Ste 130, La Jolla with CERS ID 10371421 which is a small pharmaceutical manufacturing site (a few batches of commercial product annually). We had expected to vacate the property at the end of the year; however, due to a client requirement, we must maintain the site to return to manufacturing service if required until some legal commitments are completed – we will then vacate the property. We are maintaining all permits and we did update the CERS inventory last December because we only have minimal reporting materials to maintain the site in a return-to-service status (e.g., boiler chemical maintenance, air pollution activated-carbon drums).

We do have maintenance personnel inspecting the site periodically as well as our security personnel on a daily basis. Our fire system, security system, as well as our central Business Management System (BMS) still is active for the site. Please let me know if there is anything else to do since we do not meet all the conditions of the County’s Remote Site Notification, specifically, “The facility is located in an isolated sparsely populated area (i.e., remote mostly mountainous or backcountry area).”

Please do not hesitate to contact me to discuss so we ensure continued compliance and public and environment health and safety. My mobile number (see below) is best to reach me or else Nuria Ibarra, EHS Mgr, at 858-625-2424 x 2203 who is cc’d on this e-mail.

Subject: RE: Question: Vacating a Property

Good afternoon John,

Indeed, Louise found an exciting new job last month, so I apologize that no one got back to you sooner. I am the supervisor for Louise's position (which is currently being filled). I was hoping the County would maintain her email address, or forward them to me, but no such luck.

In regards to you vacating the facility at 11011 N. Torrey Pines Rd. Ste 130, The County of San Diego, Hazardous Materials Division (HMD) would need the following information/actions to take place prior to inactivation of the Unified Program Facility Permit and CERS ID number. I am not familiar with the needs of other agencies or jurisdictions though, so I am only speaking from the HMD's perspective.

1. The Hazardous waste storage area can simply be cleaned like you described below, however, make sure to determine if any rinsate or residue from your cleaning activities are considered hazardous waste. Since you have 55 gallon drums instead of hazardous waste *tank* systems, you have less closure requirements. Please maintain any hazardous waste manifests for inspection upon request.
2. No concerns with your plan for the microbiology lab area. Be cautious when doing your lab cleanout that old, expired, or off-spec chemicals don't get accidentally disposed of improperly.
3. In CERS, edit the Facility Information, Business Activities section, and mark "NO" to all of the questions about the activities at that location. This is the formal way to inform the HMD and CalEPA that you do not need to be regulated under the Unified Program or Medical Waste Programs at that location any longer. Make a submittal of the Facility Information with a comment to regulator that you are closing the facility. Once that is reviewed by our department, we will follow the process to archive the CERS information.
4. No additional concerns about these systems.

Once we receive notification via a CERS submittal, an inspection will need to be conducted by one of our staff to verify that a permit is no longer required. After that inspection, the permit will be inactivated.

I hope this answers your questions. Thank you for reaching out to us.

Subject: FW: Question: Vacating a Property

Hello Ms. Robertson.

I discovered today from the Duty Specialist, Joan Swanson, that Louise Norton no longer works for the SDCounty Env Hlth Dept. Below is an e-mail I had sent to her to ensure we properly notify the agency and clean the premises in accordance with any requirements prior to closing the account in CERS. Could you please let me know (your preference of e-mail or phone call) regarding requirements when exiting a building?

Thank you.

Subject: Question: Vacating a Property

Hi Louise – I hope all has been going well with you. We are preparing to vacate a property (our “B6” site located at 11011 N. Torrey Pines Road, Ste 130, La Jolla). Could you please summarize what the expectations from the agency would be since the site is a LQG? I did not see anything on the SDC Env Health website addressing this.

Background

1. We have a 90-day Storage Area (55-gal drum and lab pack only, no tanks) which we are going to appropriately clean (e.g., typically we do a 3x rinse cleaning using Simple Green or other cleaning material).
 - a. No history of spills
 - b. All drum stored on containment pallets (pallets cleaned/properly disposed as well)
2. We did have a microbiology lab there that we managed waste under the Medical Waste Management Act (no pathogens or regulated medical waste but we regulated as such since disposal of the petri dishes, soy broth, etc. all have the appearance as a medical waste); tests were to ensure aseptic conditions were being met per FDA GMP requirements by

checking for typical organism counts found in the natural environment.

- a. Area will be wiped clean in accordance with our GMP cleaning process (IPA wipe clean).
 - b. Bio-safety cabinet/hood will be aseptically cleaned (e.g., paraformaldehyde or hydrogen peroxide tenting).
3. CERS Inventory
- a. Will be properly updated (we have the 30-day requirement for inventory changes)
 - b. Appears that we would contact our regulator to update and be *“transferred out of your business at your request or by your regulator due to an owner/operator change for the facility”* per the Facility Management>Archive page.
4. We do have a wastewater treatment system onsite with a sump and above-ground neutralization tank that will be properly characterized, cleaned, and disposed of or left-in-place based upon Landlord right to maintain *“tenant improvements”*.

Not sure if there is any cleaning plan for approval required prior to exit, inspection and certification of clean by agency, or other task required by SDC Env Health (only closed down the old Hybritech facility back in ca. 1999 and not much requested back then).

Thnx – John S.

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

SAN DIEGO REGIONAL 10123627 HAZARDOUS MATERIALS QUESTIONNAIRE

Business Name Agilent Technologies	Business Contact Dan MacNeil	Telephone # (858) 373-6420
Project Address 11011 N. Torrey Pines Rd.	City San Diego	State CA
Mailing Address same	City San Diego	State CA
Project Contact Carrie Braun / Dowler Gruman Architects	City San Diego	State CA
		Telephone # (619) 685-3990

The following questions represent the facility's activities, NOT the specific project description.

PART I: FIRE DEPARTMENT - HAZARDOUS MATERIALS DIVISION: OCCUPANCY CLASSIFICATION: (not required for projects within the City of San Diego): Indicate by circling the item, whether your business will use, process, or store any of the following hazardous materials. If any of the items are circled, applicant must contact the Fire Protection Agency with jurisdiction prior to plan submittal.

Occupancy Rating: Facility's Square Footage (including proposed project):

1. Explosive or Blasting Agents	5. Organic Peroxides	9. Water Reactives	13. Corrosives
2. Compressed Gases	6. Oxidizers	10. Cryogenics	14. Other Health Hazards
3. Flammable/Combustible Liquids	7. Pyrophorics	11. Highly Toxic or Toxic Materials	15. None of These.
4. Flammable Solids	8. Unstable Reactives	12. Radioactives	

PART II: SAN DIEGO COUNTY DEPARTMENT OF ENVIRONMENTAL HEALTH - HAZARDOUS MATERIALS DIVISION (HMD): If the answer to any of the questions is yes, applicant must contact the County of San Diego Hazardous Materials Division, 5500 Overland Avenue, Suite 170, San Diego, CA 92123. Call (858) 505-6700 prior to the issuance of a building permit.

FEES ARE REQUIRED.	Project Completion Date:	Expected Date of Occupancy:	<input type="checkbox"/> CalARP Exempt Date / Initials <input type="checkbox"/> CalARP Required Date / Initials <input type="checkbox"/> CalARP Complete Date / Initials
YES NO		(for new construction or remodeling projects)	
1. <input checked="" type="checkbox"/> <input type="checkbox"/>	Is your business listed on the reverse side of this form? (check all that apply).		
2. <input checked="" type="checkbox"/> <input type="checkbox"/>	Will your business dispose of Hazardous Substances or Medical Waste in any amount?		
3. <input checked="" type="checkbox"/> <input type="checkbox"/>	Will your business store or handle Hazardous Substances in quantities greater than or equal to 55 gallons, 500 pounds and/or 200 cubic feet?		
4. <input checked="" type="checkbox"/> <input type="checkbox"/>	Will your business store or handle carcinogens/reproductive toxins in any quantity?		
5. <input type="checkbox"/> <input checked="" type="checkbox"/>	Will your business use an existing or install an underground storage tank?		
6. <input type="checkbox"/> <input checked="" type="checkbox"/>	Will your business store or handle Regulated Substances (CalARP)?		
7. <input type="checkbox"/> <input checked="" type="checkbox"/>	Will your business use or install a Hazardous Waste Tank System (Title 22, Article 10)?		
8. <input type="checkbox"/> <input checked="" type="checkbox"/>	Will your business store petroleum in tanks or containers at your facility with a total facility storage capacity equal to or greater than 1,320 gallons? (California's Aboveground Petroleum Storage Act).		

PART III: SAN DIEGO COUNTY AIR POLLUTION CONTROL DISTRICT (APCD): If the answer to Question #1 below is no or the answer to any of the Questions #2-5 is yes, applicant must contact the APCD at 10124 Old Grove Road, San Diego, CA 92131-1649 or telephone (858) 586-2600 prior to the issuance of a building or demolition permit. If the answer to questions #4 or #5 is yes, applicant must also submit an asbestos notification form to the APCD at least 10 working days prior to commencing demolition or renovation. (Some residential projects may be exempt from the notification requirements. Contact the APCD for more information.)

YES NO	
1. <input checked="" type="checkbox"/> <input type="checkbox"/>	Has a survey been performed to determine the presence of Asbestos Containing Materials?
2. <input type="checkbox"/> <input checked="" type="checkbox"/>	Will the subject facility or construction activities include operations or equipment that emit or are capable of emitting an air contaminant? (See the APCD factsheet at http://www.sdapcd.org/info/facts/permits.pdf , and the list of typical equipment requiring an APCD permit on the reverse side of this form. Contact APCD if you have any questions).
3. <input type="checkbox"/> <input checked="" type="checkbox"/>	(ANSWER ONLY IF QUESTION 1 IS YES) Will the subject facility be located within 1,000 feet of the outer boundary of a school (K through 12)? (Search the California School Directory at http://www.cde.ca.gov/re/sd/ for public and private schools or contact the appropriate school district).
4. <input type="checkbox"/> <input checked="" type="checkbox"/>	Will there be renovation that involves handling of any friable asbestos materials, or disturbing any material that contains non-friable asbestos?
5. <input type="checkbox"/> <input checked="" type="checkbox"/>	Will there be demolition involving the removal of a load supporting structural member?

On the above date, the County inspected your business for compliance with the H&SC, the California Code of Regulations (CCR) (25187.8 & 25404.1.2) for any minor violations. Minor violations do not include repetitive violations. Minor violations do not include knowing, willful, intentional, or criminal violations. The County is intended to provide guidance to correct any violations. The County is (or as specified below) demonstrating that all violations are corrected. Prompt correction can prevent future violations even if they are corrected promptly.

 CITY/ZIP La Jolla / 92037

On the above date, the County inspected your business under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

RECEIVED JUN 19 2012

Notice to Comply

A routine inspection was conducted at the above facility with Dan Mac Neil, Safety Manager. Mr. Mac Neil gave permission to take photos and samples. Copy of photo is attached to this report. Agilent is a biotechnology company that develops products and technologies for life science research, including DNA and protein purification. The inspection covered the following Certified Unified Program Agency (CUPA) elements: hazardous waste generator, hazardous materials business plan, and medical waste generator. Agilent is a small quantity generator (SQG) of hazardous and medical waste. The following observations were made during the inspection:

Violations/Observations/Corrective Actions

Hazardous Materials Violations

- i. **Hazardous Materials Business Plan (HMBP) not certified annually. 25505(d) & (e)(2) Observations:** The business did not recertify the HMBP for 2011. The businesses must annually submit to the HMD a recertification statement in writing that the HMBP is true, accurate, and complete. **Corrective Actions:** The business corrected this violation by recertifying the HMBP during this inspection. Be advised the business must submit a HMBP recertification statement with each change to the chemical inventory, site map, and/or the emergency contacts. The HMBP recertification form, HM-953 can be found on the HMD website at <http://www.sdcounty.ca.gov/deh/hazmat/pdf/hm-953.pdf>

<input type="checkbox"/> This is an annual certification that the Hazardous Materials Business Plan (inventory & site map, emergency contacts, emergency response plan, and employee training plan) is current and includes all the information required in the H&SC and is maintained at the site where hazardous materials are stored. Medical Waste Violations

2. Generator did not store medical waste in approved and properly marked red bags (non-sharps). HSC 118275 Observations: In the Medical Waste Designated Accumulation Area (room 183) medical waste not contained in a red bag. There were at least two used plastic vials and other medical waste debris observed not stored in an approved and properly marked red bag. See photo enclosed. Corrective Actions: To containerize or store medical waste, a person shall do all of the following:

- a. Medical waste shall be contained separately from other waste at the point of origin in the producing facility. Sharps containers may be placed in biohazard bags or in containers with biohazard bags.
b. Biohazardous waste shall be placed in a red biohazard bag conspicuously labeled with the words "Biohazardous Waste" or with the international biohazard symbol and the word "BIOHAZARD." Within 30 days of receipt of this report provide the HMD statements, photos and/or documentation that demonstrate that this violation has been corrected.

Within 30 days of this report provide the HMD with statements, documentation, and/or photos which demonstrates that the above violation has been corrected.

3. Red bag not containerized in rigid, leak resistant, and covered containers or bin. HSC 118280(b) Observations: I observed four closed red bags of medical waste in cold room 175 that were not stored in rigid, leak resistant, closed and labeled containers/bins. Onsite staff verified that the waste is regulated medical waste that at one time was material being store for potential future use. Corrective Actions: Red bags must only be used to store medical waste. Red bags ready for disposal must be tied off and be stored in containers with leak resistant and have tight-fitting covers. The containers may be any color, but they must be labeled with the words "Biohazardous Waste" or with the international biohazard symbol and the word "BIOHAZARD" on the lid and on the sides so as to be visible from any lateral direction. This violation was corrected during the inspection. No further action required.

4. Reusable containers/bins for medical waste storage not kept clean/sanitary. HSC 118295 Observations: In the Medical Waste Designated Accumulation Area (room 183) I observed a medical waste bin with medical waste directly inside the reusable bin. This bin must be properly decontaminated. See photo. Corrective Actions: Agilent must thoroughly wash and decontaminate reusable rigid containers for medical waste by a method approved by the enforcement agency each time they are emptied, unless the surfaces of the containers have been completely protected from contamination by disposable liners, bags, or other devices removed with the waste. These containers shall be maintained in a clean and sanitary manner. Approved methods of decontamination include, but are not limited to, agitation to remove visible soil combined with one of the following procedures:

- a. Exposure to hot water of at least 82 degrees Centigrade (180 degrees Fahrenheit) for a minimum of 15 seconds.
b. Exposure to chemical sanitizer by rinsing with, or immersion in, one of the following for a minimum of three minutes:
i. Hypochlorite solution (500 ppm available chlorine).
ii. Phenolic solution (500 ppm active agent).
iii. Iodoform solution (100 ppm available iodine).
iv. Quaternary ammonium solution (400 ppm active agent).

SUPPLEMENTAL COMPLIANCE INSPECTION REPORT

PERMIT #	211638
DATE	5/29/2012
PAGE	3 OF 5

BUSINESS ADDRESS: 11011 N. Torrey Pines Rd

ZIP CODE: 92037

Within 30 days of this report provide the HMD with statements, documentation, and/or photos which demonstrates that the above violation has been corrected.

Remarks:

Hazardous Waste

- a. Contingency plan and emergency procedures reviewed
- b. Reviewed employee training program
- c. There is not a hazardous waste storage area. All containers satellite containers.
- d. Hazardous waste manifests reviewed
- e. Land disposal restriction records reviewed
- f. Universal waste records available

Hazardous Materials

- g. An updated site map was received this day to include a sudden release (SR) symbol for a compressed gas cylinder onsite as well as to show hallway access near room 160.
- h. Chemical inventory reviewed
- i. One emergency contact updated today
- j. Annual carcinogen was reviewed

Medical Waste

- k. I observed 4 sharps containers not labeled with the generator name, address and phone number on the containers. These minor violations were corrected during the inspection.
- l. I observed 2 rigid medical waste containers without a biohazard word and symbol on the lid and sides. These minor violations were corrected during the inspection.
- m. Medical waste tracking documents reviewed

Written documentation of corrective actions with supporting attachments shall be provided to HMD within the time periods prescribed in this Notice to Comply. This can be accomplished by completing and submitting the enclosed corrective action form with supporting attachments to the Hazardous Materials Division.

QUESTIONS and/or CORRESPONDENCE regarding this report should be directed to:

	<input type="checkbox"/>	4259 Disposal of untreated MW to an unauthorized point. 118340

TRANSPORTATION REQUIREMENTS

Viol #	V	VIOLATION DESCRIPTION
	<input type="checkbox"/>	4260 Transportation of MW without State Hauler Registration or a Limited Quantity Hauler Exemption (LQHE) from HMD. 118025
	<input type="checkbox"/>	4304 No LQHE for "self-hauled" medical waste (<20 pounds of medical waste generated per week). 118025, 118030(a)(1)
	<input type="checkbox"/>	4305 LQHE not renewed annually as required. 118030(b)
	<input type="checkbox"/>	4311 Medical waste tracking documents not in vehicle transporting medical waste. 118040(c)
	<input type="checkbox"/>	4312 Medical waste tracking documents/logs not maintained for 3 years for LQHE. 118040(a)

SMALL QUANTITY GENERATORS ONLY

(<200 pounds of medical waste generated per month)

	<input type="checkbox"/>	4301 Medical Waste Management Plan (MWMP) not submitted to HMD (initial/updates), if onsite treatment. 117935
	<input type="checkbox"/>	4302 Did not maintain and show proof of "onsite" medical waste treatment records for 3 years. 117943, 118215(2)(E)
	<input type="checkbox"/>	4303 Did not retain on file disposal receipts/tracking documents for medical waste shipped offsite for 2 years. 117945(b)
	<input type="checkbox"/>	4309 MWMP or equivalent information not onsite. 117945

LARGE QUANTITY GENERATORS ONLY

(≥ 200 of medical waste generated per month)

	<input type="checkbox"/>	4351 MWMP not submitted to HMD (initial/updates). 117960, 117970
	<input type="checkbox"/>	4352 Records of medical waste treatment not available for 3 years. 117975, 118215(2)(E)
	<input type="checkbox"/>	4353 Did not retain on file disposal receipts/tracking documents for at least 3 years for medical waste shipped offsite. 117975

CHEMOTHERAPY, PATHOLOGY, PHARMACEUTICAL HAZARDOUS & UNIVERSAL WASTES

	<input type="checkbox"/>	4401 Chemo waste not segregated from other MW. 118275(e)
	<input type="checkbox"/>	4402 Chemo waste container not labeled "Chemotherapy Waste" or "CHEMO" on the lid and the sides. 118275(e)
	<input type="checkbox"/>	4403 Illegal disposal of chemo waste. 118340
	<input type="checkbox"/>	4411 Pathology waste not segregated from other MW. 118275(f)
	<input type="checkbox"/>	4412 Pathology waste container not labeled "Pathology Waste" or "PATH" on the lid and the sides. 118275(f)
	<input type="checkbox"/>	4413 Illegal disposal of pathology waste. 118340
	<input type="checkbox"/>	4421 Pharmwaste not segregated from other MW. 118275(g)
	<input type="checkbox"/>	4422 Pharmwaste not labeled "Incineration Only" on the lid and the sides. 118275(g)
	<input type="checkbox"/>	4423 Pharmwaste stored >90 days when container full, or stored longer than one year (maximum allowable time). 118280(e)
	<input type="checkbox"/>	4432 Illegal disposal of pharmwaste. 118340, 118222(b)
	<input type="checkbox"/>	4441 Disposal of photo/hazwaste to an unauthorized point. 25189.5
	<input type="checkbox"/>	0307 Disposal of universal waste (UW) to an unauthorized point. 25189.5(a); 66273.31(a)
	<input type="checkbox"/>	0147 Failed to keep records of offsite universal waste (UW) shipment(s) available for inspection. 66273.39(c) & (d).

LOG MW ONSITE TREATMENT FACILITY

(≥ 200 pounds of medical waste generated per month)

	<input type="checkbox"/>	4501 Onsite MW treatment permit not obtained/renewed. 117950, 118130, 118135, 65620, 65623
	<input type="checkbox"/>	4502 Current copy of the MW treatment permit not available. 65621(f), 65623, 118165, 118180
	<input type="checkbox"/>	4503 Condition(s) of the MW treatment permit violated. 65623

HAZARDOUS MATERIALS BUSINESS PLAN CERTIFICATION

The California Health & Safety Code (H&SC), Division 20, Chapter 6.95, Section 25505 provides for the following:

The County of San Diego, Department of Environmental Health, Hazardous Materials Division (HMD), as the administering agency, requires a business that handles hazardous materials to submit the hazardous materials inventory, a list of emergency contacts, and a site plan, in lieu of a complete Hazardous Materials Business Plan (HMBP), only after the initial submittal of a complete HMBP. A complete HMBP includes the items to be submitted to the HMD and an Emergency Response Plan and Employee Training Plan, as established in H&SC Section 25504. The business must annually certify that a complete HMBP has been prepared, is current and is maintained at the site where the hazardous materials are stored. See *Back* for instructions and further clarification

I. IDENTIFICATION

FACILITY ID#	3	7	0	0	0	2	1	1	6	3	8	'
BUSINESS NAME (Same as FACILITY NAME or DBA - Doing Business As)	Agilent Technologies											
BUSINESS SITE ADDRESS	11011 North Torrey Pines Road											
CITY	104	CA	ZIP CODE	105								
La Jolla			92037									

II. CERTIFICATION STATEMENT

CARCINOGEN/REPRODUCTIVE TOXIN ANNUAL RENEWAL WITHOUT CHANGES: This is an annual renewal to certify that the list of carcinogens and/or reproductive toxins last provided is a current list as specified in the San Diego County Code of Regulatory Ordinances Section 68.1113.

Check only ONE of the following boxes:

INITIAL CERTIFICATION: This is to certify (H&SC Section 25505(e)(1)) that a complete HMBP, which includes the hazardous materials inventory, a list of emergency contacts, a site plan, emergency response plan, and employee training plan, has been prepared and is maintained at the site where the hazardous materials are stored.

ANNUAL CERTIFICATION WITHOUT CHANGES: This is an annual certification (H&SC Section 25505(d) & (e)(2)) that the HMBP, which includes the hazardous materials inventory, a list of emergency contacts, a site plan, emergency response plan, and employee training plan, is current and includes all the information required in H&SC Section 25504, and 25509, and is maintained at the site where the hazardous materials are stored.

CERTIFICATION OF CHANGES/REVISIONS: This is to certify that the HMBP has been reviewed (H&SC Section 25505(c) & 25510) and all necessary changes/revisions have been made. The HMBP is current and is maintained at the site where the hazardous materials are stored. Attached are changes to the hazardous materials inventory and/or list of emergency contacts. For site map revisions, submit only the pages that have a change or revision and attach to this certification. This submittal satisfies annual certification requirements specified in H&SC Section 25505(d) & (e)(2).

As an Authorized Representative, I certify, under the penalty of law, that I have personally examined and am familiar with the information submitted and believe the information is true, accurate, and complete. By checking any of the boxes above I also certify that: a) The information contained in the hazardous materials inventory most recently submitted to the CUPA or Administering Agency is complete, accurate, and up to date; b) There has been no change in the quantity of hazardous materials reported in the most recently submitted inventory; and c) All hazardous materials subject to inventory requirements are listed on the most recently submitted inventory.

FACILITY NAME Agilent Technologies
 ADDRESS 11011 N. Torrey Pines Rd
 CITY/ZIP La Jolla / 92037

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

- NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

Consent to inspect granted by: Inspection Contact Other: _____

Notice to Comply

On 12/2/2013 routine inspection was conducted at the above facility with Dan Mac Neil, EHS Specialist. Agilent is a biotechnology company that develops products and technologies for life science research, including DNA and protein purification. The inspection covered the following Certified Unified Program Agency (CUPA) elements: hazardous waste generator, hazardous materials business plan, and medical waste generator. Agilent is a small quantity generator (SQG) of hazardous and medical waste.

During the inspection Mr. Mac Neil was asked for permission to take photos of violations that were observed, and he did not provide consent, stating that only the company's corporate and legal department can grant consent to take photographs and that they do not allow anyone to take photographs inside the facility. Mr. Mac Neil was informed that as per the Health and Safety Code Section 25185, a County inspector has the authority to document violations and take photographs of violations found during an inspection. Eight violations were observed and cited during this inspection, however no photographs were taken as they normally would be during an inspection. During the 5/29/2012 and the 5/11/2010 inspections by County HMD, Mr. Mac Neil gave consent and permission to the County inspector to take photos and samples as per the previous inspection reports; additionally, photographs of the violations cited during those inspections were also taken and a copy provided to the business.

The Hazardous Materials Business Plan (inventory & site map, emergency contacts, emergency response plan, and employee training plan) is required by law to be certified online through the California Environmental Reporting System (CERS). For additional information about hazardous materials business plans and CERS, go to: <http://www.sdcounty.ca.gov/deh/hazmat/hmd-cers-info.html>

COUNTY OF SAN DIEGO

SUPPLEMENTAL COMPLIANCE INSPECTION REPORT

RECORD ID # DEH2002-HUPFP-

211638

DATE 12/2/2013

2 of 8

FACILITY ADDRESS: 11011 N. Torrey Pines Rd

ZIP CODE: 92037

Health and Safety Code Section 25185:

(a) In order to carry out the purposes of this chapter, any authorized representative of the department or the local officer or agency authorized to enforce this chapter pursuant to subdivision (a) of Section 25180, may, at any reasonable hour of the day, or as authorized pursuant to Title 13 (commencing with Section 1822.50) of Part 3 of the Code of Civil Procedure, do any of the following:

(1) Enter and inspect a factory, plant, construction site, disposal site, transfer facility, or any establishment or any other place or environment where hazardous wastes are stored, handled, processed, disposed of, or being treated to recover resources.

(2) Carry out any sampling activities necessary to carry out this chapter, including obtaining samples from any individual or taking samples from the property of any person or from any vehicle in which any authorized representative of the department or the local officer or agency authorized to enforce this chapter pursuant to subdivision (a) of Section 25180 reasonably believes has transported or is transporting hazardous waste. However, upon request, split samples shall be given to the person from whom, or from whose property or vehicle, the samples were obtained.

(3) Stop and inspect any vehicle reasonably suspected of transporting hazardous wastes when accompanied by a uniformed peace officer in a clearly marked vehicle.

(4) Inspect and copy any records, reports, test results, or other information required to carry out this chapter.

(5) Photograph any waste, waste container, waste container label, vehicle, waste treatment process, waste disposal site, or condition constituting a violation of law found during an inspection.

Violations/Observations/Corrective Actions

1. Impeding an inspection by a County inspector HSC 25185

Observations: During the inspection Mr. Mac Neil was asked for permission to take photos of violations that were observed, and he did not provide consent, stating that only the company's corporate and legal department can grant consent to take photographs and that they do not allow anyone to take photographs inside the facility. Mr. Mac Neil was informed that as per the Health and Safety Code Section 25185, a County inspector has the authority to document violations and take photographs of violations found during an inspection (refer to HSC 25185 cited above). Eight violations were observed and cited during this inspection, however no photographs were taken as they normally would be during an inspection. During the 5/29/2012 and the 5/11/2010 inspections by County HMD, Mr. Mac Neil gave consent and permission to the County inspector to take photos and samples as per the previous inspection reports; additionally, photographs of the violations cited during those inspections were also taken and a copy provided to the business.

Corrective Action: In the future during inspections, if the facility operator continues to impede the compliance inspection process, then formal enforcement may occur in accordance with State law. If the operator believes a trade secret or proprietary information requires protection, the procedures of Cal. HSC §25173 and §25185(d) may apply, and the operator must inform the County inspector at the time of the inspection all relevant information to support the belief. A discrete photograph of a waste container/label is normally not a trade secret or proprietary issue. Also, all inspector photos are dutifully submitted to the facility operator in accordance with State law for their file and as a normal component of an inspection report.

Hazardous Materials Violations

2. Did not submit annual carcinogen/reproductive toxin list. SDCC 63.1113(c)

Observations: Mr. Mac Neil stated that the annual carcinogen report was in the process of being updated, but was neither completed nor available for review during the inspection.

Corrective Action: Businesses that handle materials which are a carcinogen and/or reproductive toxin in quantities not subject to the requirements of Chapter 6.95 Health and Safety Code are required to provide a list of each such material handled during the previous year to the HMD. Within 30 days of receiving this report provide the HMD with a current carcinogen or reproductive toxins list. A carcinogen or reproductive toxins, for the purposes of this ordinance, are those listed by Prop 65 pursuant to the California Health and Safety Code Section 25249.8. The Prop 65 list is available on the internet at http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html. Complete the Disclosure of Hazardous Materials Information Bulletin HM-9243 form found on our website at http://www.sdcounty.ca.gov/deh/hazmat/hmd_forms.html and submit to HMD through the California Environmental Reporting System (CERS) (http://cers.calepa.ca.gov/).

3. Site map is not sufficient or complete. HSC 25509(a)(5) & 25505(a)(2)

Observations: After completing the site walkthrough, it was observed that the current site map was not updated and four liquid nitrogen dewars were moved from one room to a different room, however the site map was not updated to reflect this.

Corrective Actions: Within 30 days of receipt of this report, provide HMD with an updated copy of the hazardous materials site map by uploading the map in CERS.

Note: As per an email received from Mr. Mac Neil on 12/5/13, this violation has been corrected prior to the report being issued. No further action required at this time and is pending inspector review and approval in CERS

4. Hazardous Materials Business Plan (HMBP) not certified annually. HSC 25505(d) & (e)(2)

Observations: The business did not recertify the HMBP for 2013.

Be advised: this is a repeat violation that was cited during the 5/29/2012 inspection.

Corrective Actions: The business must certify annually that the HMBP is true, accurate and complete; any updates or changes to the HMBP must be submitted to the HMD through CERS as of January 1, 2013.

Be advised that this facility has not completed or submitted their Hazardous Materials Business Plan and Inventory information in CERS (California Environmental Reporting System http://cers.calepa.ca.gov/). Within 30 days of receiving this report, submit to the County HMD the following information through CERS: Hazardous Materials Business Plan (emergency response plan employee training plan, and facility site map), annual carcinogen report, and the facility's hazardous materials inventory and hazardous waste.

Please refer to the County's webpage for additional CERS information:

http://www.sdcounty.ca.gov/deh/hazmat/hmd-cers-info.html

http://www.sdcounty.ca.gov/deh/hazmat/hmd_forms.html

Note: As per an email received from Mr. Mac Neil on 12/5/13, this violation has been corrected prior to the report being issued. No further action required at this time and is pending inspector review and approval in CERS.

211638

DATE 12/2/2013

4 of 8

FACILITY ADDRESS: 11011 N. Torrey Pines Rd

ZIP CODE: 92037

5. Inventory not amended for 100% increase of hazardous material onsite or inventory is incomplete. HSC 25509, 25510

Observations: While conducting the facility walk-through I observed (2) approximately 100 gallon propane tanks stored onsite which were not reported to the County HMD in the CERS inventory

Corrective Actions: The reportable quantity for a hazardous material is 55-gallons, 200 cubic feet, and/or 500 lbs. All hazardous wastes, regardless of the amount generated, need to be reported on the permit inventory and in CERS. Within 30 days of receiving this report, revise your hazardous materials inventory and re-submit your CERS inventory to HMD.

Note: As per an email received from Mr. Mac Neil on 12/5/13, this violation has been corrected prior to the report being issued. No further action required at this time and is pending inspector review and approval in CERS.

Medical Waste Violations

6. Red bags, sharps containers, and/or pharmaceutical containers were not labeled with generator's name, address, and phone number. SDCC 68.1205, 68.1206

Observations: Observed all red bags at this facility that were accumulating biohazardous waste were not labeled with the generator's name, address and phone number. As per Mr. Mac Neil, the red bags are not labeled until they are full and ready for disposal. I observed approximately 20 red bags unlabeled at the time of inspection. Additionally, I observed 1 sharps container not labeled on Lab Bench #23.

Note: A photo could not be taken to document this violation because consent was not given by the inspection contact (Mr. Mac Neil).

Corrective Actions: Medical waste must be accumulated, stored and transferred in containers that meet the requirements specified in the California Medical Waste Management Act. Primary containers accumulating medical wastes (e.g. including but not limited to sharps containers, red bags, chemotherapeutic, pharmaceutical and pathology waste containers), with the exception of bench top red bags used to collect non-breakable pipette tips, must be labeled in a manner that will identify the generator by location. A label with the generator's name, address and phone number must be visible on the outside of the red bag. This label must be attached when the container is first used to accumulate or store medical waste. Within 30 days of receiving this report, provide to the HMD documentation that all medical waste at your facility will be managed in either properly marked sharps containers or red bags. Be advised that biohazardous waste must be placed in red biohazard bags labeled with the words "Biohazard" and the biohazard symbol, and also labeled with the generator's name, address and phone number.

Note: As per an email received from Mr. Mac Neil on 12/5/13, this violation has been corrected prior to the report being issued. No further action required.

7. Generator did not store medical waste in approved and properly marked red bags (non-sharps). MWMA 118275

Observations: At Lab Bench #15 I observed one biohazardous waste bin accumulating biohazardous waste which was not contained in a red bag. Note: A photo could not be taken to document this violation because consent was not given by the inspection contact (Mr. Mac Neil).

Corrective Actions: To containerize or store medical waste, a person shall do all of the following:

SUPPLEMENTAL COMPLIANCE INSPECTION REPORT

RECORD ID # DEH2002-HUPFP-211638
DATE 12/2/2013 5 of 8

FACILITY ADDRESS: 11011 N. Torrey Pines Rd

ZIP CODE: 92037

- a. Medical waste shall be contained separately from other waste at the point of origin in the producing facility.
b. Biohazardous waste shall be placed in a red biohazard bag conspicuously labeled with the words "Biohazardous Waste" or with the international biohazard symbol and the word "BIOHAZARD."
c. The red bag must be labeled with the generator's name, address and phone number.

Corrective Action: Within 30 days of receipt of this report, provide HMD with statements, photos and/or documentation that demonstrate that this violation has been corrected. Ensure that that all medical waste at your facility will be managed in either properly marked sharps containers or red bags.

Be advised: this is a repeat violation that was cited during the 5/29/2012 inspection.

Note: As per an email received from Mr. Mac Neil on 12/5/13, this violation has been corrected prior to the report being issued. No further action required

8. Waste container/bin not labeled with the words "Biohazardous Waste" or with the international biohazard symbol and the word "BIOHAZARD" on the lid and sides. MWMA 118280(b)

Observations: On Lab Bench #20, I observed (1) biohazard container that was missing the biohazard symbol on the lid and all sides. Only one side of the container had a biohazard label. Also, in the BSL2 Lab I observed (2) biohazard containers that were missing the biohazard symbol on the lids of the containers.

Note: A photo could not be taken to document this violation because consent was not given by the inspection contact (Mr. Mac Neil).

Be advised: this is a repeat violation that was cited during the 5/11/2010 inspection

Corrective Actions: Label the above reference containers/bins properly. Containers must be labeled with the words "Biohazardous Waste" or with the international biohazard symbol and the word "BIOHAZARD" on the lid and on the sides so as to be visible from any lateral direction. Within 30 days of receiving this report, provide HMD with documents or photos showing that this violation has been corrected.

Note: As per an email received from Mr. Mac Neil on 12/5/13, this violation has been corrected prior to the report being issued. No further action required.

Remarks

Hazardous Waste

- a. Under Chemical Lab Hood #6, I observed (1) bottle of ethidium bromide in a container with a hazardous waste label on it. The accumulation start date on the label was 5/2010, which has exceeded the 1 year storage limits for satellite accumulation containers. When questioned about the date on the waste bottle, Mr. Mac Neil stated that the bottle was not a waste, and that it was a good product that they were still using. Mr. Mac Neil could not explain why there was a hazardous waste label on the bottle and proceeded to remove the hazardous waste label. Note: A photo could not be taken to document this incident because consent was not given by the inspection contact (Mr. Mac Neil).
b. Emergency plan and emergency procedures reviewed
c. Reviewed employee training program
d. There is not a hazardous waste storage area. All containers satellite containers.
e. Hazardous waste manifests reviewed
f. Land disposal restriction records reviewed

Subject: Agilent Technologies Visit on 12/2/13

Importance: High

Follow Up Flag: Follow up
Flag Status: Flagged

Good afternoon Louise –

I wanted to inform you we have corrected the following items from the visit on 12/2/2013:

Medical Waste:

- V. 4209 – any and all instances
- V. 4210 – any and all instances
- V. 4213 – any and all instances

The additional items below will have been corrected by the close of business, today, 12/5/13.

Hazardous Materials:

- V. 1009
- V. 1017
- V. 1018

Note; we are awaiting final word from our vendor as to the status of the completion of V. 1008.

Cordially

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

INTRODUCTION:

Routine inspection was attempted at this facility. Upon arrival, Tamisha Frye, Operations and Maintenance Administrator informed me that the inspection contact Dan MacNeil had the day off. She called his cell phone to see if there was someone else I could do the inspection with. He called back a short while later and said that no one else was available for the inspection. Tamisha Frye was advised that a re-inspection fee will be charged if I come back for inspection. She told me that Dan MacNeil said to go ahead and charge the fee.

INSPECTION REMARKS:

-Facility going through tenant improvements and the County of San Diego has not received an acceptable Hazardous Materials Business Plan submittal in the California Environmental Reporting System (CERS).

If you have any questions regarding this inspection, please contact Robertson, Kelly, (858) 505-6780, Kelly.Robertson@sdcounty.ca.gov

Business Name: Agilent Technologies

Business Address: 11011 North Torrey Pines Road, La Jolla, CA 92037

Business Owner or Operator: same as above

Please complete the following by entering the chemical name in the chemical name column and then place a check "√" in the quantity column that most closely estimates the amount on hand. If measured by volume, check the appropriate gallon column(s). If measured by weight, check the appropriate pound column(s). If the chemical is a trade secret, you should check the trade secret box. For example, if you have one pint of benzene you would write benzene in the chemical name column and place a check in the "<1 gallon" column. (PLEASE NOTE: the symbol < means less than).

CONSENT TO CONDUCT INSPECTION GRANTED BY: Dan Mac Neil

TITLE: EHS

INTRODUCTION:

On 2/4/2016 a routine inspection was conducted at the above facility with Dan Mac Neil, EHS. Agilent is an R&D biotechnology company that develops products and technologies for life science research, including DNA and protein purification, and bioreagents. The inspection covered the following Certified Unified Program Agency (CUPA) elements: hazardous waste generator, hazardous materials business plan, and medical waste generator. At the time of this inspection Agilent was a small quantity generator (SQG) of hazardous and medical waste. Mr. MacNeil provided consent to take photos if needed and conduct the inspection. Agilent has recently vacated the first floor of the building and is now only occupying the second floor, and laboratory space has downsized.

INSPECTION REMARKS:

The following observations were made during the inspection:

Hazardous Waste and Hazardous Materials

- a. Hazardous Materials Business Plan submitted in CERS 12/22/15
- b. Emergency plan posted on the wall in the lab and emergency procedures uploaded in CERS
- c. Reviewed employee training program and employee training records for new employees and refresher chemical safety training
- d. Minor updates to the chemical inventory made during the inspection
- e. Hazardous waste manifests reviewed
- f. Land disposal restriction records reviewed
- g. Universal waste observed to be properly managed
- h. Universal waste records reviewed
- i. EPA ID # CAL000324223

Medical Waste

- a. Medical waste tracking documents reviewed

COUNTY OF SAN DIEGO

SUPPLEMENTAL COMPLIANCE INSPECTION REPORT

- b. Out of approximately 40 biohazardous waste containers and sharps containers, only 2 red bags were missing the generator's label. This minor violation was corrected during the inspection.
- c. English/Spanish biohazardous waste warning sign posted outside the designated accumulation area

No violations cited during this inspection

Hazardous Materials and Hazardous Waste (continued)

Hazardous Waste Requirements for SOGs and LOGs RECORD KEEPING/OPERATIONAL REQUIREMENTS

- | | |
|---|-----------------------|
| # | VIOLATION DESCRIPTION |
|---|-----------------------|
- 3010001 Unified Program Facility (UPF) permit not obtained for the generation of hazardous waste. HSC 25404.1; SDCC 68.905
 - 3010029 The facility has not submitted complete and accurate facility information in CERS. HSC 25404(e)(4); 27 CCR 15188(b)
 - 3010002 Failed to obtain and/or maintain an active EPA ID. 22 CCR 66262.12
 - 3010008 Failed to properly complete a uniform hazardous waste manifest. 22 CCR 66262.23(a)
 - 3010009 Failed to complete the hazardous waste manifest Exception Requirement. 22 CCR 66262.42
 - 3010010 Failed to maintain uniform hazardous waste manifest, consolidated manifest, or bills of lading copies for 3 years. HSC 25160.2(b)(3), 25185(a)(4); 22 CCR 66262.40(a)
 - 3010011 Failed to send hazardous waste manifest copies to the Department of Toxic Substances Control (DTSC). 22 CCR 66262.23(a)(4)
 - 3010013 Failed to meet the consolidated manifesting requirements for waste shipment. HSC 25160.2; 22 CCR 66262.40(a)
 - 3010014 Failed to retain disposal records of spent lead batteries for 3 years. 22 CCR 66266.81(a)(4)(B)
 - 3030006 Failed to determine if a hazardous waste is restricted or prohibited from land disposal. 22 CCR 66268.7(a)
 - 3010016 Failure of recycler who recycles more than 100 kilograms per month of recyclable material under a claim that the material qualifies for exclusion or exemption to provide and submit in CERS the required information. HSC 25143.10(a), (c), and/or (d)
 - HMD 0149 Failed to keep disposal receipts for drained used oil filters and/or drained fuel filters for 3 years. HSC 25250.22; 22 CCR 66266.130
 - HMD 0148 Failed to have copies of analytical records, waste analysis records, and/or waste determination results for 3 years. 22 CCR 66262.40(c)
 - HMD 0140 Failed to have Land Disposal Restriction documentation onsite for 3 years. 22 CCR 66268.7(a)(8)
 - 3250005 Failed to obtain a Treatment, Storage and Disposal Facility (TSDF) permit or authorization to store/treat/dispose of hazardous waste. HSC 25201(a)
 - 3050005 Failed to have adequate records demonstrating claim of exemption for Excluded Recyclable Materials. HSC 25143.2(f); 22 CCR 66261.2(g)
 - 3210001 Failed to notify the CUPA in CERS for onsite hazardous waste treatment/tiered permitting. HSC 25201(a)
 - HMD 0138 Manifest signed by the TSDF not available for inspection. 22 CCR 66262.40(a)

Hazardous Waste Requirements for SOGs and LOGs DISPOSAL AND TRANSPORTATION

- 3010007 Failed to prepare a hazardous waste manifest for the transport of a waste for off-site transfer, treatment, storage, or disposal. HSC 25160(b)(1) or (2), 25160.2(b)(9); 22 CCR 66262.20(a)
- 3030005 Failed to make a proper waste determination. 22 CCR 66262.11, 66262.40(c)
- 3050001 Failed to use a California registered hazardous waste transporter to transport hazardous waste. HSC 25163(a); 22 CCR 66263.41
- 3050002 Failed to properly dispose of hazardous waste at an authorized facility. HSC 25189.5(a); 25189(c),(d); 25189.2(c)
- 3130002 Impermissible dilution of hazardous waste. 22 CCR 66268.3(a)
- HMD 0305 Disposed of used oil illegally. HSC 25250.5(a); 25189.5(a); 25189(c),(d); 25189.2(c)
- HMD 0306 Disposed of hazardous waste latex paint improperly. HSC 25217.1

Hazardous Waste Requirements for SOGs and LOGs STORAGE AND HANDLING

- | | |
|---|-----------------------|
| # | VIOLATION DESCRIPTION |
|---|-----------------------|
- 3030001 Failed to meet requirements, when handling, and storing spent lead acid batteries. 22 CCR 66266.81(a)(1)
 - 3030003 Failed to properly manage 'damaged' spent lead acid batteries. 22 CCR 66266.81(b)
 - 3030004 Failed to properly manage, store, label, and/or recycle used oil filters and/or used fuel filters. HSC 25250.22; 22 CCR 66266.130
 - 3050004 Failed to properly manage contaminated used oil as a hazardous waste. HSC 25250.7(a), (c)
 - HMD 0222 Failed to properly label Excluded Recyclable Materials (ERM). HSC 25143.9(a).
 - HMD 0216 Failed to label hazardous material container within 10 days after the container was discovered to be mislabeled or inadequately labeled. HSC 25124(b)(3)(A); 22 CCR 66262.34(f)
 - HMD 0217 Failed to repack damaged/deteriorated hazardous material container within 96 hours. HSC 25124(b)(3)(B); 22 CCR 66262.34(f)
 - HMD 0219 Failed to properly segregate used oil &/or fuel drained from filters. HSC 25250.22(b)(4); 22 CCR 66266.130(c)(6)
 - HMD 0221 Failed to comply with hazardous waste satellite container regulation. 22 CCR 66262.34(e)
 - HMD 0223 Failed to properly empty container, failed to manage non-empty container, or inner liner removed from a container. 22 CCR 66261.7(b), (d) and/or (r); 66262.34(f)
 - HMD 0224 Failed to mark date on empty container larger than 5 gallons and/or manage it within one year. 22 CCR 66261.7(e),(f)

Universal Waste Handler Requirements

- 3010004 Failed to obtain an EPA ID number from DTSC or US EPA prior to storing 5,000 kg or more of universal waste. 22 CCR 66273.32(a),(b)
- 3020002 Failed to maintain universal waste handler training records for 3 years. 22 CCR 66273.36(c),(d)
- 3020003 Failed to properly train handlers of universal waste in universal waste management and response procedures. 22 CCR 66273.36(a),(b)
- 3030008 Failed to properly label or mark a universal waste (non-Conditionally Exempt Small Quantity Universal Waste Generator). 22 CCR 66273.34
- 3030011 Failed to properly dispose of universal waste within one year. 22 CCR 66273.35(a) and/or (b)
- 3030046 Failed to keep records of offsite universal waste (UW) shipment(s) available for inspection for 3 years. HSC 25185(a); 22 CCR 66273.39(c), (d)(2)
- 3030051 Failed to meet the accumulation standards for universal waste aerosol containers and waste handling. HSC 25201.16(f)
- 3040004 Failed to manage universal waste in a manner to prevent release(s) to the environment. 22 CCR 66273.33; 66273.33.5
- 3050003 Disposal of universal waste (UW) to an unauthorized point. HSC 25189.5(a), 25189(c),(d); 25189.2(c); 22 CCR 66273.31(a)

COUNTY OF SAN DIEGO

COMPLIANCE INSPECTION REPORT

Medical Waste Generators

Each violation checked below is for the section(s) of the California health and Safety Code (HSC), California Code of Regulation (CCR), or the San Diego County Code (SDCC) indicated in italics. All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form (HM-926) to document your return to compliance. Please call (858) 505-6880 or your Specialist if you have any questions. UPF = Unified Program Facility; MW = Medical Waste; USPS = United States Postal Service; DOT = Department of Transportation

STORAGE AND LABELING

- | # | HMD | VIOLATION DESCRIPTION |
|--------------------------|------|---|
| <input type="checkbox"/> | 4201 | UPF Permit not obtained. HSC 117705; SDCC 68.905 |
| <input type="checkbox"/> | 4202 | Medical waste (MW) not separated from other waste at the point of origin. HSC 118275 |
| <input type="checkbox"/> | 4203 | Enclosure or designated accumulation area for MW containers not secured. HSC 118307, 118310 |
| <input type="checkbox"/> | 4204 | MW designated accumulation area not posted with an approved, legible biohazardous waste "warning sign" in English & Spanish which can be read from 25 ft. HSC 118310 |
| <input type="checkbox"/> | 4205 | Medical SOLID WASTE not secured to deny access to unauthorized persons. SDCC 68.1211 |
| <input type="checkbox"/> | 4206 | Spill of MW not properly cleaned up. HSC 118300 |
| <input type="checkbox"/> | 4207 | Sharps not stored in approved and properly marked sharps container. HSC 118285(a) & (d) |
| <input type="checkbox"/> | 4208 | Full sharps container not taped closed or tightly-lidded to preclude loss of contents. HSC 118285(b) |
| <input type="checkbox"/> | 4209 | Primary containers accumulating MW not labeled with generator's name, address, and phone number. SDCC 68.1205 |
| <input type="checkbox"/> | 4210 | Medical waste not stored in approved and properly marked biohazard bags. HSC 118275(a) |
| <input type="checkbox"/> | 4211 | Biohazard bags not tied off to prevent leakage/expulsion of contents during handling and storage. HSC 118280(a) |
| <input type="checkbox"/> | 4212 | Biohazard bags not containerized in rigid, leak resistant, and covered containers or bins when placed for storage, handling, or transport. HSC 118280(b) |
| <input type="checkbox"/> | 4213 | Waste container/bin not labeled with the words "Biohazardous Waste" or with the international biohazard symbol and the word "BIOHAZARD" on the lid and sides. HSC 118280(c) |
| <input type="checkbox"/> | 4214 | Reusable containers/bins for MW storage not kept clean and sanitary. HSC 118295, 118305 |
| <input type="checkbox"/> | 4215 | Frozen (0°C/32°F) biohazardous waste stored >90 days. HSC 118280(e)(2) |
| <input type="checkbox"/> | 4306 | Full sharps container stored >30 days at >0°C. HSC 118285(c) |
| <input type="checkbox"/> | 4307 | Biohazard bag waste stored >7 days at >0°C (for generators of >20lbs/month). HSC 118280(e)(1)(A) |
| <input type="checkbox"/> | 4308 | Biohazard bag waste stored >30 days at >0°C (for generators of <20lbs/month). HSC 118280(e)(1)(B) |
| <input type="checkbox"/> | 4219 | MW interim storage area not marked with warning sign or biohazard symbol legible from 5 ft. HSC 118307, 118310 |
| <input type="checkbox"/> | 4220 | MW interim storage area not properly secured. HSC 118307 |

TREATMENT AND DISPOSAL

- | | | |
|--------------------------|------|--|
| <input type="checkbox"/> | 4251 | MW treated by unapproved method/procedure. HSC 118215 |
| <input type="checkbox"/> | 4252 | Standardized written operating procedures for steam sterilization not available. HSC 118215(a)(2)(A) |
| <input type="checkbox"/> | 4253 | Recording thermometer not calibrated annually. HSC 118215(a)(2)(B) |
| <input type="checkbox"/> | 4254 | No records of annual thermometer calibration checks onsite for at least the past 2 years. HSC 118215(a)(2)(B) |
| <input type="checkbox"/> | 4255 | Heat-sensitive tape/other approved method not used for each load treated onsite. HSC 118215(a)(2)(C) |
| <input type="checkbox"/> | 4256 | Monthly biological indicator or other approved method not used to confirm proper disinfection. HSC 118215(a)(2)(D) |
| <input type="checkbox"/> | 4257 | Onsite steam sterilization did not reach 121°C/250°F for 30 minutes. HSC 118215(a)(2)(B) |
| <input type="checkbox"/> | 4258 | Treatment records/logs of dates, time, and temperature not available for 2 years. HSC 118215(a)(2)(E) |
| <input type="checkbox"/> | 4259 | Disposal of untreated MW to an unauthorized point. HSC 118340 |

TRANSPORTATION REQUIREMENTS

- | # | HMD | VIOLATION DESCRIPTION |
|--------------------------|------|---|
| <input type="checkbox"/> | 4260 | Transportation of MW without State Hauler Registration, USPS or requirements of the DOT "Materials of Trade Exceptions." HSC 118025 |
| <input type="checkbox"/> | 4311 | Medical waste tracking documents/logs not in vehicle transporting medical waste. HSC 118040 |

SMALL QUANTITY GENERATORS ONLY

(<200 pounds of medical waste generated per month)

- | | | |
|--------------------------|------|---|
| <input type="checkbox"/> | 4301 | Medical Waste Management Plan (MWMP) not submitted to HMD (initial/updates), if onsite treatment. HSC 117935 |
| <input type="checkbox"/> | 4302 | Did not maintain and show proof of "onsite" medical waste treatment records for 3 years. HSC 117943 |
| <input type="checkbox"/> | 4303 | Did not retain on file disposal receipts, tracking/shipping documents for medical waste shipped offsite for 3 years. HSC 117945 |
| <input type="checkbox"/> | 4309 | MWMP or equivalent information not onsite (only for SQG doing onsite treatment or comply with pharmaceutical waste hauling exemption). HSC 117935, 118032 |

LARGE QUANTITY GENERATORS ONLY

(≥ 200 pounds of medical waste generated per month)

- | | | |
|--------------------------|------|--|
| <input type="checkbox"/> | 4351 | MWMP not submitted to HMD (initial/updates). HSC 117960, 117970 |
| <input type="checkbox"/> | 4352 | Records of medical waste treatment not available for 2 years. HSC 117975, 118215(a)(2)(E) |
| <input type="checkbox"/> | 4353 | Did not make available disposal receipts, tracking/shipping documents for at least 2 years for medical waste shipped offsite. HSC 117975 |

CHEMOTHERAPY, PATHOLOGY, PHARMACEUTICAL HAZARDOUS & UNIVERSAL WASTES

- | | | |
|--------------------------|---------|--|
| <input type="checkbox"/> | 4401 | Trace Chemo waste not segregated from other MW. HSC 118275(a)(4) |
| <input type="checkbox"/> | 4402 | Trace Chemo waste container not labeled "Chemotherapy Waste" or "CHEMO" on the lid and the sides. HSC 118275(a)(4) |
| <input type="checkbox"/> | 4403 | Illegal disposal of chemo waste. HSC 118340 |
| <input type="checkbox"/> | 4411 | Pathology waste not segregated from other MW. HSC 118275(a)(5) |
| <input type="checkbox"/> | 4412 | Pathology waste container not labeled "Pathology Waste" or "PATH" on the lid and the sides. HSC 118275(a)(5) |
| <input type="checkbox"/> | 4413 | Illegal disposal of pathology waste. HSC 118340 |
| <input type="checkbox"/> | 4421 | Pharm waste not segregated from other MW. HSC 118275(a)(6) |
| <input type="checkbox"/> | 4422 | Pharm waste not labeled "Incineration Only or HIGH HEAT" on the lid and the sides. HSC 118275(a)(6) |
| <input type="checkbox"/> | 4423 | Pharm waste stored >90 days when container full, or stored longer than one year (maximum allowable time). HSC 118280(f) |
| <input type="checkbox"/> | 4432 | Illegal disposal of pharm waste. HSC 118340, 118222(b) |
| <input type="checkbox"/> | 4441 | Disposal of photo/hazwaste to an unauthorized point. HSC 25189.5 |
| <input type="checkbox"/> | 3030046 | Failed to keep records of offsite universal waste shipment(s) available for inspection for 3 years. HSC 25185(a)(4); 22 CCR 66273.39(c),(d)(2) |
| <input type="checkbox"/> | 3050003 | Disposed of universal waste to an unauthorized point. HSC 25189.5(a); 25189(c),(d); 25189.2(c); 22 CCR 66273.31(a) |

LOG MW ONSITE TREATMENT FACILITY

(≥ 200 pounds of medical waste generated per month)

- | | | |
|--------------------------|------|--|
| <input type="checkbox"/> | 4501 | Onsite MW treatment permit not obtained/renewed. HSC 117950, 118130, 65620, 65623 |
| <input type="checkbox"/> | 4502 | Current copy of the MW treatment permit not available. HSC 65621(f), 65623, 118165, 118180 |
| <input type="checkbox"/> | 4503 | Condition(s) of the MW treatment permit violated. HSC 65623 |

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

CONSENT TO CONDUCT INSPECTION GRANTED BY: Daniel Mac Neil

TITLE: EHS Specialist

INTRODUCTION:

ROUTINE INSPECTION

A routine inspection to verify compliance with Certified Unified Program Agency (CUPA) programs was conducted on 04/25/18. Consent to inspect was granted by Daniel Mac Neil, Environmental Health and Safety Specialist who also accompanied me during this inspection. Consent to take photographs was not granted; Mr. Mac Neil attempted to get approval for me to take photographs from Agilent Technologies' Legal Department, but didn't hear back from them by the end of the inspection. Mr. Mac Neil was under the understanding that Agilent Technologies had a Non-Disclosure Agreement (NDA) form I could complete in order to be allowed to take photographs. Today, during the signature of this inspection report, Mr. Mac Neil mentioned that he has been informed that the Legal Department does not currently have an NDA form suitable for regulators but will soon develop one.

This inspection occurred during my third visit to this facility. An attempt to conduct this inspection was made on 02/21/18 and a second attempt on 04/18/18. At both times, Mr. Mac Neil was not available for inspection and not on site as informed by Tamisha Frye, Administrator Assistant. During those two visits, a Compliance Inspection Report was written and emailed to Mr. Mac Neil's Agilent email address. After my second visit, Mr. Mac Neil emailed me back (on 04/20/18) informing me that due to personal issues he was not available some time periods and requested an inspection be done on Monday, Wednesday, or Friday. (Note: both of my previous visits occurred on Wednesday).

Agilent Technologies is a life science company that develops laboratory instruments, reagents, kits, etc. Agilent Technologies also does research related to cancer, Parkinson's, and other ailments.

Facility's California Environmental Reporting System (CERS) ID: 10123627. Per the most recent information submitted to the Hazardous Materials Division (HMD) through CERS (on 04/23/18 -five days after my second attempt to conduct this inspection), this facility is subject to:

- Hazardous Materials Business Plan (HMBP) requirements due to the storage of reportable amounts of hazmat
- Hazardous Waste (HW) regulations as a large quantity generator (SQG) of HW (SQG: >100Kg and <1,000Kg of HW per month); EPA ID #: CAL000324223
- Medical Waste (MW) regulations as a small quantity generator of medical waste (SQGMW: <200lbs of MW per month)

COUNTY OF SAN DIEGO

SUPPLEMENTAL COMPLIANCE INSPECTION REPORT

INSPECTION DATE: 04/25/2018 PAGE 2 OF 8
RECORD ID #: DEH2009-HUPFP-211638

VIOLATION # 1

1010008 HMBP not certified annually as complete and accurate in CERS. HSC 25508(a)(1)(A), 25508.2, 19 CCR 2654(b)

Classification: Class II

Observations:

The hazardous materials business plan (HMBP) must be certified at least annually to be complete and accurate in the California Environmental Reporting System (CERS).

Agilent Technologies submitted parts of the HMBP through CERS originally on December 2013, but submittals were not accepted and revisions were requested. Another submittal went through CERS on November 2015, but revisions were not completed. Four more submittals were made on the following weeks until a correct submittal was completed on February 2016.

No additional HMBP submittals to certify this facility's HMBP were received during 2017.

Corrective Action Completed During Inspection:

This routine compliance inspection was conducted on 04/25/18; at that time, I found out that HMBP submittals had been made on 04/23/18.

I attempted to conduct an inspection at Agilent Technologies on 02/21/18 and again on 04/18/18; both times, an inspection was not conducted because no consent was obtained. At that time, the most recent HMBP submitted through CERS was dated 02/04/16.

INSPECTION REMARKS:

Hazardous Materials (hazmat):

- Facility's HMBP was last submitted on 04/23/18
- Emergency contacts are current
- Hazmat inventory is current
 - Hazardous materials observed on site in reportable amounts include: liquid nitrogen, propane, and carbon dioxide
 - Hazardous materials observed below reportable thresholds include: argon, nitrogen (gas), radioactive materials (Tr, P33, P32), acetonitrile, isopropyl alcohol
- Facility's site map is current
- HMBP employee training records available and reviewed.
 - This facility provides training on a monthly basis that cover different topics; HMBP employee training requirements are covered within several of those trainings.
 - Required HMPB Employee Training:
 - Ensure that employee training includes methods for safe handling of hazardous materials
 - Procedures for coordination with local emergency response organizations
 - Use of emergency response equipment
 - Emergency response procedures for a release or threatened release of hazardous materials.
 - Retain employee training records for three years. (19 CCR 2659)

Hazardous Waste (HW):

COUNTY OF SAN DIEGO

SUPPLEMENTAL COMPLIANCE INSPECTION REPORT

- Facility's EPA ID: CAL000324223
- Per observations and HW disposal records, this facility is currently a SQG of HW
- Employee training records, pertaining HW, were available and reviewed (22 CCR 66265.16)
 - Required Hazardous Waste Employee Training:
 - Shall be designed to ensure that facility personnel are able to respond effectively to emergencies by familiarizing them with
 - Emergency procedures
 - Emergency equipment
 - Emergency systems, including where applicable: procedures for using, inspecting, repairing, and replacing facility emergency and monitoring equipment, key parameters for automatic waste feed cut-off systems, communications or alarm systems, response to fires or explosions, response to ground-water contamination incidents, shutdown of operations
- Current HW and universal waste (UW) hauler: Veolia ES Technical Solutions
- Disposal records and Land Disposal Restrictions (LDR) available and reviewed along with Destination Confirmation (TSDF: Treatment Storage Disposal Facility)
- Agilent Technologies has an Industrial Water Discharge permit from the City of San Diego (# 02-044).
 - A photo fixer equipment, Quality Digital Imaging, and chemicals (fixer and developer) were observed in a “dark room”; this room of approximately 5ft x 6ft is located behind a solid black revolving door, there is regular white light in that room. The equipment has a silver recovery filter and an effluent line from that filter towards what it looked like the sewer.

Revisions to be made in CERS:

- a. The site map is missing to show the location of the emergency response equipment available
- b. The hazardous materials inventory contains obsolete federal hazardous categories and must be revised and re-submitted in CERS. As of December 28, 2017, CalEPA replaced the existing five (5) federal hazard categories available in CERS used for the completion of chemical inventories as part of the annual HMBP submittal with twenty-four (24) new federal hazard categories adopted by the U.S. EPA. As of January 1, 2018 the Hazardous Materials Business Plan (HMBP) submittal certification in CERS must use the federal hazard categories pursuant to California Health and Safety Code (HSC) Chapter 6.95 Section 25508(a)(1)(A). Please see the CERS Announcements page in CERS Central for regulation information and business guidance documentation at: <https://cers.calepa.ca.gov/announcements/>

If you have any questions regarding this inspection, please contact Zoraida Herrera, (619) 454-9682, Zoraida.Herrera@sdcounty.ca.gov

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). **This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6.** This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

HAZARDOUS WASTE REQUIREMENTS FOR SQGS AND LQGS

RECORD KEEPING/OPERATIONAL REQUIREMENTS

- # VIOLATION DESCRIPTION
- HMD0131 Unified Program Facility Permit not obtained &/or maintained for the generation of hazardous waste. SDCC 68.905
 - HMD0150 Failed to submit complete and accurate Facility Information in CERS. 27 CCR 15188(b-c); SDCC 68.904(b)
 - 3030053 Failed to maintain waste analysis records, analytical records &/or waste determination results for at least 3 years. 22 CCR 66262.40(c)
 - 3010002 Failed to obtain &/or maintain an active EPA ID Number. 22 CCR 66262.12(a)
 - 3010008 Failed to properly complete a uniform hazardous waste manifest. 22 CCR 66262.23(a)
 - 3010009 Failed to submit an Exception Report to DTSC for hazardous waste manifest. HSC 25123.3(h)(2); 22 CCR 66262.42(b), (c), &/or (d)
 - 3010010 Failed to maintain copies of Uniform Hazardous Waste Manifest, consolidated manifest, or Bills of Lading for 3 years. HSC 25160.2(b)(3), 25185(a)(4); 22 CCR 66262.40(a), 66262.23(a)(3)
 - 3010011 Failed to send copy of the uniform hazardous waste manifest to DTSC within 30 days of shipment. 22 CCR 66262.23(a)(4)
 - 3010013 Failed to meet the consolidated manifesting requirements for waste shipment. HSC 25160.2(b)(3) &/or (c)
 - 3010014 Failed to retain at the generator's place of business disposal records of spent lead-acid batteries for at least 3 years. 22 CCR 66266.81(a)(4)(A) &/or (B)
 - 3030006 Failed to determine if a hazardous waste is restricted or prohibited from land disposal and has to be treated. 22 CCR 66268.7(a)(1)
 - 3010016 Failure of recycler who recycles more than 100 kilograms per month of a recyclable material to submit the biennial Recyclable Materials Report (RMR) in CERS when claiming exclusion or exemption. HSC 25143.10(a), (c) &/or (d)
 - HMD0149 Failed to keep disposal receipts for drained used oil filters and/or drained fuel filters for 3 years. HSC 25250.22; 22 CCR 66266.130(c)(5)
 - HMD0152 Failed to report &/or update the required inventory information for hazardous waste(s) generated at the facility in CERS. SDCC 68.904(a)(2)
 - HMD0140 Failed to have Land Disposal Restriction documentation onsite for 3 years. 22 CCR 66268.7(a)(8)
 - 3250005 Failed to obtain a Treatment, Storage and Disposal Facility (TSDF) permit or authorization to store/treat/dispose of hazardous waste. HSC 25201(a)
 - 3050005 Failed to have adequate records demonstrating claim of exemption or exclusion for recyclable materials. HSC 25143.2(f)
 - HMD0142 Failed to notify the CUPA in CERS for onsite hazardous waste treatment/tiered permitting. HSC 25201(a)
 - HMD0138 Manifest signed by the TSDF not available for inspection. 22 CCR 66262.40(a); HSC 25185(a)(4)

DISPOSAL AND TRANSPORTATION

- # VIOLATION DESCRIPTION
- 3010007 Failed to prepare a hazardous waste manifest for the transport of a waste for off-site transfer, treatment, storage, or disposal. HSC 25160(b)(1) or (2), 25160.2(b)(9); 22 CCR 66262.20(a)
 - 3030005 Failed to make a proper waste determination. 22 CCR 66262.11, 66262.40(c)
 - 3050001 Failed to use a DTSC registered hazardous waste transporter to transport hazardous waste. HSC 25163(a)
 - 3050002 Failed to properly dispose of hazardous waste at an authorized facility. HSC 25189.5(a)
 - HMD0308 Impermissible dilution of hazardous waste. 22 CCR 66268.3(a)
 - HMD0305 Disposed of used oil illegally. HSC 25250.5(a), 25189.5(a)
 - HMD0306 Failed to properly dispose of oil-based paint &/or hazardous waste latex paint liquid. HSC 25217.1, 25189.5(a)

STORAGE AND HANDLING

- # VIOLATION DESCRIPTION
- 3030001 Failed to meet the management requirements when handling or storing spent lead-acid batteries. 22 CCR 66266.81(a)
 - 3030003 Failed to properly manage 'damaged' spent lead acid batteries so as to minimize the release of acid and lead and to protect the handlers and the environment. 22 CCR 66266.81(b)
 - 3030004 Failed to properly manage, store, label &/or recycle used oil filters &/or used fuel filters. HSC 25250.22; 22 CCR 66266.130
 - 3050004 Generator intentionally contaminated used oil with another hazardous waste other than minimal amounts of fuel. HSC 25250.7(a), (c)
 - HMD0222 Failed to properly label Excluded Recyclable Materials (ERM) accumulated in a container or tank. HSC 25143.9(a)
 - HMD0216 Failed to label hazardous material container within 10 days after the container was discovered to be mislabeled or inadequately labeled. HSC 25124(b)(3)(A); 22 CCR 66262.34(f)
 - HMD0217 Failed to repackage and properly label damaged/deteriorated hazardous material container within 96 hours. HSC 25124(b)(3)(B); 22 CCR 66262.34(f)
 - HMD0219 Failed to properly segregate used oil &/or fuel drained from filters. HSC 25250.22(b)(4); 22 CCR 66266.130(c)(6)
 - 3030057 Failed to comply with hazardous waste satellite container regulation. 22 CCR 66262.34(e)
 - HMD0023 Failed to properly empty container, failed to manage non-empty container, or inner liner removed from a container. 22 CCR 66261.7(b), (d), (e) &/or (r)
 - 3030058 Failed to mark date on empty container larger than 5 gallons &/or manage it within one year. 22 CCR 66261.7(f)
 - 3030059 Failure of the owner or operator managing laboratory hazardous waste in a laboratory accumulation area to comply with the quantity limitations, management, training, or documentation requirements. HSC 25200.3.1(b)

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

TITLE: N/A

INTRODUCTION:

On site to conduct a routine hazardous materials, hazardous waste, and medical waste inspection.

Upon arrival, I attempted communicating with Daniel Mac Neil, EHS Specialist, for Agilent Technologies, at the phone numbers provided through the California Environmental Reporting System (CERS ID: 10123627). There was no response, I left two voicemails identifying myself, stating the reason of my visit, and providing my phone number. I then dialed the main phone number provided where I was able to speak with Tamisha Frye, Administrator Assistant. I met with Tamisha Frye at the Agilent Technologies lobby area. She indicated that Dan MacNeil was out of town. I asked for the secondary emergency contact, Dusty Mason, Lab Manager (as listed in CERS), and Tamisha Frye said that Dusty Mason was off today. I asked if there was any other person who I could proceed do the inspection with, and there is no other person on site to do the inspection that she is aware of.

Tamisha Frye was advised that a re-inspection fee will be charged for not being able to conduct an inspection today and having to come back at a later time.

For reference, you may go to:

COMPLIANCE INSPECTION REPORT

Medical Waste Generators

Each violation checked below is for the section(s) of the California health and Safety Code (HSC), California Code of Regulation (CCR), or the San Diego County Code (SDCC) indicated in italics. All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form (HM-926) to document your return to compliance. Please call (858) 505-6880 or your Specialist if you have any questions. UPF = Unified Program Facility; MW = Medical Waste; USPS = United States Postal Service; DOT = Department of Transportation

MEDICAL WASTE GENERATORS

STORAGE AND LABELING

- | # | <u>VIOLATION DESCRIPTION</u> |
|----------------------------------|--|
| <input type="checkbox"/> HMD4201 | UPF Permit not obtained. HSC 117705; SDCC 68.905, 68.906, 68.1202 |
| <input type="checkbox"/> HMD4216 | Failed to submit or report in CERS chemical inventory information for hazardous waste and/or medical waste, and keep up to date. SDCC 68.904(a)(2) |
| <input type="checkbox"/> HMD4202 | Medical waste (MW) not separated from other waste at the point of origin. HSC 118275 |
| <input type="checkbox"/> HMD4203 | Enclosure or designated accumulation area for MW containers not secured. HSC 118307, 118310 |
| <input type="checkbox"/> HMD4204 | MW designated accumulation area not posted with an approved, legible biohazardous waste "warning sign" in English & Spanish or in another language, in addition to English which can be read from a distance of at least 25 feet. HSC 118310 |
| <input type="checkbox"/> HMD4205 | Medical SOLID WASTE not secured to deny access to unauthorized persons. SDCC 68.1211 |
| <input type="checkbox"/> HMD4206 | Leak or spill of MW not properly decontaminated. HSC 118300 |
| <input type="checkbox"/> HMD4207 | Sharps not stored in approved container or labeled with the words "sharps waste" or with the international biohazard symbol and the word "BIOHAZARD". HSC 118285(a) & (d) |
| <input type="checkbox"/> HMD4208 | Full sharps container not taped closed or tightly-lidded to preclude loss of contents. HSC 118285(b) |
| <input type="checkbox"/> HMD4209 | Primary containers accumulating MW not labeled with an electronic tracking system label or a label with generator's name, address and phone number. SDCC 68.1205 |
| <input type="checkbox"/> HMD4210 | Medical waste not stored in approved and properly marked biohazard bags. HSC 118275(a) |
| <input type="checkbox"/> HMD4211 | Biohazard bags not tied off to prevent leakage or expulsion of contents during storage and handling. HSC 118280(a) |
| <input type="checkbox"/> HMD4212 | Biohazardous bags not containerized in rigid, leak resistant, and covered containers or bins when placed for storage, handling, or transport. HSC 118280(c) |
| <input type="checkbox"/> HMD4213 | Waste container or bin not labeled with the words "Biohazardous Waste" or with the international biohazard symbol and the word "BIOHAZARD" on the lid and sides. HSC 118280(c) |
| <input type="checkbox"/> HMD4214 | Reusable containers or bins for MW storage not thoroughly washed and decontaminated and maintained in a clean and sanitary manner. HSC 118295, 118305 |
| <input type="checkbox"/> HMD4215 | Frozen (0°C/32°F) biohazardous waste stored for not more than 90 days. HSC 118280(e)(2) |
| <input type="checkbox"/> HMD4306 | Full sharps container stored not more than 30 days at >0°C. HSC 118285(c) |
| <input type="checkbox"/> HMD4307 | Biohazard bag waste stored not more than 7 days at >0°C (for generators of 20 or more pounds a month). HSC 118280(e)(1)(A) |
| <input type="checkbox"/> HMD4308 | Biohazard bag waste stored >30 days at >0°C (for generators of <20lbs/month). HSC 118280(e)(1)(B) |
| <input type="checkbox"/> HMD4219 | MW interim storage area not marked with warning signs or international biohazard symbol legible from a distance of 5 feet. HSC 118307, 118310 |
| <input type="checkbox"/> HMD4220 | MW interim storage area not properly secured. HSC 118307 |

TREATMENT AND DISPOSAL

- | # | <u>VIOLATION DESCRIPTION</u> |
|----------------------------------|--|
| <input type="checkbox"/> HMD4251 | MW treated by unapproved method/procedure. HSC 118215 |
| <input type="checkbox"/> HMD4252 | Standard written operating procedures for steam sterilization not established. HSC 118215(a)(2)(A) |
| <input type="checkbox"/> HMD4253 | Recording thermometer not calibrated annually. HSC 118215(a)(2)(B) |
| <input type="checkbox"/> HMD4254 | No records of annual thermometer calibration checks onsite for at least the past 2 years. HSC 118215(a)(2)(B) |
| <input type="checkbox"/> HMD4255 | Heat-sensitive tape or other approved method not used for each load treated onsite. HSC 118215(a)(2)(C) |
| <input type="checkbox"/> HMD4256 | Monthly biological indicator or other approved indicator not used to confirm proper sterilization. HSC 118215(a)(2)(D) |
| <input type="checkbox"/> HMD4257 | Onsite steam sterilization did not reach 121° C (250° F) for at least 30 minutes. HSC 118215(a)(2)(B) |
| <input type="checkbox"/> HMD4258 | Treatment records or logs of dates, time, and temperature not maintained for at least 2 years. HSC 118215(a)(2)(E) |
| <input type="checkbox"/> HMD4259 | Disposal of untreated MW to an unauthorized point. HSC 118340 |

TRANSPORTATION REQUIREMENTS

- | # | <u>VIOLATION DESCRIPTION</u> |
|----------------------------------|---|
| <input type="checkbox"/> HMD4260 | Transportation of MW without State Hauler Registration, USPS or requirements of the DOT "Materials of Trade Exceptions." HSC 118025 |
| <input type="checkbox"/> HMD4311 | Medical waste tracking documents or logs not in vehicle transporting medical waste. HSC 118040(a) |
| <input type="checkbox"/> HMD4313 | Medical waste tracking documents or logs not complete. HSC 118040(b) |

SMALL QUANTITY GENERATORS ONLY

(<200 POUNDS OF MEDICAL WASTE GENERATED PER MONTH)

- | # | <u>VIOLATION DESCRIPTION</u> |
|----------------------------------|---|
| <input type="checkbox"/> HMD4301 | Medical Waste Management Plan (MWMP) not submitted to HMD (initial/updates), if onsite treatment. HSC 117935 |
| <input type="checkbox"/> HMD4302 | Did not maintain and show proof of "onsite" medical waste treatment records for 3 years. HSC 117943 |
| <input type="checkbox"/> HMD4303 | Did not maintain on file disposal receipts, tracking or shipping documents for medical waste shipped offsite for at least 3 years. HSC 117945 |
| <input type="checkbox"/> HMD4309 | MWMP or equivalent information not onsite (only for SQG doing onsite treatment or comply with pharmaceutical waste hauling exemption). HSC 117935, 118032 |
| <input type="checkbox"/> HMD4310 | Did not meet the requirements of the pharmaceutical waste hauling exemption. HSC 118032 |

LARGE QUANTITY GENERATORS ONLY

COUNTY OF SAN DIEGO

COMPLIANCE INSPECTION REPORT

Medical Waste Generators (continued)

(>= 200 POUNDS OF MEDICAL WASTE GENERATED PER MONTH)

- | # | <u>VIOLATION DESCRIPTION</u> |
|----------------------------------|---|
| <input type="checkbox"/> HMD4351 | MWMP not submitted to HMD (initial/updates) or incomplete. HSC 117960, 117970 |

Annual Carcinogen and Reproductive Toxin Reporting List**

Business Name: Agilent Technologies

Business Address: 11011 North Torrey Pines Road, La Jolla, CA 92037

Business Owner or Operator: same as above

Please complete the following by entering the chemical name in the chemical name column and then place a check "√" in the quantity column that most closely estimates the amount on hand. If measured by volume, check the appropriate gallon column(s). If measured by weight, check the appropriate pound column(s). If the chemical is a trade secret, you should check the trade secret box. For example, if you have one pint of benzene you would write benzene in the chemical name column and place a check in the "<1 gallon" column. (PLEASE NOTE: the symbol < means less than).

Chemical Name	<1 Gallon	<1 Pound	<10 Gallons	<10 Pounds	<55 Gallons	<500 Pounds	Trade Secret

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

CONSENT TO CONDUCT INSPECTION GRANTED BY: No Consent Given

TITLE: N/A

INTRODUCTION:

On site, for second occasion, to conduct a routine hazardous materials, hazardous waste, and medical waste inspection at Agilent Technologies. A first visit was conducted on 02/21/18; at that time, the Environmental Health Specialist (EHS), Dan Mac Neil, was not on site; I was greeted by Tamisha Frye, Administrator Assistant. Ms. Frye tried to get a hold of Mr. Mac Neil then with no success. Consent to inspect was not granted then.

Today, Ms. Tamisha contacted Mr. Mac Neil over the phone. She indicated that I was the inspector who came in before and that I was back to conduct the inspection. Per Ms. Tamisha, Mr. Mac Neil asked if I could be back to conduct the inspection at a later time, specifically, 3pm. Be aware that a second visit to conduct an inspection merits the assessment of a re-inspection fee.

Per the most recent information submitted to the Hazardous Materials Division (HMD) through the California Environmental Reporting System (CERS) on 02/04/16 (under CERS ID: 10123627), this facility is subject to:

- Hazardous Materials Business Plan (HMBP) requirements due to the storage of reportable amounts of hazmat
- Hazardous Waste (HW) regulations as a small quantity generator (SQG) of HW (SQG: >100Kg but <1,000Kg of HW per month); EPA ID #: CAL000324223
- Medical Waste (MW) regulations as a small quantity generator of medical waste (SQGMW: <200lbs of MW per month)

Agilent Technologies also denied consent to inspect on 11/23/15 when this facility was due for inspection. The inspection was ultimately conducted on 02/04/16.

Authority to Inspect

The California Health and Safety Code, Division 20, Chapter 6.95, Article 1, section 25511, states the following: "In order to carry out the purposes of this article and Article 2 (commencing with Section 25531), an employee or authorized representative of a unified program agency has the authority specified in Section 25185, with respect to the premises of a handler, and in Section 25185.5, with respect to real property that is within 2,000 feet of the premises of a handler, except that this authority shall include conducting inspections concerning hazardous material, in addition to hazardous waste." This information can be found here: http://leginfo.ca.gov/faces/codes_displaySection.xhtml?lawCode=HSC§ionNum=25511.

COUNTY OF SAN DIEGO

SUPPLEMENTAL COMPLIANCE INSPECTION REPORT

The California Health and Safety Code, Division 20, Chapter 6.5, Article 8, section 25185, states the following: "In order to carry out the purposes of this chapter, any authorized representative of the department or the local officer or agency authorized to enforce this chapter pursuant to subdivision (a) of Section 25180, may, at any reasonable hour of the day, or as authorized pursuant to Title 13 (commencing with Section 1822.50) of Part 3 of the Code of Civil Procedure, do any of the following: (1) Enter and inspect a factory, plant, construction site, disposal site, transfer facility, or any establishment or any other place or environment where hazardous wastes are stored, handled, processed, disposed of, or being treated to recover resources. (2) Carry out any sampling activities necessary to carry out this chapter, including obtaining samples from any individual or taking samples from the property of any person or from any vehicle in which any authorized representative of the department or the local officer or agency authorized to enforce this chapter pursuant to subdivision (a) of Section 25180 reasonably believes has transported or is transporting hazardous waste. However, upon request, split samples shall be given to the person from whom, or from whose property or vehicle, the samples were obtained. (3) Stop and inspect any vehicle reasonably suspected of transporting hazardous wastes when accompanied by a uniformed peace officer in a clearly marked vehicle. (4) Inspect and copy any records, reports, test results, or other information required to carry out this chapter. (5) Photograph any waste, waste container, waste container label, vehicle, waste treatment process, waste disposal site, or condition constituting a violation of law found during an inspection." This information can be found here:

http://leginfo.legislature.ca.gov/faces/codes_displaySection.xhtml?lawCode=HSC§ionNum=25185.

Medical Waste Generators

Each violation checked below is for the section(s) of the California health and Safety Code (HSC), California Code of Regulation (CCR), or the San Diego County Code (SDCC) indicated in italics. All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form (HM-926) to document your return to compliance. Please call (858) 505-6880 or your Specialist if you have any questions. UPF = Unified Program Facility; MW = Medical Waste; USPS = United States Postal Service; DOT = Department of Transportation

MEDICAL WASTE GENERATORS

STORAGE AND LABELING

- | # | <u>VIOLATION DESCRIPTION</u> |
|----------------------------------|--|
| <input type="checkbox"/> HMD4201 | UPF Permit not obtained. HSC 117705; SDCC 68.905, 68.906, 68.1202 |
| <input type="checkbox"/> HMD4216 | Failed to submit or report in CERS chemical inventory information for hazardous waste and/or medical waste, and keep up to date. SDCC 68.904(a)(2) |
| <input type="checkbox"/> HMD4202 | Medical waste (MW) not separated from other waste at the point of origin. HSC 118275 |
| <input type="checkbox"/> HMD4203 | Enclosure or designated accumulation area for MW containers not secured. HSC 118307, 118310 |
| <input type="checkbox"/> HMD4204 | MW designated accumulation area not posted with an approved, legible biohazardous waste "warning sign" in English & Spanish or in another language, in addition to English which can be read from a distance of at least 25 feet. HSC 118310 |
| <input type="checkbox"/> HMD4205 | Medical SOLID WASTE not secured to deny access to unauthorized persons. SDCC 68.1211 |
| <input type="checkbox"/> HMD4206 | Leak or spill of MW not properly decontaminated. HSC 118300 |
| <input type="checkbox"/> HMD4207 | Sharps not stored in approved container or labeled with the words "sharps waste" or with the international biohazard symbol and the word "BIOHAZARD". HSC 118285(a) & (d) |
| <input type="checkbox"/> HMD4208 | Full sharps container not taped closed or tightly-lidded to preclude loss of contents. HSC 118285(b) |
| <input type="checkbox"/> HMD4209 | Primary containers accumulating MW not labeled with an electronic tracking system label or a label with generator's name, address and phone number. SDCC 68.1205 |
| <input type="checkbox"/> HMD4210 | Medical waste not stored in approved and properly marked biohazard bags. HSC 118275(a) |
| <input type="checkbox"/> HMD4211 | Biohazard bags not tied off to prevent leakage or expulsion of contents during storage and handling. HSC 118280(a) |
| <input type="checkbox"/> HMD4212 | Biohazardous bags not containerized in rigid, leak resistant, and covered containers or bins when placed for storage, handling, or transport. HSC 118280(c) |
| <input type="checkbox"/> HMD4213 | Waste container or bin not labeled with the words "Biohazardous Waste" or with the international biohazard symbol and the word "BIOHAZARD" on the lid and sides. HSC 118280(c) |
| <input type="checkbox"/> HMD4214 | Reusable containers or bins for MW storage not thoroughly washed and decontaminated and maintained in a clean and sanitary manner. HSC 118295, 118305 |
| <input type="checkbox"/> HMD4215 | Frozen (0°C/32°F) biohazardous waste stored for not more than 90 days. HSC 118280(e)(2) |
| <input type="checkbox"/> HMD4306 | Full sharps container stored not more than 30 days at >0°C. HSC 118285(c) |
| <input type="checkbox"/> HMD4307 | Biohazard bag waste stored not more than 7 days at >0°C (for generators of 20 or more pounds a month). HSC 118280(e)(1)(A) |
| <input type="checkbox"/> HMD4308 | Biohazard bag waste stored >30 days at >0°C (for generators of <20lbs/month). HSC 118280(e)(1)(B) |
| <input type="checkbox"/> HMD4219 | MW interim storage area not marked with warning signs or international biohazard symbol legible from a distance of 5 feet. HSC 118307, 118310 |
| <input type="checkbox"/> HMD4220 | MW interim storage area not properly secured. HSC 118307 |

TREATMENT AND DISPOSAL

- | # | <u>VIOLATION DESCRIPTION</u> |
|----------------------------------|--|
| <input type="checkbox"/> HMD4251 | MW treated by unapproved method/procedure. HSC 118215 |
| <input type="checkbox"/> HMD4252 | Standard written operating procedures for steam sterilization not established. HSC 118215(a)(2)(A) |
| <input type="checkbox"/> HMD4253 | Recording thermometer not calibrated annually. HSC 118215(a)(2)(B) |
| <input type="checkbox"/> HMD4254 | No records of annual thermometer calibration checks onsite for at least the past 2 years. HSC 118215(a)(2)(B) |
| <input type="checkbox"/> HMD4255 | Heat-sensitive tape or other approved method not used for each load treated onsite. HSC 118215(a)(2)(C) |
| <input type="checkbox"/> HMD4256 | Monthly biological indicator or other approved indicator not used to confirm proper sterilization. HSC 118215(a)(2)(D) |
| <input type="checkbox"/> HMD4257 | Onsite steam sterilization did not reach 121° C (250° F) for at least 30 minutes. HSC 118215(a)(2)(B) |
| <input type="checkbox"/> HMD4258 | Treatment records or logs of dates, time, and temperature not maintained for at least 2 years. HSC 118215(a)(2)(E) |
| <input type="checkbox"/> HMD4259 | Disposal of untreated MW to an unauthorized point. HSC 118340 |

TRANSPORTATION REQUIREMENTS

- | # | <u>VIOLATION DESCRIPTION</u> |
|----------------------------------|---|
| <input type="checkbox"/> HMD4260 | Transportation of MW without State Hauler Registration, USPS or requirements of the DOT "Materials of Trade Exceptions." HSC 118025 |
| <input type="checkbox"/> HMD4311 | Medical waste tracking documents or logs not in vehicle transporting medical waste. HSC 118040(a) |
| <input type="checkbox"/> HMD4313 | Medical waste tracking documents or logs not complete. HSC 118040(b) |

SMALL QUANTITY GENERATORS ONLY

(<200 POUNDS OF MEDICAL WASTE GENERATED PER MONTH)

- | # | <u>VIOLATION DESCRIPTION</u> |
|----------------------------------|---|
| <input type="checkbox"/> HMD4301 | Medical Waste Management Plan (MWMP) not submitted to HMD (initial/updates), if onsite treatment. HSC 117935 |
| <input type="checkbox"/> HMD4302 | Did not maintain and show proof of "onsite" medical waste treatment records for 3 years. HSC 117943 |
| <input type="checkbox"/> HMD4303 | Did not maintain on file disposal receipts, tracking or shipping documents for medical waste shipped offsite for at least 3 years. HSC 117945 |
| <input type="checkbox"/> HMD4309 | MWMP or equivalent information not onsite (only for SQG doing onsite treatment or comply with pharmaceutical waste hauling exemption). HSC 117935, 118032 |
| <input type="checkbox"/> HMD4310 | Did not meet the requirements of the pharmaceutical waste hauling exemption. HSC 118032 |

LARGE QUANTITY GENERATORS ONLY

Date: August 27, 2019

**SAN DIEGO COUNTY DEPARTMENT OF ENVIRONMENTAL HEALTH
HAZARDOUS MATERIALS DIVISION
Annual Carcinogen and Reproductive Toxin Reporting List**

Business Name: Agilent Technologies

Business Address: 11011 North Torrey Pines Road , La Jolla, CA. 92037

Business Owner or Operator: same as above

Please complete the following by entering the chemical name in the chemical name column and then place a check ✓ in the quantity column that most closely estimates the amount on hand. If measured by volume, check the appropriate gallon column(s). If measured by weight, check the appropriate pound column(s). If the chemical is a trade secret, you should check the trade secret box. For example, if you have one pint of benzene you would write benzene in the chemical name column and place a check ✓ in the <1-gallon column.

(PLEASE NOTE: the symbol < means less than).

To: dan.macneil@agilent.com
Subject: Agilent Technologies (CERS ID: 10123627) - Annual Hazardous Materials Business Plan Certification Not Completed
Date: Thursday, April 16, 2020 10:09:39 AM
Attachments: [image001.png](#)

To: Daniel Mac Neil

The Hazardous Materials Division (HMD) is the Certified Unified Program Agency (CUPA) in San Diego County. The HMD, as the CUPA, regulates the hazardous materials business plan statute and regulations. State law requires that a facility that handles or stores hazardous material(s) at or above reporting levels must annually certify their business plan. The business plan certification is important because up to date chemical inventory information is useful to emergency responders and public health officials in case of a spill or other emergencies.

As of 2015, the entire business plan is required to be submitted annually pursuant to California Health and Safety Code (HSC) Chapter 6.95 section 25508(a)(1)(A). The submittal must be completed using the online California Environmental Reporting System (CERS): <https://cers.calepa.ca.gov>. The business plan certification consists of several components:

Facility Information, Hazardous Materials Inventory, Site Map, Emergency Contingency Plan, and Training Plan. Failure to electronically file the business plan as required may result in administrative, civil, or criminal penalties.

Agilent Technologies (CERS ID: 10123627, Record ID: DEH2009-HUPFP-211638) has not completed the Annual Hazardous Materials Business Plan (HMBP) certification requirement of submitting the entire business plan.

The dates of your last submitted business plan from CERS are listed below:

Facility information submitted: 9/30/2019

Inventory and site map submitted: 9/30/2019

Plan submitted: 6/1/2018

Here is a link to the updated Consolidated Emergency Response/Contingency Plan Template:
<https://calepa.ca.gov/wp-content/uploads/sites/6/2017/05/CUPA-Documents-eTemplates-Contingency.pdf>

Within 30 days, please submit your hazardous materials business plan certification using CERS.

Failure to complete the certification can result in civil or administrative penalties between \$2,000 and \$5,000 per day of violation.

If you need assistance, please contact the **CERS Help Desk at (858) 505-6990**.

To make a phone appointment to get one-on-one help, visit HMD's CERS information website at:
https://www.sandiegocounty.gov/content/sdc/deh/hazmat/hmd_cers.html

If you have any question, you can contact me.

Sincerely,

Marie Marquez

COUNTY OF SAN DIEGO

COMPLIANCE INSPECTION REPORT

FACILITY NAME: Agilent Technologies
 ADDRESS: 11011 N TORREY PINES RD
 CITY/ZIP: LA JOLLA /92037

INSPECTION DATE: <u>04/20/2021</u>	PAGE <u>1</u> OF <u>11</u>
RECORD ID #: <u>DEH2009-HUPFP-211638</u>	
TIME START: <u>10:30 AM</u>	END: <u>2:30 PM</u>
SPECIALIST: <u>Zana Zmily</u>	
INSPECTION CONTACT: <u>Daniel Mac Neil</u>	
TITLE: <u>EH&S Specialist</u>	
PHONE: <u>(858) 373-6420</u>	
E-MAIL: <u>dan.macneil@agilent.com</u>	

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

CONSENT TO CONDUCT INSPECTION GRANTED BY: Daniel Mac Neil TITLE: EHS Specialist

INTRODUCTION:

Today I conducted a routine inspection of Agilent Technologies to verify compliance with Hazardous Materials Business Plan (HMBP), hazardous waste generator, and medical waste requirements. Today's inspection was conducted with facility representative, Daniel Mac Neil, Environmental Health and Safety Specialist. Consent to conduct the inspection and take photographs was granted to Zana Zmily by Daniel Mac Neil. Agilent Technologies is a facility that specializes in life sciences, including instrumentation and reagents. Per Daniel Mac Neil, the facility has been focusing more on instrumentation within the last year.

The facility address is 11011 N Torrey Pines Road. Invoices and permits mailed to the facility by HMD have been returned several times. Per Daniel Mac Neil, the facility does not have an assigned Suite Number and there are a few other facilities located at the same address. Per Daniel Mac Neil, the facility has established a recent procedure with USPS to ensure the mail is received. The facility has not moved and is currently operating at this location.

On 4/9/21, I called and e-mail Daniel Mac Neil to inform the facility that I would be conducting a routine compliance inspection the following week. On 4/12/21, Daniel Mac Neil e-mailed me stating he was out of town for work and would be available on 4/19/21 or 4/20/21. On 4/13/21, I e-mailed Daniel Mac Neil asking if there was anyone else on-site that would be able to conduct the inspection with me in his absence. On 4/13/21 Daniel Mac Neil responded via e-mail that no one else on-site was knowledgeable or qualified to conduct the inspection and he would try to change his schedule to be available for the inspection. On 4/14/21, Daniel Mac Neil sent me an e-mail that he was unable to change his schedule and that he would be on-site the following week.

The last routine compliance inspection was conducted on 4/25/2018, after two documented attempts to conduct the inspection. During today's inspection, Daniel Mac Neil and I discussed HMD's authority to conduct inspections and that inspections are generally unannounced to get an accurate picture of the day-to-day operations. For reference, HMD's authority to conduct inspections can be found here - California Health and Safety Code, Section 25185 (Hazardous Waste), Section 25511 (Hazardous Materials Business Plan) and Section 118335 (Medical Waste).

This facility is subject to Hazardous Materials Business Plan (HMBP) requirements for storing hazardous materials/hazardous waste in reportable quantities (55 gallons, 500 pounds, 200 cubic feet), hazardous waste, and medical waste requirements. At the time of inspection, based on manifests reviewed, medical waste tracking documents and statements made by Daniel Mac Neil, this facility appears to be a small quantity generator of hazardous waste and a small quantity medical waste generator.

COUNTY OF SAN DIEGO

SUPPLEMENTAL COMPLIANCE INSPECTION REPORT

INSPECTION DATE: 04/20/2021 PAGE 2 OF 11
RECORD ID #: DEH2009-HUPFP-211638

VIOLATION # 1

1020002 Initial &/or annual employee training not conducted in safety procedures for a hazardous material release or threatened release &/or employee training records not available or not maintained for 3 years. HSC 25505(a)(4); 19 CCR 2659(b)

Classification: Minor

Observations:

This facility has the capacity to store reportable amounts of hazardous materials/hazardous waste (55 gallons, 500 pounds, 200 cubic feet) and failed to maintain records of an adequate employee training program for the size of the facility and the nature of the hazardous materials handled. The training program shall, at a minimum, include methods for safe handling of hazardous materials; procedures for coordination with local emergency response organizations; use of emergency response equipment; and emergency response procedures for a release or threatened release of hazardous materials.

Per Daniel Mac Neil, the facility conducts HMBP training annually, including IIPP, emergency procedures, PPE, chemical safety, etc.. Documentation of training in 2018 was provided during the inspection. Per Daniel Mac Neil, the facility adjusted training from group refresher training to individual refresher training due to COVID precautions. Daniel Mac Neil provided a few individual training records from varying dates/years, including pre-2020. Per Daniel Mac Neil, the 2019 training records were not available during the inspection. Documentation of training for all staff were not available for three years during the inspection.

Corrective Action Due By:05/20/2021

Locate HMBP employee training records for the last three years and provide copies to me via e-mail. If refresher training has not been conducted within the last year, conduct and document the training within 30 days. Within 30 days, provide documentation of corrective action to me via e-mail at zanalee.zmily@sdcounty.ca.gov. You may use the corrective action form located at the end of this report.

HMBP employee training documentation template: [https://www.sandiegocounty.gov/content/dam/sdc/deh/hmd/pdf/hm-954%20\(01-07\).pdf](https://www.sandiegocounty.gov/content/dam/sdc/deh/hmd/pdf/hm-954%20(01-07).pdf)

VIOLATION # 2

3030007 Failed to properly label/date hazardous waste container &/or tank. 22 CCR 66262.34(f)

Classification: Minor

Observations:

In the West Lab, I observed a cabinet labeled as "Expired Chemical Storage". Inside the cabinet, I observed several expired chemical containers, including Zinc Sulfate, Succinic Acid, etc. Per Daniel Mac Neil, the facility regularly cleans out chemical storage areas and places expired chemicals in the cabinet for disposal by their hazardous waste hauler, Veolia. Several of the containers has labels indicating the chemicals were corrosive, toxic, etc. The containers were not labeled as hazardous waste, the name and address of the generator, the composition and physical state of the waste, the hazardous properties of the waste, or the accumulation start date.

Per Daniel Mac Neil, the "expiration dates" are established by the facility, not the manufacturer, however, once they are placed in the expired chemical storage cabinet are determined to be waste.

Corrective Action Due By:05/20/2021

Properly label all containers storing hazardous waste. Within 30 days, provide documentation of corrective action to me via e-mail at zanalee.zmily@sdcounty.ca.gov. You may use the corrective action form located at the end of this report.

I also observed several containers in the facility that were stored in other chemical storage cabinets that were past the expiration date assigned by the facility, including chloroform in the SA Lab (exp. 9/8/2020), sodium hydroxide in a flammable cabinet (exp. 6/21/2020), isopropyl alcohol with the word "used" on the container, and ethanol (exp. 10/29/2018), methanol (exp. 12/15/2018) and acetonitrile (exp. 12/2019) containers in the Media Lab. Within 30 days, determine if these chemicals are

COUNTY OF SAN DIEGO

SUPPLEMENTAL COMPLIANCE INSPECTION REPORT

INSPECTION DATE: 04/20/2021 PAGE 3 OF 11
RECORD ID #: DEH2009-HUPFP-211638

still in use, or if they are waste. If they are waste, conduct a waste determination to determine if the wastes are hazardous waste and ensure they are properly managed accordingly, including proper labeling and disposal as hazardous waste.

Hazardous waste containers must be labeled with the following: The words "Hazardous Waste", the name and address of the generator, the composition and physical state of the waste, the hazardous properties of the waste, and the accumulation start date.

INSPECTION REMARKS:

HMBP Inspection Remarks

The facility last re-certified the Hazardous Materials Business Plan in the California Environmental Reporting System (CERS) on 8/19/2020. In 2019, the facility did not re-certify the Emergency Response/Training Plans submittal element.

Ensure the complete HMBP is re-certified annually, including the Facility Information, Hazardous Materials Inventory and Emergency Response/Training Plans.

Per Daniel Mac Neil, the secondary emergency contact listed in CERS, Chris Mange, was on leave for most of the last year and has recently returned. Since the 8/19/2020, there were no updates made to the facility's secondary emergency contacts in CERS. It is required that emergency contacts are updated and re-submitted through CERS within 30 days of the change. Please ensure the emergency contacts are kept current and are updated, as required, when necessary.

Hazardous Waste Inspection Remarks

Hazardous waste manifests and universal waste disposal records were available during the inspection. Per Daniel Mac Neil, the facility's hazardous waste hauler is Veolia. Per Daniel Mac Neil, the last hazardous waste pick up was in February 2020. Per Daniel Mac Neil, the majority of the hazardous waste generated is from lab clean-outs and a small amount of hazardous waste is generated on a regular basis.

Daniel Mac Neil and I discussed accumulation time limits for small quantity generators (180 days) and facilities that generate less than 100 kg/month (180 days after 100kg is generated - all waste combined). We also discussed satellite accumulation requirements and allowances (*see below*). Ensure the facility is not exceeding accumulation time limits for any hazardous waste generated.

Per the Department of Toxic Substances Control's Hazardous Waste Tracking System (HWTS), the facility's EPA ID, CAL000324223, is active.

The facility has a "dark room" with a photo processing machine that utilizes photo fixer and photo developer. The machine has a water line coming in and several pipes going back to the sewer. There is a silver recovery filter and container that appears to be for waste fixer. The waste fixer container was nearly empty and was not labeled as hazardous waste. It was unclear during the inspection where the waste fixer was discharged to and how the waste is being disposed. Daniel Mac Neil granted consent to take a few photographs of the photo processing system (see Photo 1 and 2). Daniel Mac Neil provided maintenance records for the unit. Per Daniel Mac Neil, prior to obtaining the new unit, the waste fixer was regularly picked up by the same company that collected the silver from the silver recovery unit. There did not appear to be any documentation of disposal for the waste fixer for the last several years. The facility has a current Industrial Wastewater Discharge Permit with the City of San Diego that was recently renewed (02-0441-06-A) expiration 2/1/2025. **Within 30 days, provide a written description of the process to me via e-mail, including the wastes generated, the waste determination for the wastes generated (hazardous/non-hazardous and how you came to that determination) and final disposition of the wastes generated. Please include any safety data sheets if they are used for your waste determination.**

Satellite Accumulation

COUNTY OF SAN DIEGO

SUPPLEMENTAL COMPLIANCE INSPECTION REPORT

INSPECTION DATE: 04/20/2021 PAGE 4 OF 11
RECORD ID #: DEH2009-HUPFP-211638

Satellite accumulation allows generators to accumulate hazardous waste for up to one year at or near the point where it is initially generated and collected during daily operation thereby exempting generators from the accumulation standards including the 90, 180 or 270 day accumulation limits if certain conditions are met.

A person may accumulate up to 55 gallons of hazardous waste or 1 quart of acute hazardous waste at each satellite accumulation area, if it is under the control of the person operating the process that generates the waste. Limited standards, such as labeling and maintaining the container in good condition, apply to satellite areas. Once the 55-gallon or 1 quart limit is exceeded at the satellite area, the excess waste must be dated and moved within three days to the central accumulation area where LQG or SQG accumulation standards apply (or the waste can be shipped directly off site).

Medical Waste Inspection Remarks

The facility generates bio-hazardous red bag waste and sharps waste. Per Daniel Mac Neil, medical waste is picked up monthly by Veolia.

Medical waste tracking documents were available and reviewed for the last three years.

Per the medical waste tracking documents reviewed, the facility shipped 156 pounds of medical waste on 8/3/2020. Be advised, if the facility generates 200 or more pounds of medical waste in any month of a 12-month period, then the facility is a large quantity generator. Stay apprised of the facility's medical waste generator status and notify me if the facility generates 200 pounds or more of medical waste in any month.

I observed a steam autoclave in the designated medical waste accumulation area. Per Daniel Mac Neil, the steam autoclave is used to produce distilled water and no medical waste treatment is conducted on-site.

The contents of this report were reviewed with Daniel Mac Neil during the inspection. The report was not signed due to current Public Health Orders and COVID-19 restrictions.

HAZARDOUS WASTE TANK SYSTEMS FOR SQGS ONLY

VIOLATION DESCRIPTION

HM-923 (10-18)

COUNTY OF SAN DIEGO

COMPLIANCE INSPECTION REPORT

Hazardous Materials and Hazardous Waste (continued)

- 3030024 Failed to operate uncovered tank to ensure at least 2 ft. of freeboard to prevent overtopping, unless the tank is equipped with a containment structure, a drainage control system, or a diversion structure with a capacity that equals or exceeds the volume of the top 2 ft. of the tank. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(3), 265.201(b)(c)
- 3030025 Failed to provide an overflow protection device on continuously fed hazardous waste tank(s). 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(3), 265.201(b)(4)
- 3030027 Failed to conduct daily tank inspection of discharge control system, monitoring equipment and waste level. 22 CCR 66262.34(d)(2); 40 CFR 265.201(c)(1-3), 262.34(d)(3)
- 3030028 Failed to conduct weekly hazardous waste tank inspection(s) to detect signs of leakage and ensure that the construction materials, fixtures and surrounding areas of the tank are in good condition. 22 CCR 66262.34(d)(2); 40 CFR 265.201(c)(4 & 5), 262.34(d)(3)
- 3050007 Failed to properly remove all waste upon closure, decontaminate, and document the closure of a hazardous waste tank system. 22 CCR 67383.3; 40 CFR 262.34(d)(3), 265.201(f)
- HMD1612 Hazardous waste improperly stored in a tank system causing leaks, corrosion, or failure. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(3), 265.201(b)
- HMD1614 Failed to pre-notify the CUPA in writing prior to closing a hazardous waste tank system. 22 CCR 67383.3(a)(1)
- HMD1615 Failed to properly accumulate ignitable or reactive waste in a tank system. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(3), 265.201(g)

HAZARDOUS WASTE REQUIREMENTS FOR SQGS AND LOGS

RECORD KEEPING/OPERATIONAL REQUIREMENTS

- # VIOLATION DESCRIPTION
- HMD0131 Unified Program Facility Permit not obtained &/or maintained for the generation of hazardous waste. SDCC 68.904; 68.905; 68.907.1
 - HMD0150 Failed to submit complete and accurate Facility Information in CERS. 27 CCR 15188(b-c); SDCC 68.904(b)
 - 3030053 Failed to maintain waste analysis records, analytical records &/or waste determination results for at least 3 years. 22 CCR 66262.40(c)
 - 3010002 Failed to obtain &/or maintain an active EPA ID Number. 22 CCR 66262.12(a)
 - 3010008 Failed to properly complete a uniform hazardous waste manifest. 22 CCR 66262.23(a)
 - 3010009 Failed to submit an Exception Report to DTSC for hazardous waste manifest. HSC 25123.3(h)(2); 22 CCR 66262.42(b), (c), &/or (d)
 - 3010010 Failed to maintain copies of Uniform Hazardous Waste Manifest, consolidated manifest, or Bills of Lading for 3 years. HSC 25160.2(b)(3), 25185(a)(4); 22 CCR 66262.40(a), 66262.23(a)(3)
 - 3010011 Failed to send copy of the uniform hazardous waste manifest to DTSC within 30 days of shipment. 22 CCR 66262.23(a)(4)
 - 3010013 Failed to meet the consolidated manifesting requirements for waste shipment. HSC 25160.2(b)(3) &/or (c)
 - 3010014 Failed to retain at the generator's place of business disposal records of spent lead-acid batteries for at least 3 years. 22 CCR 66266.81(a)(4)(A) &/or (B)
 - 3030006 Failed to determine if a hazardous waste is restricted or prohibited from land disposal and has to be treated. 22 CCR 66268.7(a)(1)
 - 3010016 Failure of recycler who recycles more than 100 kilograms per month of a recyclable material to submit the biennial Recyclable Materials Report (RMR) in CERS when claiming exclusion or exemption. HSC 25143.10(a), (c) &/or (d)
 - HMD0149 Failed to keep disposal receipts for drained used oil filters and/or drained fuel filters for 3 years. HSC 25250.22; 22 CCR 66266.130(c)(5)
 - HMD0152 Failed to report &/or update the required inventory information for hazardous waste(s) generated at the facility in CERS. SDCC 68.904(a)(2)
 - HMD0140 Failed to have Land Disposal Restriction documentation onsite for 3 years. 22 CCR 66268.7(a)(8)
 - 3250005 Failed to obtain a Treatment, Storage and Disposal Facility (TSDF) permit or authorization to store/treat/dispose of hazardous waste. HSC 25201(a)
 - 3050005 Failed to have adequate records demonstrating claim of exemption or exclusion for recyclable materials. HSC 25143.2(f)
 - HMD0142 Failed to notify the CUPA in CERS for onsite hazardous waste treatment/tiered permitting. HSC 25201(a)
 - HMD0138 Manifest signed by the TSDF not available for inspection. 22 CCR 66262.40(a); HSC 25185(a)(4)
 - 3010035 Failure to annually submit notification of generator's intent to remotely consolidate hazardous waste. HSC 25110.10(d)

DISPOSAL AND TRANSPORTATION

- # VIOLATION DESCRIPTION
- 3010007 Failed to prepare a hazardous waste manifest for the transport of a waste for off-site transfer, treatment, storage, or disposal. HSC 25160(b)(1) or (2), 25160.2(b)(9); 22 CCR 66262.20(a)
 - 3030005 Failed to make a proper waste determination. 22 CCR 66262.11, 66262.40(c)
 - 3050001 Failed to use a DTSC registered hazardous waste transporter to transport hazardous waste. HSC 25163(a)
 - 3050002 Failed to properly dispose of hazardous waste at an authorized facility. HSC 25189.5(a)
 - HMD0308 Impermissible dilution of hazardous waste. 22 CCR 66268.3(a)
 - HMD0305 Disposed of used oil illegally. HSC 25250.5(a), 25189.5(a)
 - HMD0306 Failed to properly dispose of oil-based paint &/or hazardous waste latex paint liquid. HSC 25217.1, 25189.5(a)

STORAGE AND HANDLING

- # VIOLATION DESCRIPTION
- 3030001 Failed to meet the management requirements when handling or storing spent lead-acid batteries. 22 CCR 66266.81(a)
 - 3030003 Failed to properly manage 'damaged' spent lead acid batteries so as to minimize the release of acid and lead and to protect the handlers and the environment 22 CCR 66266.81(b)
 - 3030004 Failure to properly manage used oil filters and/or fuel filters in accordance with the requirements. HSC 25250.22; 22 CCR 66266.130
 - 3050004 Generator intentionally contaminated used oil with another hazardous waste other than minimal amounts of fuel. HSC 25250.7(a), (c)
 - HMD0222 Failed to properly label Excluded Recyclable Materials (ERM) accumulated in a container or tank. HSC 25143.9(a)
 - HMD0216 Failed to label hazardous material container within 10 days after the container was discovered to be mislabeled or inadequately labeled. HSC 25124(b)(3)(A); 22 CCR 66262.34(f)
 - HMD0217 Failed to repackage and properly label damaged/deteriorated hazardous material container within 96 hours. HSC 25124(b)(3)(B); 22 CCR 66262.34(f)
 - HMD0219 Failed to properly segregate used oil &/or fuel drained from filters. HSC 25250.22(b)(4); 22 CCR 66266.130(c)(6)
 - 3030057 Failed to comply with hazardous waste satellite container regulation. 22 CCR 66262.34(e)
 - HMD0023 Failed to properly empty container, failed to manage non-empty container, or inner liner removed from a container. 22 CCR 66261.7(b), (d), (e) &/or (r)

COMPLIANCE INSPECTION REPORT

Medical Waste Generators

Each violation checked below is for the section(s) of the California health and Safety Code (HSC), California Code of Regulation (CCR), or the San Diego County Code (SDCC) indicated in italics. All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form (HM-926) to document your return to compliance. Please call (858) 505-6880 or your Specialist if you have any questions. UPF = Unified Program Facility; MW = Medical Waste; USPS = United States Postal Service; DOT = Department of Transportation

MEDICAL WASTE GENERATORS

STORAGE AND LABELING

#	<u>VIOLATION DESCRIPTION</u>
<input type="checkbox"/> HMD4201	UPF Permit not obtained. HSC 117705, SDCC 68.904; 68.905; 68.906; 68.907.1; 68.1202
<input type="checkbox"/> HMD4216	Failed to submit or report in CERS chemical inventory information for hazardous waste and/or medical waste, and keep up to date. SDCC 68.904(a)(2)
<input type="checkbox"/> HMD4202	Medical waste (MW) not separated from other waste at the point of origin. HSC 118275
<input type="checkbox"/> HMD4203	Enclosure or designated accumulation area for MW containers not secured. HSC 118307, 118310
<input type="checkbox"/> HMD4204	MW designated accumulation area not posted with an approved, legible biohazardous waste "warning sign" in English & Spanish or in another language, in addition to English which can be read from a distance of at least 25 feet. HSC 118310
<input type="checkbox"/> HMD4205	Medical SOLID WASTE not secured to deny access to unauthorized persons. SDCC 68.1211
<input type="checkbox"/> HMD4206	Leak or spill of MW not properly decontaminated. HSC 118300
<input type="checkbox"/> HMD4207	Sharps not stored in approved container or labeled with the words "sharps waste" or with the international biohazard symbol and the word "BIOHAZARD". HSC 118285(a) & (d)
<input type="checkbox"/> HMD4208	Full sharps container not taped closed or tightly-lidded to preclude loss of contents. HSC 118285(b)
<input type="checkbox"/> HMD4209	Primary containers accumulating MW not labeled with an electronic tracking system label or a label with generator's name, address and phone number. SDCC 68.1205
<input type="checkbox"/> HMD4210	Medical waste not stored in approved and properly marked biohazard bags. HSC 118275(a)
<input type="checkbox"/> HMD4211	Biohazard bags not tied off to prevent leakage or expulsion of contents during storage and handling. HSC 118280(a)
<input type="checkbox"/> HMD4212	Biohazardous bags not containerized in rigid, leak resistant, and covered containers or bins when placed for storage, handling, or transport. HSC 118280(c)
<input type="checkbox"/> HMD4213	Waste container or bin not labeled with the words "Biohazardous Waste" or with the international biohazard symbol and the word "BIOHAZARD" on the lid and sides. HSC 118280(c)
<input type="checkbox"/> HMD4214	Reusable containers or bins for MW storage not thoroughly washed and decontaminated and maintained in a clean and sanitary manner. HSC 118295, 118305
<input type="checkbox"/> HMD4215	Frozen (0°C/32°F) biohazardous waste stored for more than 90 days. HSC 118280(e)(2)
<input type="checkbox"/> HMD4306	Full sharps container stored more than 30 days at >0°C. HSC 118285(c)
<input type="checkbox"/> HMD4307	Biohazard bag waste stored more than 7 days at >0°C (for generators of 20 or more pounds a month). HSC 118280(e)(1)(A)
<input type="checkbox"/> HMD4308	Biohazard bag waste stored >30 days at >0°C (for generators of <20lbs/month). HSC 118280(e)(1)(B)
<input type="checkbox"/> HMD4219	MW interim storage area not marked with warning signs or international biohazard symbol legible from a distance of 5 feet. HSC 118307, 118310
<input type="checkbox"/> HMD4220	MW interim storage area not properly secured. HSC 118307

TREATMENT AND DISPOSAL

#	<u>VIOLATION DESCRIPTION</u>
<input type="checkbox"/> HMD4251	MW treated by unapproved method/procedure. HSC 118215
<input type="checkbox"/> HMD4252	Standard written operating procedures for steam sterilization not established. HSC 118215(a)(2)(A)
<input type="checkbox"/> HMD4253	Recording thermometer not calibrated annually. HSC 118215(a)(2)(B)
<input type="checkbox"/> HMD4254	No records of annual thermometer calibration checks onsite for at least the past 2 years. HSC 118215(a)(2)(B)
<input type="checkbox"/> HMD4255	Heat-sensitive tape or other approved method not used for each load treated onsite. HSC 118215(a)(2)(C)
<input type="checkbox"/> HMD4256	Monthly biological indicator or other approved indicator not used to confirm proper sterilization. HSC 118215(a)(2)(D)
<input type="checkbox"/> HMD4257	Onsite steam sterilization did not reach 121° C (250° F) for at least 30 minutes. HSC 118215(a)(2)(B)
<input type="checkbox"/> HMD4258	Treatment records or logs of dates, time, and temperature not maintained for at least 2 years. HSC 118215(a)(2)(E)
<input type="checkbox"/> HMD4259	Disposal of untreated MW to an unauthorized point. HSC 118340

TRANSPORTATION REQUIREMENTS

#	<u>VIOLATION DESCRIPTION</u>
<input type="checkbox"/> HMD4260	Transportation of MW without State Hauler Registration, USPS or requirements of the DOT "Materials of Trade Exceptions." HSC 118025
<input type="checkbox"/> HMD4311	Medical waste tracking documents or logs not in vehicle transporting medical waste. HSC 118040(a)
<input type="checkbox"/> HMD4313	Medical waste tracking documents or logs not complete. HSC 118040(b)

SMALL QUANTITY GENERATORS ONLY

(<200 POUNDS OF MEDICAL WASTE GENERATED PER MONTH)

#	<u>VIOLATION DESCRIPTION</u>
<input type="checkbox"/> HMD4301	Medical Waste Management Plan (MWMP) not submitted to HMD (initial/updates), if onsite treatment. HSC 117935
<input type="checkbox"/> HMD4302	Did not maintain and show proof of "onsite" medical waste treatment records for 3 years. HSC 117943
<input type="checkbox"/> HMD4303	Did not maintain on file disposal receipts, tracking or shipping documents for medical waste shipped offsite for at least 3 years. HSC 117945
<input type="checkbox"/> HMD4309	MWMP or equivalent information not onsite (only for SQG doing onsite treatment or comply with pharmaceutical waste hauling exemption). HSC 117935, 118032
<input type="checkbox"/> HMD4310	Did not meet the requirements of the pharmaceutical waste hauling exemption. HSC 118032

LARGE QUANTITY GENERATORS ONLY

[Developer MSDS.pdf](#)
[Lab Staff Training Refresher Sign In Sheet.pdf](#)
[Final Page Sign Off May 2021.pdf](#)

Hello Zana–

In response to the report action items / follow-up:

1. **Film Processor Operation:** referencing the attachment 1 and based on the manufacturer information, here is a more thorough explanation to the film processor operation in the Dark Room:

The container on the floor directly underneath the processor, right side is the fixer (MSDS attached - Attachment 2)

The container on the floor directly underneath the processor, left side is the developer (MSDS attached – Attachment 3)

The black canister on the floor is the silver trap which collects all the silver – it is collected 1X a year by the service provider and disposed of by [Commodity Resources](#).

The container on the floor against the wall on the far left side is the silver-free rinse (pH 6–8) which is poured back into the machine during cleaning / servicing.

Sources: Quality Digital Imaging of San Diego (service provider) + Alphatek Manufacturing

2. **Unlabeled waste containers in the West Lab:** after discussion with both business teams- Supply Chain / Production and R & D, it was learned that the cabinet with expired chemicals is off limits for use only to the Supply Chain / Production group, not the R & D group. That is apparently why they do not submit the material to the waste cabinet in the same lab and it is not labeled as such. Veolia Environmental Services disposed of all such chemical waste on 4/21/2021.
3. **Training** – The Quality Audit team could not locate the most recent (2020) training sheets that were borrowed from us for a recent mock FDA audit and the majority opinion is that the auditor may have taken these sheets with him after the audit. Therefore I decided to repeat that training (attachment 4).

My apologies for the delay on getting back to you on this – it took a couple weeks to get the vendor onsite to conduct a tutorial with all of us on the workings of the film processor.

The signed corrective action sheet is attachment 5.

Dear Daniel Mac Neil:

On 04/20/2021, an inspection was conducted at Agilent Technologies by the County of San Diego Hazardous Materials Division (HMD). Attached is the inspection report, which you should keep for your records, and any corrective action follow-up. If violations were cited during the inspection, the final page entitled Return to Compliance, should be completed, signed and returned to HMD within 30 calendar days.

Please feel free to contact your inspector, or the HMD Desk at hmdutyeh@sdcounty.ca.gov, or by calling 858-505-6880.

Thank you for your time and compliance.

Respectfully,
Your County of San Diego Hazardous Materials Division

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). **This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6.** This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

Y* N/A* NOTE: **Reinspection fees will be charged if additional inspections are required to determine compliance.**

NEW BUSINESS PERMIT INSPECTION

THIS BUSINESS IS A CONDITIONALLY EXEMPT SMALL QUANTITY GENERATOR OF HAZARDOUS WASTE AND IS A SMALL QUANTITY GENERATOR OF MEDICAL WASTE. THE FOLLOWING VIOLATIONS WERE OBSERVED DURING THIS INSPECTION.
NOTICE TO COMPLY:

1. THIS BUSINESS GENERATES HAZARDOUS WASTE ISOPROPNOL, BUT THE OWNER HAS FAILED TO OBTAIN AN ENVIRONMENTAL PROTECTION AGENCY (EPA) IDENTIFICATION NUMBER FROM THE CALIFORNIA DEPARTMENT OF TOXIC SUBSTANCES CONTROL (DTSC).
- CORRECTIVE ACTION REQUIRED: WITHIN 30 DAYS, SUBMIT A COMPLETED APPLICATION TO DTSC IN ORDER TO OBTAIN AN EPA ID NUMBER.
2. THIS BUSINESS OPERATOR HAS POURED HAZARDOUS WASTE ISOPROPNOL ON TO ABSORBENT PADS AND THEN PLACED THE PADS IN WITH RED BAG MEDICAL WASTE FOR DISPOSAL. THIS IS UNAUTHORIZED DISPOSAL OF A HAZARDOUS WASTE.
- CORRECTIVE ACTION REQUIRED: MANAGE THE ISOPROPNOL CONTAMINATED PADS AS A HAZARDOUS WASTE. STORE THE PADS INSIDE AN APPROVED CONTAINER WITH A TIGHT FITTING LID AND LABELED WITH A HAZARDOUS WASTE LABEL. REFER TO THE PRINTED FACT SHEET FOR INFORMATION REGARDING HAZARDOUS WASTE STORAGE LIMITS FOR GENERATORS.

The Hazardous Materials Business Plan (inventory & site map, emergency contacts, emergency response plan, and employee training plan) is required by law to be certified online through the California Environmental Reporting System (CERS). For additional information about hazardous materials business plans and CERS, go to: <http://www.sdcountry.ca.gov/deh/hazmat/hmd-cers-info.html>

CERS ACCESS/I.D. REQUEST FORM

ENVIRONMENTAL HEALTH

All Certified Unified Program Agency (CUPA) regulated businesses are required by law (Assembly Bill 2286) to submit business information electronically through the California Environmental Reporting System (CERS). This includes information related to your:

- Unified Program Facility Permit
- Hazardous Materials Business Plan
- Hazardous Waste
- Hazardous Waste Onsite Treatment
- Hazardous Waste Tank Closures
- Remote Waste Consolidation
- Recyclable Materials Reports
- Underground Storage Tanks
- Aboveground petroleum storage over 1,320 gallons
- Medical Waste**

A CERS I.D. is required in order to obtain or maintain a valid Unified Program Facility Permit. Please send your completed form to the County of San Diego Hazardous Materials Division (address above). When your CERS account is established, your designated lead users will receive an email with directions to begin electronic reporting.

** In San Diego County, Medical Waste Generators are required to report in CERS in order to receive a valid permit.

Types of wastes generated

Sharps - e.g., needles, blades, scalpels, or broken glass or syringes contaminated with biohazardous waste.

Estimated monthly amount lbs

Blood or body fluids - liquid blood or blood products, or other regulated body fluids, or articles contaminated with liquid blood or body fluids.

Estimated monthly amount lbs

Home-Generated Sharps

Estimated monthly amount lbs

Pathology waste - recognizable human anatomical parts.

Estimated monthly amount lbs

Laboratory wastes - specimens or microbiological cultures, stocks of infectious agents, live and attenuated vaccines, biologicals, and culture media.

Estimated monthly amount 80 lbs

Surgical specimens - human or animal parts or tissues removed surgically or by autopsy and are suspected to be contaminated by agents which are contagious to humans.

Estimated monthly amount lbs

Liquid or semi-liquid biohazardous laboratory waste - treated on site by chemical disinfection* and discharged to sewer.

Estimated monthly amount lbs

Isolation waste - waste contaminated with excretion, exudates or secretions from humans or animals who are isolated due to highly communicable diseases.

Estimated monthly amount lbs

Waste contaminated with fixatives or chemotherapeutic agents.

Estimated monthly amount lbs

Contaminated animals - animal carcasses, body parts, tissues or fluids suspected to be contaminated by agents which are contagious to humans.

Estimated monthly amount lbs

California-regulated pharmaceutical waste

Estimated monthly amount lbs

Other (specify):

Estimated monthly amount lbs

Estimate of **TOTAL** monthly medical waste generated: 80 lbs

ONSITE MEDICAL WASTE TREATMENT ONLY: Method of medical waste treatment *if performed onsite:*

Steam Autoclaving

Other state approved alternative technology (specify below):

Onsite medical waste treatment records must be maintained for three years. HSC §117975

*Per HSC §118215(c), for liquid or semi-liquid biohazardous laboratory waste (§117635(a)), the treatment method must be recognized by the NIH, the CDC, or the American Biological Safety Association. If the chemical disinfection of the medical waste causes the waste to become a hazardous waste, the waste shall be managed in accordance with the requirements of HSC Chapter 6.5 (commencing with §25100) of Division 20.

Estimated monthly amount lbs

Liquid or semi-liquid biohazardous laboratory waste - treated on site by chemical disinfection* and discharged to sewer.

Estimated monthly amount lbs

Isolation waste - waste contaminated with excretion, exudates or secretions from humans or animals who are isolated due to highly communicable diseases.

Estimated monthly amount lbs

Waste contaminated with fixatives or chemotherapeutic agents.

Estimated monthly amount lbs

Contaminated animals - animal carcasses, body parts, tissues or fluids suspected to be contaminated by agents which are contagious to humans.

Estimated monthly amount lbs

California-regulated pharmaceutical waste
Estimated monthly amount lbs

Other (specify):
Estimated monthly amount lbs

Estimate of **TOTAL** monthly medical waste generated: 80 lbs

ONSITE MEDICAL WASTE TREATMENT ONLY: Method of medical waste treatment *if performed onsite:*

Steam Autoclaving Other state approved alternative technology (specify below):

Onsite medical waste treatment records must be maintained for three years. HSC §117975

*Per HSC §118215(c), for liquid or semi-liquid biohazardous laboratory waste (§117635(a)), the treatment method must be recognized by the NIH, the CDC, or the American Biological Safety Association. If the chemical disinfection of the medical waste causes the waste to become a hazardous waste, the waste shall be managed in accordance with the requirements of HSC Chapter 6.5 (commencing with §25100) of Division 20.

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

CONSENT TO CONDUCT INSPECTION GRANTED BY: David Helton

TITLE: Assistant Manager Genetic Anal

INTRODUCTION:

Today a routine Certified Unified Program Agency (CUPA) inspection was completed at Genewiz to verify compliance with medical waste and hazardous waste regulations. At the time of inspection this facility is a small quantity medical waste generator and a small quantity hazardous waste generator.

INSPECTION REMARKS:

Observed during inspection were the following hazardous waste and medical waste:

- 1 x 55 gallon drum of hazardous waste solid - flammable
- 2 x 55 gallon drums of medical waste (bio-hazardous waste "red-bag" waste)

Medical waste disposal documents were on-site and reviewed during inspection. Pick-ups are weekly per disposal documents. Hazardous waste manifests were reviewed during inspection. Pick-ups are every three months at approximately one-55 gallon container per disposal documents.

Employee training documents were on-site and reviewed during inspection.

Facility is managing all their medical solid waste as bio-hazardous red bag waste since the shared dumpster is not locked currently.

At the time of inspection California Environmental Reporting System (CERS) assistance was provided. Facility re-submitted facility information, hazardous materials inventory, and emergency response/employee training plans sections which included and updated site map to indicate location of emergency response equipment.

REMARK: Ensure that your hazardous materials business plan (HMBP) is re-submitted/re-certified at least once every twelve months or within 30 days of a change occurring.

 - 3010014 Failed to retain disposal records of spent lead batteries for 3 years. 22 CCR 66266.81(a)(4)(B)
 - 3030006 Failed to determine if a hazardous waste is restricted or prohibited from land disposal. 22 CCR 66268.7(a)
 - 3010016 Failure of recycler who recycles more than 100 kilograms per month of recyclable material under a claim that the material qualifies for exclusion or exemption to provide and submit in CERS the required information. HSC 25143.10(a), (c), and/or (d)
 - HMD 0149 Failed to keep disposal receipts for drained used oil filters and/or drained fuel filters for 3 years. HSC 25250.22; 22 CCR 66266.130
 - HMD 0148 Failed to have copies of analytical records, waste analysis records, and/or waste determination results for 3 years. 22 CCR 66262.40(c)
 - HMD 0140 Failed to have Land Disposal Restriction documentation onsite for 3 years. 22 CCR 66268.7(a)(8)
 - 3250005 Failed to obtain a Treatment, Storage and Disposal Facility (TSDF) permit or authorization to store/treat/dispose of hazardous waste. HSC 25201(a)
 - 3050005 Failed to have adequate records demonstrating claim of exemption for Excluded Recyclable Materials. HSC 25143.2(f); 22 CCR 66261.2(g)
 - 3210001 Failed to notify the CUPA in CERS for onsite hazardous waste treatment/tiered permitting. HSC 25201(a)
 - HMD 0138 Manifest signed by the TSDF not available for inspection. 22 CCR 66262.40(a)

Hazardous Waste Requirements for SOGs and LOGs DISPOSAL AND TRANSPORTATION

- 3010007 Failed to prepare a hazardous waste manifest for the transport of a waste for off-site transfer, treatment, storage, or disposal. HSC 25160(b)(1) or (2), 25160.2(b)(9); 22 CCR 66262.20(a)
- 3030005 Failed to make a proper waste determination. 22 CCR 66262.11, 66262.40(c)
- 3050001 Failed to use a California registered hazardous waste transporter to transport hazardous waste. HSC 25163(a); 22 CCR 66263.41
- 3050002 Failed to properly dispose of hazardous waste at an authorized facility. HSC 25189.5(a); 25189(c),(d); 25189.2(c)
- 3130002 Impermissible dilution of hazardous waste. 22 CCR 66268.3(a)
- HMD 0305 Disposed of used oil illegally. HSC 25250.5(a); 25189.5(a); 25189(c),(d); 25189.2(c)
- HMD 0306 Disposed of hazardous waste latex paint improperly. HSC 25217.1

Hazardous Waste Requirements for SOGs and LOGs STORAGE AND HANDLING

- | | |
|---|-----------------------|
| # | VIOLATION DESCRIPTION |
|---|-----------------------|
- 3030001 Failed to meet requirements, when handling, and storing spent lead acid batteries. 22 CCR 66266.81(a)(1)
 - 3030003 Failed to properly manage 'damaged' spent lead acid batteries. 22 CCR 66266.81(b)
 - 3030004 Failed to properly manage, store, label, and/or recycle used oil filters and/or used fuel filters. HSC 25250.22; 22 CCR 66266.130
 - 3050004 Failed to properly manage contaminated used oil as a hazardous waste. HSC 25250.7(a), (c)
 - HMD 0222 Failed to properly label Excluded Recyclable Materials (ERM). HSC 25143.9(a).
 - HMD 0216 Failed to label hazardous material container within 10 days after the container was discovered to be mislabeled or inadequately labeled. HSC 25124(b)(3)(A); 22 CCR 66262.34(f)
 - HMD 0217 Failed to repack damaged/deteriorated hazardous material container within 96 hours. HSC 25124(b)(3)(B); 22 CCR 66262.34(f)
 - HMD 0219 Failed to properly segregate used oil &/or fuel drained from filters. HSC 25250.22(b)(4); 22 CCR 66266.130(c)(6)
 - HMD 0221 Failed to comply with hazardous waste satellite container regulation. 22 CCR 66262.34(e)
 - HMD 0223 Failed to properly empty container, failed to manage non-empty container, or inner liner removed from a container. 22 CCR 66261.7(b), (d) and/or (r); 66262.34(f)
 - HMD 0224 Failed to mark date on empty container larger than 5 gallons and/or manage it within one year. 22 CCR 66261.7(e),(f)

Universal Waste Handler Requirements

- 3010004 Failed to obtain an EPA ID number from DTSC or US EPA prior to storing 5,000 kg or more of universal waste. 22 CCR 66273.32(a),(b)
- 3020002 Failed to maintain universal waste handler training records for 3 years. 22 CCR 66273.36(c),(d)
- 3020003 Failed to properly train handlers of universal waste in universal waste management and response procedures. 22 CCR 66273.36(a),(b)
- 3030008 Failed to properly label or mark a universal waste (non-Conditionally Exempt Small Quantity Universal Waste Generator). 22 CCR 66273.34
- 3030011 Failed to properly dispose of universal waste within one year. 22 CCR 66273.35(a) and/or (b)
- 3030046 Failed to keep records of offsite universal waste (UW) shipment(s) available for inspection for 3 years. HSC 25185(a); 22 CCR 66273.39(c), (d)(2)
- 3030051 Failed to meet the accumulation standards for universal waste aerosol containers and waste handling. HSC 25201.16(f)
- 3040004 Failed to manage universal waste in a manner to prevent release(s) to the environment. 22 CCR 66273.33; 66273.33.5
- 3050003 Disposal of universal waste (UW) to an unauthorized point. HSC 25189.5(a), 25189(c),(d); 25189.2(c); 22 CCR 66273.31(a)

 RECORD ID #: DEH2014-HUPFP-000856

Medical Waste Generators

Each violation checked below is for the section(s) of the California health and Safety Code (HSC), California Code of Regulation (CCR), or the San Diego County Code (SDCC) indicated in italics. All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form (HM-926) to document your return to compliance. Please call (858) 505-6880 or your Specialist if you have any questions. UPF = Unified Program Facility; MW = Medical Waste; USPS = United States Postal Service; DOT = Department of Transportation

STORAGE AND LABELING

- | # | HMD | VIOLATION DESCRIPTION |
|--------------------------|------|---|
| <input type="checkbox"/> | 4201 | UPF Permit not obtained. HSC 117705; SDCC 68.905, 68.1202 |
| <input type="checkbox"/> | 4202 | Medical waste (MW) not separated from other waste at the point of origin. HSC 118275 |
| <input type="checkbox"/> | 4203 | Enclosure or designated accumulation area for MW containers not secured. HSC 118307, 118310 |
| <input type="checkbox"/> | 4204 | MW designated accumulation area not posted with an approved, legible biohazardous waste "warning sign" in English & Spanish which can be read from 25 ft. HSC 118310 |
| <input type="checkbox"/> | 4205 | Medical SOLID WASTE not secured to deny access to unauthorized persons. SDCC 68.1211 |
| <input type="checkbox"/> | 4206 | Spill of MW not properly cleaned up. HSC 118300 |
| <input type="checkbox"/> | 4207 | Sharps not stored in approved and properly marked sharps container. HSC 118285(a) & (d) |
| <input type="checkbox"/> | 4208 | Full sharps container not taped closed or tightly-lidded to preclude loss of contents. HSC 118285(b) |
| <input type="checkbox"/> | 4209 | Primary containers accumulating MW not labeled with generator's name, address, and phone number. SDCC 68.1205 |
| <input type="checkbox"/> | 4210 | Medical waste not stored in approved and properly marked biohazard bags. HSC 118275(a) |
| <input type="checkbox"/> | 4211 | Biohazard bags not tied off to prevent leakage/expulsion of contents during handling and storage. HSC 118280(a) |
| <input type="checkbox"/> | 4212 | Biohazard bags not containerized in rigid, leak resistant, and covered containers or bins when placed for storage, handling, or transport. HSC 118280(b) |
| <input type="checkbox"/> | 4213 | Waste container/bin not labeled with the words "Biohazardous Waste" or with the international biohazard symbol and the word "BIOHAZARD" on the lid and sides. HSC 118280(c) |
| <input type="checkbox"/> | 4214 | Reusable containers/bins for MW storage not kept clean and sanitary. HSC 118295, 118305 |
| <input type="checkbox"/> | 4215 | Frozen (0°C/32°F) biohazardous waste stored >90 days. HSC 118280(e)(2) |
| <input type="checkbox"/> | 4306 | Full sharps container stored >30 days at >0°C. HSC 118285(c) |
| <input type="checkbox"/> | 4307 | Biohazard bag waste stored >7 days at >0°C (for generators of >20lbs/month). HSC 118280(e)(1)(A) |
| <input type="checkbox"/> | 4308 | Biohazard bag waste stored >30 days at >0°C (for generators of <20lbs/month). HSC 118280(e)(1)(B) |
| <input type="checkbox"/> | 4219 | MW interim storage area not marked with warning sign or biohazard symbol legible from 5 ft. HSC 118307, 118310 |
| <input type="checkbox"/> | 4220 | MW interim storage area not properly secured. HSC 118307 |

TREATMENT AND DISPOSAL

- | | | |
|--------------------------|------|--|
| <input type="checkbox"/> | 4251 | MW treated by unapproved method/procedure. HSC 118215 |
| <input type="checkbox"/> | 4252 | Standardized written operating procedures for steam sterilization not available. HSC 118215(a)(2)(A) |
| <input type="checkbox"/> | 4253 | Recording thermometer not calibrated annually. HSC 118215(a)(2)(B) |
| <input type="checkbox"/> | 4254 | No records of annual thermometer calibration checks onsite for at least the past 2 years. HSC 118215(a)(2)(B) |
| <input type="checkbox"/> | 4255 | Heat-sensitive tape/other approved method not used for each load treated onsite. HSC 118215(a)(2)(C) |
| <input type="checkbox"/> | 4256 | Monthly biological indicator or other approved method not used to confirm proper disinfection. HSC 118215(a)(2)(D) |
| <input type="checkbox"/> | 4257 | Onsite steam sterilization did not reach 121°C/250°F for 30 minutes. HSC 118215(a)(2)(B) |
| <input type="checkbox"/> | 4258 | Treatment records/logs of dates, time, and temperature not available for 2 years. HSC 118215(a)(2)(E) |
| <input type="checkbox"/> | 4259 | Disposal of untreated MW to an unauthorized point. HSC 118340 |

TRANSPORTATION REQUIREMENTS

- | # | HMD | VIOLATION DESCRIPTION |
|--------------------------|------|---|
| <input type="checkbox"/> | 4260 | Transportation of MW without State Hauler Registration, USPS or requirements of the DOT "Materials of Trade Exceptions." HSC 118025 |
| <input type="checkbox"/> | 4311 | Medical waste tracking documents/logs not in vehicle transporting medical waste. HSC 118040 |

SMALL QUANTITY GENERATORS ONLY

(<200 pounds of medical waste generated per month)

- | | | |
|--------------------------|------|---|
| <input type="checkbox"/> | 4301 | Medical Waste Management Plan (MWMP) not submitted to HMD (initial/updates), if onsite treatment. HSC 117935 |
| <input type="checkbox"/> | 4302 | Did not maintain and show proof of "onsite" medical waste treatment records for 3 years. HSC 117943 |
| <input type="checkbox"/> | 4303 | Did not retain on file disposal receipts, tracking/shipping documents for medical waste shipped offsite for 3 years. HSC 117945 |
| <input type="checkbox"/> | 4309 | MWMP or equivalent information not onsite (only for SQG doing onsite treatment or comply with pharmaceutical waste hauling exemption). HSC 117935, 118032 |

LARGE QUANTITY GENERATORS ONLY

(≥ 200 pounds of medical waste generated per month)

- | | | |
|--------------------------|------|--|
| <input type="checkbox"/> | 4351 | MWMP not submitted to HMD (initial/updates). HSC 117960, 117970 |
| <input type="checkbox"/> | 4352 | Records of medical waste treatment not available for 2 years. HSC 117975, 118215(a)(2)(E) |
| <input type="checkbox"/> | 4353 | Did not make available disposal receipts, tracking/shipping documents for at least 2 years for medical waste shipped offsite. HSC 117975 |

CHEMOTHERAPY, PATHOLOGY, PHARMACEUTICAL HAZARDOUS & UNIVERSAL WASTES

- | | | |

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

CONSENT TO CONDUCT INSPECTION GRANTED BY: Lynnae Manuel

TITLE: Assistant Manager

INTRODUCTION:

Today a routine Certified Unified Program Agency (CUPA) inspection was completed at Genewiz to verify compliance with hazardous waste and medical waste regulations and requirements. At the time of inspection this facility is a conditionally exempt small quantity hazardous waste generator and a small quantity medical waste generator.

Consent to complete inspection was granted by David Helton, Manager of Business Operations. Inspection walk-through and documentation review was completed with Lynnae Manuel, Assistant Manager.

Observed on-site during inspection:

- 2 x 40 gallon medical waste containers (red bag waste)
- 1 x 55 gallon drum of hazardous waste solid, flammable paper products

Containers were observed properly labeled and closed.

Manifests on-site and reviewed.

Medical waste disposal documents on-site and reviewed, pick-ups are weekly per documents.

Medical waste management plan on-site, per MWMP this facility generates approx. 80 pounds a month of red bag waste.

Per Lynnae Manuel this facility only generates red-bag waste, any sharps waste generated on-site is not medical waste.

Per Lynnae Manuel this facility has an online employee training that covers hazardous waste and bio-safety, as well as emergency response training.

Per Lynnae Manuel this facility manages all medical solid waste as red-bag waste within the laboratory areas.

California Environmental Reporting System (CERS) submittal has been made by facility representative.

CERS ID: 10500772

Each violation checked below is for the section(s) of the California Health and Safety Code (HSC), California Code of Regulations (CCR), or the San Diego County Code (SDCC) indicated in italics. Incorporated provisions of Title 40 of the Code of Federal regulations (CFR) are noted for reference. All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form (HM-926) to document your return to compliance. Please call (858) 505-6880 or your Specialist if you have any questions. HMBP = Hazardous Materials Business Plan; CUPA = Certified Unified Program Agency; CERS = California Environmental Reporting System; SQG = Small Quantity Hazardous Waste Generator; LQG = Large Quantity Hazardous Waste Generator

HAZARDOUS MATERIALS REQUIREMENTS

#	VIOLATION DESCRIPTION
<input type="checkbox"/> 1010001	Failed to establish and implement a HMBP. HSC 25505(a) and 25507(a)
<input type="checkbox"/> 1010002	HMBP not submitted to the CUPA in CERS. HSC 25508(a)(1)(A); 27 CCR 15188(a),(b),(d)
<input type="checkbox"/> 1010003	Business Activities &/or Business Owner/Operator page not completed in CERS. 19 CCR 2652(a)(1); SDCC 68.904(b); HSC 25508(a)(1)(A)
<input type="checkbox"/> 1010004	Chemical inventory incomplete or not submitted in CERS. HSC 25505(a)(1); 25507(a); 25508.1(a-b); 19 CCR 2654 (a) or (d)
<input type="checkbox"/> 1010005	Site map not submitted in CERS or not sufficient. HSC 25505(a)(2); 25508.1(f); 19 CCR 2652(a)(3)
<input type="checkbox"/> 1010006	Failed to update HMBP in CERS within 30 days of a substantial change to any portion of the HMBP, including inventory changes or facility information. HSC 25508.1(a-f); 19 CCR 2654(d); SDCC 68.904(c)(6)
<input type="checkbox"/> 1010008	HMBP not certified annually as complete and accurate in CERS. HSC 25508(a)(1)(A), 25508.2, 19 CCR 2654(b)
<input type="checkbox"/> 1010010	Emergency response plan and procedures to mitigate a release or threatened release not adequate, not established or not submitted in CERS. HSC 25505(a)(3), 25508(a)(1)(A); 19 CCR 2658
<input type="checkbox"/> 1010011	Failure to notify property owner in writing that the business is subject to the HMBP program. HSC 25505.1
<input type="checkbox"/> 1010012	Failure to provide a copy of HMBP to the property owner within five working days upon request from property owner. HSC 25505.1
<input type="checkbox"/> 1010014	Failure to submit emergency response plan in CERS, when not meeting agricultural handler exemption. HSC 25507.1(a) and 25508(a)(1)(A); 19 CCR 2670, 2671
<input type="checkbox"/> 1010015	Failure to submit employee training plan in CERS, when not meeting agricultural handler exemption. HSC 25507.1(a) and 25508(a)(1)(A)
<input type="checkbox"/> 1010016	HMBP not established or submitted in CERS, when not meeting the remote site exemption. HSC 25507.2 and 25508(a)(1)(A)
<input type="checkbox"/> 1020001	Employee training and/or plan for safety procedures in the event of a release or threatened release of a hazardous material not adequate, not established or not submitted in CERS. HSC 25505(a)(4) and 25508(a)(1)(A); 19 CCR 2659(a)
<input type="checkbox"/> 1020002	Initial &/or annual employee training not conducted in safety procedures for a hazardous material release or threatened release &/or employee training records not available or not maintained for 3 years. HSC 25505(a)(4); 19 CCR 2659(b)
<input type="checkbox"/> 1040001	Hazardous materials release or threatened release not immediately reported to the CUPA and OES upon discovery. HSC 25510(a); 19 CCR 2631(a)
<input type="checkbox"/> HMD1001	Unified Program Facility permit not obtained for hazardous materials. SDCC 68.905; 68.906, 68.907
<input type="checkbox"/> HMD1005	Emergency contact not provided or current in CERS. HSC 25508.1(f); SDCC 68.904(b)
<input type="checkbox"/> HMD1007	Highly toxic gas (TLV<10 ppm) not disclosed in CERS. SDCC 68.1113(a)
<input type="checkbox"/> HMD1008	Annual carcinogen/reproductive toxin list not submitted in CERS. SDCC 68.1113(b)
<input type="checkbox"/> 1010017	HMBP not readily available to facility personnel or the CUPA. HSC 25505(c)

HAZARDOUS WASTE REQUIREMENTS FOR SQGS ONLY

#	VIOLATION DESCRIPTION
<input type="checkbox"/> HMD0226	Did not accumulate waste in a container or tank. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(2)
<input type="checkbox"/> 3030007	Failed to properly label/date hazardous waste container &/or tank. 22 CCR 66262.34(f)
<input type="checkbox"/> 3030010	Accumulated waste too long (>180 or 270 days) or (>90 days). HSC 25201(a), 25123.3(h)(1); 22 CCR 66262.34(d); 40 CFR 262.34(e) and/or (f)
<input type="checkbox"/> 3030013	Failed to accumulate hazardous waste in a container that is in good condition. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(2), 265.171
<input type="checkbox"/> 3030015	Failed to accumulate or store hazardous waste in a lined &/or compatible container. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(2), 265.172
<input type="checkbox"/> 3030017	Failed to properly close hazardous waste container(s). 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(2), 265.173
<input type="checkbox"/> 3030019	Failed to inspect hazardous waste storage area at least weekly. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(2), 265.174
<input type="checkbox"/> 3030022	Failed to properly separate incompatible waste. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(2), 265.177
<input type="checkbox"/> 3030030	Failed to maintain &/or operate facility to minimize the possibility of a fire, explosion, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(4), 265.31
<input type="checkbox"/> 3030036	Failed to maintain adequate aisle space. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(4), 265.35
<input type="checkbox"/> 3010022	Failed to post, next to the telephone, emergency information containing the location of emergency equipment, contact names and phone numbers. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(5)(i)
<input type="checkbox"/> 3020001	Failure to ensure employees are thoroughly familiar with proper waste handling and emergency procedures during normal facility operations and emergencies. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(5)(iii)
<input type="checkbox"/> 3030032	Failed to maintain the following emergency response equipment or equivalent: 1) An internal communication or alarm system; 2) A communication device, such as a telephone; 3) Portable fire extinguishers, fire/spill control equipment and decontamination equipment; and 4) Water at adequate volume and pressure. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(4), 265.32
<input type="checkbox"/> 3030039	Failed to have an emergency coordinator on the premises or on call, and available during an emergency. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(5)(i)
<input type="checkbox"/> HMD0412	Failed to implement and/or coordinate emergency response measures during an emergency, spill/release. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(5)(iv)

HAZARDOUS WASTE TANK SYSTEMS FOR SQGS ONLY

#	VIOLATION DESCRIPTION
<input type="checkbox"/> 3030024	Failed to operate uncovered tank to ensure at least 2 ft. of freeboard to prevent overtopping, unless the tank is equipped with a containment structure, a drainage control system, or a diversion structure with a capacity that equals or exceeds the volume of the top 2 ft. of the tank. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(3), 265.201(b)(c)

COUNTY OF SAN DIEGO

COMPLIANCE INSPECTION REPORT

Hazardous Materials and Hazardous Waste (continued)

- 3030025 Failed to provide an overfill protection device on continuously fed hazardous waste tank(s). 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(3), 265.201(b)(4)
- 3030027 Failed to conduct daily tank inspection of discharge control system, monitoring equipment and waste level. 22 CCR 66262.34(d)(2); 40 CFR 265.201(c)(1-3), 262.34(d)(3)
- 3030028 Failed to conduct weekly hazardous waste tank inspection(s) to detect signs of leakage and ensure that the construction materials, fixtures and surrounding areas of the tank are in good condition. 22 CCR 66262.34(d)(2); 40 CFR 265.201(c)(4 & 5), 262.34(d)(3)
- 3050007 Failed to properly remove all waste upon closure, decontaminate, and document the closure of a hazardous waste tank system. 22 CCR 67383.3; 40 CFR 262.34(d)(3), 265.201(f)
- HMD1612 Hazardous waste improperly stored in a tank system causing leaks, corrosion, or failure. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(3), 265.201(b)
- HMD1614 Failed to pre-notify the CUPA in writing prior to closing a hazardous waste tank system. 22 CCR 67383.3(a)(1)
- HMD1615 Failed to properly accumulate ignitable or reactive waste in a tank system. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(3), 265.201(g)

HAZARDOUS WASTE REQUIREMENTS FOR SQGS AND LQGS

RECORD KEEPING/OPERATIONAL REQUIREMENTS

- | # | <u>VIOLATION DESCRIPTION</u> |
|----------------------------------|--|
| <input type="checkbox"/> HMD0131 | Unified Program Facility Permit not obtained &/or maintained for the generation of hazardous waste. SDCC 68.905 |
| <input type="checkbox"/> HMD0150 | Failed to submit complete and accurate Facility Information in CERS. 27 CCR 15188(b-c); SDCC 68.904(b) |
| <input type="checkbox"/> 3030053 | Failed to maintain waste analysis records, analytical records &/or waste determination results for at least 3 years. 22 CCR 66262.40(c) |
| <input type="checkbox"/> 3010002 | Failed to obtain &/or maintain an active EPA ID Number. 22 CCR 66262.12(a) |
| <input type="checkbox"/> 3010008 | Failed to properly complete a uniform hazardous waste manifest. 22 CCR 66262.23(a) |
| <input type="checkbox"/> 3010009 | Failed to submit an Exception Report to DTSC for hazardous waste manifest. HSC 25123.3(h)(2); 22 CCR 66262.42(b), (c), &/or (d) |
| <input type="checkbox"/> 3010010 | Failed to maintain copies of Uniform Hazardous Waste Manifest, consolidated manifest, or Bills of Lading for 3 years. HSC 25160.2(b)(3), 25185(a)(4); 22 CCR 66262.40(a), 66262.23(a)(3) |
| <input type="checkbox"/> 3010011 | Failed to send copy of the uniform hazardous waste manifest to DTSC within 30 days of shipment. 22 CCR 66262.23(a)(4) |

Medical Waste Generators

Each violation checked below is for the section(s) of the California health and Safety Code (HSC), California Code of Regulation (CCR), or the San Diego County Code (SDCC) indicated in italics. All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form (HM-926) to document your return to compliance. Please call (858) 505-6880 or your Specialist if you have any questions. UPF = Unified Program Facility; MW = Medical Waste; USPS = United States Postal Service; DOT = Department of Transportation

MEDICAL WASTE GENERATORS

STORAGE AND LABELING

#	<u>VIOLATION DESCRIPTION</u>
<input type="checkbox"/> HMD4201	UPF Permit not obtained. HSC 117705; SDCC 68.905, 68.906, 68.1202
<input type="checkbox"/> HMD4216	Failed to submit or report in CERS chemical inventory information for hazardous waste and/or medical waste, and keep up to date. SDCC 68.904(a)(2)
<input type="checkbox"/> HMD4202	Medical waste (MW) not separated from other waste at the point of origin. HSC 118275
<input type="checkbox"/> HMD4203	Enclosure or designated accumulation area for MW containers not secured. HSC 118307, 118310
<input type="checkbox"/> HMD4204	MW designated accumulation area not posted with an approved, legible biohazardous waste "warning sign" in English & Spanish or in another language, in addition to English which can be read from a distance of at least 25 feet. HSC 118310
<input type="checkbox"/> HMD4205	Medical SOLID WASTE not secured to deny access to unauthorized persons. SDCC 68.1211
<input type="checkbox"/> HMD4206	Leak or spill of MW not properly decontaminated. HSC 118300
<input type="checkbox"/> HMD4207	Sharps not stored in approved container or labeled with the words "sharps waste" or with the international biohazard symbol and the word "BIOHAZARD". HSC 118285(a) & (d)
<input type="checkbox"/> HMD4208	Full sharps container not taped closed or tightly-lidded to preclude loss of contents. HSC 118285(b)
<input type="checkbox"/> HMD4209	Primary containers accumulating MW not labeled with an electronic tracking system label or a label with generator's name, address and phone number. SDCC 68.1205
<input type="checkbox"/> HMD4210	Medical waste not stored in approved and properly marked biohazard bags. HSC 118275(a)
<input type="checkbox"/> HMD4211	Biohazard bags not tied off to prevent leakage or expulsion of contents during storage and handling. HSC 118280(a)
<input type="checkbox"/> HMD4212	Biohazardous bags not containerized in rigid, leak resistant, and covered containers or bins when placed for storage, handling, or transport. HSC 118280(c)
<input type="checkbox"/> HMD4213	Waste container or bin not labeled with the words "Biohazardous Waste" or with the international biohazard symbol and the word "BIOHAZARD" on the lid and sides. HSC 118280(c)
<input type="checkbox"/> HMD4214	Reusable containers or bins for MW storage not thoroughly washed and decontaminated and maintained in a clean and sanitary manner. HSC 118295, 118305
<input type="checkbox"/> HMD4215	Frozen (0°C/32°F) biohazardous waste stored for not more than 90 days. HSC 118280(e)(2)
<input type="checkbox"/> HMD4306	Full sharps container stored not more than 30 days at >0°C. HSC 118285(c)
<input type="checkbox"/> HMD4307	Biohazard bag waste stored not more than 7 days at >0°C (for generators of 20 or more pounds a month). HSC 118280(e)(1)(A)
<input type="checkbox"/> HMD4308	Biohazard bag waste stored >30 days at >0°C (for generators of <20lbs/month). HSC 118280(e)(1)(B)
<input type="checkbox"/> HMD4219	MW interim storage area not marked with warning signs or international biohazard symbol legible from a distance of 5 feet. HSC 118307, 118310
<input type="checkbox"/> HMD4220	MW interim storage area not properly secured. HSC 118307

TREATMENT AND DISPOSAL

#	<u>VIOLATION DESCRIPTION</u>
<input type="checkbox"/> HMD4251	MW treated by unapproved method/procedure. HSC 118215
<input type="checkbox"/> HMD4252	Standard written operating procedures for steam sterilization not established. HSC 118215(a)(2)(A)
<input type="checkbox"/> HMD4253	Recording thermometer not calibrated annually. HSC 118215(a)(2)(B)
<input type="checkbox"/> HMD4254	No records of annual thermometer calibration checks onsite for at least the past 2 years. HSC 118215(a)(2)(B)
<input type="checkbox"/> HMD4255	Heat-sensitive tape or other approved method not used for each load treated onsite. HSC 118215(a)(2)(C)
<input type="checkbox"/> HMD4256	Monthly biological indicator or other approved indicator not used to confirm proper sterilization. HSC 118215(a)(2)(D)
<input type="checkbox"/> HMD4257	Onsite steam sterilization did not reach 121° C (250° F) for at least 30 minutes. HSC 118215(a)(2)(B)
<input type="checkbox"/> HMD4258	Treatment records or logs of dates, time, and temperature not maintained for at least 2 years. HSC 118215(a)(2)(E)
<input type="checkbox"/> HMD4259	Disposal of untreated MW to an unauthorized point. HSC 118340

TRANSPORTATION REQUIREMENTS

#	<u>VIOLATION DESCRIPTION</u>
<input type="checkbox"/> HMD4260	Transportation of MW without State Hauler Registration, USPS or requirements of the DOT "Materials of Trade Exceptions." HSC 118025
<input type="checkbox"/> HMD4311	Medical waste tracking documents or logs not in vehicle transporting medical waste. HSC 118040(a)
<input type="checkbox"/> HMD4313	Medical waste tracking documents or logs not complete. HSC 118040(b)

SMALL QUANTITY GENERATORS ONLY

(<200 POUNDS OF MEDICAL WASTE GENERATED PER MONTH)

#	<u>VIOLATION DESCRIPTION</u>
<input type="checkbox"/> HMD4301	Medical Waste Management Plan (MWMP) not submitted to HMD (initial/updates), if onsite treatment. HSC 117935
<input type="checkbox"/> HMD4302	Did not maintain and show proof of "onsite" medical waste treatment records for 3 years. HSC 117943

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

CONSENT TO CONDUCT INSPECTION GRANTED BY: Chip Justus

TITLE: Associate Director

INTRODUCTION:

CLOSURE INSPECTION

Today a Certified Unified Program Agency (CUPA) closure inspection was completed at Genewiz - 11011 N Torrey Pines Rd #140.

Consent granted by: Chip Justus, Associate Director. Also present during inspection: Mario Esparza, EHS Technician with OSI.

Facility walk-through completed of laboratory areas, no hazardous substances or medical wastes could be observed.

Final hazardous waste manifest on-site and reviewed.

Facility notified in the California Environmental Reporting System of closure: CERS ID 10500772

Per Chip Justus closure date for this facility is 10/25/2018.

Facility has re-located to 11099 N Torrey Pines Rd #270 and applied for a CUPA permit at this new location.

OK TO SUSPEND PERMIT AT THIS TIME FOR GENEWIZ AT THIS LOCATION.

Please complete the following by entering the chemical name in the chemical name column and then place a check ✓ in the quantity column that most closely estimates the amount on hand. If measured by volume, check the appropriate gallon column(s). If measured by weight, check the appropriate pound column(s). If the chemical is a trade secret, you should check the trade secret box. For example, if you have one pint of benzene you would write benzene in the chemical name column and place a check ✓ in the <1-gallon column.

(PLEASE NOTE: the symbol < means less than).

Medical Waste Management Plan

Facility Information

Unified Program Facility

Permit #: _____

Business

Name: Celula, Inc.

Date: 5 /28 /2014

Type of Business: Biotechnology Research And Development

Address: 11011 Torreyana Road Suite 200 San Diego CA 92121
Street No. Street Name City State Zip Code

Person Responsible for implementing the Medical Waste Management Plan

Name: Mark Mccutchen

Phone: (858)875 X 8817

Title: Chief Financial Officer

Types of wastes generated

Sharps - e.g., needles, blades, scalpels, or broken glass or syringes contaminated with biohazardous waste.

Estimated monthly amount 10 lbs

Blood or body fluids - liquid blood or blood products, or other regulated body fluids, or articles contaminated with liquid blood or body fluids.

Estimated monthly amount 10 lbs

Home-Generated Sharps

Estimated monthly amount _____ lbs

Pathology waste - recognizable human anatomical parts.

Estimated monthly amount _____ lbs

Laboratory wastes - specimens or microbiological cultures, stocks of infectious agents, live and attenuated vaccines, biologicals, and culture media.

Estimated monthly amount 40 lbs

Surgical specimens - human or animal parts or tissues removed surgically or by autopsy and are suspected to be contaminated by agents which are contagious to humans.

Estimated monthly amount _____ lbs

Liquid or semi-liquid biohazardous laboratory waste - treated on site by chemical disinfection* and discharged to sewer.

Estimated monthly amount _____ lbs

Isolation waste - waste contaminated with excretion, exudates or secretions from humans or animals who are isolated due to highly communicable diseases.

Estimated monthly amount _____ lbs

Waste contaminated with fixatives or chemotherapeutic agents.

Estimated monthly amount _____ lbs

Contaminated animals - animal carcasses, body parts, tissues or fluids suspected to be contaminated by agents which are contagious to humans.

Estimated monthly amount _____ lbs

California-regulated pharmaceutical waste
Estimated monthly amount _____ lbs

Other (specify): _____
Estimated monthly amount _____ lbs

Estimate of **TOTAL** monthly medical waste generated: 60 lbs

ONSITE MEDICAL WASTE TREATMENT ONLY: Method of medical waste treatment *if performed onsite:*

Steam Autoclaving **Other state approved alternative technology** (specify below):

Onsite medical waste treatment records must be maintained for three years. HSC §117975

*Per HSC §118215(c), for liquid or semi-liquid biohazardous laboratory waste (§117635(a)), the treatment method must be recognized by the NIH, the CDC, or the American Biological Safety Association. If the chemical disinfection of the medical waste causes the waste to become a hazardous waste, the waste shall be managed in accordance with the requirements of HSC Chapter 6.5 (commencing with §25100) of Division 20.

RECORD COMMENT:
 Initial inspection conducted at this facility 11/4/2015. Facility expanded suite 200 on October 16, 2015, but has been operating out of suite 150 since February 5, 2015. Suite 150 currently does not have a permit, and so Crown Bioscience has been operating without a permit for handling hazardous materials, generating hazardous waste, and generating medical biohazardous waste.

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). The following statements describe significant violations. This notice requires a formal written response and corrective action within the times specified.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

CONSENT TO CONDUCT INSPECTION GRANTED BY: Jayant Thatte, Ph.D TITLE: Director of Operations

INTRODUCTION:

Today I conducted an initial inspection at this facility to determine compliance in the handling, storing, and disposal of hazardous substances and medical waste. Consent for today's inspection and to take photos during the inspection was granted by Jayant Thatte, Director of Operations. Andrew Calinisan, Lab Manager, also accompanied us on the facility walk-through. Photos have been attached to this report.

Per Jayant Thatte, Crown Bioscience Inc began operating out of 11011 Torreyana Road Suite 150, as of February 5, 2015. At the time of this inspection, Crown Bioscience does not have a Unified Program Facility Permit with the County of San Diego- Hazardous Materials Division. As of October 16, 2015, Crown Bioscience has expanded to Suite 200 from Celula Inc, and is operating out of Suite 200. Suite 150 is currently under renovation to include a vivarium.

The facility handles reportable amounts of hazardous materials and they are subject to hazardous materials business plan requirements. At the time of this inspection, the facility is a small quantity generator of hazardous waste and they are a large quantity generator of medical waste.

VIOLATION # 1

HMD1001 Unified Program Facility permit not obtained for hazardous materials. SDCC 68.905

Classification: Class I

Observations:

This facility has the capacity to store reportable amounts of hazardous materials or hazardous waste (55 gal, 500 lbs., or 200 cuft) and does not have a valid Unified Program Facility Permit from the Hazardous Materials Division (HMD) as required by SDCC .

Observed during today's inspection were the following hazardous materials in reportable threshold quantities:

- 4 x 230L Liquid Nitrogen Tanks (Total: 243 gallons)
- 3 x 50 pound Carbon Dioxide cylinders (Total: 1,311 cubic feet)

Corrective Action Due By: 11/14/2015

Within 10 days complete a submittal of Facility information in the California Environmental Reporting System (CERS) to begin the permit process for a Unified Program Facility Permit. For a new permit, begin by submitting a CERS ID form found on our CERS information page at http://www.sandiegocounty.gov/content/sdc/deh/hazmat/hmd_cers.html within 10 calendar days.

Pay all applicable Unified Program Facility Permit fees and penalties within ten (10) calendar days of receipt of an invoice from the County of San Diego, Hazardous Materials Division.

SUPPLEMENTAL NOTICE OF VIOLATION

VIOLATION # 2

3010001 Unified Program Facility (UPF) permit not obtained for the generation of hazardous waste. HSC 25404.1; SDCC 68.905

Classification: Class I

Observations:

The following hazardous wastes were observed during today's facility walk-through:

- RCRA Pharmaceutical waste
- 10% Formalin/spent solvent waste

(See Photos 1-4)

Corrective Action Due By: 11/14/2015

Within 10 days complete a submittal of Facility information in the California Environmental Reporting System (CERS) to begin the permit process for a Unified Program Facility Permit. For a new permit, begin by submitting a CERS ID form found on our CERS information page at http://www.sandiegocounty.gov/content/sdc/deh/hazmat/hmd_cers.html within 10 calendar days.

Pay all applicable Unified Program Facility Permit fees and penalties within ten (10) calendar days of receipt of an invoice from the County of San Diego, Hazardous Materials Division.

VIOLATION # 3

HMD4201 UPF Permit not obtained. HSC 117705; SDCC 68.905

Classification: Class I

Observations:

During today's facility walk-through, it was observed that the facility generates medical/biohazardous wastes.

The following medical and biohazardous waste streams were observed:

- Biohazardous red bag waste
- Biohazardous waste sharps
- Liquid Biohazardous Waste

Corrective Action Due By: 11/14/2015

Within 10 days complete a submittal of Facility information in the California Environmental Reporting System (CERS) to begin the permit process for a Unified Program Facility Permit. For a new permit, begin by submitting a CERS ID form found on our CERS information page at http://www.sandiegocounty.gov/content/sdc/deh/hazmat/hmd_cers.html within 10 calendar days.

Pay all applicable Unified Program Facility Permit fees and penalties within ten (10) calendar days of receipt of an invoice from the County of San Diego, Hazardous Materials Division.

Specialist should verify the identification of facility representative using a standard form of ID (e.g., CDL#, CA ID# or DOB).

SUPPLEMENTAL NOTICE OF VIOLATION

INSPECTION DATE: 11/04/2015 PAGE 3 OF 11
RECORD ID #: DEH2014-HUPFP-001150

You must submit a written response within 30 days (or as specified) addressing all violations noted. The written response must demonstrate all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. The County may initiate formal enforcement action including the imposition of substantial penalties for any significant violations addressed in this notice. Any violations that are not promptly corrected will result in liability for additional days in violation and additional penalties. Any failure to provide the information requested will also be a factor in determining penalties. For these purposes, "significant violations" include violations that represent a significant threat to human health or safety or the environment, chronic violations, violations committed by a recalcitrant violator and Class I hazardous waste violations (CCR 66260.10 and H&SC 25110.8.5).

 INSPECTION CONTACT: Jayant Thatte, Ph.D
 TITLE: Director of Operations
 PHONE: (858) 622-2937
 E-MAIL: jthatte@crownbio.com

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

TITLE: Director of Operations

VIOLATION # 4

1010001 HMBP not established/ implemented. HSC 25505(a) and 25507(a)

Classification: Class II

Observations:

This facility has the capacity to store reportable amounts of hazardous materials or hazardous waste (>= 55 gal, 500 lbs., or 200 cuft) and is thus required to prepare a hazardous materials business plan (HMBP). HMBPs consist of three sections to be completed online via the California Environmental Reporting System (CERS) at cers.calepa.ca.gov. This facility has not established or submitted an HMBP as required.

Corrective Action Due By: 12/04/2015

This violation must be corrected online by logging into the facility account in CERS, completing the first three sections (facility information, hazardous materials/waste inventory, and emergency response/training plans) and submitting them electronically. Once accepted, this must be updated and recertified at least every 12 months or within 30 days of changes thereafter. For assistance, visit our CERS Information webpage for guides and videos or call our CERS help line at (858) 505-6990 for one-on-one guidance.

VIOLATION # 5

1010002 HMBP not submitted to the CUPA in CERS. HSC 25508(a)(1)(A); HSC 25404(e)(4); 27 CCR 15188(a), (d)

Classification: Class II

Observations:

This facility has the capacity to store reportable amounts of hazardous materials or hazardous waste (>= 55 gal, 500 lbs., or 200 cuft) and is required to submit a hazardous materials business plan (HMBP) through the California Environmental Reporting System (CERS). There is no record of an HMBP being submitted in CERS to date.

Corrective Action Due By: 12/04/2015

Within 30 days, log into your account in CERS and submit a complete HMBP including: facility information, hazardous materials/waste inventory, and emergency response/training plans. Once accepted, your HMBP must be updated and recertified at least every 12 months or within 30 days of changes. For help, visit our CERS Information webpage for instructions/videos or call our CERS help line at (858) 505-6990 for one-on-one guidance.

COUNTY OF SAN DIEGO
SUPPLEMENTAL COMPLIANCE
INSPECTION REPORT

INSPECTION DATE: 11/04/2015 PAGE 5 OF 11
RECORD ID #: DEH2014-HUPFP-001150

VIOLATION # 6

HMD4209 Primary containers accumulating MW not labeled with generator's name, address, and phone number. SDCC 68.1205

Classification: Class II

Observations:

During today's facility walk-through, the sharps waste containers, and the biohazardous red bags that were accumulating waste did not have a generator's label with the generator's name, address, and phone number.

Corrective Action Due By: 12/04/2015

Immediately label all primary medical waste containers with the generator's name, address, and phone number. Within 30 days, submit documentation that the violation was corrected to HMD.

VIOLATION # 7

HMD4351 MWMP not submitted to HMD (initial/updates). HSC 117960, 117970

Classification: Class II

Observations:

At the time of this inspection, the facility was observed to be a large quantity generator of medical/biohazardous waste. A medical waste management plan was not observed onsite or submitted to HMD.

Corrective Action Due By: 12/04/2015

Within 30 days, complete a medical waste management plan and upload and submit the plan to HMD through CERS.

VIOLATION # 8

3030007 Failed to properly label/date hazardous waste container and/or tank. 22 CCR 66262.34(f)

Classification: Minor

Observations:

Observed a RCRA pharmaceutical waste container that was not properly labeled as hazardous waste. The container(s) and/or tank was missing a hazardous waste label. Hazardous waste containers must be labeled with the following: The words "Hazardous Waste", the name and address of the generator, the composition and physical state of the waste, the hazardous properties of the waste, and the accumulation start date.

(See photos 1-2)

Corrective Action Due By: 12/04/2015

Immediately begin labeling the container(s) and/or portable tank(s) with the required labeling. Within 30 days, submit documentation to the HMD that this violation was corrected.

INSPECTION DATE: 11/04/2015 PAGE 11 OF 11
 RECORD ID #: DEH2014-HUPFP-001150

Medical Waste Generators

Each violation checked below is for the section(s) of the California health and Safety Code (HSC), California Code of Regulation (CCR), or the San Diego County Code (SDCC) indicated in italics. All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form (HM-926) to document your return to compliance. Please call (858) 505-6880 or your Specialist if you have any questions. UPF = Unified Program Facility; MW = Medical Waste; USPS = United States Postal Service; DOT = Department of Transportation

STORAGE AND LABELING

- | # | HMD | VIOLATION DESCRIPTION |
|---|--|---|
| 3 | <input checked="" type="checkbox"/> 4201 | UPF Permit not obtained. HSC 117705; SDCC 68.905 |
| | <input type="checkbox"/> 4202 | Medical waste (MW) not separated from other waste at the point of origin. HSC 118275 |
| | <input type="checkbox"/> 4203 | Enclosure or designated accumulation area for MW containers not secured. HSC 118307, 118310 |
| | <input type="checkbox"/> 4204 | MW designated accumulation area not posted with an approved, legible biohazardous waste "warning sign" in English & Spanish which can be read from 25 ft. HSC 118310 |
| | <input type="checkbox"/> 4205 | Medical SOLID WASTE not secured to deny access to unauthorized persons. SDCC 68.1211 |
| | <input type="checkbox"/> 4206 | Spill of MW not properly cleaned up. HSC 118300 |
| | <input type="checkbox"/> 4207 | Sharps not stored in approved and properly marked sharps container. HSC 118285(a) & (d) |
| | <input type="checkbox"/> 4208 | Full sharps container not taped closed or tightly-lidded to preclude loss of contents. HSC 118285(b) |
| 6 | <input checked="" type="checkbox"/> 4209 | Primary containers accumulating MW not labeled with generator's name, address, and phone number. SDCC 68.1205 |
| | <input type="checkbox"/> 4210 | Medical waste not stored in approved and properly marked biohazard bags. HSC 118275(a) |
| | <input type="checkbox"/> 4211 | Biohazard bags not tied off to prevent leakage/expulsion of contents during handling and storage. HSC 118280(a) |
| | <input type="checkbox"/> 4212 | Biohazard bags not containerized in rigid, leak resistant, and covered containers or bins when placed for storage, handling, or transport. HSC 118280(b) |
| | <input type="checkbox"/> 4213 | Waste container/bin not labeled with the words "Biohazardous Waste" or with the international biohazard symbol and the word "BIOHAZARD" on the lid and sides. HSC 118280(c) |
| | <input type="checkbox"/> 4214 | Reusable containers/bins for MW storage not kept clean and sanitary. HSC 118295, 118305 |

| | <input type="checkbox"/> 4308 | Biohazard bag waste stored >30 days at >0°C (for generators of <20lbs/month). HSC 118280(e)(1)(B) |
| | <input type="checkbox"/> 4219 | MW interim storage area not marked with warning sign or biohazard symbol legible from 5 ft. HSC 118307, 118310 |
| | <input type="checkbox"/> 4220 | MW interim storage area not properly secured. HSC 118307 |

TREATMENT AND DISPOSAL

- | | |
|-------------------------------|--|
| <input type="checkbox"/> 4251 | MW treated by unapproved method/procedure. HSC 118215 |
| <input type="checkbox"/> 4252 | Standardized written operating procedures for steam sterilization not available. HSC 118215(a)(2)(A) |
| <input type="checkbox"/> 4253 | Recording thermometer not calibrated annually. HSC 118215(a)(2)(B) |
| <input type="checkbox"/> 4254 | No records of annual thermometer calibration checks onsite for at least the past 2 years. HSC 118215(a)(2)(B) |
| <input type="checkbox"/> 4255 | Heat-sensitive tape/other approved method not used for each load treated onsite. HSC 118215(a)(2)(C) |
| <input type="checkbox"/> 4256 | Monthly biological indicator or other approved method not used to confirm proper disinfection. HSC 118215(a)(2)(D) |
| <input type="checkbox"/> 4257 | Onsite steam sterilization did not reach 121°C/250°F for 30 minutes. HSC 118215(a)(2)(B) |
| <input type="checkbox"/> 4258 | Treatment records/logs of dates, time, and temperature not available for 2 years. HSC 118215(a)(2)(E) |
| <input type="checkbox"/> 4259 | Disposal of untreated MW to an unauthorized point. HSC 118340 |

TRANSPORTATION REQUIREMENTS

- | # | HMD | VIOLATION DESCRIPTION |
|---|-------------------------------|---|
| | <input type="checkbox"/> 4260 | Transportation of MW without State Hauler Registration, USPS or requirements of the DOT "Materials of Trade Exceptions." HSC 118025 |
| | <input type="checkbox"/> 4311 | Medical waste tracking documents/logs not in vehicle transporting medical waste. HSC 118040 |

SMALL QUANTITY GENERATORS ONLY

(<200 pounds of medical waste generated per month)

- | | |
|-------------------------------|---|
| <input type="checkbox"/> 4301 | Medical Waste Management Plan (MWMP) not submitted to HMD (initial/updates), if onsite treatment. HSC 117935 |
| <input type="checkbox"/> 4302 | Did not maintain and show proof of "onsite" medical waste treatment records for 3 years. HSC 117943 |
| <input type="checkbox"/> 4303 | Did not retain on file disposal receipts, tracking/shipping documents for medical waste shipped offsite for 3 years. HSC 117945 |
| <input type="checkbox"/> 4309 | MWMP or equivalent information not onsite (only for SQG doing onsite treatment or comply with pharmaceutical waste hauling exemption). HSC 117935, 118032 |

LARGE QUANTITY GENERATORS ONLY

(≥ 200 pounds of medical waste generated per month)

- | | | |
|---|--|--|
| 7 | <input checked="" type="checkbox"/> 4351 | MWMP not submitted to HMD (initial/updates). HSC 117960, 117970 |
| | <input type="checkbox"/> 4352 | Records of medical waste treatment not available for 2 years. HSC 117975, 118215(a)(2)(E) |
| | <input type="checkbox"/> 4353 | Did not make available disposal receipts, tracking/shipping documents for at least 2 years for medical waste shipped offsite. HSC 117975 |

CHEMOTHERAPY, PATHOLOGY, PHARMACEUTICAL HAZARDOUS & UNIVERSAL WASTES

- | | |
|----------------------------------|--|
| <input type="checkbox"/> 4401 | Trace Chemo waste not segregated from other MW. HSC 118275(a)(4) |
| <input type="checkbox"/> 4402 | Trace Chemo waste container not labeled "Chemotherapy Waste" or "CHEMO" on the lid and the sides. HSC 118275(a)(4) |
| <input type="checkbox"/> 4403 | Illegal disposal of chemo waste. HSC 118340 |
| <input type="checkbox"/> 4411 | Pathology waste not segregated from other MW. HSC 118275(a)(5) |
| <input type="checkbox"/> 4412 | Pathology waste container not labeled "Pathology Waste" or "PATH" on the lid and the sides. HSC 118275(a)(5) |
| <input type="checkbox"/> 4413 | Illegal disposal of pathology waste. HSC 118340 |
| <input type="checkbox"/> 4421 | Pharm waste not segregated from other MW. HSC 118275(a)(6) |
| <input type="checkbox"/> 4422 | Pharm waste not labeled "Incineration Only or HIGH HEAT" on the lid and the sides. HSC 118275(a)(6) |
| <input type="checkbox"/> 4423 | Pharm waste stored >90 days when container full, or stored longer than one year (maximum allowable time). HSC 118280(f) |
| <input type="checkbox"/> 4432 | Illegal disposal of pharm waste. HSC 118340, 118222(b) |
| <input type="checkbox"/> 4441 | Disposal of photo/hazwaste to an unauthorized point. HSC 25189.5 |
| <input type="checkbox"/> 3030046 | Failed to keep records of offsite universal waste shipment(s) available for inspection for 3 years. HSC 25185(a)(4); 22 CCR 66273.39(c),(d)(2) |
| <input type="checkbox"/> 3050003 | Disposed of universal waste to an unauthorized point. HSC 25189.5(a); 25189(c),(d); 25189.2(c); 22 CCR 66273.31(a) |

LOG MW ONSITE TREATMENT FACILITY

(≥ 200 pounds of medical waste generated per month)

- | | |
|-------------------------------|--|
| <input type="checkbox"/> 4501 | Onsite MW treatment permit not obtained/renewed. HSC 117950, 118130, 65620, 65623 |
| <input type="checkbox"/> 4502 | Current copy of the MW treatment permit not available. HSC 65621(f), 65623, 118165, 118180 |
| <input type="checkbox"/> 4503 | Condition(s) of the MW treatment permit violated. HSC 65623 |

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

Re: Cancel Unified Program Facility Permit

Dear Regulator;

Celula, Inc. has terminated laboratory operations 11011 Torreyana Road, Suite 200, San Diego, CA 92121. No hazardous or biohazardous wastes or hazardous or biohazardous materials remain on site. Please Inactivate UFPF #37-000-001150 (CERS #10503748).

Please contact me at (858) 875-8817 or via email at mark@celula-inc.com to schedule a site inspection appointment for this facility.

Thank you.

Sincerely,
Celula, Inc.

Medical Waste Management Plan

The San Diego County Department of Environmental Health, Hazardous Materials Division (HMD) is the local agency designated by the California Department of Public Health to implement the Medical Waste Management Act. This law governs the generation, handling, storage, transportation, treatment and disposal of medical waste to protect the public and the environment from potential infectious exposure to disease-causing agents.

The Medical Waste Management Plan (MWMP) is a document that describes the types and amount of medical waste generated at a specific location, and indicates how wastes are managed to ensure proper treatment and disposal. All Large Quantity Generators (LQGs) generating **≥200 pounds** of medical waste per month and Small Quantity Generators (SQGs) generating **<200 pounds** of medical waste per month that also treat their medical waste onsite, are required to submit their MWMP to the local enforcement agency. [Authority cited California Health and Safety Code § 117600 et seq.]

SQGs of medical waste that do not treat their medical waste onsite or do not transport waste under the Pharmaceutical Waste Hauling Exemptions, are not required to submit this form to the local enforcement agency; however are required for maintaining a document stating how they contain, store, treat, and dispose of any medical waste generated on file at their office. Completing a MWMP and keeping it at their office can satisfy this requirement. All uses of the Medical Waste Self-Haul and Pharmaceutical Waste Hauling Exemptions require recording and tracking documentation.

Attached is a blank MWMP form for your use. Please **complete, sign, and upload, as required above**, your MWMP to the "Locally-Required Documentation" of the "Hazardous Materials Inventory" section of your California Environmental Reporting System (CERS) facility. Retain a copy for your records and inspection review. If there are changes in any of the information on your MWMP, submit a revised form in CERS within 30 days of changes. Annual submittal of the MWMP is not required.

Additional information about CERS can be found at the following website:
http://www.sandiegocounty.gov/content/sdc/deh/hazmat/hmd_cers.html

If you have any questions, please contact your area inspector or the Hazardous Materials Division Duty Desk at (858) 505-6880.

"Environmental and public health through leadership, partnership and science"

MEDICAL WASTE – DEFINITION OF TERMS

MEDICAL WASTE means biohazardous, pathology, pharmaceutical, or trace chemotherapy waste not regulated by the federal Resource Conservation and Recovery Act; sharps and trace chemotherapy wastes generated in a health care setting in the diagnosis, treatment, immunization, or care of humans or animals; waste generated in autopsy or necropsy; waste generated during preparation of a body for final disposition such as cremation or interment; waste generated in research pertaining to the production or testing of microbiologicals; waste generated in research using human or animal pathogens; sharps and laboratory waste that poses a potential risk of infection to humans generated in the inoculation of animals in commercial farming operations; waste generated from the consolidation of home-generated sharps; and waste generated in the cleanup of trauma scenes.

BIOHAZARDOUS WASTE means all of the following (A-D):

(A) (i) Regulated medical waste, clinical waste, or biomedical waste that is a waste or reusable material derived from the medical treatment of a human or from an animal that is suspected by the attending veterinarian of being infected with a pathogen that is also infectious to humans, which includes diagnosis and immunization; or from biomedical research, which includes the production and testing of biological products.

(ii) Regulated medical waste or clinical waste or biomedical waste suspected of containing a highly communicable disease.

(B) Laboratory waste such as human specimen cultures or animal specimen cultures that are infected with pathogens that are also infectious to humans; cultures and stocks of infectious agents from research; wastes from the production of bacteria, viruses, spores, discarded live and attenuated vaccines used in human health care or research, discarded animal vaccines, including Brucellosis and Contagious Ecthyma, as defined by the department; culture dishes, devices used to transfer, inoculate, and mix cultures; and wastes identified by Section 173.134 of Title 49 of the Code of Federal Regulations as Category B “once wasted” for laboratory wastes.

(C) Waste that, at the point of transport from the generator’s site or at the point of disposal contains recognizable fluid human blood, fluid human blood products, containers, or equipment containing human blood that is fluid, or blood from animals suspected by the attending veterinarian of being contaminated with infectious agents known to be contagious to humans.

(D) Waste containing discarded materials contaminated with excretion, exudate, or secretions from humans or animals that are required to be isolated by the infection control staff, the attending physician and surgeon, the attending veterinarian, or the local health officer, to protect others from highly communicable diseases or diseases of animals that are communicable to humans.

SHARPS CONTAINERS means a rigid puncture-resistant container used in patient care or research activities meeting the standards of, and receiving approval from the United States Food and Drug Administration as a medical device used for the collection of discarded medical needles or other sharps.

“BIOHAZARD BAG” means a disposable film bag that is impervious to moisture. The film bags that are used for transport shall be marked and certified by the manufacturer as having passed the tests prescribed for tear resistance in the American Society for Testing Materials (ASTM) D1922, “Standard Test Method for Propagation Tear Resistance of Plastic Film and Thin Sheeting by Pendulum Method” and for impact resistance in ASTM D 1709, “Standard Test Methods for Impact Resistance of Plastic Film by the Free-Falling Dart Method,” as those documents were published in January 1, 2014. The film bag shall meet an impact resistance of 165 grams and a tearing resistance of 480 grams in both parallel and perpendicular planes with respect to the length of the bag. The color of the bag shall be red; except when yellow bags are used to further segregate trace chemotherapy waste and white bags are used to further segregate pathology waste.

STORAGE AREA WARNING SIGN is: A sign posted at a designated accumulation area, visible for 25 feet, used to store medical waste which must read in English, “CAUTION—BIOHAZARDOUS WASTE STORAGE AREA—UNAUTHORIZED PERSONS KEEP OUT” and in Spanish, “CUIDADO-ZONA DE RESIDUOS—BIOLOGICOS PELIGROSOS—PROHIBIDA LA ENTRADA A PERSONAS NO AUTORIZADAS” or in another language determined to be appropriate. Intermediate storage areas shall be marked with the international biohazardous symbol or the signage noted above. These warning signs shall be readily legible from a distance of five feet.

PHARMACEUTICAL WASTE (a) means a pharmaceutical, as defined in Section 117747, including trace chemotherapy waste, that is a waste, as defined in Section 25124. (b) For purposes of this part, “pharmaceutical waste” does not include any pharmaceutical that meets either of the following criteria:

(1) The pharmaceutical is being sent out of the State of California to a reverse distributor, as defined in Section 4040.5 of the Business and Professions Code, that is licensed as a wholesaler of dangerous drugs by the California State Board of Pharmacy pursuant to Section 4161 of the Business and Professions Code.

(2) The pharmaceutical is being sent by a reverse distributor, as defined in Section 4040.5 of the Business and Professions Code, offsite for treatment and disposal in accordance with applicable laws, or to a reverse distributor that is licensed as a wholesaler of dangerous drugs by the California State Board of Pharmacy pursuant to Section 4160 of the Business and Professions Code and as a permitted transfer station if the reverse distributor is located within the State of California.

Type of Business Contract Research Organization	Date 26 July 2016
Street Address 11011 Torreyana Rd. Suite 200	City/ZIP San Diego / 92121
Person Responsible for implementing the Medical Waste Management Plan (MWMP)	
Name Shoana Sikorski	
Title Lab Supervisor	Phone 619-347-7218
Types of medical wastes (MW) generated	
<input checked="" type="checkbox"/> MW Sharps - e.g., needles, blades, scalpels, or broken glass or syringes contaminated with biohazardous waste. (human or animal) Estimated monthly amount <u>50</u> lbs	<input type="checkbox"/> Blood or blood products - liquid blood or blood products, or other regulated body fluids, or articles contaminated with liquid blood or body fluids. Estimated monthly amount _____ lbs
<input checked="" type="checkbox"/> Laboratory wastes – infectious specimens or microbiological cultures, stocks of infectious agents, live and attenuated vaccines, biologicals, and culture media. Estimated monthly amount <u>50</u> lbs	<input type="checkbox"/> Pathology waste – human or animal tissues suspected to be infectious to humans Estimated monthly amount _____ lbs
<input checked="" type="checkbox"/> Liquid or semi-liquid biohazardous laboratory waste - treated on site by chemical disinfection* and discharged to sewer. Estimated monthly amount <u>50</u> lbs	<input type="checkbox"/> Isolation waste - waste contaminated with excretion, exudates or secretions from humans or animals who are isolated due to highly communicable diseases. Estimated monthly amount _____ lbs
<input checked="" type="checkbox"/> Trace chemotherapeutic waste Estimated monthly amount <u>10</u> lbs	<input checked="" type="checkbox"/> Contaminated animals w/Highly communicable animal carcasses, body parts, tissues or fluids suspected to be contaminated by agents which are contagious. Estimated monthly amount <u>50</u> lbs
<input type="checkbox"/> California-regulated pharmaceutical waste (non-RCRA, non-radioactive) Estimated monthly amount _____ lbs	<input type="checkbox"/> Other (specify): _____ Estimated monthly amount _____ lbs
Estimate of <u>TOTAL</u> monthly medical waste for generator classification: <u>210</u> lbs	
Estimate of other monthly medical wastes (does not count towards generator class):	
<input type="checkbox"/> Home Generated MW Sharps Estimated Monthly Amount _____ lbs.	<input type="checkbox"/> Home Generated Pharmaceutical Waste Estimated monthly amount _____ lbs.
ONSITE MEDICAL WASTE TREATMENT ONLY: Method & capacity of medical waste treatment <i>if performed onsite</i> :	
<input type="checkbox"/> Steam Autoclaving <input type="checkbox"/> Other state approved alternative technology (specify below): _____	
Treatment records must be maintained for three years for small quantity generators, and maintained two years for large quantity generators. (HSC§117943; HSC§117975)	

*Per HSC §118215(c), for liquid or semi-liquid biohazardous laboratory waste (§117690(b)(1)(B)), the treatment method must be recognized by the NIH, the CDC, or the American Biological Safety Association. If the chemical disinfection of the medical waste causes the waste to become a hazardous waste, the waste shall be managed in accordance with the requirements of HSC Chapter 6.5 (commencing with §25100) of Division 20.

Medical Waste Management Plan

The following requirements apply to LQGs (HSC§117960), and SQGs that treat MW on-site, or use the Pharmaceutical Waste Hauling Exemption. (HSC§118032)

Emergency Action Plan

This plan is to be followed to ensure the proper disposal of medical waste, including controlled substances in compliance with DEA, approved incineration of pharmaceutical and trace chemotherapy in the event of a natural disaster, spill, treatment system break down, power failure, etc., and closure plan at termination (600 characters max. for WORD interactive form - use additional sheets if necessary). (LQG HSC§117960(h); SQG HSC§117935).

Registered hazardous waste hauler/common carrier used to remove untreated medical waste (if applicable)	
Primary Hauler Name Stericycle	Phone # (858) 684-3535
Street Address 9855 Distribution Ave. Ste 110	City/ZIP San Diego / 92121
Contact Person Daniel Montoya	Contact Phone # (858) 684-3535
Offsite treatment facility to which medical waste is transported (if applicable)	
Facility Name	Phone #
Street Address	City/ZIP
Contact Person	Contact Phone #
<u>Pharmaceutical Waste Categorization</u> If applicable, the steps taken to categorize the pharmaceutical wastes generated at the facility to ensure that the wastes are properly disposed of as follows: (1) Pharmaceutical wastes classified by the federal Drug Enforcement Administration (DEA) as "controlled substances" are disposed of in compliance with DEA requirements. (2) <u>The name and business address of the registered hazardous waste hauler used by the generator to have wastes that are not regulated pursuant to the federal Resource Conservation and Recovery Act of 1976 and nonradioactive pharmaceutical wastes regulated as medical waste safely removed for treatment in compliance with subdivision (b) of Section 118222 as waste requiring specific methods.</u> (LQG:HSC§117960(i); SQG:HSC§117935(i))	
<u>Closure Plan</u> A closure plan for the termination of treatment at the facility using, at a minimum, one of the methods of decontamination specified in subdivision (a) or (b) of Section 118295, thereby rendering the property to an acceptable sanitary condition following the completion of treatment services at the site. (LQG: HSC§117960(j); SQG: HSC§117935(j))

 TITLE: Research Associate III
 PHONE: (858) 717-4218
 E-MAIL: acalinisan@crownbio.com

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

CONSENT TO CONDUCT INSPECTION GRANTED BY: Andrew Calinisan

TITLE: Research Associate III

INTRODUCTION:

Today a Certified Unified Program Agency (CUPA) inspection was completed at Crown Bioscience Inc. to verify compliance with medical waste regulations. At the time of inspection this facility is a large quantity medical waste generator.

This facility conducts contract cancer research on-site.

INSPECTION REMARKS:

Observed during the walk-through were the following medical wastes:

- sharps waste
- red bag waste

Medical waste disposal documents were on-site and reviewed during inspection. Pick-ups are weekly at this location, per disposal documents.

Medical Waste Management Plan was uploaded in the California Environmental Reporting System (CERS).

Medical waste accumulation area was secured with appropriate sign posted.

Medical Waste Generators

INSPECTION DATE: 10/10/2016 PAGE 3 OF 3
 RECORD ID #: DEH2014-HUPFP-001150

FACILITY NAME: * Crown Bioscience San Diego
 ADDRESS: * 11011 TORREYANA RD 200 CITY/ZIP: * SAN DIEGO 92121-1104

Each violation checked below is for the section(s) of the California health and Safety Code (HSC), California Code of Regulation (CCR), or the San Diego County Code (SDCC) indicated in italics. All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form (HM-926) to document your return to compliance. Please call (858) 505-6880 or your Specialist if you have any questions. UPF = Unified Program Facility; MW = Medical Waste; USPS = United States Postal Service; DOT = Department of Transportation

STORAGE AND LABELING

- | # | HMD | VIOLATION DESCRIPTION |
|--------------------------|------|---|
| <input type="checkbox"/> | 4201 | UPF Permit not obtained. HSC 117705; SDCC 68.905, 68.1202 |
| <input type="checkbox"/> | 4202 | Medical waste (MW) not separated from other waste at the point of origin. HSC 118275 |
| <input type="checkbox"/> | 4203 | Enclosure or designated accumulation area for MW containers not secured. HSC 118307, 118310 |
| <input type="checkbox"/> | 4204 | MW designated accumulation area not posted with an approved, legible biohazardous waste "warning sign" in English & Spanish which can be read from 25 ft. HSC 118310 |
| <input type="checkbox"/> | 4205 | Medical SOLID WASTE not secured to deny access to unauthorized persons. SDCC 68.1211 |
| <input type="checkbox"/> | 4206 | Spill of MW not properly cleaned up. HSC 118300 |
| <input type="checkbox"/> | 4207 | Sharps not stored in approved and properly marked sharps container. HSC 118285(a) & (d) |
| <input type="checkbox"/> | 4208 | Full sharps container not taped closed or tightly-lidded to preclude loss of contents. HSC 118285(b) |
| <input type="checkbox"/> | 4209 | Primary containers accumulating MW not labeled with generator's name, address, and phone number. SDCC 68.1205 |
| <input type="checkbox"/> | 4210 | Medical waste not stored in approved and properly marked biohazard bags. HSC 118275(a) |
| <input type="checkbox"/> | 4211 | Biohazard bags not tied off to prevent leakage/expulsion of contents during handling and storage. HSC 118280(a) |
| <input type="checkbox"/> | 4212 | Biohazard bags not containerized in rigid, leak resistant, and covered containers or bins when placed for storage, handling, or transport. HSC 118280(b) |
| <input type="checkbox"/> | 4213 | Waste container/bin not labeled with the words "Biohazardous Waste" or with the international biohazard symbol and the word "BIOHAZARD" on the lid and sides. HSC 118280(c) |
| <input type="checkbox"/> | 4214 | Reusable containers/bins for MW storage not kept clean and sanitary. HSC 118295, 118305 |
| <input type="checkbox"/> | 4215 | Frozen (0°C/32°F) biohazardous waste stored >90 days. HSC 118280(e)(2) |
| <input type="checkbox"/> | 4306 | Full sharps container stored >30 days at >0°C. HSC 118285(c) |
| <input type="checkbox"/> | 4307 | Biohazard bag waste stored >7 days at >0°C (for generators of >20lbs/month). HSC 118280(e)(1)(A) |
| <input type="checkbox"/> | 4308 | Biohazard bag waste stored >30 days at >0°C (for generators of <20lbs/month). HSC 118280(e)(1)(B) |
| <input type="checkbox"/> | 4219 | MW interim storage area not marked with warning sign or biohazard symbol legible from 5 ft. HSC 118307, 118310 |
| <input type="checkbox"/> | 4220 | MW interim storage area not properly secured. HSC 118307 |

TREATMENT AND DISPOSAL

- | | | |
|--------------------------|------|--|
| <input type="checkbox"/> | 4251 | MW treated by unapproved method/procedure. HSC 118215 |
| <input type="checkbox"/> | 4252 | Standardized written operating procedures for steam sterilization not available. HSC 118215(a)(2)(A) |
| <input type="checkbox"/> | 4253 | Recording thermometer not calibrated annually. HSC 118215(a)(2)(B) |
| <input type="checkbox"/> | 4254 | No records of annual thermometer calibration checks onsite for at least the past 2 years. HSC 118215(a)(2)(B) |
| <input type="checkbox"/> | 4255 | Heat-sensitive tape/other approved method not used for each load treated onsite. HSC 118215(a)(2)(C) |
| <input type="checkbox"/> | 4256 | Monthly biological indicator or other approved method not used to confirm proper disinfection. HSC 118215(a)(2)(D) |
| <input type="checkbox"/> | 4257 | Onsite steam sterilization did not reach 121°C/250°F for 30 minutes. HSC 118215(a)(2)(B) |
| <input type="checkbox"/> | 4258 | Treatment records/logs of dates, time, and temperature not available for 2 years. HSC 118215(a)(2)(E) |
| <input type="checkbox"/> | 4259 | Disposal of untreated MW to an unauthorized point. HSC 118340 |

TRANSPORTATION REQUIREMENTS

- | # | HMD | VIOLATION DESCRIPTION |
|--------------------------|------|---|
| <input type="checkbox"/> | 4260 | Transportation of MW without State Hauler Registration, USPS or requirements of the DOT "Materials of Trade Exceptions." HSC 118025 |
| <input type="checkbox"/> | 4311 | Medical waste tracking documents/logs not in vehicle transporting medical waste. HSC 118040 |

SMALL QUANTITY GENERATORS ONLY

(<200 pounds of medical waste generated per month)

- | | | |
|--------------------------|------|---|
| <input type="checkbox"/> | 4301 | Medical Waste Management Plan (MWMP) not submitted to HMD (initial/updates), if onsite treatment. HSC 117935 |
| <input type="checkbox"/> | 4302 | Did not maintain and show proof of "onsite" medical waste treatment records for 3 years. HSC 117943 |
| <input type="checkbox"/> | 4303 | Did not retain on file disposal receipts, tracking/shipping documents for medical waste shipped offsite for 3 years. HSC 117945 |
| <input type="checkbox"/> | 4309 | MWMP or equivalent information not onsite (only for SQG doing onsite treatment or comply with pharmaceutical waste hauling exemption). HSC 117935, 118032 |

LARGE QUANTITY GENERATORS ONLY

(≥ 200 pounds of medical waste generated per month)

- | | | |
|--------------------------|------|--|
| <input type="checkbox"/> | 4351 | MWMP not submitted to HMD (initial/updates). HSC 117960, 117970 |
| <input type="checkbox"/> | 4352 | Records of medical waste treatment not available for 2 years. HSC 117975, 118215(a)(2)(E) |
| <input type="checkbox"/> | 4353 | Did not make available disposal receipts, tracking/shipping documents for at least 2 years for medical waste shipped offsite. HSC 117975 |

CHEMOTHERAPY, PATHOLOGY, PHARMACEUTICAL HAZARDOUS & UNIVERSAL WASTES

- | | | |
|--------------------------|---------|--|
| <input type="checkbox"/> | 4401 | Trace Chemo waste not segregated from other MW. HSC 118275(a)(4) |
| <input type="checkbox"/> | 4402 | Trace Chemo waste container not labeled "Chemotherapy Waste" or "CHEMO" on the lid and the sides. HSC 118275(a)(4) |
| <input type="checkbox"/> | 4403 | Illegal disposal of chemo waste. HSC 118340 |
| <input type="checkbox"/> | 4411 | Pathology waste not segregated from other MW. HSC 118275(a)(5) |
| <input type="checkbox"/> | 4412 | Pathology waste container not labeled "Pathology Waste" or "PATH" on the lid and the sides. HSC 118275(a)(5) |
| <input type="checkbox"/> | 4413 | Illegal disposal of pathology waste. HSC 118340 |
| <input type="checkbox"/> | 4421 | Pharm waste not segregated from other MW. HSC 118275(a)(6) |
| <input type="checkbox"/> | 4422 | Pharm waste not labeled "Incineration Only or HIGH HEAT" on the lid and the sides. HSC 118275(a)(6) |
| <input type="checkbox"/> | 4423 | Pharm waste stored >90 days when container full, or stored longer than one year (maximum allowable time). HSC 118280(f) |
| <input type="checkbox"/> | 4432 | Illegal disposal of pharm waste. HSC 118340, 118222(b) |
| <input type="checkbox"/> | 4441 | Disposal of photo/hazwaste to an unauthorized point. HSC 25189.5 |
| <input type="checkbox"/> | 3030046 | Failed to keep records of offsite universal waste shipment(s) available for inspection for 3 years. HSC 25185(a)(4); 22 CCR 66273.39(c),(d)(2) |
| <input type="checkbox"/> | 3050003 | Disposed of universal waste to an unauthorized point. HSC 25189.5(a); 25189(c),(d); 25189.2(c); 22 CCR 66273.31(a) |

LOG MW ONSITE TREATMENT FACILITY

(≥ 200 pounds of medical waste generated per month)

- | | | |
|--------------------------|------|--|
| <input type="checkbox"/> | 4501 | Onsite MW treatment permit not obtained/renewed. HSC 117950, 118130, 65620, 65623 |
| <input type="checkbox"/> | 4502 | Current copy of the MW treatment permit not available. HSC 65621(f), 65623, 118165, 118180 |
| <input type="checkbox"/> | 4503 | Condition(s) of the MW treatment permit violated. HSC 65623 |

County of San Diego

DEPARTMENT OF ENVIRONMENTAL HEALTH
HAZARDOUS MATERIALS DIVISION
P.O. BOX 129261, SAN DIEGO, CA 92112-9261

Medical Waste Management Plan

The San Diego County Department of Environmental Health, Hazardous Materials Division (HMD) is the local agency designated by the California Department of Public Health to implement the Medical Waste Management Act. This law governs the generation, handling, storage, transportation, treatment and disposal of medical waste to protect the public and the environment from potential infectious exposure to disease-causing agents.

The Medical Waste Management Plan (MWMP) is a document that describes the types and amount of medical waste generated at a specific location, and indicates how wastes are managed to ensure proper treatment and disposal. All Large Quantity Generators (LQGs) generating **≥200 pounds** of medical waste per month and Small Quantity Generators (SQGs) generating **<200 pounds** of medical waste per month that also treat their medical waste onsite, are required to submit their MWMP to the local enforcement agency. [Authority cited California Health and Safety Code § 117600 et seq.]

SQGs of medical waste that do not treat their medical waste onsite or do not transport waste under the Pharmaceutical Waste Hauling Exemptions, are not required to submit this form to the local enforcement agency; however are required for maintaining a document stating how they contain, store, treat, and dispose of any medical waste generated on file at their office. Completing a MWMP and keeping it at their office can satisfy this requirement. All uses of the Medical Waste Self-Haul and Pharmaceutical Waste Hauling Exemptions require recording and tracking documentation.

Attached is a blank MWMP form for your use. Please **complete, sign, and upload, as required above**, your MWMP to the "Locally-Required Documentation" of the "Hazardous Materials Inventory" section of your California Environmental Reporting System (CERS) facility. Retain a copy for your records and inspection review. If there are changes in any of the information on your MWMP, submit a revised form in CERS within 30 days of changes. Annual submittal of the MWMP is not required.

Additional information about CERS can be found at the following website:
http://www.sandiegocounty.gov/content/sdc/deh/hazmat/hmd_cers.html

If you have any questions, please contact your area inspector or the Hazardous Materials Division Duty Desk at (858) 505-6880.

"Environmental and public health through leadership, partnership and science"

MEDICAL WASTE – DEFINITION OF TERMS

MEDICAL WASTE means biohazardous, pathology, pharmaceutical, or trace chemotherapy waste not regulated by the federal Resource Conservation and Recovery Act; sharps and trace chemotherapy wastes generated in a health care setting in the diagnosis, treatment, immunization, or care of humans or animals; waste generated in autopsy or necropsy; waste generated during preparation of a body for final disposition such as cremation or interment; waste generated in research pertaining to the production or testing of microbiologicals; waste generated in research using human or animal pathogens; sharps and laboratory waste that poses a potential risk of infection to humans generated in the inoculation of animals in commercial farming operations; waste generated from the consolidation of home-generated sharps; and waste generated in the cleanup of trauma scenes.

BIOHAZARDOUS WASTE means all of the following (A-D):

(A) (i) Regulated medical waste, clinical waste, or biomedical waste that is a waste or reusable material derived from the medical treatment of a human or from an animal that is suspected by the attending veterinarian of being infected with a pathogen that is also infectious to humans, which includes diagnosis and immunization; or from biomedical research, which includes the production and testing of biological products.

(ii) Regulated medical waste or clinical waste or biomedical waste suspected of containing a highly communicable disease.

(B) Laboratory waste such as human specimen cultures or animal specimen cultures that are infected with pathogens that are also infectious to humans; cultures and stocks of infectious agents from research; wastes from the production of bacteria, viruses, spores, discarded live and attenuated vaccines used in human health care or research, discarded animal vaccines, including Brucellosis and Contagious Ecthyma, as defined by the department; culture dishes, devices used to transfer, inoculate, and mix cultures; and wastes identified by Section 173.134 of Title 49 of the Code of Federal Regulations as Category B “once wasted” for laboratory wastes.

(C) Waste that, at the point of transport from the generator’s site or at the point of disposal contains recognizable fluid human blood, fluid human blood products, containers, or equipment containing human blood that is fluid, or blood from animals suspected by the attending veterinarian of being contaminated with infectious agents known to be contagious to humans.

(D) Waste containing discarded materials contaminated with excretion, exudate, or secretions from humans or animals that are required to be isolated by the infection control staff, the attending physician and surgeon, the attending veterinarian, or the local health officer, to protect others from highly communicable diseases or diseases of animals that are communicable to humans.

SHARPS CONTAINERS means a rigid puncture-resistant container used in patient care or research activities meeting the standards of, and receiving approval from the United States Food and Drug Administration as a medical device used for the collection of discarded medical needles or other sharps.

“BIOHAZARD BAG” means a disposable film bag that is impervious to moisture. The film bags that are used for transport shall be marked and certified by the manufacturer as having passed the tests prescribed for tear resistance in the American Society for Testing Materials (ASTM) D1922, “Standard Test Method for Propagation Tear Resistance of Plastic Film and Thin Sheeting by Pendulum Method” and for impact resistance in ASTM D 1709, “Standard Test Methods for Impact Resistance of Plastic Film by the Free-Falling Dart Method,” as those documents were published in January 1, 2014. The film bag shall meet an impact resistance of 165 grams and a tearing resistance of 480 grams in both parallel and perpendicular planes with respect to the length of the bag. The color of the bag shall be red; except when yellow bags are used to further segregate trace chemotherapy waste and white bags are used to further segregate pathology waste.

STORAGE AREA WARNING SIGN is: A sign posted at a designated accumulation area, visible for 25 feet, used to store medical waste which must read in English, “CAUTION—BIOHAZARDOUS WASTE STORAGE AREA—UNAUTHORIZED PERSONS KEEP OUT” and in Spanish, “CUIDADO-ZONA DE RESIDUOS—BIOLOGICOS PELIGROSOS—PROHIBIDA LA ENTRADA A PERSONAS NO AUTORIZADAS” or in another language determined to be appropriate. Intermediate storage areas shall be marked with the international biohazardous symbol or the signage noted above. These warning signs shall be readily legible from a distance of five feet.

PHARMACEUTICAL WASTE (a) means a pharmaceutical, as defined in Section 117747, including trace chemotherapy waste, that is a waste, as defined in Section 25124. (b) For purposes of this part, “pharmaceutical waste” does not include any pharmaceutical that meets either of the following criteria:

(1) The pharmaceutical is being sent out of the State of California to a reverse distributor, as defined in Section 4040.5 of the Business and Professions Code, that is licensed as a wholesaler of dangerous drugs by the California State Board of Pharmacy pursuant to Section 4161 of the Business and Professions Code.

(2) The pharmaceutical is being sent by a reverse distributor, as defined in Section 4040.5 of the Business and Professions Code, offsite for treatment and disposal in accordance with applicable laws, or to a reverse distributor that is licensed as a wholesaler of dangerous drugs by the California State Board of Pharmacy pursuant to Section 4160 of the Business and Professions Code and as a permitted transfer station if the reverse distributor is located within the State of California.

Street Address 11011 Torreyana Rd. Suite 200	City/ZIP San Diego / 92121
Person Responsible for implementing the Medical Waste Management Plan (MWMP)	
Name Shoana Sikorski	
Title Lab Supervisor	Phone 619-347-7218
Types of medical wastes (MW) generated	
<input checked="" type="checkbox"/> MW Sharps - e.g., needles, blades, scalpels, or broken glass or syringes contaminated with biohazardous waste. (human or animal) Estimated monthly amount <u>50</u> lbs	<input type="checkbox"/> Blood or blood products - liquid blood or blood products, or other regulated body fluids, or articles contaminated with liquid blood or body fluids. Estimated monthly amount _____ lbs
<input checked="" type="checkbox"/> Laboratory wastes – infectious specimens or microbiological cultures, stocks of infectious agents, live and attenuated vaccines, biologicals, and culture media. Estimated monthly amount <u>50</u> lbs	<input type="checkbox"/> Pathology waste – human or animal tissues suspected to be infectious to humans Estimated monthly amount _____ lbs
<input checked="" type="checkbox"/> Liquid or semi-liquid biohazardous laboratory waste - treated on site by chemical disinfection* and discharged to sewer. Estimated monthly amount <u>50</u> lbs	<input type="checkbox"/> Isolation waste - waste contaminated with excretion, exudates or secretions from humans or animals who are isolated due to highly communicable diseases. Estimated monthly amount _____ lbs
<input checked="" type="checkbox"/> Trace chemotherapeutic waste Estimated monthly amount <u>10</u> lbs	<input checked="" type="checkbox"/> Contaminated animals w/Highly communicable animal carcasses, body parts, tissues or fluids suspected to be contaminated by agents which are contagious. Estimated monthly amount <u>50</u> lbs
<input type="checkbox"/> California-regulated pharmaceutical waste (non-RCRA, non-radioactive) Estimated monthly amount _____ lbs	<input type="checkbox"/> Other (specify): _____ Estimated monthly amount _____ lbs
Estimate of <u>TOTAL</u> monthly medical waste for generator classification: <u>210</u> lbs	
Estimate of other monthly medical wastes (does not count towards generator class):	
<input type="checkbox"/> Home Generated MW Sharps Estimated Monthly Amount _____ lbs.	<input type="checkbox"/> Home Generated Pharmaceutical Waste Estimated monthly amount _____ lbs.
ONSITE MEDICAL WASTE TREATMENT ONLY: Method & capacity of medical waste treatment <i>if performed onsite</i> :	
<input type="checkbox"/> Steam Autoclaving <input type="checkbox"/> Other state approved alternative technology (specify below): _____	
Treatment records must be maintained for three years for small quantity generators, and maintained two years for large quantity generators. (HSC§117943; HSC§117975)	

*Per HSC §118215(c), for liquid or semi-liquid biohazardous laboratory waste (§117690(b)(1)(B)), the treatment method must be recognized by the NIH, the CDC, or the American Biological Safety Association. If the chemical disinfection of the medical waste causes the waste to become a hazardous waste, the waste shall be managed in accordance with the requirements of HSC Chapter 6.5 (commencing with §25100) of Division 20.

Medical Waste Management Plan

The following requirements apply to LQGs (HSC§117960), and SQGs that treat MW on-site, or use the Pharmaceutical Waste Hauling Exemption. (HSC§118032)

Emergency Action Plan

This plan is to be followed to ensure the proper disposal of medical waste, including controlled substances in compliance with DEA, approved incineration of pharmaceutical and trace chemotherapy in the event of a natural disaster, spill, treatment system break down, power failure, etc., and closure plan at termination (600 characters max. for WORD interactive form - use additional sheets if necessary). (LQG HSC§117960(h); SQG HSC§117935).

Registered hazardous waste hauler/common carrier used to remove untreated medical waste (if applicable)	
Primary Hauler Name Stericycle	Phone # (858) 684-3535
Street Address 9855 Distribution Ave. Ste 110	City/ZIP San Diego / 92121
Contact Person Daniel Montoya	Contact Phone # (858) 684-3535
Offsite treatment facility to which medical waste is transported (if applicable)	
Facility Name	Phone #
Street Address	City/ZIP
Contact Person	Contact Phone #
<u>Pharmaceutical Waste Categorization</u> If applicable, the steps taken to categorize the pharmaceutical wastes generated at the facility to ensure that the wastes are properly disposed of as follows: (1) Pharmaceutical wastes classified by the federal Drug Enforcement Administration (DEA) as "controlled substances" are disposed of in compliance with DEA requirements. (2) <u>The name and business address of the registered hazardous waste hauler used by the generator to have wastes that are not regulated pursuant to the federal Resource Conservation and Recovery Act of 1976 and nonradioactive pharmaceutical wastes regulated as medical waste safely removed for treatment in compliance with subdivision (b) of Section 118222 as waste requiring specific methods.</u> (LQG:HSC§117960(i); SQG:HSC§117935(i))	
<u>Closure Plan</u> A closure plan for the termination of treatment at the facility using, at a minimum, one of the methods of decontamination specified in subdivision (a) or (b) of Section 118295, thereby rendering the property to an acceptable sanitary condition following the completion of treatment services at the site. (LQG: HSC§117960(j); SQG: HSC§117935(j))

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

CONSENT TO CONDUCT INSPECTION GRANTED BY: Shoana Sikorski

TITLE: Lab & Vivarium Supervisor

INTRODUCTION:

The Hazardous Materials Division (HMD) of the Department of Environmental Health serves as the Certified Unified Program Agency (CUPA) for the County of San Diego. As the local CUPA, Hazardous Materials Division implements the Unified Program, which includes programs pertaining to Hazardous Materials Business Plan, Hazardous Waste, Aboveground Petroleum Storage, and Underground Storage Tanks. In the San Diego County, Hazardous Materials Division also enforces the Medical Waste Management Act.

Today a routine Certified Unified Program Agency (CUPA) inspection was completed at Crown Bioscience San Diego to verify compliance with hazardous waste, hazardous materials, and medical waste regulations. At the time of inspection this facility is a small quantity hazardous waste generator, stores on-site reportable amounts of hazardous materials, and is a large quantity medical waste generator. At the time of inspection this facility is subject to hazardous materials business plan requirements.

Observed on-site during inspection within laboratory areas and waste storage areas:

- red bag waste (throughout lab areas)
- sharps waste (throughout lab areas)
- liquid bio-hazardous waste (bleached & sewered)
- liquid nitrogen (11 x 240 Liters)
- Carbon Dioxide (5 x 50 pounds)
- Oxygen (10 x 24 cubic feet)
- Hazardous waste solid - RCRA pharmaceutical waste (6 x 15 gallon containers)

COUNTY OF SAN DIEGO

SUPPLEMENTAL COMPLIANCE INSPECTION REPORT

INSPECTION DATE: 09/19/2017 PAGE 2 OF 11
RECORD ID #: DEH2014-HUPFP-001150

VIOLATION # 1

1010008 HMBP not certified annually as complete and accurate in CERS. HSC 25508(a)(1)(A), 25508.2, 19 CCR 2654(b)

Classification: Class II

Observations:

Your HMBP must be certified at least annually to be complete and accurate in the California Environmental Reporting System. Records show it has been more than 12 months since an HMBP was submitted in CERS including up-to-date facility information, hazardous materials inventory, and emergency response and training plans sections as required by HSC.

Per HMD records the last re-certification for this facility's HMBP was 7/28/2016

CERS ID: 10503748

Corrective Action Due By: 10/19/2017

This violation must be corrected online by logging into the facility account in CERS, reviewing the facility information, hazardous materials/waste inventory, and emergency response/training plans sections, and submitting them electronically. For assistance, visit our CERS Information webpage for guides and videos or call our CERS help line at (858) 505-6990 for one-on-one guidance.

Within 30 days, ensure your facility representatives gain access to CERS, update your HMBP, and re-certify a complete HMBP (business activities, hazardous materials inventory, emergency response/employee training plans).

VIOLATION # 2

1010004 Chemical inventory incomplete or not submitted in CERS. HSC 25505(a)(1); 25507(a); 25508(a)(1)(A); 25508.1(a-b); 19 CCR 2654 (a) or (d)

Classification: Class II

Observations:

Your facility is required to report any hazardous materials inventory updates in CERS within 30 days of the change occurring. Per Shoana Sikorski this facility has had these inventory items on-site since 2015.

At the time of inspection the following hazardous materials were observed on-site that were not reported in the hazardous materials inventory in CERS:

Carbon Dioxide = 5 x 50 pounds = 2,025 cubic feet

Oxygen = 10 x 24 cubic feet = 240 cubic feet

The Liquid Nitrogen inventory item does not currently include a correct "maximum daily amount". At the time of inspection it was observed the facility stores 11 x 240 Liter containers = 660 gallons

Corrective Action Due By: 10/19/2017

Within 30 days ensure that your CERS hazardous materials inventory is updated to include the following observed inventory items:

Carbon Dioxide = 5 x 50 pounds = 2,025 cubic feet

Oxygen = 10 x 24 cubic feet = 240 cubic feet

Ensure the Liquid Nitrogen inventory item is updated to include a correct "maximum daily amount": at the time of inspection it was observed the facility stores 11 x 240 Liter containers = 660 gallons

VIOLATION # 3

1010017 HMBP not readily available to facility personnel or the CUPA. HSC 25505(c)

COUNTY OF SAN DIEGO
SUPPLEMENTAL COMPLIANCE
INSPECTION REPORT

INSPECTION DATE: 09/19/2017 PAGE 3 OF 11
RECORD ID #: DEH2014-HUPFP-001150

Classification: Class II

Observations:

At the time of inspection the facility representative did not have a readily available HMBP and did not have access to the facility's CERS account.

Corrective Action Due By: 10/19/2017

Immediately ensure that your facility has their HMBP readily available for review.

Within 30 days provide documentation to your inspector's attention how this violation was corrected.

VIOLATION # 4

3030007 Failed to properly label/date hazardous waste container &/or tank. 22 CCR 66262.34(f)

Classification: Class II

Observations:

Observed 6 x 15 gallon hazardous waste solid containers (RCRA pharmaceutical waste) that were not properly labeled as hazardous waste. The containers were missing hazardous waste labels.

Observed 12 x 1 gallon hazardous waste liquid (flammable) containers missing an accumulation start date on the labels.

Hazardous waste containers must be labeled with the following: The words "Hazardous Waste", the name and address of the generator, the composition and physical state of the waste, the hazardous properties of the waste, and the accumulation start date.

Corrective Action Due By: 10/19/2017

Immediately begin labeling the containers with the required labeling.

Hazardous waste containers must be labeled with the following: The words "Hazardous Waste", the name and address of the generator, the composition and physical state of the waste, the hazardous properties of the waste, and the accumulation start date.

Within 30 days, submit documentation to the HMD that this violation was corrected.

VIOLATION # 5

3010002 Failed to obtain &/or maintain an active EPA ID Number. 22 CCR 66262.12(a)

Classification: Minor

Observations:

This facility generates hazardous waste and does not have an active EPA ID number at this time.

Per DTSC website this facility's EPA ID number CAL000406828, has been expired since 6/30/2015.

Corrective Action Due By: 10/19/2017

Obtain or reactivate an EPA ID number by completing an application for a State ID at the Department of Toxic Substances (DTSC) website: <https://www.dtsc.ca.gov/IDManifest/>.

Within 30 days, submit proof of corrective action to the Hazardous Materials Division.

COUNTY OF SAN DIEGO
SUPPLEMENTAL COMPLIANCE
INSPECTION REPORT

INSPECTION DATE: 09/19/2017 PAGE 4 OF 11
RECORD ID #: DEH2014-HUPFP-001150

VIOLATION # 6

HMD0138 Manifest signed by the TSDf not available for inspection. 22 CCR 66262.40(a)

Classification: Minor

Observations:

At the time of inspection Shoana Sikorski was not able to provide the manifests for review. Per Shoana Sikorski the manifests were kept with the Finance department and she was not able to get them for inspection.

As a hazardous waste generator, your facility is required to keep at least 3 years of manifests available for review during inspection.

Corrective Action Due By: 10/19/2017

Immediately locate the manifests.

Within 30 days send documentation to your inspectors attention on how this violation was corrected along with any supporting documents.

VIOLATION # 7

HMD4209 Primary containers accumulating MW not labeled with generator's name, address, and phone number. SDCC 68.1205

Classification: Minor

Observations:

Observed during inspection that all medical waste generator labels were missing the business phone number.

All medical waste containers are required to have a generator label on the container at the time the waste is placed into the container. The generator must include the business name, phone number, and address.

Corrective Action Due By: 10/19/2017

Immediately label all primary medical waste containers with the generator's name, address, and phone number.

Within 30 days, submit documentation that the violation was corrected to HMD.

VIOLATION # 8

HMD4351 MWMP not submitted to HMD (initial/updates). HSC 117960, 117970

Classification: Minor

Observations:

This facility is a large quantity medical waste generator as has not submitted an updated MWMP which includes an updated total amount of medical waste generator.

Per Shoana Sikorski this facility has most likely doubled their medical waste amounts.

Corrective Action Due By: 10/19/2017

Immediately update your Medical Waste Management Plan (MWMP) to ensure that the waste totals your facility generates are accurate.

Within 30 days ensure to resubmit the updated MWMP in CERS.

COUNTY OF SAN DIEGO

SUPPLEMENTAL COMPLIANCE INSPECTION REPORT

INSPECTION DATE: 09/19/2017 PAGE 5 OF 11
RECORD ID #: DEH2014-HUPFP-001150

VIOLATION # 9

HMD4353 Did not make available disposal receipts, tracking/shipping documents for at least 2 years for medical waste shipped offsite. HSC 117975

Classification: Minor

Observations:

At the time of inspection Shoana Sikorski was not able to provide the medical waste disposal documents for review. Per Shoana Sikorski the medical waste disposal documents are kept with the Finance department and she was not able to get them for inspection.

As a large quantity medical waste generator, your facility is required to keep at least 2 years of manifests available for review during inspection.

Corrective Action Due By: 10/19/2017

Immediately locate the medical waste disposal documents and ensure to have them available for review during inspection (at least 2 years.)

Within 30 days provide documentation to your inspector's attention how this violation was corrected.

INSPECTION REMARKS:

Minor Violation Corrected during inspection:

During inspection Shoana Sikorski was able to place a proper sign in the designated medical waste accumulation area.

Employee training records were on-site and reviewed. Training has been completed within the past year at this facility.

BE ADVISED: Ensure your "environmental contact" is updated in CERS to reflect the correct personnel on-site.

 E-MAIL: csanchez@crownbio.com

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

CONSENT TO CONDUCT INSPECTION GRANTED BY: Christina Sanchez

TITLE: QA Manager

INTRODUCTION:

Routine Inspection

The Hazardous Materials Division (HMD) of the Department of Environmental Health serves as the Certified Unified Program Agency (CUPA) for the County of San Diego. As the local CUPA, the Hazardous Materials Division implements the Unified Program, which includes programs pertaining to Hazardous Materials Business Plan, Hazardous Waste, Aboveground Petroleum Storage, and Underground Storage Tanks. In San Diego County, the Hazardous Materials Division also enforces the Medical Waste Management Act.

A routine compliance inspection for medical waste management ONLY was conducted with the consent of Christina Sanchez, QA Manager. Yuki Kato Maves, Associate Director of Technical Operations was also present for today's inspection. A full compliance inspection including hazardous materials and hazardous waste management was not conducted at this time. This facility is a biotech specializing in pre-clinical contract research. At the time of inspection, this facility is a large quantity generator of medical waste. The following items were observed during today's inspection:

- Biohazardous red bag waste
- Biohazardous sharps waste
- Pathology waste (animal carcasses)
- Medical liquid waste (bleached and sewerred)

The facility has also reported trace chemotherapy waste through CERS. An empty trace chemotherapy container was observed on site. Per Christina Sanchez and Yuki Kato Maves, this facility does not generate trace chemotherapy waste. Trace chemotherapy waste does not appear on the facility's medical waste tracking records.

This facility also generates RCRA pharmaceutical waste (client proprietary compounds).

VIOLATION # 1

HMD4209 Primary containers accumulating MW not labeled with an electronic tracking system label or a label with generator's name, address and phone number. SDCC 68.1205

COUNTY OF SAN DIEGO

SUPPLEMENTAL COMPLIANCE INSPECTION REPORT

INSPECTION DATE: 09/18/2018 PAGE 2 OF 5
RECORD ID #: DEH2014-HUPFP-001150

Classification: Class II

Observations:

A significant number of the medical waste containers observed on site today were missing generator information labels.

This violation was previously cited during recent inspections conducted 09/19/2017 (minor) and 11/04/2015 (Class II).

Corrective Action Completed During Inspection:

Yuki Kato Maves affixed generator information labels to containers that were missing this information at the time of inspection.

VIOLATION # 2

HMD4301 Medical Waste Management Plan (MWMP) not submitted to HMD (initial/updates), if onsite treatment. HSC 117935

Classification: Minor

Observations:

The facility's Medical Waste Management Plan as submitted through the California Environmental Reporting System (CERS) dated 08/10/2018 indicates that the facility engages in on site steam autoclaving of medical waste. Crown Biosciences is currently having medical waste hauled by Stericycle, and per Christina Sanchez and Yuki Kato Maves, does not engage in on site steam sterilization. An application for a medical waste treatment permit had recently been submitted, but was denied.

This violation was previously cited during recent inspections dated 09/19/2017 (minor) and 11/04/2015 (Class II).

Corrective Action Due By: 10/18/2018

Immediately update your Medical Waste Management Plan to accurately reflect medical waste generation and treatment practices (if applicable). Submit the updated plan to the Hazardous Materials Division through CERS (please ensure that outdated copies are discarded from CERS before submitting).

Within 30 days, submit documentation of return to compliance to my attention. You may use the Corrective Action Form to Document Return to Compliance found on the last page of this report.

INSPECTION REMARKS:

- 1) Reminder: RCRA pharmaceutical waste containers must be labeled with hazardous waste labels. Ensure that all RCRA pharmaceutical waste containers are labeled appropriately.
- 2) Trace chemotherapy waste has been reported through CERS, but does not appear to be generated at this facility. If this waste stream will not be generated, you may remove this item from your reported inventory, or your permitting fees will be affected.
- 3) Medical waste tracking records reviewed. Maintain documentation of proper medical waste disposal available for review dating back 2 years.

Medical Waste Management Plan

The San Diego County Department of Environmental Health, Hazardous Materials Division (HMD) is the local agency designated by the California Department of Public Health to implement the Medical Waste Management Act. This law governs the generation, handling, storage, transportation, treatment and disposal of medical waste to protect the public and the environment from potential infectious exposure to disease-causing agents.

The Medical Waste Management Plan (MWMP) is a document that describes the types and amount of medical waste generated at a specific location, and indicates how wastes are managed to ensure proper treatment and disposal. All Large Quantity Generators (LQGs) generating **≥200 pounds** of medical waste per month and Small Quantity Generators (SQGs) generating **<200 pounds** of medical waste per month that also treat their medical waste onsite, are required to submit their MWMP to the local enforcement agency. [Authority cited California Health and Safety Code § 117600 et seq.]

SQGs of medical waste that do not treat their medical waste onsite or do not transport waste under the Pharmaceutical Waste Hauling Exemptions, are not required to submit this form to the local enforcement agency; however are required for maintaining a document stating how they contain, store, treat, and dispose of any medical waste generated on file at their office. Completing a MWMP and keeping it at their office can satisfy this requirement. All uses of the Medical Waste Self-Haul and Pharmaceutical Waste Hauling Exemptions require recording and tracking documentation.

Attached is a blank MWMP form for your use. Please **complete, sign, and upload, as required above**, your MWMP to the "Locally-Required Documentation" of the "Hazardous Materials Inventory" section of your California Environmental Reporting System (CERS) facility. Retain a copy for your records and inspection review. If there are changes in any of the information on your MWMP, submit a revised form in CERS within 30 days of changes. Annual submittal of the MWMP is not required.

Additional information about CERS can be found at the following website:
http://www.sandiegocounty.gov/content/sdc/deh/hazmat/hmd_cers.html

If you have any questions, please contact your area inspector or the Hazardous Materials Division Duty Desk at (858) 505-6880.

Attachment

"Environmental and public health through leadership, partnership and science"

MEDICAL WASTE – DEFINITION OF TERMS

MEDICAL WASTE means biohazardous, pathology, pharmaceutical, or trace chemotherapy waste not regulated by the federal Resource Conservation and Recovery Act; sharps and trace chemotherapy wastes generated in a health care setting in the diagnosis, treatment, immunization, or care of humans or animals; waste generated in autopsy or necropsy; waste generated during preparation of a body for final disposition such as cremation or interment; waste generated in research pertaining to the production or testing of microbiologicals; waste generated in research using human or animal pathogens; sharps and laboratory waste that poses a potential risk of infection to humans generated in the inoculation of animals in commercial farming operations; waste generated from the consolidation of home-generated sharps; and waste generated in the cleanup of trauma scenes.

BIOHAZARDOUS WASTE means all of the following (A-D):

(A) (i) Regulated medical waste, clinical waste, or biomedical waste that is a waste or reusable material derived from the medical treatment of a human or from an animal that is suspected by the attending veterinarian of being infected with a pathogen that is also infectious to humans, which includes diagnosis and immunization; or from biomedical research, which includes the production and testing of biological products.

(ii) Regulated medical waste or clinical waste or biomedical waste suspected of containing a highly communicable disease.

(B) Laboratory waste such as human specimen cultures or animal specimen cultures that are infected with pathogens that are also infectious to humans; cultures and stocks of infectious agents from research; wastes from the production of bacteria, viruses, spores, discarded live and attenuated vaccines used in human health care or research, discarded animal vaccines, including Brucellosis and Contagious Ecthyma, as defined by the department; culture dishes, devices used to transfer, inoculate, and mix cultures; and wastes identified by Section 173.134 of Title 49 of the Code of Federal Regulations as Category B “once wasted” for laboratory wastes.

(C) Waste that, at the point of transport from the generator’s site or at the point of disposal contains recognizable fluid human blood, fluid human blood products, containers, or equipment containing human blood that is fluid, or blood from animals suspected by the attending veterinarian of being contaminated with infectious agents known to be contagious to humans.

(D) Waste containing discarded materials contaminated with excretion, exudate, or secretions from humans or animals that are required to be isolated by the infection control staff, the attending physician and surgeon, the attending veterinarian, or the local health officer, to protect others from highly communicable diseases or diseases of animals that are communicable to humans.

SHARPS CONTAINERS means a rigid puncture-resistant container used in patient care or research activities meeting the standards of, and receiving approval from the United States Food and Drug Administration as a medical device used for the collection of discarded medical needles or other sharps.

“BIOHAZARD BAG” means a disposable film bag that is impervious to moisture. The film bags that are used for transport shall be marked and certified by the manufacturer as having passed the tests prescribed for tear resistance in the American Society for Testing Materials (ASTM) D1922, “Standard Test Method for Propagation Tear Resistance of Plastic Film and Thin Sheeting by Pendulum Method” and for impact resistance in ASTM D 1709, “Standard Test Methods for Impact Resistance of Plastic Film by the Free-Falling Dart Method,” as those documents were published in January 1, 2014. The film bag shall meet an impact resistance of 165 grams and a tearing resistance of 480 grams in both parallel and perpendicular planes with respect to the length of the bag. The color of the bag shall be red; except when yellow bags are used to further segregate trace chemotherapy waste and white bags are used to further segregate pathology waste.

STORAGE AREA WARNING SIGN is: A sign posted at a designated accumulation area, visible for 25 feet, used to store medical waste which must read in English, “CAUTION—BIOHAZARDOUS WASTE STORAGE AREA—UNAUTHORIZED PERSONS KEEP OUT” and in Spanish, “CUIDADO-ZONA DE RESIDUOS—BIOLOGICOS PELIGROSOS—PROHIBIDA LA ENTRADA A PERSONAS NO AUTORIZADAS” or in another language determined to be appropriate. Intermediate storage areas shall be marked with the international biohazardous symbol or the signage noted above. These warning signs shall be readily legible from a distance of five feet.

PHARMACEUTICAL WASTE (a) means a pharmaceutical, as defined in Section 117747, including trace chemotherapy waste, that is a waste, as defined in Section 25124. (b) For purposes of this part, “pharmaceutical waste” does not include any pharmaceutical that meets either of the following criteria:

(1) The pharmaceutical is being sent out of the State of California to a reverse distributor, as defined in Section 4040.5 of the Business and Professions Code, that is licensed as a wholesaler of dangerous drugs by the California State Board of Pharmacy pursuant to Section 4161 of the Business and Professions Code.

(2) The pharmaceutical is being sent by a reverse distributor, as defined in Section 4040.5 of the Business and Professions Code, offsite for treatment and disposal in accordance with applicable laws, or to a reverse distributor that is licensed as a wholesaler of dangerous drugs by the California State Board of Pharmacy pursuant to Section 4160 of the Business and Professions Code and as a permitted transfer station if the reverse distributor is located within the State of California.

ONSITE MEDICAL WASTE TREATMENT ONLY: Method & capacity of medical waste treatment <i>if performed onsite</i> :	
<input checked="" type="checkbox"/> Steam Autoclaving <input type="checkbox"/> Other state approved alternative technology (specify below): _____	
Treatment records must be maintained for three years for small quantity generators, and maintained two years for large quantity generators. (HSC§117943; HSC§117975)	

*Per HSC §118215(c), for liquid or semi-liquid biohazardous laboratory waste (§117690(b)(1)(B)), the treatment method must be recognized by the NIH, the CDC, or the American Biological Safety Association. If the chemical disinfection of the medical waste causes the waste to become a hazardous waste, the waste shall be managed in accordance with the requirements of HSC Chapter 6.5 (commencing with §25100) of Division 20.

Medical Waste Management Plan

The following requirements apply to LQGs (HSC§117960), and SQGs that treat MW on-site, or use the Pharmaceutical Waste Hauling Exemption. (HSC§118032)

Emergency Action Plan

This plan is to be followed to ensure the proper disposal of medical waste, including controlled substances in compliance with DEA, approved incineration of pharmaceutical and trace chemotherapy in the event of a natural disaster, spill, treatment system break down, power failure, etc., and closure plan at termination (600 characters max. for WORD interactive form - use additional sheets if necessary). (LQG HSC§117960(h); SQG HSC§117935).

Registered hazardous waste hauler/common carrier used to remove untreated medical waste (if applicable)	
Primary Hauler Name Stericycle	Phone # (866) 783-7444
Street Address 2775 26th St	City/ZIP Vernon, 90058
Contact Person Cristina Venticinque	Contact Phone # (847) 943-6150
Offsite treatment facility to which medical waste is transported (if applicable)	
Facility Name Stericycle	Phone # (866) 783-7422
Street Address 2775 26th St	City/ZIP Vernon, 90058
Contact Person Cristina Venticinque	Contact Phone # (847) 943-6150
<u>Pharmaceutical Waste Categorization</u> If applicable, the steps taken to categorize the pharmaceutical wastes generated at the facility to ensure that the wastes are properly disposed of as follows: (1) Pharmaceutical wastes classified by the federal Drug Enforcement Administration (DEA) as "controlled substances" are disposed of in compliance with DEA requirements. (2) <u>The name and business address of the registered hazardous waste hauler used by the generator to have wastes that are not regulated pursuant to the federal Resource Conservation and Recovery Act of 1976 and nonradioactive pharmaceutical wastes regulated as medical waste safely removed for treatment in compliance with subdivision (b) of Section 118222 as waste requiring specific methods.</u> (LQG:HSC§117960(i); SQG:HSC§117935(i))	
<u>Closure Plan</u> A closure plan for the termination of treatment at the facility using, at a minimum, one of the methods of decontamination specified in subdivision (a) or (b) of Section 118295, thereby rendering the property to an acceptable sanitary condition following the completion of treatment services at the site. (LQG: HSC§117960(j); SQG: HSC§117935(j))	
I hereby certify to the best of my knowledge and believe the statements made herein are correct and accurate.

Subject: RE: Application for On-Site Medical Waste Treatment Permit - Crown Bioscience San Diego

Good Morning Yuki, Christina, and Jane,
I apologize for the delay in getting back to you. I have reviewed your application for medical waste treatment and am unable to approve it at this time for the following reasons:

1. Your application was missing your:
 - a. Emergency Action Plan
 - b. Training Plan
 - c. Closure Plan
2. Payment for the treatment application review was not received
3. Discrepancies between application and Medical Waste Management Plan on file with HMD
4. Poor compliance history with lack of detail on how process improvements were made

If you have any questions or concerns regarding medical waste treatment, please contact your new inspector, Darren Thai or myself; my contact information is below.

Best Regards,
Arleen Gurfield, MPH, REHS
Supervising Environmental Health Specialist - East Group

Thanks Anastasiya for the update,

We will be on stand by for our application review.

Since I will not be at CBSD, please update our site EHS Team: Yuki, Christina, Jane. Our objective is reach eligible standing and join the EPIC+ Program. We have and are making changes to reach greater level of compliance with the SD County standards.

Thanks,

Brian Lee

Subject: RE: Application for On-Site Medical Waste Treatment Permit - Crown Bioscience San Diego

Hi Brian,

Thank you for your email. After reviewing your facility's compliance history, Crown Bioscience is not currently eligible to be a participant in the EPIC+ program. The program requires that the last two full scope inspections (Hazardous Waste, Hazardous Materials, and Medical Waste) score less than 15 points worth of violations. Your facility has exceeded these totals in both of the inspections (2017 inspection and 2015 inspection). The scoring outline for violations is specified on the EPIC+ application found here:

https://www.sandiegocounty.gov/content/dam/sdc/deh/hmd/pdf/hmd_EPIC%20Application%20Editable%2008.2017.pdf

Arleen Gurfield will respond to you regarding the Medical Waste Treatment Permit.

Let me know if there is anything else I can help you with.

Regards,

ANASTASIYA IRKHIN

Subject: Application for On-Site Medical Waste Treatment Permit - Crown Bioscience San Diego

Hello Arleen,

Attached is the completed application for the On-Site Medical Waste Treatment Permit.

Not sure if you recall but we spoke at the EPIC conference. I had a few questions.

1. I was wondering if we can qualify for the 25% permit discount?
2. I also wanted to verify if our permit can be transferred to another site since we are moving early next year. I recall you said that this was a possibility.

Unfortunately, I will be leaving CBSD August 10th. Please feel free to reach out to Jane Morrow CC'ed on this email if you require additional information.

Thanks for your direction and support thus far,

Brian Lee

APPLICATION FOR ON-SITE MEDICAL WASTE TREATMENT PERMIT

Dear Business Owner/Operator:

If your medical facility generates 200 pounds or more of medical waste in any calendar month and treats any of that waste*, you are required to obtain an On-Site Medical Waste Treatment Permit from the Certified Unified Program Agency (CUPA).

To comply with this requirement you must complete the enclosed application and pay an initial 2-hour review fee. Please call the Hazardous Materials Duty Desk at 858-505-6880 for the current hourly rate. Make your check payable to: COUNTY OF SAN DIEGO. If additional processing hours are accrued, you will receive an invoice. Fees must be paid in full before the permit is issued.

Send your completed application attached with your payment to:

County of San Diego
Department of Environmental Health
Hazardous Materials Division
ATTN: Medical Waste Coordinator
P.O. Box 129261
San Diego, CA 92112-9261

When approved, your permit is valid for 5 years. You must notify the Hazardous Materials Division (HMD) of any changes that may occur during this time. To renew this permit you must submit a completed On-Site Medical Waste Treatment Permit application at least 90 days prior to the expiration date on the current permit.

State law specifies that an application for a treatment facility must be submitted and approved to operate a medical waste treatment unit. Failure to obtain a medical waste treatment permit is a violation and subject to a penalty of up to \$2,000 or one year in county jail, or both.

If you have any questions, please call the Hazardous Materials Duty Desk at (858) 505-6880 or e-mail hmdutyeh@sdcounty.ca.gov.

*If all the treated medical waste is subsequently handled, stored, and sent off site for further treatment as medical waste to a permitted medical waste treatment facility, an Onsite Treatment Permit is not required. The medical waste generator shall notify the CUPA in writing of such activities.

FACILITY STATUS

Place an "X" on the appropriate line to indicate whether this application is for a facility with either a new Unified Program Facility Permit or an existing Unified Program Facility Permit.

- New Facility Permit
 - Existing Facility Permit
- If an existing facility, please indicate the purpose of this application. Place an "X" on the appropriate line below to indicate whether this is a renewal application, a facility modification, transfer of ownership, revised application, or an initial request for a permit.
- a. Initial Request for a Permit
 - b. Modification
 - c. Transfer of Ownership
 - d. Permit Revision
 - e. Permit Renewal

APPLICATION INFORMATION (Note: Provide the information requested below on a separate page attached to the completed application).

A. Estimated Weight and Volume

- ✓ 1. Average monthly quantity of medical waste to be stored and/or treated at this facility.
- ✓ 2. The rated capacity per operational cycle, the time per cycle, the number of operating hours per day, and the days per week of operation.
- ✓ 3. Type and description of medical waste being treated. What measures will be employed to prevent unauthorized waste (e.g., chemical waste, chemotherapy waste, etc.) from being treated at the facility.

705 lbs in MWMP

UPFP: _____

B. Compliance History

A description of your compliance history relative to local, state or federal regulations regarding the handling, storage, or treatment of medical waste during the previous three years. Include information from other facilities under your control for the same period.

FACILITY OWNER

Name of legal owner of facility

Phone Number

THATTE JAYANT

MEDICAL WASTE TREATMENT EQUIPMENT SPECIFICATIONS

Each medical waste treatment unit must be described below. The following information shall be completed and submitted along with the application. Submit a separate sheet for each medical waste treatment unit.

Must complete the following information: (please print or type information)

Steam Sterilization Alkaline Hydrolysis Other (specify): _____

1. Date of equipment installation: 5/14/2016
2. Manufacturer's Name: STERIS AMSCO EAGLE
3. Model Number: R78VS-5
4. Serial Number: 0123584-013
5. Provide the exact location and/or room number where the treatment unit will be operated:
1st FLOOR, AUTOCLAVE ROOM
20-100125
6. Provide the rated capacity of the treatment unit: _____ pounds/hour of waste treated.
7. Provide the date when the treatment equipment was last serviced by a "manufacturer-authorized" technician: 5/18/18 (Every 3 months)

UPFP: _____

EMERGENCY ACTION PLAN

n. Attach a copy of your Emergency Action Plan with this application.

TRAINING PLAN

n. Attach a copy of your Employee Training Plan for medical waste management with this application.

CLOSURE PLAN

n. Attach a copy of your Closure Plan and a written estimate of the cost of closing the medical waste storage and treatment areas.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA)

n/a. Medical waste treatment technologies, such as hydrolysis or incineration, require a preliminary CEQA review, pursuant to California Code of Regulations (22CCR§65610(a)). To comply with CEQA requirements, HMD reviews the treatment method for any significant impact on the environment. A CEQA review is not required when treating medical waste by steam sterilization.

SIGNATURE CERTIFICATION

Owner and operator certification:

I certify under penalty of perjury that this document and all the attachments have been prepared under my direction and supervision in accordance with a system to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those directly responsible for gathering the information, the information is to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.

Owner's Name (print or type): JAYANT THATTE

Medical Waste Treatment Permit Application Supplemental Information

A. Estimated Weight and Volume

1. The average monthly quantity of medical waste to be stored and/or treated at this facility.
 - a. 480-2400lbs *~ 705 lbs in MWMP*
2. The rated capacity per operation cycle, the time per cycle, the number of operating hours per day, and the day per week of operation.
 - a. Rated capacity per operation cycle: 100lbs
 - b. Time per Cycle: 40 mins
 - c. Operating Hours per Day: 4hrs
 - d. Days per week: Mon-Fri 5 days a week
3. Type and description of medical waste being treated. What measures will be employed to prevent unauthorized waste (eg., chemical, chemotherapy waste, etc.) from being treated at the facility?

- a. At the CBSD site, only medical waste *only biohaz?* will be treated. This includes items which come in contact with any BSL-2 materials, such as PPE, disposable animal cages, and soiled animal bedding. Only CBSD designated and trained personnel will have the authorization to autoclave medical waste at our site. Any *trace chem* unauthorized waste (sharps, chemical waste, and chemotherapy waste) will not be treated at our facility and is picked up by a contracted hazardous waste management company. An SOP on hazardous waste management is currently in draft. The estimated effective date is ~31 AUG 2018. Once finalized all laboratory and vivarium staff will be trained.

B. Compliance History

1. A description of your compliance history relative to local, state and federal regulations regarding the handling, storage, or treatment of medical waste during the previous three years. Include information from other facilities under your control for the same period.
 - a. After some non-compliance findings regarding medical waste in 2015-2017 with previous staff no longer employed at CBSD, CBSD has made major improvements to ensure compliance with all local, state and federal regulations. Previous violations have been addressed. These improvements include standard operating procedures which delineate specified processes, procedures and required training of staff. An addition to our staff includes an In-Vivo manager with over 37 years of experience in vivarium operations, including proper handling, storage, and treatment of medical waste. CBSD also now works with a local consulting company specialized in environmental compliance to perform site inspections and document review in order to monitor compliance.

Medical Waste Management Plan

The San Diego County Department of Environmental Health, Hazardous Materials Division (HMD) is the local agency designated by the California Department of Public Health to implement the Medical Waste Management Act. This law governs the generation, handling, storage, transportation, treatment and disposal of medical waste to protect the public and the environment from potential infectious exposure to disease-causing agents.

The Medical Waste Management Plan (MWMP) is a document that describes the types and amount of medical waste generated at a specific location, and indicates how wastes are managed to ensure proper treatment and disposal. All Large Quantity Generators (LQGs) generating ≥ 200 pounds of medical waste per month and Small Quantity Generators (SQGs) generating < 200 pounds of medical waste per month that also treat their medical waste onsite, are required to submit their MWMP to the local enforcement agency. [Authority cited California Health and Safety Code § 117600 et seq.]

SQGs of medical waste that do not treat their medical waste onsite or do not transport waste under the Pharmaceutical Waste Hauling Exemptions, are not required to submit this form to the local enforcement agency; however are required for maintaining a document stating how they contain, store, treat, and dispose of any medical waste generated on file at their office. Completing a MWMP and keeping it at their office can satisfy this requirement. All uses of the Medical Waste Self-Haul and Pharmaceutical Waste Hauling Exemptions require recording and tracking documentation.

Attached is a blank MWMP form for your use. Please **complete, sign, and upload, as required above**, your MWMP to the "Locally-Required Documentation" of the "Hazardous Materials Inventory" section of your California Environmental Reporting System (CERS) facility. Retain a copy for your records and inspection review. If there are changes in any of the information on your MWMP, submit a revised form in CERS within 30 days of changes. Annual submittal of the MWMP is not required.

Additional information about CERS can be found at the following website:
http://www.sandiegocounty.gov/content/sdc/deh/hazmat/hmd_cers.html

If you have any questions, please contact your area inspector or the Hazardous Materials Division Duty Desk at (858) 505-6880.

"Environmental and public health through leadership, partnership and science"

MEDICAL WASTE – DEFINITION OF TERMS

MEDICAL WASTE means biohazardous, pathology, pharmaceutical, or trace chemotherapy waste not regulated by the federal Resource Conservation and Recovery Act; sharps and trace chemotherapy wastes generated in a health care setting in the diagnosis, treatment, immunization, or care of humans or animals; waste generated in autopsy or necropsy; waste generated during preparation of a body for final disposition such as cremation or interment; waste generated in research pertaining to the production or testing of microbiologicals; waste generated in research using human or animal pathogens; sharps and laboratory waste that poses a potential risk of infection to humans generated in the inoculation of animals in commercial farming operations; waste generated from the consolidation of home-generated sharps; and waste generated in the cleanup of trauma scenes.

BIOHAZARDOUS WASTE means all of the following (A-D):

(A) (i) Regulated medical waste, clinical waste, or biomedical waste that is a waste or reusable material derived from the medical treatment of a human or from an animal that is suspected by the attending veterinarian of being infected with a pathogen that is also infectious to humans, which includes diagnosis and immunization; or from biomedical research, which includes the production and testing of biological products.

(ii) Regulated medical waste or clinical waste or biomedical waste suspected of containing a highly communicable disease.

(B) Laboratory waste such as human specimen cultures or animal specimen cultures that are infected with pathogens that are also infectious to humans; cultures and stocks of infectious agents from research; wastes from the production of bacteria, viruses, spores, discarded live and attenuated vaccines used in human health care or research, discarded animal vaccines, including Brucellosis and Contagious Ecthyma, as defined by the department; culture dishes, devices used to transfer, inoculate, and mix cultures; and wastes identified by Section 173.134 of Title 49 of the Code of Federal Regulations as Category B “once wasted” for laboratory wastes.

(C) Waste that, at the point of transport from the generator’s site or at the point of disposal contains recognizable fluid human blood, fluid human blood products, containers, or equipment containing human blood that is fluid, or blood from animals suspected by the attending veterinarian of being contaminated with infectious agents known to be contagious to humans.

(D) Waste containing discarded materials contaminated with excretion, exudate, or secretions from humans or animals that are required to be isolated by the infection control staff, the attending physician and surgeon, the attending veterinarian, or the local health officer, to protect others from highly communicable diseases or diseases of animals that are communicable to humans.

SHARPS CONTAINERS means a rigid puncture-resistant container used in patient care or research activities meeting the standards of, and receiving approval from the United States Food and Drug Administration as a medical device used for the collection of discarded medical needles or other sharps.

“BIOHAZARD BAG” means a disposable film bag that is impervious to moisture. The film bags that are used for transport shall be marked and certified by the manufacturer as having passed the tests prescribed for tear resistance in the American Society for Testing Materials (ASTM) D1922, “Standard Test Method for Propagation Tear Resistance of Plastic Film and Thin Sheeting by Pendulum Method” and for impact resistance in ASTM D 1709, “Standard Test Methods for Impact Resistance of Plastic Film by the Free-Falling Dart Method,” as those documents were published in January 1, 2014. The film bag shall meet an impact resistance of 165 grams and a tearing resistance of 480 grams in both parallel and perpendicular planes with respect to the length of the bag. The color of the bag shall be red; except when yellow bags are used to further segregate trace chemotherapy waste and white bags are used to further segregate pathology waste.

STORAGE AREA WARNING SIGN is: A sign posted at a designated accumulation area, visible for 25 feet, used to store medical waste which must read in English, “CAUTION—BIOHAZARDOUS WASTE STORAGE AREA—UNAUTHORIZED PERSONS KEEP OUT” and in Spanish, “CUIDADO-ZONA DE RESIDUOS—BIOLOGICOS PELIGROSOS—PROHIBIDA LA ENTRADA A PERSONAS NO AUTORIZADAS” or in another language determined to be appropriate. Intermediate storage areas shall be marked with the international biohazardous symbol or the signage noted above. These warning signs shall be readily legible from a distance of five feet.

PHARMACEUTICAL WASTE (a) means a pharmaceutical, as defined in Section 117747, including trace chemotherapy waste, that is a waste, as defined in Section 25124. (b) For purposes of this part, “pharmaceutical waste” does not include any pharmaceutical that meets either of the following criteria:

(1) The pharmaceutical is being sent out of the State of California to a reverse distributor, as defined in Section 4040.5 of the Business and Professions Code, that is licensed as a wholesaler of dangerous drugs by the California State Board of Pharmacy pursuant to Section 4161 of the Business and Professions Code.

(2) The pharmaceutical is being sent by a reverse distributor, as defined in Section 4040.5 of the Business and Professions Code, offsite for treatment and disposal in accordance with applicable laws, or to a reverse distributor that is licensed as a wholesaler of dangerous drugs by the California State Board of Pharmacy pursuant to Section 4160 of the Business and Professions Code and as a permitted transfer station if the reverse distributor is located within the State of California.

Estimated monthly amount <u>60</u> lbs
<input type="checkbox"/> California-regulated pharmaceutical waste (non-RCRA, non-radioactive) Estimated monthly amount _____ lbs	<input type="checkbox"/> Other (specify): _____ Estimated monthly amount _____ lbs
Estimate of <u>TOTAL</u> monthly medical waste for generator classification: <u>5,491</u> lbs	
Estimate of other monthly medical wastes (does not count towards generator class):	
<input type="checkbox"/> Home Generated MW Sharps Estimated Monthly Amount _____ lbs.	<input type="checkbox"/> Home Generated Pharmaceutical Waste Estimated monthly amount _____ lbs.
ONSITE MEDICAL WASTE TREATMENT ONLY: Method & capacity of medical waste treatment <i>if performed onsite</i> :	
<input type="checkbox"/> Steam Autoclaving <input type="checkbox"/> Other state approved alternative technology (specify below): _____	
Treatment records must be maintained for three years for small quantity generators, and maintained two years for large quantity generators. (HSC§117943; HSC§117975)	

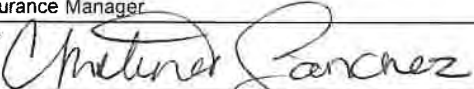

*Per HSC §118215(c), for liquid or semi-liquid biohazardous laboratory waste (§117690(b)(1)(B)), the treatment method must be recognized by the NIH, the CDC, or the American Biological Safety Association. If the chemical disinfection of the medical waste causes the waste to become a hazardous waste, the waste shall be managed in accordance with the requirements of HSC Chapter 6.5 (commencing with §25100) of Division 20.

Medical Waste Management Plan

The following requirements apply to LQGs (HSC§117960), and SQGs that treat MW on-site, or use the Pharmaceutical Waste Hauling Exemption. (HSC§118032)

Emergency Action Plan

This plan is to be followed to ensure the proper disposal of medical waste, including controlled substances in compliance with DEA, approved incineration of pharmaceutical and trace chemotherapy in the event of a natural disaster, spill, treatment system break down, power failure, etc., and closure plan at termination (600 characters max. for WORD interactive form - use additional sheets if necessary). (LQG HSC§117960(h); SQG HSC§117935).

Registered hazardous waste hauler/common carrier used to remove untreated medical waste (if applicable)	
Primary Hauler Name Stericycle	Phone # 331-300-3238
Street Address 2775 E. 26th Street	City/ZIP Vernon/90058
Contact Person Cristina Venticinque	Contact Phone # 847-943-6150
Offsite treatment facility to which medical waste is transported (if applicable)	
Facility Name Stericycle	Phone # 331-300-3238
Street Address 2775 E. 26th Street	City/ZIP Vernon/90058
Contact Person Cristina Venticinque	Contact Phone # 847-943-6150
<u>Pharmaceutical Waste Categorization</u>	
If applicable, the steps taken to categorize the pharmaceutical wastes generated at the facility to ensure that the wastes are properly disposed of as follows:	
(1) Pharmaceutical wastes classified by the federal Drug Enforcement Administration (DEA) as "controlled substances" are disposed of in compliance with DEA requirements.	
(2) <u>The name and business address of the registered hazardous waste hauler used by the generator to have wastes that are not regulated pursuant to the federal Resource Conservation and Recovery Act of 1976 and nonradioactive pharmaceutical wastes regulated as medical waste safely removed for treatment in compliance with subdivision (b) of Section 118222 as waste requiring specific methods.</u> (LQG:HSC§117960(i); SQG:HSC§117935(i))	
<u>Closure Plan</u>	
A closure plan for the termination of treatment at the facility using, at a minimum, one of the methods of decontamination specified in subdivision (a) or (b) of Section 118295, thereby rendering the property to an acceptable sanitary condition following the completion of treatment services at the site. (LQG: HSC§117960(j); SQG: HSC§117935(j))

Medical Waste Management Plan

The San Diego County Department of Environmental Health, Hazardous Materials Division (HMD) is the local agency designated by the California Department of Public Health to implement the Medical Waste Management Act. This law governs the generation, handling, storage, transportation, treatment and disposal of medical waste to protect the public and the environment from potential infectious exposure to disease-causing agents.

The Medical Waste Management Plan (MWMP) is a document that describes the types and amount of medical waste generated at a specific location, and indicates how wastes are managed to ensure proper treatment and disposal. All Large Quantity Generators (LQGs) generating **≥200 pounds** of medical waste per month and Small Quantity Generators (SQGs) generating **<200 pounds** of medical waste per month that also treat their medical waste onsite, are required to submit their MWMP to the local enforcement agency. [Authority cited California Health and Safety Code § 117600 et seq.]

SQGs of medical waste that do not treat their medical waste onsite or do not transport waste under the Pharmaceutical Waste Hauling Exemptions, are not required to submit this form to the local enforcement agency; however are required for maintaining a document stating how they contain, store, treat, and dispose of any medical waste generated on file at their office. Completing a MWMP and keeping it at their office can satisfy this requirement. All uses of the Medical Waste Self-Haul and Pharmaceutical Waste Hauling Exemptions require recording and tracking documentation.

Attached is a blank MWMP form for your use. Please **complete, sign, and upload, as required above**, your MWMP to the "Locally-Required Documentation" of the "Hazardous Materials Inventory" section of your California Environmental Reporting System (CERS) facility. Retain a copy for your records and inspection review. If there are changes in any of the information on your MWMP, submit a revised form in CERS within 30 days of changes. Annual submittal of the MWMP is not required.

Additional information about CERS can be found at the following website:
http://www.sandiegocounty.gov/content/sdc/deh/hazmat/hmd_cers.html

If you have any questions, please contact your area inspector or the Hazardous Materials Division Duty Desk at (858) 505-6880.

MEDICAL WASTE – DEFINITION OF TERMS

MEDICAL WASTE means biohazardous, pathology, pharmaceutical, or trace chemotherapy waste not regulated by the federal Resource Conservation and Recovery Act; sharps and trace chemotherapy wastes generated in a health care setting in the diagnosis, treatment, immunization, or care of humans or animals; waste generated in autopsy or necropsy; waste generated during preparation of a body for final disposition such as cremation or interment; waste generated in research pertaining to the production or testing of microbiologicals; waste generated in research using human or animal pathogens; sharps and laboratory waste that poses a potential risk of infection to humans generated in the inoculation of animals in commercial farming operations; waste generated from the consolidation of home-generated sharps; and waste generated in the cleanup of trauma scenes.

BIOHAZARDOUS WASTE means all of the following (A-D):

(A) (i) Regulated medical waste, clinical waste, or biomedical waste that is a waste or reusable material derived from the medical treatment of a human or from an animal that is suspected by the attending veterinarian of being infected with a pathogen that is also infectious to humans, which includes diagnosis and immunization; or from biomedical research, which includes the production and testing of biological products.

(ii) Regulated medical waste or clinical waste or biomedical waste suspected of containing a highly communicable disease.

(B) Laboratory waste such as human specimen cultures or animal specimen cultures that are infected with pathogens that are also infectious to humans; cultures and stocks of infectious agents from research; wastes from the production of bacteria, viruses, spores, discarded live and attenuated vaccines used in human health care or research, discarded animal vaccines, including Brucellosis and Contagious Ecthyma, as defined by the department; culture dishes, devices used to transfer, inoculate, and mix cultures; and wastes identified by Section 173.134 of Title 49 of the Code of Federal Regulations as Category B “once wasted” for laboratory wastes.

(C) Waste that, at the point of transport from the generator’s site or at the point of disposal contains recognizable fluid human blood, fluid human blood products, containers, or equipment containing human blood that is fluid, or blood from animals suspected by the attending veterinarian of being contaminated with infectious agents known to be contagious to humans.

(D) Waste containing discarded materials contaminated with excretion, exudate, or secretions from humans or animals that are required to be isolated by the infection control staff, the attending physician and surgeon, the attending veterinarian, or the local health officer, to protect others from highly communicable diseases or diseases of animals that are communicable to humans.

SHARPS CONTAINERS means a rigid puncture-resistant container used in patient care or research activities meeting the standards of, and receiving approval from the United States Food and Drug Administration as a medical device used for the collection of discarded medical needles or other sharps.

“BIOHAZARD BAG” means a disposable film bag that is impervious to moisture. The film bags that are used for transport shall be marked and certified by the manufacturer as having passed the tests prescribed for tear resistance in the American Society for Testing Materials (ASTM) D1922, “Standard Test Method for Propagation Tear Resistance of Plastic Film and Thin Sheeting by Pendulum Method” and for impact resistance in ASTM D 1709, “Standard Test Methods for Impact Resistance of Plastic Film by the Free-Falling Dart Method,” as those documents were published in January 1, 2014. The film bag shall meet an impact resistance of 165 grams and a tearing resistance of 480 grams in both parallel and perpendicular planes with respect to the length of the bag. The color of the bag shall be red; except when yellow bags are used to further segregate trace chemotherapy waste and white bags are used to further segregate pathology waste.

STORAGE AREA WARNING SIGN is: A sign posted at a designated accumulation area, visible for 25 feet, used to store medical waste which must read in English, “CAUTION—BIOHAZARDOUS WASTE STORAGE AREA—UNAUTHORIZED PERSONS KEEP OUT” and in Spanish, “CUIDADO-ZONA DE RESIDUOS—BIOLOGICOS PELIGROSOS—PROHIBIDA LA ENTRADA A PERSONAS NO AUTORIZADAS” or in another language determined to be appropriate. Intermediate storage areas shall be marked with the international biohazardous symbol or the signage noted above. These warning signs shall be readily legible from a distance of five feet.

PHARMACEUTICAL WASTE (a) means a pharmaceutical, as defined in Section 117747, including trace chemotherapy waste, that is a waste, as defined in Section 25124. (b) For purposes of this part, “pharmaceutical waste” does not include any pharmaceutical that meets either of the following criteria:

(1) The pharmaceutical is being sent out of the State of California to a reverse distributor, as defined in Section 4040.5 of the Business and Professions Code, that is licensed as a wholesaler of dangerous drugs by the California State Board of Pharmacy pursuant to Section 4161 of the Business and Professions Code.

(2) The pharmaceutical is being sent by a reverse distributor, as defined in Section 4040.5 of the Business and Professions Code, offsite for treatment and disposal in accordance with applicable laws, or to a reverse distributor that is licensed as a wholesaler of dangerous drugs by the California State Board of Pharmacy pursuant to Section 4160 of the Business and Professions Code and as a permitted transfer station if the reverse distributor is located within the State of California.

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

CONSENT TO CONDUCT INSPECTION GRANTED BY: Lonnie Stewart

TITLE: Manager of Logistics

INTRODUCTION:

Closure

I conducted a Certified Unified Program Agency (CUPA) closure inspection on 7/15/2019 at Crown Bioscience San Diego. Consent to conduct this closure inspection was provided by Lonnie Stewart, Manager of Logistics. During facility walk-through no hazardous materials at or above reportable thresholds, hazardous wastes, or medical wastes could be observed. Final hazardous waste manifest documentation and medical waste disposal records were provided for review during this closure inspection.

- Per Lonnie Stewart, this facility has moved to a new location at 16550 W Bernard Dr, San Diego, CA 92127 on 2/16/2019 and are now fully operational.
- A full submittal has been made at this new location in the California Environmental Reporting System (CERS) on 3/4/2019. CERS ID for this location is 10445911, and is currently under the previous business name Menon International, Inc.

Business Closure date: effective 4/30/2019

OK TO SUSPEND THIS PERMIT AT THIS TIME FOR DEH2014-HUPFP-001150

Business Name: JSR Micro, Inc.

Business Address: 11011 North Torrey Pines Road, Suite 135, San Diego, CA 92037

Business Owner or Operator: JSR Micro, Inc.

Please complete the following by entering the chemical name in the chemical name column and then place a check ✓ in the quantity column that most closely estimates the amount on hand. If measured by volume, check the appropriate gallon column(s). If measured by weight, check the appropriate pound column(s). If the chemical is a trade secret, you should check the trade secret box. For example, if you have one pint of benzene you would write benzene in the chemical name column and place a check ✓ in the <1-gallon column.

(PLEASE NOTE: the symbol < means less than).

**SAN DIEGO COUNTY DEPARTMENT OF ENVIRONMENTAL HEALTH
HAZARDOUS MATERIALS DIVISION
Annual Carcinogen and Reproductive Toxin Reporting List**

Business Name: JSR Micro, Inc.

Business Address: 11011 North Torrey Pines Road, Suite 135, San Diego, CA 92037

Business Owner or Operator: JSR Micro, Inc.

Please complete the following by entering the chemical name in the chemical name column and then place a check ✓ in the quantity column that most closely estimates the amount on hand. If measured by volume, check the appropriate gallon column(s). If measured by weight, check the appropriate pound column(s). If the chemical is a trade secret, you should check the trade secret box. For example, if you have one pint of benzene you would write benzene in the chemical name column and place a check ✓ in the <1-gallon column.

(PLEASE NOTE: the symbol < means less than).

Chemical Name	<1 gal.	<1 lb.	<10 gal.	<10 lbs.	<55 gal.	<500 lbs.	Trade Secret

Estimate of **TOTAL** monthly medical waste generated: 105 lbs

ONSITE MEDICAL WASTE TREATMENT ONLY: Method of medical waste treatment *if performed onsite*:

- Steam Autoclaving** **Other state approved alternative technology (specify below):**
 We will use an autoclave to sterilize beakers, etc. only. It won't be used to treat any liquid bio-hazard for sewer discharge. All bio-waste will be placed in bio-waste containers for a pickup.

Onsite medical waste treatment records must be maintained for three years. HSC §117975

*Per HSC §118215(c), for liquid or semi-liquid biohazardous laboratory waste (§117635(a)), the treatment method must be recognized by the NIH, the CDC, or the American Biological Safety Association. If the chemical disinfection of the medical waste causes the waste to become a hazardous waste, the waste shall be managed in accordance with the requirements of HSC Chapter 6.5 (commencing with §25100) of Division 20.

FACILITY NAME JSR MICRO, INC
 ADDRESS 11011 N. TORREY PINES RD. #135
 CITY/ZIP LA JOLLA 92037

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). **This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6.** This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

Y* N/A* NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

NEW BUSINESS PERMIT INSPECTION

THIS BUSINESS IS A CONDITIONALLY EXEMPT SMALL QUANTITY GENERATOR OF HAZARDOUS WASTE SOLVENTS AND A SMALL QUANTITY GENERATOR OF RED BAG MEDICAL WASTE (HUMAN SERUM). A CERS ACCOUNT IS ESTABLISHED.

NO VIOLATIONS WERE OBSERVED DURING THIS INSPECTION.

PLEASE REFER TO THE PRINTED FACT SHEETS FOR MORE INFORMATION REGARDING HAZARDOUS WASTE MANAGEMENT FOR GENERATORS, UNIVERSAL WASTE MANAGEMENT, AND HAZARDOUS WASTE ACCUMULATION TIME FOR GENERATORS.

KEEP COPIES OF MEDICAL WASTE TRACKING DOCUMENTS ON FILE FOR AT LEAST 2 YEARS. KEEP COPIES OF HAZARDOUS WASTE MANIFESTS ON FILE FOR 3 YEARS AND MAIL A COPY OF THE MANIFEST TO DTSC WITHIN 30 DAYS OF WASTE PICK UP.

UPDATE THE INFORMATION IN YOUR CERS ACCOUNT WITHIN 30 DAYS OF ANY CHANGES.

The Hazardous Materials Business Plan (inventory & site map, emergency contacts, emergency response plan, and employee training plan) is required by law to be certified online through the California Environmental Reporting System (CERS). For additional information about hazardous materials business plans and CERS, go to: <http://www.sdcountry.ca.gov/deh/hazmat/hmd-cers-info.html>

1. Summary

This report describes practices and procedures used to reduce levels of removable chemical/biological/contamination at the former JSR Micro laboratory areas located at Suite #135, 11011 N. Torrey Pines Road , La Jolla, CA to acceptable levels This Closure Report is consistent with the guidelines in American National Standards Institute standard Z9.11-2008, *Laboratory Decommissioning* as well as other applicable regulatory requirements. The ANSI Z9.11-2008 standards provide guidance for the laboratory decommissioning however all guidelines specified within the standard are not applicable to this facility. Appropriate documentation of closure activities is included in this Closure Report, including photo attachments and hazardous waste disposal manifests.

Work activities were conducted in accordance with typical professional practice and applicable worker safety and environmental regulations. All decontamination work, including chemical packaging, transport and disposal was performed by ACT Environmental Services, Inc. (ACT). All wastes were disposed of in accordance with applicable local, state and federal regulations. Prior to conducting facility decontamination activities, appropriate JSR Micro records (such as the facility’s Hazardous Materials Business Plan) were reviewed and a site walk was conducted to evaluate the physical condition of the facility and to verify hazardous materials previously used and stored onsite.

Based on these activities as well as the decontamination actions described below, removable contamination in the JSR lab areas and no conditions were identified that would represent a health hazard to future occupants of this space.

2. Property Description

Location: 11011 N. Torrey Pines, La Jolla, CA 92037

2.1 General Description of Facility

JSR Micro occupied two rooms under the same laboratory number (#135). One laboratory was 252 square feet, while the other laboratory was 1,022 square feet, totaling 1,274 square feet. Both laboratories contained general laboratory equipment, such as fume hoods. In general, the laboratory areas were clean and well maintained prior to the facility closure. There was little visible contamination, although some floor, bench top areas and the fume hoods had minor staining or discoloration associated with normal laboratory use.

2.2 Project Overview

Based on an initial evaluation and a review of The Hazardous Materials Business Plan (HMBP), and at the request of JSR Micro, a decontamination work plan was developed. This plan addressed the two laboratories that were used for research and development purposes only. Chemicals that were previously stored onsite included lab-scale quantities. No hazardous metals, potent compounds, Active Pharmaceutical Ingredients (APIs) or other high-hazard substances were used at this facility. All hazardous materials and hazardous waste was removed from the facility during the decontamination procedure. Various pieces of laboratory equipment were left at the facility after the decontamination occurred.

The purpose of this project was ensure interior spaces did not contain any remaining hazardous materials that could be harmful to future occupants. This project only addressed potential indoor contamination. No other environmental investigation or remediation was conducted on the exterior of the building, in groundwater, or in the soil.

The scope of this project was limited to the physical conditions of the building interior (as described above). Regulatory permits were not reviewed or evaluated and any modification to permits, licenses or similar documents was the responsibility of JSR Micro.

2.3 Areas Excluded from Facility Closure Plan

This project only addressed the JSR Micro laboratories (Laboratory #135). Other areas including administrative and office areas were not evaluated.

3. Project Scope

3.1 List of Areas Cleaned/Decontaminated

The two laboratories (Room #135) were the only area cleaned/decontaminated at this facility.

3.2 Cleaning/Decontamination Methods Used

Waste Disposal: All existing chemicals, materials and supplies were disposed of as solid waste, hazardous waste or medical waste in compliance with applicable local, state and federal regulations.

Fume Hoods were decontaminated using simple green and/or bleach wipes. Counters, surfaces, walls and flammable storage cabinets were wiped with soap, simple green or similar cleaning agent throughout all three laboratories. Floors were mopped with soap, simple green or similar cleaning agent and then cleaned with floor polisher throughout all laboratories as well.

3.3 General Work Practices Conducted by ACT

All work activities were conducted under the ACT Field Operations Manual. In general, Level D PPE was utilized by trained personnel during the facility closure process and included but was not limited to coveralls, gloves, chemical resistant boots/shoes, and safety glasses.

All decontamination supplies and equipment were staged in designated areas, outside of work area(s). Access to the site was limited to authorized personnel. As necessary (and as directed by responsible parties) any chemicals, equipment or other items to be retained by account for use at different sites or facilities were packaged and transported by ACT. All transportation of hazardous materials was completed in accordance with applicable local, state, federal regulations. Decontamination activities were conducted, as indicated in Section 3.2 (above), consistent with applicable local, state and federal regulations as well. Exhaust ducts, countertops, tables, and floors were left in place following decontamination.

Once decontamination and waste removal activities were initiated, site access was restricted to ACT personnel and company personnel familiar with the work being performed. ACT personnel entered and exited through a designated area. Non-ACT personnel were instructed on relevant safety measures as applicable. As the project progressed, ACT delineated all decontaminated areas of the building with cleaning/decontamination certifications detailing that the room has been cleaned including the date and name of personnel performing the cleaning. Decontamination certificates were attached to appropriate benchtops and equipment.

4. Waste Management and Documentation

All rinse waters utilized during the cleaning process were collected, pumped, and/or vacuumed into appropriate containment by ACT and managed in accordance with applicable hazardous waste regulations. Contaminated wipes/rags, contaminated detergents, and personal protective equipment (PPE) was collected and disposed of appropriately in accordance with hazardous waste regulations. Chemicals identified as hazardous waste were appropriately segregated, packaged, labeled, and profiled by ACT field chemist(s) for disposal. Hazardous waste was transported for disposal as hazardous waste to a licensed Treatment Storage and Disposal Facility (TSDF) accompanied with appropriate Hazardous Waste Manifest(s). The Hazardous Waste Manifest and lab pack inventory paperwork can be found in Attachment 2 of this closure report. Other relevant documentation, such as waste profiles can be provided by ACT upon request.

5. Sampling and Analysis

Sampling Procedures

Decontamination effectiveness was evaluated through physical cleanliness. If any area appeared physically clean, it is unlikely that there is any significant surface chemical contamination from the hazardous chemicals used by the facility (primarily volatile organic compounds or corrosive liquids). Wipe/surface samples are not generally appropriate for the chemicals or materials used by JSR Micro.

DESIGNATED FACILITY TO DESTINATION STATE (IF REQUIRED)

Attachment 3- Laboratory Decommissioning Procedures used by ACT Environmental Services, Inc.

1.1. General Room/Equipment Decontamination Procedures

- All accessible surfaces, floors, walls and sinks will be wiped, scrubbed and/or mopped with dilute detergent such as simple green and water. All equipment/tools with internal reservoirs will be drained and inspected prior to decommissioning work startup.
- Equipment to be reused by the company will be decontaminated using a bleach, simple green or similar cleaning agents. Alternatively, equipment will be discarded if no longer useful.
- All gas cylinders, ion exchange canisters for Reverse Osmosis- Deionized Water systems and similar items will be returned to the vendor(s).
- Decontamination of analytical labs, hazardous materials storage areas, fume hoods, countertops, floors, drawers (interior and exterior), cabinets (interior and exterior), sinks, and drains will be done utilizing Simple Green, Bleach or detergent soaked wipes using physical agitation on surfaces.
 - All accessible surfaces will first be agitated with cleaning solution applied through mopping or physical agitation of contaminated surfaces with clean cotton cloth.
 - A second physical wiping or mopping will be performed with cleaning agent.
 - Finally the same surfaces will be wiped and or mopped with clean water.
- Room walls will be cleaned from the floor to a level of 5 feet above the floor for any areas where contamination is suspected.
- All hazardous material signs will be removed from walls, doors, cabinets, etc. in the interior of the building.

1.2. Fume Hood Decontamination Procedures

- Fume Hood Exhausts will be cleaned (as described above), if possible, to 6 inches beyond the connection point with the fume hood.
- Unless other arrangements are made fume Hoods will be left in place after cleaning.
- Unless other arrangements are made, fume hood ductwork beyond 6" from fume hood connection point) will not be cleaned or removed.

6. Certification Statement

This report was prepared for JSR Micro by James Kapin of ACT Environmental Services, Inc. The information is, to the best knowledge and belief, true, accurate, and complete. This report is not to be construed as a call to actions for evacuation or remediation. If you have any questions, comments, or concerns, regarding this report, please feel free to contact James Kapin of ACT Environmental Services, Inc. at (619) 990-5955 or by email at JKapin@ACTEnviro.com.

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

1. Summary

This report describes practices and procedures used to reduce levels of removable chemical/biological/contamination at the former JSR Micro laboratory areas located at Suite #135, 11011 N. Torrey Pines Road , La Jolla, CA to acceptable levels This Closure Report is consistent with the guidelines in American National Standards Institute standard Z9.11-2008, *Laboratory Decommissioning* as well as other applicable regulatory requirements. The ANSI Z9.11-2008 standards provide guidance for the laboratory decommissioning however all guidelines specified within the standard are not applicable to this facility. Appropriate documentation of closure activities is included in this Closure Report, including photo attachments and hazardous waste disposal manifests.

Work activities were conducted in accordance with typical professional practice and applicable worker safety and environmental regulations. All decontamination work, including chemical packaging, transport and disposal was performed by ACT Environmental Services, Inc. (ACT). All wastes were disposed of in accordance with applicable local, state and federal regulations. Prior to conducting facility decontamination activities, appropriate JSR Micro records (such as the facility’s Hazardous Materials Business Plan) were reviewed and a site walk was conducted to evaluate the physical condition of the facility and to verify hazardous materials previously used and stored onsite.

Based on these activities as well as the decontamination actions described below, removable contamination in the JSR lab areas and no conditions were identified that would represent a health hazard to future occupants of this space.

2. Property Description

Location: 11011 N. Torrey Pines, La Jolla, CA 92037

2.1 General Description of Facility

JSR Micro occupied two rooms under the same laboratory number (#135). One laboratory was 252 square feet, while the other laboratory was 1,022 square feet, totaling 1,274 square feet. Both laboratories contained general laboratory equipment, such as fume hoods. In general, the laboratory areas were clean and well maintained prior to the facility closure. There was little visible contamination, although some floor, bench top areas and the fume hoods had minor staining or discoloration associated with normal laboratory use.

2.2 Project Overview

Based on an initial evaluation and a review of The Hazardous Materials Business Plan (HMBP), and at the request of JSR Micro, a decontamination work plan was developed. This plan addressed the two laboratories that were used for research and development purposes only. Chemicals that were previously stored onsite included lab-scale quantities. No hazardous metals, potent compounds, Active Pharmaceutical Ingredients (APIs) or other high-hazard substances were used at this facility. All hazardous materials and hazardous waste was removed from the facility during the decontamination procedure. Various pieces of laboratory equipment were left at the facility after the decontamination occurred.

The purpose of this project was ensure interior spaces did not contain any remaining hazardous materials that could be harmful to future occupants. This project only addressed potential indoor contamination. No other environmental investigation or remediation was conducted on the exterior of the building, in groundwater, or in the soil.

The scope of this project was limited to the physical conditions of the building interior (as described above). Regulatory permits were not reviewed or evaluated and any modification to permits, licenses or similar documents was the responsibility of JSR Micro.

2.3 Areas Excluded from Facility Closure Plan

This project only addressed the JSR Micro laboratories (Laboratory #135). Other areas including administrative and office areas were not evaluated.

3. Project Scope

3.1 List of Areas Cleaned/Decontaminated

The two laboratories (Room #135) were the only area cleaned/decontaminated at this facility.

3.2 Cleaning/Decontamination Methods Used

Waste Disposal: All existing chemicals, materials and supplies were disposed of as solid waste, hazardous waste or medical waste in compliance with applicable local, state and federal regulations.

Fume Hoods were decontaminated using simple green and/or bleach wipes. Counters, surfaces, walls and flammable storage cabinets were wiped with soap, simple green or similar cleaning agent throughout all three laboratories. Floors were mopped with soap, simple green or similar cleaning agent and then cleaned with floor polisher throughout all laboratories as well.

3.3 General Work Practices Conducted by ACT

All work activities were conducted under the ACT Field Operations Manual. In general, Level D PPE was utilized by trained personnel during the facility closure process and included but was not limited to coveralls, gloves, chemical resistant boots/shoes, and safety glasses.

All decontamination supplies and equipment were staged in designated areas, outside of work area(s). Access to the site was limited to authorized personnel. As necessary (and as directed by responsible parties) any chemicals, equipment or other items to be retained by account for use at different sites or facilities were packaged and transported by ACT. All transportation of hazardous materials was completed in accordance with applicable local, state, federal regulations. Decontamination activities were conducted, as indicated in Section 3.2 (above), consistent with applicable local, state and federal regulations as well. Exhaust ducts, countertops, tables, and floors were left in place following decontamination.

Once decontamination and waste removal activities were initiated, site access was restricted to ACT personnel and company personnel familiar with the work being performed. ACT personnel entered and exited through a designated area. Non-ACT personnel were instructed on relevant safety measures as applicable. As the project progressed, ACT delineated all decontaminated areas of the building with cleaning/decontamination certifications detailing that the room has been cleaned including the date and name of personnel performing the cleaning. Decontamination certificates were attached to appropriate benchtops and equipment.

4. Waste Management and Documentation

All rinse waters utilized during the cleaning process were collected, pumped, and/or vacuumed into appropriate containment by ACT and managed in accordance with applicable hazardous waste regulations. Contaminated wipes/rags, contaminated detergents, and personal protective equipment (PPE) was collected and disposed of appropriately in accordance with hazardous waste regulations. Chemicals identified as hazardous waste were appropriately segregated, packaged, labeled, and profiled by ACT field chemist(s) for disposal. Hazardous waste was transported for disposal as hazardous waste to a licensed Treatment Storage and Disposal Facility (TSDF) accompanied with appropriate Hazardous Waste Manifest(s). The Hazardous Waste Manifest and lab pack inventory paperwork can be found in Attachment 2 of this closure report. Other relevant documentation, such as waste profiles can be provided by ACT upon request.

5. Sampling and Analysis

Sampling Procedures

Decontamination effectiveness was evaluated through physical cleanliness. If any area appeared physically clean, it is unlikely that there is any significant surface chemical contamination from the hazardous chemicals used by the facility (primarily volatile organic compounds or corrosive liquids). Wipe/surface samples are not generally appropriate for the chemicals or materials used by JSR Micro.

Business Owner or Operator: JSR Micro, Inc.

Please complete the following by entering the chemical name in the chemical name column and then place a check in the quantity column that most closely estimates the amount on hand. If measured by volume, check the appropriate gallon column(s). If measured by weight, check the appropriate pound column(s). If the chemical is a trade secret, you should check the trade secret box. For example, if you have one pint of benzene you would write benzene in the chemical name column and place a check in the <1-gallon column.

(PLEASE NOTE: the symbol < means less than).

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

CONSENT TO CONDUCT INSPECTION GRANTED BY: Ali Mohammadian

TITLE: Compliance & Operations

INTRODUCTION:

The Hazardous Materials Division (HMD) of the Department of Environmental Health serves as the Certified Unified Program Agency (CUPA) for the County of San Diego. As the local CUPA, Hazardous Materials Division implements the Unified Program, which includes programs pertaining to Hazardous Materials Business Plan, Hazardous Waste, Aboveground Petroleum Storage, and Underground Storage Tanks. In San Diego County, Hazardous Materials Division also enforces the Medical Waste Management Act.

Today an initial inspection was completed at Lab Fellows Inc to verify compliance with hazardous waste regulations. At the time of inspection this facility is a conditionally exempt small quantity hazardous waste generator.

This facility began operations at this location: June 2017

This facility is a research and development company specializing in facilitating start-up scientists.

Per facility representative Ali Mohammadian, this facility anticipates to be a small quantity medical waste generator in future business activities and will store on-site reportable amounts of liquid nitrogen. Facility representative has uploaded the medical waste streams into the inventory in CERS and the Medical Waste Management Plan.

Observed on-site during inspection:

- 3 x 5 gallon waste containers of solvent liquid hazardous waste
- 1 x 5 gallon waste container of solid hazardous waste

A hazardous waste pick-up has not occurred at this location since operations began per Ali Mohammadian.

Facility representative submitted a complete hazardous materials business plan (HMBP) in the California Environmental Reporting System (CERS) to notify the Hazardous Materials Division (HMD) of business activities. CERS submittal was verified during inspection.

CERS ID: 10488145

COUNTY OF SAN DIEGO

SUPPLEMENTAL COMPLIANCE INSPECTION REPORT

INSPECTION DATE: 07/18/2017 PAGE 2 OF 7
 RECORD ID #: DEH2014-HUPFP-001157

AT THE TIME OF INSPECTION NO VIOLATIONS WERE OBSERVED

Medical Waste Management Plan

The San Diego County Department of Environmental Health, Hazardous Materials Division (HMD) is the local agency designated by the California Department of Public Health to implement the Medical Waste Management Act. This law governs the generation, handling, storage, transportation, treatment and disposal of medical waste to protect the public and the environment from potential infectious exposure to disease-causing agents.

The Medical Waste Management Plan (MWMP) is a document that describes the types and amount of medical waste generated at a specific location, and indicates how wastes are managed to ensure proper treatment and disposal. All Large Quantity Generators (LQGs) generating **≥200 pounds** of medical waste per month and Small Quantity Generators (SQGs) generating **<200 pounds** of medical waste per month that also treat their medical waste onsite, are required to submit their MWMP to the local enforcement agency. [Authority cited California Health and Safety Code § 117600 et seq.]

SQGs of medical waste that do not treat their medical waste onsite or do not transport waste under the Pharmaceutical Waste Hauling Exemptions, are not required to submit this form to the local enforcement agency; however are required for maintaining a document stating how they contain, store, treat, and dispose of any medical waste generated on file at their office. Completing a MWMP and keeping it at their office can satisfy this requirement. All uses of the Medical Waste Self-Haul and Pharmaceutical Waste Hauling Exemptions require recording and tracking documentation.

Attached is a blank MWMP form for your use. Please **complete, sign, and upload, as required above**, your MWMP to the "Locally-Required Documentation" of the "Hazardous Materials Inventory" section of your California Environmental Reporting System (CERS) facility. Retain a copy for your records and inspection review. If there are changes in any of the information on your MWMP, submit a revised form in CERS within 30 days of changes. Annual submittal of the MWMP is not required.

Additional information about CERS can be found at the following website:
http://www.sandiegocounty.gov/content/sdc/deh/hazmat/hmd_cers.html

If you have any questions, please contact your area inspector or the Hazardous Materials Division Duty Desk at (858) 505-6880.

"Environmental and public health through leadership, partnership and science"

MEDICAL WASTE – DEFINITION OF TERMS

MEDICAL WASTE means biohazardous, pathology, pharmaceutical, or trace chemotherapy waste not regulated by the federal Resource Conservation and Recovery Act; sharps and trace chemotherapy wastes generated in a health care setting in the diagnosis, treatment, immunization, or care of humans or animals; waste generated in autopsy or necropsy; waste generated during preparation of a body for final disposition such as cremation or interment; waste generated in research pertaining to the production or testing of microbiologicals; waste generated in research using human or animal pathogens; sharps and laboratory waste that poses a potential risk of infection to humans generated in the inoculation of animals in commercial farming operations; waste generated from the consolidation of home-generated sharps; and waste generated in the cleanup of trauma scenes.

BIOHAZARDOUS WASTE means all of the following (A-D):

(A) (i) Regulated medical waste, clinical waste, or biomedical waste that is a waste or reusable material derived from the medical treatment of a human or from an animal that is suspected by the attending veterinarian of being infected with a pathogen that is also infectious to humans, which includes diagnosis and immunization; or from biomedical research, which includes the production and testing of biological products.

(ii) Regulated medical waste or clinical waste or biomedical waste suspected of containing a highly communicable disease.

(B) Laboratory waste such as human specimen cultures or animal specimen cultures that are infected with pathogens that are also infectious to humans; cultures and stocks of infectious agents from research; wastes from the production of bacteria, viruses, spores, discarded live and attenuated vaccines used in human health care or research, discarded animal vaccines, including Brucellosis and Contagious Ecthyma, as defined by the department; culture dishes, devices used to transfer, inoculate, and mix cultures; and wastes identified by Section 173.134 of Title 49 of the Code of Federal Regulations as Category B “once wasted” for laboratory wastes.

(C) Waste that, at the point of transport from the generator’s site or at the point of disposal contains recognizable fluid human blood, fluid human blood products, containers, or equipment containing human blood that is fluid, or blood from animals suspected by the attending veterinarian of being contaminated with infectious agents known to be contagious to humans.

(D) Waste containing discarded materials contaminated with excretion, exudate, or secretions from humans or animals that are required to be isolated by the infection control staff, the attending physician and surgeon, the attending veterinarian, or the local health officer, to protect others from highly communicable diseases or diseases of animals that are communicable to humans.

SHARPS CONTAINERS means a rigid puncture-resistant container used in patient care or research activities meeting the standards of, and receiving approval from the United States Food and Drug Administration as a medical device used for the collection of discarded medical needles or other sharps.

“BIOHAZARD BAG” means a disposable film bag that is impervious to moisture. The film bags that are used for transport shall be marked and certified by the manufacturer as having passed the tests prescribed for tear resistance in the American Society for Testing Materials (ASTM) D1922, “Standard Test Method for Propagation Tear Resistance of Plastic Film and Thin Sheeting by Pendulum Method” and for impact resistance in ASTM D 1709, “Standard Test Methods for Impact Resistance of Plastic Film by the Free-Falling Dart Method,” as those documents were published in January 1, 2014. The film bag shall meet an impact resistance of 165 grams and a tearing resistance of 480 grams in both parallel and perpendicular planes with respect to the length of the bag. The color of the bag shall be red; except when yellow bags are used to further segregate trace chemotherapy waste and white bags are used to further segregate pathology waste.

STORAGE AREA WARNING SIGN is: A sign posted at a designated accumulation area, visible for 25 feet, used to store medical waste which must read in English, “CAUTION—BIOHAZARDOUS WASTE STORAGE AREA—UNAUTHORIZED PERSONS KEEP OUT” and in Spanish, “CUIDADO-ZONA DE RESIDUOS—BIOLÓGICOS PELIGROSOS—PROHIBIDA LA ENTRADA A PERSONAS NO AUTORIZADAS” or in another language determined to be appropriate. Intermediate storage areas shall be marked with the international biohazardous symbol or the signage noted above. These warning signs shall be readily legible from a distance of five feet.

PHARMACEUTICAL WASTE (a) means a pharmaceutical, as defined in Section 117747, including trace chemotherapy waste, that is a waste, as defined in Section 25124. (b) For purposes of this part, “pharmaceutical waste” does not include any pharmaceutical that meets either of the following criteria:

(1) The pharmaceutical is being sent out of the State of California to a reverse distributor, as defined in Section 4040.5 of the Business and Professions Code, that is licensed as a wholesaler of dangerous drugs by the California State Board of Pharmacy pursuant to Section 4161 of the Business and Professions Code.

(2) The pharmaceutical is being sent by a reverse distributor, as defined in Section 4040.5 of the Business and Professions Code, offsite for treatment and disposal in accordance with applicable laws, or to a reverse distributor that is licensed as a wholesaler of dangerous drugs by the California State Board of Pharmacy pursuant to Section 4160 of the Business and Professions Code and as a permitted transfer station if the reverse distributor is located within the State of California.

Medical Waste Management Plan

Facility Information	
Business Name Lab Fellows Inc.	Unified Program Facility Permit #
Type of Business Biotech R&D	Date 7/17/2017
Street Address 11011 N. Torrey Pines Rd, #135	City/ZIP La Jolla, 92037
Person Responsible for implementing the Medical Waste Management Plan (MWMP)	
Name Ali Mohammadian	
Title Compliance & Operations	Phone 7604723320
Types of medical wastes (MW) generated	
<input checked="" type="checkbox"/> MW Sharps - e.g., needles, blades, scalpels, or broken glass or syringes contaminated with biohazardous waste. (human or animal) Estimated monthly amount <u>1</u> lbs	<input type="checkbox"/> Blood or blood products - liquid blood or blood products, or other regulated body fluids, or articles contaminated with liquid blood or body fluids. Estimated monthly amount _____ lbs
<input checked="" type="checkbox"/> Laboratory wastes – infectious specimens or microbiological cultures, stocks of infectious agents, live and attenuated vaccines, biologicals, and culture media. Estimated monthly amount <u>15</u> lbs	<input type="checkbox"/> Pathology waste – human or animal tissues suspected to be infectious to humans Estimated monthly amount _____ lbs
<input checked="" type="checkbox"/> Liquid or semi-liquid biohazardous laboratory waste - treated on site by chemical disinfection* and discharged to sewer. Estimated monthly amount <u>5</u> lbs	<input type="checkbox"/> Isolation waste - waste contaminated with excretion, exudates or secretions from humans or animals who are isolated due to highly communicable diseases. Estimated monthly amount _____ lbs
<input type="checkbox"/> Trace chemotherapeutic waste Estimated monthly amount _____ lbs	<input type="checkbox"/> Contaminated animals w/Highly communicable animal carcasses, body parts, tissues or fluids suspected to be contaminated by agents which are contagious. Estimated monthly amount _____ lbs
<input type="checkbox"/> California-regulated pharmaceutical waste (non-RCRA, non-radioactive) Estimated monthly amount _____ lbs	<input type="checkbox"/> Other (specify): _____ Estimated monthly amount _____ lbs
Estimate of <u>TOTAL</u> monthly medical waste for generator classification: <u><25</u> lbs	
Estimate of other monthly medical wastes (does not count towards generator class):	
<input type="checkbox"/> Home Generated MW Sharps Estimated Monthly Amount _____ lbs.	<input type="checkbox"/> Home Generated Pharmaceutical Waste Estimated monthly amount _____ lbs.
ONSITE MEDICAL WASTE TREATMENT ONLY: Method & capacity of medical waste treatment <i>if performed onsite:</i>	
<input type="checkbox"/> Steam Autoclaving <input type="checkbox"/> Other state approved alternative technology (specify below): _____	
Treatment records must be maintained for three years for small quantity generators, and maintained two years for large quantity generators. (HSC§117943; HSC§117975)	

*Per HSC §118215(c), for liquid or semi-liquid biohazardous laboratory waste (§117690(b)(1)(B)), the treatment method must be recognized by the NIH, the CDC, or the American Biological Safety Association. If the chemical disinfection of the medical waste causes the waste to become a hazardous waste, the waste shall be managed in accordance with the requirements of HSC Chapter 6.5 (commencing with §25100) of Division 20.

Medical Waste Management Plan

The following requirements apply to LQGs (HSC§117960), and SQGs that treat MW on-site, or use the Pharmaceutical Waste Hauling Exemption. (HSC§118032)

Emergency Action Plan

This plan is to be followed to ensure the proper disposal of medical waste, including controlled substances in compliance with DEA, approved incineration of pharmaceutical and trace chemotherapy in the event of a natural disaster, spill, treatment system break down, power failure, etc., and closure plan at termination (600 characters max. for WORD interactive form - use additional sheets if necessary). (LQG HSC§117960(h); SQG HSC§117935).

Registered hazardous waste hauler/common carrier used to remove untreated medical waste (if applicable)	
Primary Hauler Name Ingenium	Phone # 800-805-6236
Street Address 2280 Micro Pl,	City/ZIP Escondido, CA 92029
Contact Person Nicole Melendrez	Contact Phone # 760-745-8780
Offsite treatment facility to which medical waste is transported (if applicable)	
Facility Name Medical Waste Services	Phone # 888-610-1311
Street Address 7321 Quimby St	City/ZIP Paramount, CA 90723
Contact Person Customer Service	Contact Phone # 888-610-1311
<u>Pharmaceutical Waste Categorization</u> If applicable, the steps taken to categorize the pharmaceutical wastes generated at the facility to ensure that the wastes are properly disposed of as follows: (1) Pharmaceutical wastes classified by the federal Drug Enforcement Administration (DEA) as "controlled substances" are disposed of in compliance with DEA requirements. <u>(2) The name and business address of the registered hazardous waste hauler used by the generator to have wastes that are not regulated pursuant to the federal Resource Conservation and Recovery Act of 1976 and nonradioactive pharmaceutical wastes regulated as medical waste safely removed for treatment in compliance with subdivision (b) of Section 118222 as waste requiring specific methods. (LQG:HSC§117960(i); SQG:HSC§117935(i))</u>	
<u>Closure Plan</u> A closure plan for the termination of treatment at the facility using, at a minimum, one of the methods of decontamination specified in subdivision (a) or (b) of Section 118295, thereby rendering the property to an acceptable sanitary condition following the completion of treatment services at the site. (LQG: HSC§117960(j); SQG: HSC§117935(j))

SAN DIEGO COUNTY DEPARTMENT OF ENVIRONMENTAL HEALTH HAZARDOUS MATERIALS DIVISION

Annual Carcinogen and Reproductive Toxin Reporting List

Business Name: Business Address: 11011 N. Torrey Pines Rd. #135, La Jolla, CA 92037

Business Owner or Operator: Lab Fellows Inc.

Please complete the following by entering the chemical name in the chemical name column and then place a check in the quantity column that most closely estimates the amount on hand. If measured by volume, check the appropriate gallon column(s). If measured by weight, check the appropriate pound column(s). If the chemical is a trade secret, you should check the trade secret box. For example, if you have one pint of benzene you would write benzene in the chemical name column and place a check in the <1-gallon column.

(PLEASE NOTE: the symbol < means less than).

CERS ACCESS/I.D. REQUEST FORM

All Certified Unified Program Agency (CUPA) regulated businesses are required by law (Assembly Bill 2286) to submit business information electronically through the California Environmental Reporting System (CERS). This includes information related to your:

- Unified Program Facility Permit
- Hazardous Materials Business Plan
- Hazardous Waste
- Hazardous Waste Onsite Treatment
- Hazardous Waste Tank Closures
- Remote Waste Consolidation
- Recyclable Materials Reports
- Underground Storage Tanks
- Aboveground petroleum storage over 1,320 gallons
- Medical Waste**

A CERS I.D. is required in order to obtain or maintain a valid Unified Program Facility Permit. Please send your completed form to the County of San Diego Hazardous Materials Division (address above). When your CERS account is established, your designated lead users will receive an email with directions to begin electronic reporting.

** In San Diego County, Medical Waste Generators are required to report in CERS in order to receive a valid permit.

<input type="checkbox"/> Change of Owner (C/O): a business is sold to a new owner. <input type="checkbox"/> Relocation: a business moves to a new address and owner remains the same. <input checked="" type="checkbox"/> New Business: a business opens in a vacant or newly constructed building. <input type="checkbox"/> CERS Assistance Requested: none of the above are applicable. Medical Waste Management Plan

The San Diego County Department of Environmental Health, Hazardous Materials Division (HMD) is the local agency designated by the California Department of Public Health to implement the Medical Waste Management Act. This law governs the generation, handling, storage, transportation, treatment and disposal of medical waste to protect the public and the environment from potential infectious exposure to disease-causing agents.

The Medical Waste Management Plan (MWMP) is a document that describes the types and amount of medical waste generated at a specific location, and indicates how wastes are managed to ensure proper treatment and disposal. All Large Quantity Generators (LQGs) generating **≥200 pounds** of medical waste per month and Small Quantity Generators (SQGs) generating **<200 pounds** of medical waste per month that also treat their medical waste onsite, are required to submit their MWMP to the local enforcement agency. [Authority cited California Health and Safety Code § 117600 et seq.]

SQGs of medical waste that do not treat their medical waste onsite or do not transport waste under the Pharmaceutical Waste Hauling Exemptions, are not required to submit this form to the local enforcement agency; however are required for maintaining a document stating how they contain, store, treat, and dispose of any medical waste generated on file at their office. Completing a MWMP and keeping it at their office can satisfy this requirement. All uses of the Medical Waste Self-Haul and Pharmaceutical Waste Hauling Exemptions require recording and tracking documentation.

Attached is a blank MWMP form for your use. Please **complete, sign, and upload, as required above**, your MWMP to the “Locally-Required Documentation” of the “Hazardous Materials Inventory” section of your California Environmental Reporting System (CERS) facility. Retain a copy for your records and inspection review. If there are changes in any of the information on your MWMP, submit a revised form in CERS within 30 days of changes. Annual submittal of the MWMP is not required.

Additional information about CERS can be found at the following website:
http://www.sandiegocounty.gov/content/sdc/deh/hazmat/hmd_cers.html

If you have any questions, please contact your area inspector or the Hazardous Materials Division Duty Desk at (858) 505-6880.

"Environmental and public health through leadership, partnership and science"

MEDICAL WASTE – DEFINITION OF TERMS

MEDICAL WASTE means biohazardous, pathology, pharmaceutical, or trace chemotherapy waste not regulated by the federal Resource Conservation and Recovery Act; sharps and trace chemotherapy wastes generated in a health care setting in the diagnosis, treatment, immunization, or care of humans or animals; waste generated in autopsy or necropsy; waste generated during preparation of a body for final disposition such as cremation or interment; waste generated in research pertaining to the production or testing of microbiologicals; waste generated in research using human or animal pathogens; sharps and laboratory waste that poses a potential risk of infection to humans generated in the inoculation of animals in commercial farming operations; waste generated from the consolidation of home-generated sharps; and waste generated in the cleanup of trauma scenes.

BIOHAZARDOUS WASTE means all of the following (A-D):

(A) (i) Regulated medical waste, clinical waste, or biomedical waste that is a waste or reusable material derived from the medical treatment of a human or from an animal that is suspected by the attending veterinarian of being infected with a pathogen that is also infectious to humans, which includes diagnosis and immunization; or from biomedical research, which includes the production and testing of biological products.

(ii) Regulated medical waste or clinical waste or biomedical waste suspected of containing a highly communicable disease.

(B) Laboratory waste such as human specimen cultures or animal specimen cultures that are infected with pathogens that are also infectious to humans; cultures and stocks of infectious agents from research; wastes from the production of bacteria, viruses, spores, discarded live and attenuated vaccines used in human health care or research, discarded animal vaccines, including Brucellosis and Contagious Ecthyma, as defined by the department; culture dishes, devices used to transfer, inoculate, and mix cultures; and wastes identified by Section 173.134 of Title 49 of the Code of Federal Regulations as Category B “once wasted” for laboratory wastes.

(C) Waste that, at the point of transport from the generator’s site or at the point of disposal contains recognizable fluid human blood, fluid human blood products, containers, or equipment containing human blood that is fluid, or blood from animals suspected by the attending veterinarian of being contaminated with infectious agents known to be contagious to humans.

(D) Waste containing discarded materials contaminated with excretion, exudate, or secretions from humans or animals that are required to be isolated by the infection control staff, the attending physician and surgeon, the attending veterinarian, or the local health officer, to protect others from highly communicable diseases or diseases of animals that are communicable to humans.

SHARPS CONTAINERS means a rigid puncture-resistant container used in patient care or research activities meeting the standards of, and receiving approval from the United States Food and Drug Administration as a medical device used for the collection of discarded medical needles or other sharps.

“BIOHAZARD BAG” means a disposable film bag that is impervious to moisture. The film bags that are used for transport shall be marked and certified by the manufacturer as having passed the tests prescribed for tear resistance in the American Society for Testing Materials (ASTM) D1922, “Standard Test Method for Propagation Tear Resistance of Plastic Film and Thin Sheeting by Pendulum Method” and for impact resistance in ASTM D 1709, “Standard Test Methods for Impact Resistance of Plastic Film by the Free-Falling Dart Method,” as those documents were published in January 1, 2014. The film bag shall meet an impact resistance of 165 grams and a tearing resistance of 480 grams in both parallel and perpendicular planes with respect to the length of the bag. The color of the bag shall be red; except when yellow bags are used to further segregate trace chemotherapy waste and white bags are used to further segregate pathology waste.

STORAGE AREA WARNING SIGN is: A sign posted at a designated accumulation area, visible for 25 feet, used to store medical waste which must read in English, “CAUTION—BIOHAZARDOUS WASTE STORAGE AREA—UNAUTHORIZED PERSONS KEEP OUT” and in Spanish, “CUIDADO-ZONA DE RESIDUOS—BIOLÓGICOS PELIGROSOS—PROHIBIDA LA ENTRADA A PERSONAS NO AUTORIZADAS” or in another language determined to be appropriate. Intermediate storage areas shall be marked with the international biohazardous symbol or the signage noted above. These warning signs shall be readily legible from a distance of five feet.

PHARMACEUTICAL WASTE (a) means a pharmaceutical, as defined in Section 117747, including trace chemotherapy waste, that is a waste, as defined in Section 25124. (b) For purposes of this part, “pharmaceutical waste” does not include any pharmaceutical that meets either of the following criteria:

(1) The pharmaceutical is being sent out of the State of California to a reverse distributor, as defined in Section 4040.5 of the Business and Professions Code, that is licensed as a wholesaler of dangerous drugs by the California State Board of Pharmacy pursuant to Section 4161 of the Business and Professions Code.

(2) The pharmaceutical is being sent by a reverse distributor, as defined in Section 4040.5 of the Business and Professions Code, offsite for treatment and disposal in accordance with applicable laws, or to a reverse distributor that is licensed as a wholesaler of dangerous drugs by the California State Board of Pharmacy pursuant to Section 4160 of the Business and Professions Code and as a permitted transfer station if the reverse distributor is located within the State of California.

Medical Waste Management Plan

Facility Information	
Business Name Lab Fellows Inc.	Unified Program Facility Permit #
Type of Business Biotech R&D	Date 7/17/2017
Street Address 11011 N. Torrey Pines Rd, #135	City/ZIP La Jolla, 92037
Person Responsible for implementing the Medical Waste Management Plan (MWMP)	
Name Ali Mohammadian	
Title Compliance & Operations	Phone 7604723320
Types of medical wastes (MW) generated	
<input checked="" type="checkbox"/> MW Sharps - e.g., needles, blades, scalpels, or broken glass or syringes contaminated with biohazardous waste. (human or animal) Estimated monthly amount <u>1</u> lbs	<input type="checkbox"/> Blood or blood products - liquid blood or blood products, or other regulated body fluids, or articles contaminated with liquid blood or body fluids. Estimated monthly amount _____ lbs
<input checked="" type="checkbox"/> Laboratory wastes – infectious specimens or microbiological cultures, stocks of infectious agents, live and attenuated vaccines, biologicals, and culture media. Estimated monthly amount <u>15</u> lbs	<input type="checkbox"/> Pathology waste – human or animal tissues suspected to be infectious to humans Estimated monthly amount _____ lbs
<input checked="" type="checkbox"/> Liquid or semi-liquid biohazardous laboratory waste - treated on site by chemical disinfection* and discharged to sewer. Estimated monthly amount <u>5</u> lbs	<input type="checkbox"/> Isolation waste - waste contaminated with excretion, exudates or secretions from humans or animals who are isolated due to highly communicable diseases. Estimated monthly amount _____ lbs
<input type="checkbox"/> Trace chemotherapeutic waste Estimated monthly amount _____ lbs	<input type="checkbox"/> Contaminated animals w/Highly communicable animal carcasses, body parts, tissues or fluids suspected to be contaminated by agents which are contagious. Estimated monthly amount _____ lbs
<input type="checkbox"/> California-regulated pharmaceutical waste (non-RCRA, non-radioactive) Estimated monthly amount _____ lbs	<input type="checkbox"/> Other (specify): _____ Estimated monthly amount _____ lbs
Estimate of <u>TOTAL</u> monthly medical waste for generator classification: <u><25</u> lbs	
Estimate of other monthly medical wastes (does not count towards generator class):	
<input type="checkbox"/> Home Generated MW Sharps Estimated Monthly Amount _____ lbs.	<input type="checkbox"/> Home Generated Pharmaceutical Waste Estimated monthly amount _____ lbs.
ONSITE MEDICAL WASTE TREATMENT ONLY: Method & capacity of medical waste treatment <i>if performed onsite:</i>	
<input type="checkbox"/> Steam Autoclaving <input type="checkbox"/> Other state approved alternative technology (specify below): _____	
Treatment records must be maintained for three years for small quantity generators, and maintained two years for large quantity generators. (HSC§117943; HSC§117975)	

*Per HSC §118215(c), for liquid or semi-liquid biohazardous laboratory waste (§117690(b)(1)(B)), the treatment method must be recognized by the NIH, the CDC, or the American Biological Safety Association. If the chemical disinfection of the medical waste causes the waste to become a hazardous waste, the waste shall be managed in accordance with the requirements of HSC Chapter 6.5 (commencing with §25100) of Division 20.

Medical Waste Management Plan

The following requirements apply to LQGs (HSC§117960), and SQGs that treat MW on-site, or use the Pharmaceutical Waste Hauling Exemption. (HSC§118032)

Emergency Action Plan

This plan is to be followed to ensure the proper disposal of medical waste, including controlled substances in compliance with DEA, approved incineration of pharmaceutical and trace chemotherapy in the event of a natural disaster, spill, treatment system break down, power failure, etc., and closure plan at termination (600 characters max. for WORD interactive form - use additional sheets if necessary). (LQG HSC§117960(h); SQG HSC§117935).

Registered hazardous waste hauler/common carrier used to remove untreated medical waste (if applicable)	
Primary Hauler Name Ingenium	Phone # 800-805-6236
Street Address 2280 Micro Pl,	City/ZIP Escondido, CA 92029
Contact Person Nicole Melendrez	Contact Phone # 760-745-8780
Offsite treatment facility to which medical waste is transported (if applicable)	
Facility Name Medical Waste Services	Phone # 888-610-1311
Street Address 7321 Quimby St	City/ZIP Paramount, CA 90723
Contact Person Customer Service	Contact Phone # 888-610-1311
<u>Pharmaceutical Waste Categorization</u> If applicable, the steps taken to categorize the pharmaceutical wastes generated at the facility to ensure that the wastes are properly disposed of as follows: (1) Pharmaceutical wastes classified by the federal Drug Enforcement Administration (DEA) as "controlled substances" are disposed of in compliance with DEA requirements. <u>(2) The name and business address of the registered hazardous waste hauler used by the generator to have wastes that are not regulated pursuant to the federal Resource Conservation and Recovery Act of 1976 and nonradioactive pharmaceutical wastes regulated as medical waste safely removed for treatment in compliance with subdivision (b) of Section 118222 as waste requiring specific methods.</u> (LQG:HSC§117960(i); SQG:HSC§117935(i))	
<u>Closure Plan</u> A closure plan for the termination of treatment at the facility using, at a minimum, one of the methods of decontamination specified in subdivision (a) or (b) of Section 118295, thereby rendering the property to an acceptable sanitary condition following the completion of treatment services at the site. (LQG: HSC§117960(j); SQG: HSC§117935(j))

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

CONSENT TO CONDUCT INSPECTION GRANTED BY: Ali Mohammadian

TITLE: Compliance & Operations

INTRODUCTION:

ROUTINE INSPECTION

A routine inspection was conducted on 08/28/19 at Lab Fellow Inc. to verify compliance with hazardous materials (HM), hazardous waste (HW) and medical waste (MW) management. This facility is a research and development company specializing in facilitating start-up scientists. David Rivera, Lab Coordinator, granted consent to conduct this inspection and review documents.

The following people were available during the inspection:

Isabel Wen - LabFellows, Head of Community
 Ali Mohammadian - LabFellows, Compliance & Operations

At the time of inspection based on observations, this facility is required to maintain a Unified Program Facility Permit for the following:

- Hazardous waste generator requirements as a Small Quantity Generator (SQG) of hazardous waste (100-1000 kg/mo; 220-2200 lbs/mo; 27-270 gallons/mo; or ≤1 kg [2.2 lbs]/mo of acutely hazardous waste). 40 CFR §260.10 & 22 CCR §66260.10
- Medical waste generator requirements as a Small Quantity Generator (SQG) of medical waste (<200 lbs/mo.) HSC § 117625

The following hazardous materials in reportable quantities and wastes were observed during the inspection walk-through of the laboratory areas:

- Hazardous Flammable Liquid Waste (Mixed Solvents)
- Biohazardous Solid Waste (Red Bags)

For Reference:

Last inspection performed by Anastasiya Irkhin, Environmental Health Specialist, on 07/18/17
 Facility CERS ID Number: 10488145 (last submittal date before this inspection: 08/10/18)
 Facility EPA ID Number: CAL000429206 (active during the time of inspection)

COUNTY OF SAN DIEGO

SUPPLEMENTAL COMPLIANCE INSPECTION REPORT

INSPECTION DATE: 08/28/2019 PAGE 2 OF 8
RECORD ID #: DEH2014-HUPFP-001157

INSPECTION REMARKS:

Minor Violations Corrected On-site:

1. Biohazardous bags not containerized in rigid, leak resistant, and covered containers or bins when placed for storage, handling, or transport. HSC 118280(c)

- Observed 1 x biohazardous red bag with contents inside tied off placed on the floor without a containerized rigid, leak resistant, and covered container or bin. Biohazardous bag was immediately placed into biohazardous waste storage freezer

Further Remarks:

- The following documents were available for review
 - Hazardous Waste Manifests (3 years)
 - Medical Waste Receipts (3 years)
 - Hazardous Waste Contingency Plan
- This facility facilitates a shared lab space that has approximately 3-4 start up companies renting out laboratory space
- The following inventory items are listed on the facility's hazardous materials inventory in the California Environmental Reporting System (CERS) but was not observed on-site during today's inspection. Per Mr. Mohammadian, these waste streams will remain on the inventory list at this time in the case they are generated:
 - Liquid Biohazardous Waste
 - Hazardous Solid Waste (Lab Debris)
- The following items hazardous materials were observed on-site under reportable thresholds:
 - Compressed Carbon Dioxide Gas: 1 x 50 lb cylinder
 - Compressed Nitrogen Gas: 1 x 304 cf cylinder
- BE ADVISED: If facility decides to manage hazardous waste via satellite hazardous waste requirements then please review and ensure all satellite hazardous waste requirements are met per 22 CCR 66262.34(e)

<input type="checkbox"/> 3030039	Failed to have an emergency coordinator on the premises or on call, and available during an emergency. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(5)(i)
<input type="checkbox"/> HMD0412	Failed to implement and/or coordinate emergency response measures during an emergency, spill/release. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(5)(iv)

HAZARDOUS WASTE TANK SYSTEMS FOR SQGS ONLY

#	VIOLATION DESCRIPTION
---	-----------------------

HM-923 (10-18)

COUNTY OF SAN DIEGO

COMPLIANCE INSPECTION REPORT

Hazardous Materials and Hazardous Waste (continued)

- 3030024 Failed to operate uncovered tank to ensure at least 2 ft. of freeboard to prevent overtopping, unless the tank is equipped with a containment structure, a drainage control system, or a diversion structure with a capacity that equals or exceeds the volume of the top 2 ft. of the tank. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(3), 265.201(b)(c)
- 3030025 Failed to provide an overflow protection device on continuously fed hazardous waste tank(s). 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(3), 265.201(b)(4)
- 3030027 Failed to conduct daily tank inspection of discharge control system, monitoring equipment and waste level. 22 CCR 66262.34(d)(2); 40 CFR 265.201(c)(1-3), 262.34(d)(3)
- 3030028 Failed to conduct weekly hazardous waste tank inspection(s) to detect signs of leakage and ensure that the construction materials, fixtures and surrounding areas of the tank are in good condition. 22 CCR 66262.34(d)(2); 40 CFR 265.201(c)(4 & 5), 262.34(d)(3)
- 3050007 Failed to properly remove all waste upon closure, decontaminate, and document the closure of a hazardous waste tank system. 22 CCR 67383.3; 40 CFR 262.34(d)(3), 265.201(f)
- HMD1612 Hazardous waste improperly stored in a tank system causing leaks, corrosion, or failure. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(3), 265.201(b)
- HMD1614 Failed to pre-notify the CUPA in writing prior to closing a hazardous waste tank system. 22 CCR 67383.3(a)(1)
- HMD1615 Failed to properly accumulate ignitable or reactive waste in a tank system. 22 CCR 66262.34(d)(2); 40 CFR 262.34(d)(3), 265.201(g)

HAZARDOUS WASTE REQUIREMENTS FOR SQGS AND LOGS

RECORD KEEPING/OPERATIONAL REQUIREMENTS

- # VIOLATION DESCRIPTION
- HMD0131 Unified Program Facility Permit not obtained &/or maintained for the generation of hazardous waste. SDCC 68.905
 - HMD0150 Failed to submit complete and accurate Facility Information in CERS. 27 CCR 15188(b-c); SDCC 68.904(b)
 - 3030053 Failed to maintain waste analysis records, analytical records &/or waste determination results for at least 3 years. 22 CCR 66262.40(c)
 - 3010002 Failed to obtain &/or maintain an active EPA ID Number. 22 CCR 66262.12(a)
 - 3010008 Failed to properly complete a uniform hazardous waste manifest. 22 CCR 66262.23(a)
 - 3010009 Failed to submit an Exception Report to DTSC for hazardous waste manifest. HSC 25123.3(h)(2); 22 CCR 66262.42(b), (c), &/or (d)
 - 3010010 Failed to maintain copies of Uniform Hazardous Waste Manifest, consolidated manifest, or Bills of Lading for 3 years. HSC 25160.2(b)(3), 25185(a)(4); 22 CCR 66262.40(a), 66262.23(a)(3)
 - 3010011 Failed to send copy of the uniform hazardous waste manifest to DTSC within 30 days of shipment. 22 CCR 66262.23(a)(4)
 - 3010013 Failed to meet the consolidated manifesting requirements for waste shipment. HSC 25160.2(b)(3) &/or (c)
 - 3010014 Failed to retain at the generator's place of business disposal records of spent lead-acid batteries for at least 3 years. 22 CCR 66266.81(a)(4)(A) &/or (B)
 - 3030006 Failed to determine if a hazardous waste is restricted or prohibited from land disposal and has to be treated. 22 CCR 66268.7(a)(1)
 - 3010016 Failure of recycler who recycles more than 100 kilograms per month of a recyclable material to submit the biennial Recyclable Materials Report (RMR) in CERS when claiming exclusion or exemption. HSC 25143.10(a), (c) &/or (d)
 - HMD0149 Failed to keep disposal receipts for drained used oil filters and/or drained fuel filters for 3 years. HSC 25250.22; 22 CCR 66266.130(c)(5)
 - HMD0152 Failed to report &/or update the required inventory information for hazardous waste(s) generated at the facility in CERS. SDCC 68.904(a)(2)
 - HMD0140 Failed to have Land Disposal Restriction documentation onsite for 3 years. 22 CCR 66268.7(a)(8)
 - 3250005 Failed to obtain a Treatment, Storage and Disposal Facility (TSDF) permit or authorization to store/treat/dispose of hazardous waste. HSC 25201(a)
 - 3050005 Failed to have adequate records demonstrating claim of exemption or exclusion for recyclable materials. HSC 25143.2(f)
 - HMD0142 Failed to notify the CUPA in CERS for onsite hazardous waste treatment/tiered permitting. HSC 25201(a)
 - HMD0138 Manifest signed by the TSDF not available for inspection. 22 CCR 66262.40(a); HSC 25185(a)(4)
 - 3010035 Failure to annually submit notification of generator's intent to remotely consolidate hazardous waste. HSC 25110.10(d)

DISPOSAL AND TRANSPORTATION

- # VIOLATION DESCRIPTION
- 3010007 Failed to prepare a hazardous waste manifest for the transport of a waste for off-site transfer, treatment, storage, or disposal. HSC 25160(b)(1) or (2), 25160.2(b)(9); 22 CCR 66262.20(a)
 - 3030005 Failed to make a proper waste determination. 22 CCR 66262.11, 66262.40(c)
 - 3050001 Failed to use a DTSC registered hazardous waste transporter to transport hazardous waste. HSC 25163(a)
 - 3050002 Failed to properly dispose of hazardous waste at an authorized facility. HSC 25189.5(a)
 - HMD0308 Impermissible dilution of hazardous waste. 22 CCR 66268.3(a)
 - HMD0305 Disposed of used oil illegally. HSC 25250.5(a), 25189.5(a)
 - HMD0306 Failed to properly dispose of oil-based paint &/or hazardous waste latex paint liquid. HSC 25217.1, 25189.5(a)

STORAGE AND HANDLING

- # VIOLATION DESCRIPTION
- 3030001 Failed to meet the management requirements when handling or storing spent lead-acid batteries. 22 CCR 66266.81(a)
 - 3030003 Failed to properly manage 'damaged' spent lead acid batteries so as to minimize the release of acid and lead and to protect the handlers and the environment 22 CCR 66266.81(b)
 - 3030004 Failed to properly manage, store, label &/or recycle used oil filters &/or used fuel filters. HSC 25250.22; 22 CCR 66266.130
 - 3050004 Generator intentionally contaminated used oil with another hazardous waste other than minimal amounts of fuel. HSC 25250.7(a), (c)
 - HMD0222 Failed to properly label Excluded Recyclable Materials (ERM) accumulated in a container or tank. HSC 25143.9(a)
 - HMD0216 Failed to label hazardous material container within 10 days after the container was discovered to be mislabeled or inadequately labeled. HSC 25124(b)(3)(A); 22 CCR 66262.34(f)
 - HMD0217 Failed to repackage and properly label damaged/deteriorated hazardous material container within 96 hours. HSC 25124(b)(3)(B); 22 CCR 66262.34(f)
 - HMD0219 Failed to properly segregate used oil &/or fuel drained from filters. HSC 25250.22(b)(4); 22 CCR 66266.130(c)(6)
 - 3030057 Failed to comply with hazardous waste satellite container regulation. 22 CCR 66262.34(e)
 - HMD0023 Failed to properly empty container, failed to manage non-empty container, or inner liner removed from a container. 22 CCR 66261.7(b), (d), (e) &/or (r)

COUNTY OF SAN DIEGO

Medical Waste Generators

Each violation checked below is for the section(s) of the California health and Safety Code (HSC), California Code of Regulation (CCR), or the San Diego County Code (SDCC) indicated in italics. All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form (HM-926) to document your return to compliance. Please call (858) 505-6880 or your Specialist if you have any questions. UPF = Unified Program Facility; MW = Medical Waste; USPS = United States Postal Service; DOT = Department of Transportation

MEDICAL WASTE GENERATORS

STORAGE AND LABELING

#	<u>VIOLATION DESCRIPTION</u>
<input type="checkbox"/> HMD4201	UPF Permit not obtained. HSC 117705; SDCC 68.905, 68.906, 68.1202
<input type="checkbox"/> HMD4216	Failed to submit or report in CERS chemical inventory information for hazardous waste and/or medical waste, and keep up to date. SDCC 68.904(a)(2)
<input type="checkbox"/> HMD4202	Medical waste (MW) not separated from other waste at the point of origin. HSC 118275
<input type="checkbox"/> HMD4203	Enclosure or designated accumulation area for MW containers not secured. HSC 118307, 118310
<input type="checkbox"/> HMD4204	MW designated accumulation area not posted with an approved, legible biohazardous waste "warning sign" in English & Spanish or in another language, in addition to English which can be read from a distance of at least 25 feet. HSC 118310
<input type="checkbox"/> HMD4205	Medical SOLID WASTE not secured to deny access to unauthorized persons. SDCC 68.1211
<input type="checkbox"/> HMD4206	Leak or spill of MW not properly decontaminated. HSC 118300
<input type="checkbox"/> HMD4207	Sharps not stored in approved container or labeled with the words "sharps waste" or with the international biohazard symbol and the word "BIOHAZARD". HSC 118285(a) & (d)
<input type="checkbox"/> HMD4208	Full sharps container not taped closed or tightly-lidded to preclude loss of contents. HSC 118285(b)
<input type="checkbox"/> HMD4209	Primary containers accumulating MW not labeled with an electronic tracking system label or a label with generator's name, address and phone number. SDCC 68.1205
<input type="checkbox"/> HMD4210	Medical waste not stored in approved and properly marked biohazard bags. HSC 118275(a)
<input type="checkbox"/> HMD4211	Biohazard bags not tied off to prevent leakage or expulsion of contents during storage and handling. HSC 118280(a)
<input type="checkbox"/> HMD4212	Biohazardous bags not containerized in rigid, leak resistant, and covered containers or bins when placed for storage, handling, or transport. HSC 118280(c)
<input type="checkbox"/> HMD4213	Waste container or bin not labeled with the words "Biohazardous Waste" or with the international biohazard symbol and the word "BIOHAZARD" on the lid and sides. HSC 118280(c)
<input type="checkbox"/> HMD4214	Reusable containers or bins for MW storage not thoroughly washed and decontaminated and maintained in a clean and sanitary manner. HSC 118295, 118305
<input type="checkbox"/> HMD4215	Frozen (0°C/32°F) biohazardous waste stored for more than 90 days. HSC 118280(e)(2)
<input type="checkbox"/> HMD4306	Full sharps container stored more than 30 days at >0°C. HSC 118285(c)
<input type="checkbox"/> HMD4307	Biohazard bag waste stored more than 7 days at >0°C (for generators of 20 or more pounds a month). HSC 118280(e)(1)(A)
<input type="checkbox"/> HMD4308	Biohazard bag waste stored >30 days at >0°C (for generators of <20lbs/month). HSC 118280(e)(1)(B)
<input type="checkbox"/> HMD4219	MW interim storage area not marked with warning signs or international biohazard symbol legible from a distance of 5 feet. HSC 118307, 118310
<input type="checkbox"/> HMD4220	MW interim storage area not properly secured. HSC 118307

TREATMENT AND DISPOSAL

#	<u>VIOLATION DESCRIPTION</u>
<input type="checkbox"/> HMD4251	MW treated by unapproved method/procedure. HSC 118215
<input type="checkbox"/> HMD4252	Standard written operating procedures for steam sterilization not established. HSC 118215(a)(2)(A)
<input type="checkbox"/> HMD4253	Recording thermometer not calibrated annually. HSC 118215(a)(2)(B)
<input type="checkbox"/> HMD4254	No records of annual thermometer calibration checks onsite for at least the past 2 years. HSC 118215(a)(2)(B)
<input type="checkbox"/> HMD4255	Heat-sensitive tape or other approved method not used for each load treated onsite. HSC 118215(a)(2)(C)
<input type="checkbox"/> HMD4256	Monthly biological indicator or other approved indicator not used to confirm proper sterilization. HSC 118215(a)(2)(D)
<input type="checkbox"/> HMD4257	Onsite steam sterilization did not reach 121° C (250° F) for at least 30 minutes. HSC 118215(a)(2)(B)
<input type="checkbox"/> HMD4258	Treatment records or logs of dates, time, and temperature not maintained for at least 2 years. HSC 118215(a)(2)(E)
<input type="checkbox"/> HMD4259	Disposal of untreated MW to an unauthorized point. HSC 118340

TRANSPORTATION REQUIREMENTS

#	<u>VIOLATION DESCRIPTION</u>
<input type="checkbox"/> HMD4260	Transportation of MW without State Hauler Registration, USPS or requirements of the DOT "Materials of Trade Exceptions." HSC 118025
<input type="checkbox"/> HMD4311	Medical waste tracking documents or logs not in vehicle transporting medical waste. HSC 118040(a)
<input type="checkbox"/> HMD4313	Medical waste tracking documents or logs not complete. HSC 118040(b)

SMALL QUANTITY GENERATORS ONLY

(<200 POUNDS OF MEDICAL WASTE GENERATED PER MONTH)

#	<u>VIOLATION DESCRIPTION</u>
<input type="checkbox"/> HMD4301	Medical Waste Management Plan (MWMP) not submitted to HMD (initial/updates), if onsite treatment. HSC 117935
<input type="checkbox"/> HMD4302	Did not maintain and show proof of "onsite" medical waste treatment records for 3 years. HSC 117943
<input type="checkbox"/> HMD4303	Did not maintain on file disposal receipts, tracking or shipping documents for medical waste shipped offsite for at least 3 years. HSC 117945
<input type="checkbox"/> HMD4309	MWMP or equivalent information not onsite (only for SQG doing onsite treatment or comply with pharmaceutical waste hauling exemption). HSC 117935, 118032
<input type="checkbox"/> HMD4310	Did not meet the requirements of the pharmaceutical waste hauling exemption. HSC 118032

LARGE QUANTITY GENERATORS ONLY

Medical Waste Management Plan

Facility Information	
Business Name	Permit or Registration #
Type of Business	Date
Street Address	City/ZIP
Person Responsible for implementing the Medical Waste Management Plan (MWMP)	
Name	
Title	Phone
Types of Medical Wastes (MW) Generated	
Please check the box for all types of medical waste that will be generated by your facility. Also estimate the number of pounds (lbs.) that will be generated each month. Definitions are in Chapter 2 of the Medical Waste Management Act in the California Health and Safety Code (HSC) §117625-117780.	
<input type="checkbox"/> Sharps waste - a device used in a healthcare setting that has acute rigid corners, edges, or protuberances capable of cutting or piercing. (e.g., needles, syringes, blades, scalpels, root canal files, Pasteur pipettes, or broken glass) <p style="text-align: right;">Estimated monthly amount _____ lbs</p>	<input type="checkbox"/> Biohazardous waste – regulated medical waste, clinical waste, or biomedical waste from the medical treatment of a human or from an animal that is suspected to be infected with a pathogen that is infectious to humans. Biohazardous waste also includes: Highly Communicable waste - waste contaminated with excretion, exudates or secretions from humans or animals who are isolated due to highly communicable diseases. Laboratory waste – infectious specimens or microbiological cultures, stocks of infectious agents, live and attenuated vaccines, biologicals, and culture media. Fluid Blood or Blood Products – recognizable fluid human blood or blood products, containers, equipment containing human blood or blood from animals <p style="text-align: right;">Estimated monthly amount _____ lbs</p>
<input type="checkbox"/> Non RCRA Pharmaceutical waste - a prescription or over-the-counter human or veterinary drug that is not RCRA hazardous waste nor radiological waste. <p style="text-align: right;">Estimated monthly amount _____ lbs</p>	<input type="checkbox"/> Liquid/Semi-liquid biohazardous waste - treated onsite by chemical disinfection and discharged to sewer.* <p style="text-align: right;">Estimated monthly amount _____ lbs</p>
<input type="checkbox"/> Trace Chemotherapeutic waste - waste that is contaminated through contact or contained, chemotherapeutic agents. (e.g. gloves, disposable gowns, towels, and empty IV bags with attached tubing) <p style="text-align: right;">Estimated monthly amount _____ lbs</p>	<input type="checkbox"/> Other (specify): <p style="text-align: right;">Estimated monthly amount _____ lbs</p>

Estimate of <u>TOTAL</u> monthly medical waste generated: _____ lbs	

*Per HSC §118215(c), for liquid or semi-liquid biohazardous laboratory waste (§117690(b)(1)(B)), the treatment method must be recognized by the NIH, the CDC, or the American Biological Safety Association. If the chemical disinfection of the medical waste causes the waste to become a hazardous waste, the waste shall be managed in accordance with the requirements of HSC Chapter 6.5 (commencing with §25100) of Division 20.

Registered Medical Waste Hauler or Common Carrier

In accordance with HSC, a generator of medical waste shall maintain on file in its office all the following:

- (1) An information document stating how the generator contains, stores, treats, and disposes of any medical waste generated through any act or process of the generator. This document satisfies this requirement.
- (2) Tracking documents or electronically archived tracking documents maintained by the facility and medical waste hauler of all untreated medical waste shipped offsite for treatment. **LQGs must maintain these records for no less than two years** HSC § 117975; **SQGs must maintain these records for no less than three years** HSC § 117943.

Documentation shall be made available to the enforcement agency onsite.

Street Address	City/ZIP
Contact Person	Phone #

How frequently will the waste be disposed? (e.g. weekly, monthly, quarterly):

Will employees be transporting waste to a central facility for disposal? * **Yes** **No**

Will the facility be treating any medical waste prior to disposal to municipal trash? * **Yes** **No**

If Yes, what method of treatment will be used?

Is there a plan to properly characterize and dispose of pharmaceutical waste in accordance with DEA, RCRA, Radiological Control Law if applicable? * **Yes** **No**

*Additional regulations may apply, contact [HMD Duty Desk](#) for more information.

Decontamination Procedure

In accordance with HSC§118295 and 118300, the following decontamination procedure is to be followed in the event of a biohazardous spill or contamination, to include but not limited to the reuse of rigid containers for medical waste. Approved methods of decontamination include, but are not limited to, agitation to remove visible soil combined with one of the following procedures:

Check the appropriate box indicating which method of disinfection you will use:

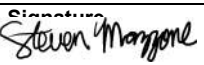

- Exposure to hot water 180°F for ≥ 15 seconds**
- Rinse/Immersion in hypochlorite solution for ≥ 3 minutes**
(500 ppm available chlorine)
- Rinse/Immersion in phenolic solution for ≥ 3 minutes**
(500 ppm active agent)
- Rinse/Immersion in Iodoform solution for ≥ 3 minutes**
(100 ppm available iodine)
- Rinse/Immersion in Quaternary ammonium solution for ≥ 3 minutes**
(400 ppm available active agent)

Acknowledgement

I have read and understood, as a medical waste generator, I am required to comply with the applicable requirements in the Medical Waste Management Act found in the California Health and Safety Code, Sections 117600-118360. **Yes**

Self-Certification Statement

I declare under penalty of law that to the best of my knowledge and belief, the statements made herein are correct and true. I hereby consent to all necessary inspections made pursuant to the California Medical Waste Management Act and incidental to the issuance of my permit or registration and the operation of this business.

Types of Medical Wastes (MW) Generated	
Please check the box for all types of medical waste that will be generated by your facility. Also estimate the number of pounds (lbs.) that will be generated each month. Definitions are in Chapter 2 of the Medical Waste Management Act in the California Health and Safety Code (HSC) §117625-117780.	
<input type="checkbox"/> Sharps waste - a device used in a healthcare setting that has acute rigid corners, edges, or protuberances capable of cutting or piercing. (e.g., needles, syringes, blades, scalpels, root canal files, Pasteur pipettes, or broken glass) <p style="text-align: right;">Estimated monthly amount _____ lbs</p>	<input type="checkbox"/> Biohazardous waste – regulated medical waste, clinical waste, or biomedical waste from the medical treatment of a human or from an animal that is suspected to be infected with a pathogen that is infectious to humans. Biohazardous waste also includes: Highly Communicable waste - waste contaminated with excretion, exudates or secretions from humans or animals who are isolated due to highly communicable diseases. Laboratory waste – infectious specimens or microbiological cultures, stocks of infectious agents, live and attenuated vaccines, biologicals, and culture media. Fluid Blood or Blood Products – recognizable fluid human blood or blood products, containers, equipment containing human blood or blood from animals <p style="text-align: right;">Estimated monthly amount _____ lbs</p>
<input type="checkbox"/> Non RCRA Pharmaceutical waste - a prescription or over-the-counter human or veterinary drug that is not RCRA hazardous waste nor radiological waste. <p style="text-align: right;">Estimated monthly amount _____ lbs</p>	<input type="checkbox"/> Liquid/Semi-liquid biohazardous waste - treated onsite by chemical disinfection and discharged to sewer.* <p style="text-align: right;">Estimated monthly amount _____ lbs</p>
<input type="checkbox"/> Trace Chemotherapeutic waste - waste that is contaminated through contact or contained, chemotherapeutic agents. (e.g. gloves, disposable gowns, towels, and empty IV bags with attached tubing) <p style="text-align: right;">Estimated monthly amount _____ lbs</p>	<input type="checkbox"/> Other (specify): <p style="text-align: right;">Estimated monthly amount _____ lbs</p>
<input type="checkbox"/> Pathology waste – human body parts or animal tissues suspected to be infectious to humans or have been fixed in formaldehyde or other fixative <p style="text-align: right;">Estimated monthly amount _____ lbs</p>	
<input type="checkbox"/> Trauma Scene waste – waste that has been removed, is to be removed, or is in the process of being removed, from a trauma scene by a trauma scene waste management practitioner. <p style="text-align: right;">Estimated monthly amount _____ lbs</p>	
Estimate of <u>TOTAL</u> monthly medical waste generated: _____ lbs	

*Per HSC §118215(c), for liquid or semi-liquid biohazardous laboratory waste (§117690(b)(1)(B)), the treatment method must be recognized by the NIH, the CDC, or the American Biological Safety Association. If the chemical disinfection of the medical waste causes the waste to become a hazardous waste, the waste shall be managed in accordance with the requirements of HSC Chapter 6.5 (commencing with §25100) of Division 20.

Registered Medical Waste Hauler or Common Carrier

In accordance with HSC, a generator of medical waste shall maintain on file in its office all the following:

- (1) An information document stating how the generator contains, stores, treats, and disposes of any medical waste generated through any act or process of the generator. This document satisfies this requirement.
- (2) Tracking documents or electronically archived tracking documents maintained by the facility and medical waste hauler of all untreated medical waste shipped offsite for treatment. **LQGs must maintain these records for no less than two years** HSC § 117975; **SQGs must maintain these records for no less than three years** HSC § 117943.

Documentation shall be made available to the enforcement agency onsite.

Primary Medical Waste Transporter	CA Registration #

COUNTY OF SAN DIEGO

COMPLIANCE INSPECTION REPORT

FACILITY NAME: Lab Fellows Inc.
 ADDRESS: 11011 N TORREY PINES RD 135
 CITY/ZIP: LA JOLLA /92037

INSPECTION DATE: 08/31/2022 PAGE 1 OF 7
 RECORD ID #: DEH2014-HUPFP-001157
 TIME START: 10:45 AM END: 12:45 PM
 SPECIALIST: Vikki Denslow
 INSPECTION CONTACT: Dakota Flores
 TITLE: Environmental Health & Safety Consultant
 PHONE: (760) 472-3320
 E-MAIL: Dakota@zoubekconsulting.com

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

CONSENT TO CONDUCT INSPECTION GRANTED BY: Dakota Flores TITLE: EH&S Consultant

INTRODUCTION:

- This biotech facility occupies and rents out suites #135, #135L, #140, #140L, #145, #145L, and #200.
- The purpose of this inspection was to evaluate this biotech facility for hazardous materials, hazardous waste, and medical waste requirements.
- An environmental health and safety (EH&S) consultant, Dakota Flores, granted consent for this inspection, and she was present for the duration of this inspection.
- During this inspection, Caldi Biotherapeutics was in suite #135L, and that was the only laboratory that was occupied.
- This facility had red bags, sharps containers, a carboy with waste formaldehyde solution, a drum containing solid laboratory debris, a dewar of refrigerated liquid nitrogen, and approximately 500 cubic feet of carbon dioxide gas onsite.
- The hazardous waste label for the drum containing solid laboratory debris did not include the hazard type. This minor violation was corrected during the inspection as the EH&S consultant added that to the hazardous waste label.
- Ingenium picks up medical waste on a weekly basis.
- The EPA ID number is active.
- Employee training records were dated November, 2021 and March, 2022.
- According to the Medical Waste Management Plan (MWMP) dated October 25, 2021, this facility appears to be a large quantity generator of medical waste.

VIOLATION # 1

1010004 Chemical inventory incomplete or not submitted in CERS. HSC 25505(a)(1); 25507(a); 25508.1(a-b); 19 CCR 2654 (a) or (d)

Classification: Class II

Observations:

This facility had a drum containing solid laboratory debris onsite. A submittal was made in the California Environmental Reporting System (CERS) in October, 2021, but that waste stream had not been reported in CERS.

Corrective Action Completed During Inspection:

The EH&S consultant added an inventory sheet for the solid laboratory debris to CERS during the inspection.

Medical Waste Generators

Each violation checked below is for the section(s) of the California health and Safety Code (HSC), California Code of Regulation (CCR), or the San Diego County Code (SDCC) indicated in italics. All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form (HM-926) to document your return to compliance. Please call (858) 505-6880 or your Specialist if you have any questions. UPF = Unified Program Facility; MW = Medical Waste; USPS = United States Postal Service; DOT = Department of Transportation

MEDICAL WASTE GENERATORS

STORAGE, LABELING, AND DISPOSAL

#	VIOLATION DESCRIPTION
<input type="checkbox"/> HMD4200	Failed to obtain or maintain a Small Quantity Medical Waste Registration or a Unified Program Facility Permit. HSC 117705; SDCC 68.904, 68.905, 68.906, 68.907.1, 68.1201
<input type="checkbox"/> HMD4201	Failed to submit or report in CERS chemical inventory information for hazardous waste and/or medical waste, and keep up to date. SDCC 68.904(a)(2)
<input type="checkbox"/> HMD4202	Medical waste (MW) not separated from other waste at the point of origin. HSC 118275
<input type="checkbox"/> HMD4203	Enclosure or designated accumulation area for MW containers not secured. HSC 118307, 118310
<input type="checkbox"/> HMD4204	MW designated accumulation area not posted with an approved, legible biohazardous waste "warning sign" in English & Spanish or in another language, in addition to English which can be read from a distance of at least 25 feet. HSC 118310
<input type="checkbox"/> HMD4205	MW interim storage area not marked with warning signs or international biohazard symbol legible from a distance of 5 feet. HSC 118307, 118310
<input type="checkbox"/> HMD4206	MW interim storage area not properly secured. HSC 118307
<input type="checkbox"/> HMD4207	Sharps not stored in approved container or labeled with the words "sharps waste" or with the international biohazard symbol and the word "BIOHAZARD". HSC 118285(a) & (d)
<input type="checkbox"/> HMD4208	Sharps containers, including those used to containerize trace chemotherapeutic wastes, lined with a plastic bag or inner liner. HSC 117750
<input type="checkbox"/> HMD4209	Full sharps container not taped closed or tightly-lidded to preclude loss of contents. HSC 118285(b)
<input type="checkbox"/> HMD4210	Primary containers accumulating MW not labeled with an electronic tracking system label or a label with generator's name, address and phone number. SDCC 68.1205
<input type="checkbox"/> HMD4211	Medical waste not stored in approved and properly marked biohazard bags. HSC 118275(a)
<input type="checkbox"/> HMD4212	Biohazard bags not tied off to prevent leakage or expulsion of contents during storage and handling. HSC 118280(a)
<input type="checkbox"/> HMD4213	Biohazardous bags not containerized in rigid, leak resistant, and covered containers or bins when placed for storage, handling, or transport. HSC 118280(c)
<input type="checkbox"/> HMD4214	Biohazard bag not ASTM D1709 certified. HSC 117630(b)
<input type="checkbox"/> HMD4215	Biohazard bag(s) are not red, except when yellow to further segregate trace chemo waste or white for pathology waste. HSC 117630(b)
<input type="checkbox"/> HMD4216	Biohazard bags not placed in a USDOT-approved container lined with a biohazard bag that is ASTM D1709 and ASTM D1922 certified. HSC 117630(b)
<input type="checkbox"/> HMD4217	Waste container or bin not labeled with the words "Biohazardous Waste" or with the international biohazard symbol and the word "BIOHAZARD" on the lid and sides. HSC 118280(c)
<input type="checkbox"/> HMD4218	Reusable containers or bins for MW storage not thoroughly washed and decontaminated and maintained in a clean and sanitary manner. HSC 118295, 118305
<input type="checkbox"/> HMD4219	MW interim storage area not marked with warning signs or international biohazard symbol legible from a distance of 5 feet. HSC 118307, 118310
<input type="checkbox"/> HMD4220	MW interim storage area not properly secured. HSC 118307
<input type="checkbox"/> HMD4221	Full sharps container stored more than 30 days at >0°C. HSC 11828(c)
<input type="checkbox"/> HMD4222	Biohazard bag waste stored more than 7 days at >0°C (for generators of 20 or more pounds a month). HSC 118280(e)(1)(A)
<input type="checkbox"/> HMD4223	Biohazard bag waste stored >30 days at below 0°C (for generators of <20lbs/month). HSC 118280(e)(1)(B)
<input type="checkbox"/> HMD4224	Materials of Trade Exemption: transportation logs not maintained for 2 years at the receiving facility HSC 117946(3), 117976(3)
<input type="checkbox"/> HMD4225	Materials of Trade Exemption: transportation logs do not contain the name of the person transporting the medical waste, the number of containers of medical waste transported, the date the medical waste was transported. HSC 117946(3)(a-c), 117976(3)(a-c)
<input type="checkbox"/> HMD4226	Disposal of untreated MW to an unauthorized point. HSC 118340

SMALL QUANTITY GENERATORS ONLY

(<200 POUNDS OF MEDICAL WASTE GENERATED PER MONTH)

#	VIOLATION DESCRIPTION
<input type="checkbox"/> HMD4301	Medical Waste Management Plan (MWMP) not submitted to HMD within 30 days of generating medical waste or making updates to the MWMP. HSC 117935, SDCC 68.1202(c)(2)(B)
<input type="checkbox"/> HMD4302	Did not maintain and show proof of "onsite" medical waste treatment records for 3 years. HSC 117943
<input type="checkbox"/> HMD4303	Did not maintain on file disposal receipts, tracking or shipping documents for medical waste shipped offsite for at least 3 years. HSC 117945
<input type="checkbox"/> HMD4309	MWMP or equivalent information not onsite. HSC 117935, 118032

LARGE QUANTITY GENERATORS ONLY

(>= 200 POUNDS OF MEDICAL WASTE GENERATED PER MONTH)

#	VIOLATION DESCRIPTION
<input type="checkbox"/> HMD4351	Medical Waste Management Plan (MWMP) not submitted to HMD within 30 days of generating medical or making updates to the MWMP. HSC 117960, 117970
<input type="checkbox"/> HMD4352	Records of medical waste treatment not available for 2 years. HSC 117975, 118215(a)(2)(E)
<input type="checkbox"/> HMD4353	Did not make available disposal receipts, tracking or shipping documents for at least 2 years for medical waste shipped offsite. HSC 117975

MW ONSITE TREATMENT FACILITY

#	VIOLATION DESCRIPTION
<input type="checkbox"/> HMD4500	Treated medical waste generated offsite without a permit from the California Department of Public Health (CDPH). HSC 118130
<input type="checkbox"/> HMD4501	Onsite MW treatment permit not obtained or renewed. HSC 117950, 117925, 118130; 65623
<input type="checkbox"/> HMD4502	Current copy of the MW treatment permit not available. HSC 118165, 118180; CCR 65621(f), 65623

Types of wastes generated

Sharps – needles, broken glass, blades.

Estimated monthly amount 1 lbs

Blood or body fluids - liquid blood elements or other regulated body fluids, or articles contaminated with blood or body fluids.

Estimated monthly amount _____ lbs

Laboratory wastes - specimens or microbiological cultures, stocks of infectious agents, live and attenuated vaccines, and culture media.

Estimated monthly amount 10 lbs

Isolation waste – waste contaminated with excretion, exudates, or secretions from humans or animals who are isolated due to highly communicable diseases.

Estimated monthly amount _____ lbs

Waste contaminated with fixatives or chemotherapeutic agents.

Estimated monthly amount _____ lbs

Surgical specimens – human or animal parts or tissues removed surgically or by autopsy.

Estimated monthly amount _____ lbs

Pathology waste – recognizable human anatomical parts.

Estimated monthly amount _____ lbs

Contaminated animals – animal carcasses, body parts, bedding materials.

Estimated monthly amount _____ lbs

Other (please specify): _____

Estimated monthly amount _____ lbs

Home Generated Sharps

Estimated monthly amount _____ lbs

Estimate of **TOTAL** monthly medical waste generated: 11 lbs

Method of treatment performed onsite (if applicable):

Steam Autoclaving

Emergency Action Plan:

Note: This requirement only applies to Large Quantity Generators of Medical Waste (≥ 200 lbs/month)

Plan to be followed to ensure the proper disposal of medical waste in the event of a natural disaster, treatment system breaks down, power failure, spill, etc. (600 characters max. for WORD interactive form – use additional sheets if necessary).

Permit #:

Date: 6/17/2015

SAN DIEGO COUNTY DEPARTMENT OF ENVIRONMENTAL HEALTH
HAZARDOUS MATERIALS DIVISION
Annual Carcinogen and Reproductive Toxin Reporting List

Business Name: Synthetic Genomics, Inc.

Business Address: 11011 North Torrey Pines Road, Suite #145, La Jolla, CA 92121

Business Owner or Operator: Synthetic Genomics, Inc.

Please complete the following by entering the chemical name in the chemical name column and then place a check in the quantity column that most closely estimates the amount on hand. If measured by volume, check the appropriate gallon column(s). If measured by weight, check the appropriate pound column(s). If the chemical is a trade secret, you should check the trade secret box. For example, if you have one pint of benzene you would write benzene in the chemical name column and place a check in the <1-gallon column.

(PLEASE NOTE: the symbol < means less than).

Table with 8 columns: Chemical Name, <1 gal., <1 lb., <10 gal., <10 lbs., <55 gal., <500 lbs., Trade Secret. The first row contains 'None at this time' and the rest are empty.

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

CONSENT TO CONDUCT INSPECTION GRANTED BY: Jacqueline Duffin

TITLE: Senior Environmental Health Sp

INTRODUCTION:

Status verification conducted to close out the permit for this location.

Consent for today's inspection was granted by Jacqueline Duffin, Senior Environmental Health Specialist.

Also present during this inspection was Arthur Hodel, Facilities and EHS Manager.

During the facility walk through no hazardous materials, hazardous waste, or medical waste was observed.

Hazardous waste was moved from this facility to new facility by Clean Harbors, per Jaqueline Duffin.

This facility did not generate hazardous waste, per Jaqueline Duffin. The hazardous materials business plan was submitted to HMD as a precaution.

Facility submitted an updated Business Activities page in CERS to notify HMD that the facility has vacated.

Okay to suspend permit.

LIST OF AIR POLLUTION CONTROL DISTRICT PERMIT CATEGORIES

Businesses, which include any of the following operations or equipment, will require clearance from the Air Pollution Control District.

CHEMICAL

- 47 – Organic Gas Sterilizers
- 32 – Acid Chemical Milling
- 33 – Can & Coil Manufacturing
- 44 – Evaporators, Dryers & Still Processing Organic Materials
- 24 – Dry Chemical Mixing & Detergent Spray Towers
- 35 – Bulk Dry Chemicals Storage
- 55 – Chrome Electroplating Tanks

COATINGS & ORGANIC SOLVENTS

- 27 – Coating & Painting
- 37 – Plasma Arc & Ceramic Deposition Spray Booths
- 38 – Paint, Stain & Ink Mfg
- 27 – Printing
- 27 – Polyester Resin/Fiberglass Operations

METALS

- 18 – Metal Melting Devices
- 19 – Oil Quenching & Salt Baths
- 32 – Hot Dip Galvanizing
- 39 – Precious Metals Refining

ORGANIC COMPOUND MARKETING

(GASOLINE, ETC)

- 25 – Gasoline & Alcohol Bulk Plants & Terminals
- 25 – Intermediate Refuelers
- 26 – Gasoline & Alcohol Fuel Dispensing

COMBUSTION

- 34 – Piston Internal – Combustion Engines
- 13 – Boilers & Heaters (1 million BTU/hr or larger)
- 14 – Incinerators & Crematories
- 15 – Burn Out Ovens
- 16 – Core Ovens
- 20 – Gas Turbines, and Turbine Test Cells & Stands
- 48 – Landfill and/or Digester Gas Flares

ELECTRONICS

- 29 – Automated Soldering
- 42 – Electronic Component Mfg

FOOD

- 12 – Fish Canneries
- 12 – Smoke Houses
- 50 – Coffee Roasters
- 35 – Bulk Flour & Powered Sugar Storage

SOLVENT USE

- 28 – Vapor & Cold Degreasing
- 30 – Solvent & Extract Driers
- 31 – Dry Cleaning

ROCK AND MINERAL

- 04 – Hot Asphalt Batch Plants
- 05 – Rock Drills
- 06 – Screening Operations
- 07 – Sand Rock & Aggregate Plants
- 08 – Concrete Batch, CTB, Concrete Mixers, Mixers & Silos
- 10 – Brick Manufacturing

OTHER

- 01 – Abrasive Blasting Equipment
- 03 – Asphalt Roofing Kettles & Tankers
- 46 – Reverse Osmosis Membrane Mfg
- 51 – Aqueous Waste Neutralization
- 11 – Tire Buffers
- 17 – Brake Debonders
- 23 – Bulk Grain & Dry Chemical Transfer & Storage
- 45 – Rubber Mixers
- 21 – Waste Disposal & Reclamation Units
- 36 – Grinding Booths & Rooms
- 40 – Asphalt Pavement Heaters
- 43 – Ceramic Slip Casting
- 41 – Perlite Processing
- 40 – Cooling Towers – Registration Only
- 91 – Fumigation Operations
- 56 – WWTP (1 million gal/day or larger) & Pump Station

NOTE: OTHER EQUIPMENT NOT LISTED HERE THAT IS CAPABLE OF EMITTING AIR CONTAMINANTS MAY REQUIRE AN AIR POLLUTION CONTROL DISTRICT PERMIT. IF THERE ARE ANY QUESTIONS, CONTACT THE AIR POLLUTION CONTROL DISTRICT AT (858) 586-2600.

CERS ACCESS/I.D. REQUEST FORM

All Certified Unified Program Agency (CUPA) regulated businesses are required by law (Assembly Bill 2286) to submit business information electronically through the California Environmental Reporting System (CERS). This includes information related to your:

- Unified Program Facility Permit
- Hazardous Materials Business Plan
- Hazardous Waste
- Hazardous Waste Onsite Treatment
- Hazardous Waste Tank Closures
- Remote Waste Consolidation
- Recyclable Materials Reports
- Underground Storage Tanks
- Aboveground petroleum storage over 1,320 gallons
- Medical Waste**

A CERS I.D. is required in order to obtain or maintain a valid Unified Program Facility Permit. Please send your completed form to the County of San Diego Hazardous Materials Division (address above). When your CERS account is established, your designated lead users will receive an email with directions to begin electronic reporting.

** In San Diego County, Medical Waste Generators are required to report in CERS in order to receive a valid permit.

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

CONSENT TO CONDUCT INSPECTION GRANTED BY: Jimmy Vu

TITLE: Manufacturing Coordinator

INTRODUCTION:

Today an initial Certified Unified Program Agency (CUPA) inspection was completed at Formex LLC to verify compliance with hazardous materials and hazardous waste regulations. At the time of inspection this facility is a small quantity hazardous waste generator and stores on-site reportable amounts of hazardous materials. At the time of inspection this facility is subject to hazardous materials business plan requirements.

This facility is a research and development company specializing in trial medication.

At the time of inspection the following hazardous materials and hazardous wastes were observed on-site in the warehouse area, hazardous waste storage area, and the laboratory areas:

- 1) 1 x 55 g "Isopropyl 70%"
- 2) 1 x 55 g "Isopropyl 99%"
- 3) 1 x 55 g detergent soap
- 4) 2 x 55 g "hazardous waste flammable liquid"
- 5) 1 x 55 g "hazardous waste solid"
- 6) sharps waste (chemically contaminated)
- 7) 1 x 15g "hazardous waste HPLC contaminated waste"

California Environmental Reporting System (CERS) lead user access form was accepted from facility representative at the time of inspection.

COUNTY OF SAN DIEGO
SUPPLEMENTAL COMPLIANCE
INSPECTION REPORT

INSPECTION DATE: 01/10/2017 PAGE 2 OF 6
RECORD ID #: DEH2016-HUPFP-002611

VIOLATION # 1

1010004 Chemical inventory incomplete or not submitted in CERS. HSC 25505(a)(1); 25506; 25507; and 25508(a)(1)(A)

Classification: Minor

Observations:

At the time of inspection the following inventory items were not uploaded in CERS:

- 1) 1 x 55 g "Isopropyl 70%"
- 2) 1 x 55 g "Isopropyl 99%"
- 3) 1 x 55 g detergent soap
- 4) 2 x 55 g "hazardous waste flammable liquid"
- 5) 1 x 55 g "hazardous waste solid"
- 6) sharps waste chemically contaminated
- 7) 1 x 15g "hazardous waste HPLC contaminated waste"

Corrective Action Due By: 02/09/2017

Within 30 days ensure that the CERS inventory is updated to reflect the hazardous material/waste inventory on-site. You may contact the CERS help desk for assistance at (858) 505-6990.

VIOLATION # 2

1010005 Site map not submitted in CERS or not sufficient. HSC 25505(a)(2) and 25508(a)(1)(A)

Classification: Minor

Observations:

An adequate hazardous materials business plan (HMBP) site map with all required symbols has not been submitted by this facility through the California Environmental Reporting System (CERS).

Corrective Action Due By: 02/09/2017

This violation must be corrected online by logging into the facility account in CERS and uploading and submitting an up-to date site map with all required symbols. A sample map, instructions, and symbols legend can be found at http://www.sandiegocounty.gov/content/dam/sdc/deh/hmd/pdf/hmbp/forms/Site_Map_Handout_2-11.pdf

You may contact the CERS help desk for assistance at (858) 505-6990.

VIOLATION # 3

1020001 Employee training plan for hazardous materials management not adequate, not established or not submitted in CERS. HSC 25505(a)(4) and 25508(a)(1)(A)

Classification: Minor

Observations:

Observed during the inspection walk-through that all of the hazardous waste satellite containers in each laboratory area were not labeled. Also observed was one 55gallon drum of hazardous waste solid that was not labeled in the laboratory area.

COUNTY OF SAN DIEGO

SUPPLEMENTAL COMPLIANCE INSPECTION REPORT

INSPECTION DATE: 01/10/2017 PAGE 3 OF 6
RECORD ID #: DEH2016-HUPFP-002611

Training records were on-site and the training records show that hazardous waste container labeling and storage were a covered topic, however this was *not implemented* at this facility.

The training program shall, at a minimum, include methods for safe handling of hazardous materials; procedures for coordination with local emergency response organizations; use of emergency response equipment; and emergency response procedures for a release or threatened release of hazardous materials.

Corrective Action Due By: 02/09/2017

Within 30 days, *implement* an employee training plan and submit this information electronically through CERS. An emergency response and training plan template can be found at <http://www.calepa.ca.gov/CUPA/Documents/eTemplates/Contingency.pdf> which may be filled out, uploaded, and submitted in CERS.

Ensure that all topics in the training plan are implemented on-site.

VIOLATION # 4

3030017 Failed to properly close hazardous waste container(s). (40 CFR 262.34(d)(2); 265.173.) 22 CCR 66262.34(d)(2)

Classification: Minor

Observations:

Observed in the laboratory area "QC lab" were approximately five 1-gallon containers of "hazardous waste liquid flammable" connected via tubing to a machine. None of the hazardous waste containers were observed to have a secure lid.

Corrective Action Due By: 02/09/2017

Immediately close all hazardous waste containers and ensure that they are kept closed.

VIOLATION # 5

3030007 Failed to properly label/date hazardous waste container and/or tank. 22 CCR 66262.34(f)

Classification: Minor

Observations:

Observed all hazardous waste satellite containers in use in the laboratory areas that were not properly labeled as hazardous waste.

Observed in the laboratory sharps waste (chemically contaminated sharps) without a hazardous waste label.

Hazardous waste containers must be labeled with the following: The words "Hazardous Waste", the name and address of the generator, the composition and physical state of the waste, the hazardous properties of the waste, and the accumulation start date.

Corrective Action Due By: 02/09/2017

Immediately begin labeling the containers with the required labeling. Within 30 days, submit documentation to the HMD that this violation was corrected.

Hazardous Materials and Hazardous Waste (continued)

Hazardous Waste Requirements for SOGs and LOGs RECORD KEEPING/OPERATIONAL REQUIREMENTS

- | | |
|---|-----------------------|
| # | VIOLATION DESCRIPTION |
|---|-----------------------|
- 3010001 Unified Program Facility (UPF) permit not obtained for the generation of hazardous waste. HSC 25404.1; SDCC 68.905
 - 3010029 The facility has not submitted complete and accurate facility information in CERS. HSC 25404(e)(4); 27 CCR 15188(b)
 - 3010002 Failed to obtain and/or maintain an active EPA ID. 22 CCR 66262.12
 - 3010008 Failed to properly complete a uniform hazardous waste manifest. 22 CCR 66262.23(a)
 - 3010009 Failed to complete the hazardous waste manifest Exception Requirement. 22 CCR 66262.42
 - 3010010 Failed to maintain uniform hazardous waste manifest, consolidated manifest, or bills of lading copies for 3 years. HSC 25160.2(b)(3), 25185(a)(4); 22 CCR 66262.40(a)
 - 3010011 Failed to send hazardous waste manifest copies to the Department of Toxic Substances Control (DTSC). 22 CCR 66262.23(a)(4)
 - 3010013 Failed to meet the consolidated manifesting requirements for waste shipment. HSC 25160.2; 22 CCR 66262.40(a)
 - 3010014 Failed to retain disposal records of spent lead batteries for 3 years. 22 CCR 66266.81(a)(4)(B)
 - 3030006 Failed to determine if a hazardous waste is restricted or prohibited from land disposal. 22 CCR 66268.7(a)
 - 3010016 Failure of recycler who recycles more than 100 kilograms per month of recyclable material under a claim that the material qualifies for exclusion or exemption to provide and submit in CERS the required information. HSC 25143.10(a), (c), and/or (d)
 - HMD 0149 Failed to keep disposal receipts for drained used oil filters and/or drained fuel filters for 3 years. HSC 25250.22; 22 CCR 66266.130
 - HMD 0148 Failed to have copies of analytical records, waste analysis records, and/or waste determination results for 3 years. 22 CCR 66262.40(c)
 - HMD 0140 Failed to have Land Disposal Restriction documentation onsite for 3 years. 22 CCR 66268.7(a)(8)
 - 3250005 Failed to obtain a Treatment, Storage and Disposal Facility (TSDF) permit or authorization to store/treat/dispose of hazardous waste. HSC 25201(a)
 - 3050005 Failed to have adequate records demonstrating claim of exemption for Excluded Recyclable Materials. HSC 25143.2(f); 22 CCR 66261.2(g)
 - 3210001 Failed to notify the CUPA in CERS for onsite hazardous waste treatment/tiered permitting. HSC 25201(a)
 - HMD 0138 Manifest signed by the TSDF not available for inspection. 22 CCR 66262.40(a)

Hazardous Waste Requirements for SOGs and LOGs DISPOSAL AND TRANSPORTATION

- 3010007 Failed to prepare a hazardous waste manifest for the transport of a waste for off-site transfer, treatment, storage, or disposal. HSC 25160(b)(1) or (2), 25160.2(b)(9); 22 CCR 66262.20(a)
- 3030005 Failed to make a proper waste determination. 22 CCR 66262.11, 66262.40(c)
- 3050001 Failed to use a California registered hazardous waste transporter to transport hazardous waste. HSC 25163(a); 22 CCR 66263.41
- 3050002 Failed to properly dispose of hazardous waste at an authorized facility. HSC 25189.5(a); 25189(c),(d); 25189.2(c)
- 3130002 Impermissible dilution of hazardous waste. 22 CCR 66268.3(a)
- HMD 0305 Disposed of used oil illegally. HSC 25250.5(a); 25189.5(a); 25189(c),(d); 25189.2(c)
- HMD 0306 Disposed of hazardous waste latex paint improperly. HSC 25217.1

Hazardous Waste Requirements for SOGs and LOGs STORAGE AND HANDLING

- | | |
|---|-----------------------|
| # | VIOLATION DESCRIPTION |
|---|-----------------------|
- 3030001 Failed to meet requirements, when handling, and storing spent lead acid batteries. 22 CCR 66266.81(a)(1)
 - 3030003 Failed to properly manage 'damaged' spent lead acid batteries. 22 CCR 66266.81(b)
 - 3030004 Failed to properly manage, store, label, and/or recycle used oil filters and/or used fuel filters. HSC 25250.22; 22 CCR 66266.130
 - 3050004 Failed to properly manage contaminated used oil as a hazardous waste. HSC 25250.7(a), (c)
 - HMD 0222 Failed to properly label Excluded Recyclable Materials (ERM). HSC 25143.9(a).
 - HMD 0216 Failed to label hazardous material container within 10 days after the container was discovered to be mislabeled or inadequately labeled. HSC 25124(b)(3)(A); 22 CCR 66262.34(f)
 - HMD 0217 Failed to repack damaged/deteriorated hazardous material container within 96 hours. HSC 25124(b)(3)(B); 22 CCR 66262.34(f)
 - HMD 0219 Failed to properly segregate used oil &/or fuel drained from filters. HSC 25250.22(b)(4); 22 CCR 66266.130(c)(6)
 - HMD 0221 Failed to comply with hazardous waste satellite container regulation. 22 CCR 66262.34(e)
 - HMD 0223 Failed to properly empty container, failed to manage non-empty container, or inner liner removed from a container. 22 CCR 66261.7(b), (d) and/or (r); 66262.34(f)
 - HMD 0224 Failed to mark date on empty container larger than 5 gallons and/or manage it within one year. 22 CCR 66261.7(e),(f)

Universal Waste Handler Requirements

- 3010004 Failed to obtain an EPA ID number from DTSC or US EPA prior to storing 5,000 kg or more of universal waste. 22 CCR 66273.32(a),(b)
- 3020002 Failed to maintain universal waste handler training records for 3 years. 22 CCR 66273.36(c),(d)
- 3020003 Failed to properly train handlers of universal waste in universal waste management and response procedures. 22 CCR 66273.36(a),(b)
- 3030008 Failed to properly label or mark a universal waste (non-Conditionally Exempt Small Quantity Universal Waste Generator). 22 CCR 66273.34
- 3030011 Failed to properly dispose of universal waste within one year. 22 CCR 66273.35(a) and/or (b)
- 3030046 Failed to keep records of offsite universal waste (UW) shipment(s) available for inspection for 3 years. HSC 25185(a); 22 CCR 66273.39(c), (d)(2)
- 3030051 Failed to meet the accumulation standards for universal waste aerosol containers and waste handling. HSC 25201.16(f)
- 3040004 Failed to manage universal waste in a manner to prevent release(s) to the environment. 22 CCR 66273.33; 66273.33.5
- 3050003 Disposal of universal waste (UW) to an unauthorized point. HSC 25189.5(a), 25189(c),(d); 25189.2(c); 22 CCR 66273.31(a)

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

CONSENT TO CONDUCT INSPECTION GRANTED BY: Carlos Flores

TITLE: Materials Supervisor

INTRODUCTION:

Today a status verification Certified Unified Program Agency (CUPA) inspection was completed at BioDuro LLC to verify compliance with hazardous waste and hazardous materials regulations and requirements. At the time of inspection this facility appears to be a small quantity hazardous waste generator and stores on-site reportable amounts of hazardous materials. At the time of inspection this facility is subject to hazardous materials business plan requirements.

Facility is a contract chemical manufacturing company.

Observed on-site during inspection:

- 1 x 55 gallon drum of isopropanol (99%)
- 1 x 55 gallon drum of isopropanol (70%)
- 1 x 55 gallon drum of coolant
- 1 x 55 gallon drum of methylene chloride
- 1 x 55 gallon drum of tetrahydrofuran
- 1 x 55 gallon drum used oil
- 2 x 55 gallon drums flammable waste liquid (tetrahydrofuran)
- 3 x 55 gallon drums of waste solvent
- 3 x 55 gallon drums of waste solid (non-RCRA pharm lab waste)
- 3 x 405 cubic feet cylinders of carbon dioxide
- 2 x 361 cubic feet cylinders of hydrogen
- 9 x 300 cubic feet cylinders of nitrogen
- approx. 55 gallons of acetone on-site stored within 5 gallon containers and 1 gallon containers

Manifests on-site.

Employee training documentation on-site.

During inspection California Environmental Reporting System (CERS) assistance was provided. Facility representative submitted a complete updated hazardous materials business plan (HMBP) during inspection.

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

CONSENT TO CONDUCT INSPECTION GRANTED BY: Ned Messer

TITLE: Associate Director, Facilities

INTRODUCTION:

Routine

I conducted a routine Certified Unified Program Agency (CUPA) inspection on 7/3/2019 in order to verify compliance with Hazardous Materials Business Plan (HMBP) and Hazardous Waste (HW) requirements and regulations. Consent to conduct today's inspection was granted by Ned Messer, Associate Director, Facilities. Also present for today's inspection was Robert Chavez, EHS Consultant from Kasai Consulting.

This facility, BioDuro LLC, is a contract research organization (CRO), specializing in trial medication.

At the time of inspection, this facility appears to be a Small Quantity Generator (SQG) of HW (<1,000 kg generated per month).

The following reportable hazardous materials and hazardous wastes were observed on-site during the inspection:

- Compressed hydrogen
- Compressed nitrogen
- Isopropyl alcohol in water (70%)
- Isopropyl alcohol in water (90%)
- Antifreeze
- Methylene chloride
- Tetrahydrofuran (THF)
- Acetone
- Used oil
- Waste flammable liquids (solvents)
- Waste flammable liquids (THF)
- Waste hazardous solids

VIOLATION # 1

1010008 HMBP not certified annually as complete and accurate in CERS. HSC 25508(a)(1)(A), 25508.2, 19 CCR 2654(b)

Classification: Minor

Observations:

COUNTY OF SAN DIEGO

SUPPLEMENTAL COMPLIANCE INSPECTION REPORT

INSPECTION DATE: 07/03/2019 PAGE 2 OF 6
RECORD ID #: DEH2016-HUPFP-002611

The last full HMBP submittal for this facility in the California Environmental Reporting System (CERS) was made on 3/21/2018. At the time of inspection, a CERS Access/ID Request Form was sent to grant access to Ned Messer and Robert Chavez. Per Robert Chavez, he will make a new submittal in CERS to reflect all changes.

All facilities subject to HMBP are required to recertify their HMBP on an annual basis, by way of making a full submittal in CERS. A full HMBP includes: Facility Information, Hazardous Materials Inventory, Site Map, Emergency Response Plans and Training Plans. This minor violation was corrected on-site.

Corrective Action Due By: 08/02/2019

Within 30 days, recertify your HMBP through CERS by making a full submittal as detailed above. Use the Corrective Action Form at the end of this document to notate your corrections.

VIOLATION # 2

1010006 Failed to update HMBP in CERS within 30 days of a substantial change to any portion of the HMBP, including inventory changes or facility information. HSC 25508.1(a-f); 19 CCR 2654(d); SDCC 68.904(c)(6)

Classification: Class II

Observations:

At the time of inspection, I did not observe the following hazardous materials that were reported in CERS: compressed carbon dioxide and 1,2-propanediol. Per Ned Messer, BioDuro has recently downsized and there are many hazardous materials that are being shipped away. During facility walkthrough, I observed the following hazardous materials in the hazardous waste storage area: 2 x 55 gal drum of coolant, 1 x 55 gal drum of methylene chloride, 1 x 55 gal drum of tetrahydrofuran (THF), and 1 x 55 gal drum of acetone. Per Ned Messer, all of these materials will no longer be part of BioDuro's process and will soon be shipped away.

Per Ned Messer, the individual listed as the Primary Emergency Contact in CERS, Greg Weilersbacher, is no longer with the company.

All facilities subject to HMBP are required to update their HMBP in CERS with significant changes, including inventory reductions, site map changes, and changes to emergency contacts.

Corrective Action Completed During Inspection:

At the time of inspection, Robert Chavez made a new submittal in CERS, deleting the hazardous materials that are no longer on-site, and updating emergency contacts.

INSPECTION REMARKS:

- Per Ned Messer, BioDuro is utilizing Kasai Consulting to reconstruct their employee training program, conduct refresher training for employees, and reorganize and manage their HMBP in CERS
- Per Ned Messer, BioDuro will soon be managing medical waste in the near future. **BE ADVISED:** once you begin generating medical waste, be sure to update your HMBP to account for the updated inventory. If you plan to generate 200 lbs or more of MW per month, create a Medical Waste Management Plan (MWMP) and submit in CERS.

Records reviewed during inspection:

- HMBP not current (last submittal 3/21/2018 - see Violation #1 above) and available
- Employee training records - 3 years available
- EPA ID CAL000446200 (active)
- Former EPA ID CAL000383582 (under former business name Formex LLC)
- Hazardous waste manifests/disposal records - 3 years available

Business Owner or Operator: Bioduro, LLC

Please complete the following by entering the chemical name in the chemical name column and then place a check ✓ in the quantity column that most closely estimates the amount on hand. If measured by volume, check the appropriate gallon column(s). If measured by weight, check the appropriate pound column(s). If the chemical is a trade secret, you should check the trade secret box. For example, if you have one pint of benzene you would write benzene in the chemical name column and place a check ✓ in the <1-gallon column.

(PLEASE NOTE: the symbol < means less than).

Subject: Re: CERS IDs 10510693, 10806382, & 10836055 for BioDuro at 11011 Torreyana Rd

Hi Robin,

Thank you for all the information. Yes, please make the change. The only active Bioduro LLC account is CERS ID#10510693 for the facility located at 11011 Torreyana Road #100, San Diego, CA 92121. The last submittal was accepted on January 5, 2021. Please delete the other 2 CERS accounts (10806382 and 10836055). Fell free to contact me if you have any questions. Stay safe.

Thank you,

ROBERT CHÁVEZ
 EHS Consultant

Subject: CERS IDs 10510693, 10806382, & 10836055 for BioDuro at 11011 Torreyana Rd

Good afternoon Robert,

Thank you very much for speaking with me this morning. Regarding BioDuro at 11011 Torreyana Rd in San Diego, it looks like there are three CERS IDs:

	CERS ID	Facility Name	Site Address
1	10510693	BioDuro LLC	11011 TORREYANA RD #100 SAN DIEGO, CA 92121
2	10806382	BioDuro	11011 Torreyana Rd San Diego, CA 92121
3	10836055	BioDuro 2	11011 torreyana san Dieog, CA 92121

No submittals have been made for CERS IDs 10806382 and 10836055. Were they created in error/are they duplicates of CERS ID 10510693? If so, may I delete CERS IDs 10806382 and 10836055 so that only CERS ID 10510693 remains for BioDuro at the site?

Kind regards,

Robin Fink

Medical Waste Management Plan

Facility Information	
Business Name Bioduro, LLC	Permit or Registration # DEH2016-HUPFP-002611
Type of Business SIC 2834-Pharma Prep Mfg./8731-Biotech R&D	Date 12/29/2020
Street Address 11011 Torreyana Road, Suite 100	City/ZIP San Diego / 92121
Person Responsible for implementing the Medical Waste Management Plan (MWMP)	
Name Wei Liang	
Title Oncology Study Director	Phone 1-626-321-5419
Types of Medical Wastes (MW) Generated	
Please check the box for all types of medical waste that will be generated by your facility. Also estimate the number of pounds (lbs.) that will be generated each month. Definitions are in Chapter 2 of the Medical Waste Management Act in the California Health and Safety Code (HSC) §117625-117780.	
<input checked="" type="checkbox"/> Sharps waste - a device used in a healthcare setting that has acute rigid corners, edges, or protuberances capable of cutting or piercing. (e.g., needles, syringes, blades, scalpels, root canal files, Pasteur pipettes, or broken glass) Estimated monthly amount <u>2</u> lbs	<input checked="" type="checkbox"/> Biohazardous waste – regulated medical waste, clinical waste, or biomedical waste from the medical treatment of a human or from an animal that is suspected to be infected with a pathogen that is infectious to humans. Biohazardous waste also includes: Highly Communicable waste - waste contaminated with excretion, exudates or secretions from humans or animals who are isolated due to highly communicable diseases. Laboratory waste – infectious specimens or microbiological cultures, stocks of infectious agents, live and attenuated vaccines, biologicals, and culture media. Fluid Blood or Blood Products – recognizable fluid human blood or blood products, containers, equipment containing human blood or blood from animals Estimated monthly amount <u>220</u> lbs
<input type="checkbox"/> Non RCRA Pharmaceutical waste - a prescription or over-the-counter human or veterinary drug that is not RCRA hazardous waste nor radiological waste. Estimated monthly amount _____ lbs	<input checked="" type="checkbox"/> Liquid/Semi-liquid biohazardous waste - treated onsite by chemical disinfection and discharged to sewer.* Estimated monthly amount <u>30</u> lbs
<input type="checkbox"/> Trace Chemotherapeutic waste - waste that is contaminated through contact or contained, chemotherapeutic agents. (e.g. gloves, disposable gowns, towels, and empty IV bags with attached tubing) Estimated monthly amount _____ lbs	<input type="checkbox"/> Other (specify): Estimated monthly amount _____ lbs
<input type="checkbox"/> Pathology waste – human body parts or animal tissues suspected to be infectious to humans or have been fixed in formaldehyde or other fixative Estimated monthly amount _____ lbs	
<input type="checkbox"/> Trauma Scene waste – waste that has been removed, is to be removed, or is in the process of being removed, from a trauma scene by a trauma scene waste management practitioner. Estimated monthly amount _____ lbs	
Estimate of <u>TOTAL</u> monthly medical waste generated: <u>252</u> lbs	

*Per HSC §118215(c), for liquid or semi-liquid biohazardous laboratory waste (§117690(b)(1)(B)), the treatment method must be recognized by the NIH, the CDC, or the American Biological Safety Association. If the chemical disinfection of the medical waste causes the waste to become a hazardous waste, the waste shall be managed in accordance with the requirements of HSC Chapter 6.5 (commencing with §25100) of Division 20.

Registered Medical Waste Hauler or Common Carrier

In accordance with HSC, a generator of medical waste shall maintain on file in its office all the following:

- (1) An information document stating how the generator contains, stores, treats, and disposes of any medical waste generated through any act or process of the generator. This document satisfies this requirement.
- (2) Tracking documents or electronically archived tracking documents maintained by the facility and medical waste hauler of all untreated medical waste shipped offsite for treatment. **LQGs must maintain these records for no less than two years** HSC § 117975; **SQGs must maintain these records for no less than three years** HSC § 117943.

Documentation shall be made available to the enforcement agency onsite.

Primary Medical Waste Transporter Stericycle	CA Registration # 3400
Street Address 9855 Distribution Ave, Ste 110	City/ZIP San Diego/92121
Contact Person Service Desk	Phone # 800-783-7422

How frequently will the waste be disposed? (e.g. weekly, monthly, quarterly): **Weekly**

Will employees be transporting waste to a central facility for disposal? * Yes No

Will the facility be treating any medical waste prior to disposal to municipal trash? * Yes No

If Yes, what method of treatment will be used?

Is there a plan to properly characterize and dispose of pharmaceutical waste in accordance with DEA, RCRA, Radiological Control Law if applicable? * Yes No

*Additional regulations may apply, contact [HMD Duty Desk](#) for more information.

Decontamination Procedure

In accordance with HSC§118295 and 118300, the following decontamination procedure is to be followed in the event of a biohazardous spill or contamination, to include but not limited to the reuse of rigid containers for medical waste. Approved methods of decontamination include, but are not limited to, agitation to remove visible soil combined with one of the following procedures:

Check the appropriate box indicating which method of disinfection you will use:

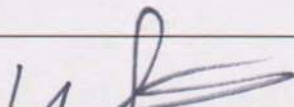

- Exposure to hot water 180°F for ≥ 15 seconds
- Rinse/Immersion in hypochlorite solution for ≥ 3 minutes (500 ppm available chlorine)
- Rinse/Immersion in phenolic solution for ≥ 3 minutes (500 ppm active agent)
- Rinse/Immersion in Iodoform solution for ≥ 3 minutes (100 ppm available iodine)
- Rinse/Immersion in Quaternary ammonium solution for ≥ 3 minutes (400 ppm available active agent)

Acknowledgement

I have read and understood, as a medical waste generator, I am required to comply with the applicable requirements in the Medical Waste Management Act found in the California Health and Safety Code, Sections 117600-118360. Yes

Self-Certification Statement

I declare under penalty of law that to the best of my knowledge and belief, the statements made herein are correct and true. I hereby consent to all necessary inspections made pursuant to the California Medical Waste Management Act and incidental to the issuance of my permit or registration and the operation of this business.

Sharps waste - a device that has acute rigid corners, edges, or protuberances capable of cutting or piercing. (e.g., needles, syringes, blades, scalpels, root canal files, Pasteur pipettes, or broken glass)

Estimated monthly amount _____ lbs

Non RCRA Pharmaceutical waste - a prescription or over-the-counter human or veterinary drug that is not RCRA hazardous waste nor radiological waste.

Estimated monthly amount 66 lbs

Trace Chemotherapeutic waste - waste that is contaminated through contact or contained, chemotherapeutic agents. (e.g. gloves, disposable gowns, towels, and empty IV bags with attached tubing)

Estimated monthly amount _____ lbs

Pathology waste - human body parts or animal tissues suspected to be infectious to humans or have been fixed in formaldehyde or other fixative

Estimated monthly amount _____ lbs

Trauma Scene waste - waste that has been removed, is to be removed, or is in the process of being removed, from a trauma scene by a trauma scene waste management practitioner.

Estimated monthly amount _____ lbs

Biohazardous waste - regulated medical waste, clinical waste, or biomedical waste from the medical treatment of a human or from an animal that is suspected to be infected with a pathogen that is infectious to humans.

Biohazardous waste also includes:

Highly Communicable waste - waste contaminated with excretion, exudates or secretions from humans or animals who are isolated due to highly communicable diseases.

Laboratory waste - infectious specimens or microbiological cultures, stocks of infectious agents, live and attenuated vaccines, biologicals, and culture media.

Fluid Blood or Blood Products - recognizable fluid human blood or blood products, containers, equipment containing human blood or blood from animals

Estimated monthly amount _____ lbs

Liquid/Semi-liquid biohazardous waste - treated onsite by chemical disinfection and discharged to sewer.*

Estimated monthly amount _____ lbs

Other (specify):

Estimated monthly amount _____ lbs

Estimate of TOTAL monthly medical waste generated: 66 lbs

*Per HSC §118215(c), for liquid or semi-liquid biohazardous laboratory waste (§117690(b)(1)(B)), the treatment method must be recognized by the NIH, the CDC, or the American Biological Safety Association. If the chemical disinfection of the medical waste causes the waste to become a hazardous waste, the waste shall be managed in accordance with the requirements of HSC Chapter 6.5 (commencing with §25100) of Division 20.

Medical Waste Management Plan

Registered Medical Waste Hauler or Common Carrier

In accordance with HSC, a generator of medical waste shall maintain on file in its office all the following:

- (1) An information document stating how the generator contains, stores, treats, and disposes of any medical waste generated through any act or process of the generator. This document satisfies this requirement.
- (2) Tracking documents or electronically archived tracking documents maintained by the facility and medical waste hauler of all untreated medical waste shipped offsite for treatment. LQGs must maintain these records for no less than two years. HSC § 117975
- (3) Tracking documents or electronically archived tracking documents maintained by the facility and medical waste hauler of all untreated medical waste shipped offsite for treatment. SQGs with treatment must maintain these records for no less than three years HSC § 117943

Documentation shall be made available to the enforcement agency onsite.

Types of Medical Wastes (MW) Generated

Please check the box for all types of medical waste that will be generated by your facility. Also estimate the number of pounds (lbs.) that will be generated each month. Definitions are in Chapter 2 of the Medical Waste Management Act in the California Health and Safety Code (HSC) §117625-117780.

Sharps waste - a device that has acute rigid corners, edges, or protuberances capable of cutting or piercing. (e.g., needles, syringes, blades, scalpels, root canal files, Pasteur pipettes, or broken glass)

Estimated monthly amount _____ lbs

Non RCRA Pharmaceutical waste - a prescription or over-the-counter human or veterinary drug that is not RCRA hazardous waste nor radiological waste.

Estimated monthly amount 66 lbs

Trace Chemotherapeutic waste - waste that is contaminated through contact or contained, chemotherapeutic agents. (e.g. gloves, disposable gowns, towels, and empty IV bags with attached tubing)

Estimated monthly amount _____ lbs

Pathology waste - human body parts or animal tissues suspected to be infectious to humans or have been fixed in formaldehyde or other fixative

Estimated monthly amount _____ lbs

Trauma Scene waste - waste that has been removed, is to be removed, or is in the process of being removed, from a trauma scene by a trauma scene waste management practitioner.

Estimated monthly amount _____ lbs

Biohazardous waste - regulated medical waste, clinical waste, or biomedical waste from the medical treatment of a human or from an animal that is suspected to be infected with a pathogen that is infectious to humans.

Biohazardous waste also includes:

Highly Communicable waste - waste contaminated with excretion, exudates or secretions from humans or animals who are isolated due to highly communicable diseases.

Laboratory waste - infectious specimens or microbiological cultures, stocks of infectious agents, live and attenuated vaccines, biologicals, and culture media.

Fluid Blood or Blood Products - recognizable fluid human blood or blood products, containers, equipment containing human blood or blood from animals

Estimated monthly amount _____ lbs

Liquid/Semi-liquid biohazardous waste - treated onsite by chemical disinfection and discharged to sewer.*

Estimated monthly amount _____ lbs

Other (specify):

Estimated monthly amount _____ lbs

Estimate of TOTAL monthly medical waste generated: 66 lbs

*Per HSC §118215(c), for liquid or semi-liquid biohazardous laboratory waste (§117690(b)(1)(B)), the treatment method must be recognized by the NIH, the CDC, or the American Biological Safety Association. If the chemical disinfection of the medical waste causes the waste to become a hazardous waste, the waste shall be managed in accordance with the requirements of HSC Chapter 6.5 (commencing with §25100) of Division 20.

Medical Waste Management Plan

Registered Medical Waste Hauler or Common Carrier

In accordance with HSC, a generator of medical waste shall maintain on file in its office all the following:

- (1) An information document stating how the generator contains, stores, treats, and disposes of any medical waste generated through any act or process of the generator. This document satisfies this requirement.
- (2) Tracking documents or electronically archived tracking documents maintained by the facility and medical waste hauler of all untreated medical waste shipped offsite for treatment. LQGs must maintain these records for no less than two years. HSC § 117975
- (3) Tracking documents or electronically archived tracking documents maintained by the facility and medical waste hauler of all untreated medical waste shipped offsite for treatment. SQGs with treatment must maintain these records for no less than three years HSC § 117943

Documentation shall be made available to the enforcement agency onsite.

Primary Medical Waste Transporter Ingenium	CA Registration # 4857
Street Address 2280 Micro Place	City/ZIP Escondido/92029
Contact Person Service Desk	Phone # 866-633-8253
Secondary (backup) Medical Waste Transporter	CA Registration #
Street Address	City/ZIP
Contact Person	Phone #

How frequently will the waste be disposed? (e.g. weekly, monthly, quarterly): **Within a week of generation**

Decontamination Procedure

In accordance with HSC§118295 and 118300, the following decontamination procedure is to be followed in the event of a biohazardous spill or contamination, to include but not limited to the reuse of rigid containers for medical waste. Approved methods of decontamination include, but are not limited to, agitation to remove visible soil combined with one of the following procedures:

Check the appropriate box indicating which method of disinfection you will use:

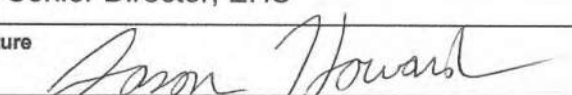

- Exposure to hot water 180°F for ≥ 15 seconds
- Rinse/Immersion in hypochlorite solution for ≥ 3 minutes
(500 ppm available chlorine)
- Rinse/Immersion in phenolic solution for ≥ 3 minutes
(500 ppm active agent)
- Rinse/Immersion in Iodoform solution for ≥ 3 minutes
(100 ppm available iodine)
- Rinse/Immersion in Quaternary ammonium solution for ≥ 3 minutes
(400 ppm available active agent)

Acknowledgement

I have read and understood, as a small quantity medical waste generator, I am required to comply with the applicable requirements in the Medical Waste Management Act found in the California Health and Safety Code, Sections 117600-118360. Yes

Self-Certification Statement

I declare under penalty of law that to the best of my knowledge and belief, the statements made herein are correct and true. I hereby consent to all necessary inspections made pursuant to the California Medical Waste Management Act and incidental to the issuance of my registration and the operation of this business.

 E-MAIL: les.winchester@bioduro-sundia.com

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

CONSENT TO CONDUCT INSPECTION GRANTED BY: Les Winchester

TITLE: Director of Facilities

INTRODUCTION:

Routine Inspection

On 7/25/22, I conducted a routine inspection at BioDuro LLC to verify compliance with Hazardous Materials Business Plan (HMBP) and Hazardous Waste (HW) requirements. The inspection was conducted with Les Winchester, Director of Facilities, who granted consent to conduct the inspection and review documents. Also present for the inspection was Jake Gross, Engineering Manager; Eugene Hotta, Senior EHS Technician (Kasai Consulting); and Martin Skipper, Manager of Technical Services (Kasai Consulting).

This facility produces pharmaceuticals.

Based on observations and documents reviewed, BioDuro LLC is subject to the following programs:

- Hazardous Materials Business Plan (HMBP) requirements for handling and storing reportable amounts (55 gallons, 500 pounds, or 200 cubic feet) of Hazardous Materials (HM).
- Hazardous Waste generator requirements as a Large Quantity Generator (LQG) of hazardous waste (≥ 1000 kg/mo; ≥ 270 gal/mo; $\geq 2,200$ lbs/mo; or ≥ 1 kg/mo of acutely hazardous waste).

This Facility's Hazardous Materials Inventory was verified during on-site inspection, in comparison to the facility's California Environmental Reporting System (CERS) submittal on 6/10/22.

INSPECTION REMARKS:

HW Remarks

- The EPA ID # (CAD981583479) for this facility is Active.
- This facility's hazardous waste hauler is Ingenium.
- Waste manifests were available and reviewed for the last three years.
- Per documents reviewed, waste pick ups occur approximately twice monthly.

Additional Remarks:

- Due to current Public Health Orders and COVID-19 restrictions a signature was not obtained.
- The contents of this report were discussed with Les Winchester prior to issuance.

COMPLIANCE INSPECTION REPORT

Handlers of Hazardous Materials and Small and Large Quantity Generators of Hazardous Waste

Each violation checked below is for the section(s) of the California Health and Safety Code (HSC), California Code of Regulations (CCR), or the San Diego County Code (SDCC) indicated in italics. Incorporated provisions of Title 40 of the Code of Federal regulations (CFR) are noted for reference. All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form (HM-926) to document your return to compliance. Please call (858) 505-6880 or your Specialist if you have any questions. HMBP = Hazardous Materials Business Plan; CUPA = Certified Unified Program Agency; CERS = California Environmental Reporting System; SQG = Small Quantity Hazardous Waste Generator; LQG = Large Quantity Hazardous Waste Generator

Medical Waste Management Plan

Facility Information	
Business Name F1 Oncology	Unified Program Facility Permit #
Type of Business Biotechnology Research and Development	Date 08/05/2016
Street Address 11011 Torreyana Road, Suite 244	City/ZIP San Diego/92121
Person Responsible for implementing the Medical Waste Management Plan (MWMP)	
Name Michelle Gallardo	
Title Lab Manager	Phone (858) 605-7059 ext. 133
Types of medical wastes (MW) generated	
<input checked="" type="checkbox"/> MW Sharps - e.g., needles, blades, scalpels, or broken glass or syringes contaminated with biohazardous waste. (human or animal) Estimated monthly amount <u>5</u> lbs	<input checked="" type="checkbox"/> Blood or blood products - liquid blood or blood products, or other regulated body fluids, or articles contaminated with liquid blood or body fluids. Estimated monthly amount <u>1</u> lbs
<input checked="" type="checkbox"/> Laboratory wastes - infectious specimens or microbiological cultures, stocks of infectious agents, live and attenuated vaccines, biologicals, and culture media. Estimated monthly amount <u>40</u> lbs	<input type="checkbox"/> Pathology waste - human or animal tissues suspected to be infectious to humans Estimated monthly amount <u> </u> lbs
<input checked="" type="checkbox"/> Liquid or semi-liquid biohazardous laboratory waste - treated on site by chemical disinfection* and discharged to sewer. Estimated monthly amount <u>8</u> lbs	<input type="checkbox"/> Isolation waste - waste contaminated with excretion, exudates or secretions from humans or animals who are isolated due to highly communicable diseases. Estimated monthly amount <u> </u> lbs
<input type="checkbox"/> Trace chemotherapeutic waste Estimated monthly amount <u> </u> lbs	<input type="checkbox"/> Contaminated animals w/Highly communicable animal carcasses, body parts, tissues or fluids suspected to be contaminated by agents which are contagious. Estimated monthly amount <u> </u> lbs
<input type="checkbox"/> California-regulated pharmaceutical waste (non-RCRA, non-radioactive) Estimated monthly amount <u> </u> lbs	<input type="checkbox"/> Other (specify): _____ Estimated monthly amount <u> </u> lbs
Estimate of <u>TOTAL</u> monthly medical waste for generator classification: <u>54</u> lbs	
Estimate of other monthly medical wastes (does not count towards generator class):	
<input type="checkbox"/> Home Generated MW Sharps Estimated Monthly Amount <u> </u> lbs.	<input type="checkbox"/> Home Generated Pharmaceutical Waste Estimated monthly amount <u> </u> lbs.
ONSITE MEDICAL WASTE TREATMENT ONLY: Method & capacity of medical waste treatment <i>if performed onsite</i>:	
<input type="checkbox"/> Steam Autoclaving <input checked="" type="checkbox"/> Other state approved alternative technology (specify below): Liquid waste is treated on-site with bleach and disinfected for 20 minutes.	
Treatment records must be maintained for three years for small quantity generators, and maintained two years for large quantity generators. (HSC§117943; HSC§117975)	

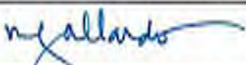

*Per HSC §118215(c), for liquid or semi-liquid biohazardous laboratory waste (§117690(b)(1)(B)), the treatment method must be recognized by the NIH, the CDC, or the American Biological Safety Association. If the chemical disinfection of the medical waste causes the waste to become a hazardous waste, the waste shall be managed in accordance with the requirements of HSC Chapter 6.5 (commencing with §25100) of Division 20.

Medical Waste Management Plan

The following requirements apply to LQGs (HSC§117960), and SQGs that treat MW on-site, or use the Pharmaceutical Waste Hauling Exemption. (HSC§118032)

Emergency Action Plan

This plan is to be followed to ensure the proper disposal of medical waste, including controlled substances in compliance with DEA, approved incineration of pharmaceutical and trace chemotherapy in the event of a natural disaster, spill, treatment system break down, power failure, etc., and closure plan at termination (600 characters max. for WORD interactive form - use additional sheets if necessary). (LQG HSC§117960(h); SQG HSC§117935).

Registered hazardous waste hauler/common carrier used to remove untreated medical waste (if applicable)	
Primary Hauler Name Veolia	Phone # (800) 956-5782
Street Address 9530 Candida Street	City/ZIP San Diego/92126
Contact Person Customer Service	Contact Phone # (800) 956-5782
Offsite treatment facility to which medical waste is transported (if applicable)

<u>Pharmaceutical Waste Categorization</u>	
<p>If applicable, the steps taken to categorize the pharmaceutical wastes generated at the facility to ensure that the wastes are properly disposed of as follows:</p> <p>(1) Pharmaceutical wastes classified by the federal Drug Enforcement Administration (DEA) as "controlled substances" are disposed of in compliance with DEA requirements.</p> <p>(2) <u>The name and business address of the registered hazardous waste hauler used by the generator to have wastes that are not regulated pursuant to the federal Resource Conservation and Recovery Act of 1976 and nonradioactive pharmaceutical wastes regulated as medical waste safely removed for treatment in compliance with subdivision (b) of Section 118222 as waste requiring specific methods.</u> (LQG:HSC§117960(i); SQG:HSC§117935(i))</p>	
<u>Closure Plan</u>	
<p>A closure plan for the termination of treatment at the facility using, at a minimum, one of the methods of decontamination specified in subdivision (a) or (b) of Section 118295, thereby rendering the property to an acceptable sanitary condition following the completion of treatment services at the site. (LQG: HSC§117960(j); SQG: HSC§117935(j))</p>

 E-MAIL: _____

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

CONSENT TO CONDUCT INSPECTION GRANTED BY: Farzad Haerizadeh, PhD

TITLE: Senior Director, Cell & Molecula

INTRODUCTION:

Initial routine compliance inspection for hazardous materials and medical waste management. The Hazardous Materials Division (HMD) of the Department of Environmental Health is the Certified Unified Program Agency (CUPA) for the County of San Diego. As the local CUPA, the HMD implements the Unified Program in the County and regulates businesses that manage hazardous materials, hazardous wastes, aboveground petroleum storage tanks, and underground storage tanks. Additional information on the CUPA program can be found here: http://www.sandiegocounty.gov/deh/hazmat/hmd_cupa.html. HMD is also the local enforcement agency for the Medical Waste Management Act (MWMA) and regulates medical waste.

The scope of this inspection included hazardous materials business plan (HMBP), and the Medical Waste Management Act. Facility is doing research on next generation cancer therapy involving the removal of a small amount of the patients blood and improving T cells (immune system) ability to fight cancer, then returning it into the blood (circulatory system of the patient).

Facility generates ~480 lbs of red bag waste, ~60 lbs of sharps waste, 12 lbs of biological laboratory waste, and ~6 lbs. of blood laboratory waste per year. On site at the time of this inspection - 2 x 61 gal. containers of liquid nitrogen and 4 x 437 cu ft. cylinders of carbon dioxide.

INSPECTION REMARKS:

EPA ID# CAL000419208 status is active. Medical waste is picked up weekly.

Each violation checked below is for the section(s) of the California Health and Safety Code (HSC), California Code of Regulations (CCR), or the San Diego County Code (SDCC) indicated in italics. Incorporated provisions of Title 40 of the Code of Federal regulations (CFR) are noted for reference. All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form (HM-926) to document your return to compliance. Please call (858) 505-6880 or your Specialist if you have any questions. HMBP = Hazardous Materials Business Plan; CUPA = Certified Unified Program Agency; CERS = California Environmental Reporting System; SQG = Small Quantity Hazardous Waste Generator; LQG = Large Quantity Hazardous Waste Generator

 - 3050004 Failed to properly manage contaminated used oil as a hazardous waste. HSC 25250.7(a), (c)
 - HMD 0222 Failed to properly label Excluded Recyclable Materials (ERM). HSC 25143.9(a).
 - HMD 0216 Failed to label hazardous material container within 10 days after the container was discovered to be mislabeled or inadequately labeled. HSC 25124(b)(3)(A); 22 CCR 66262.34(f)
 - HMD 0217 Failed to repack damaged/deteriorated hazardous material container within 96 hours. HSC 25124(b)(3)(B); 22 CCR 66262.34(f)
 - HMD 0219 Failed to properly segregate used oil &/or fuel drained from filters. HSC 25250.22(b)(4); 22 CCR 66266.130(c)(6)
 - HMD 0221 Failed to comply with hazardous waste satellite container regulation. 22 CCR 66262.34(e)
 - HMD 0223 Failed to properly empty container, failed to manage non-empty container, or inner liner removed from a container. 22 CCR 66261.7(b), (d) and/or (r); 66262.34(f)
 - HMD 0224 Failed to mark date on empty container larger than 5 gallons and/or manage it within one year. 22 CCR 66261.7(e),(f)

Universal Waste Handler Requirements

- 3010004 Failed to obtain an EPA ID number from DTSC or US EPA prior to storing 5,000 kg or more of universal waste. 22 CCR 66273.32(a),(b)
- 3020002 Failed to maintain universal waste handler training records for 3 years. 22 CCR 66273.36(c),(d)
- 3020003 Failed to properly train handlers of universal waste in universal waste management and response procedures. 22 CCR 66273.36(a),(b)
- 3030008 Failed to properly label or mark a universal waste (non-Conditionally Exempt Small Quantity Universal Waste Generator). 22 CCR 66273.34
- 3030011 Failed to properly dispose of universal waste within one year. 22 CCR 66273.35(a) and/or (b)
- 3030046 Failed to keep records of offsite universal waste (UW) shipment(s) available for inspection for 3 years. HSC 25185(a); 22 CCR 66273.39(c), (d)(2)
- 3030051 Failed to meet the accumulation standards for universal waste aerosol containers and waste handling. HSC 25201.16(f)
- 3040004 Failed to manage universal waste in a manner to prevent release(s) to the environment. 22 CCR 66273.33; 66273.33.5
- 3050003 Disposal of universal waste (UW) to an unauthorized point. HSC 25189.5(a), 25189(c),(d); 25189.2(c); 22 CCR 66273.31(a)

COUNTY OF SAN DIEGO

COMPLIANCE INSPECTION REPORT

INSPECTION DATE: 11/03/2016 PAGE 5 OF 5
 RECORD ID #: DEH2016-HUPFP-002827

Medical Waste Generators

Each violation checked below is for the section(s) of the California health and Safety Code (HSC), California Code of Regulation (CCR), or the San Diego County Code (SDCC) indicated in italics. All violations must be corrected. Submit documentation of return to compliance to your Specialist. You may use the Corrective Action Form (HM-926) to document your return to compliance. Please call (858) 505-6880 or your Specialist if you have any questions. UPF = Unified Program Facility; MW = Medical Waste; USPS = United States Postal Service; DOT = Department of Transportation

STORAGE AND LABELING

- | # | HMD | VIOLATION DESCRIPTION |
|--------------------------|------|---|
| <input type="checkbox"/> | 4201 | UPF Permit not obtained. HSC 117705; SDCC 68.905, 68.1202 |
| <input type="checkbox"/> | 4202 | Medical waste (MW) not separated from other waste at the point of origin. HSC 118275 |
| <input type="checkbox"/> | 4203 | Enclosure or designated accumulation area for MW containers not secured. HSC 118307, 118310 |
| <input type="checkbox"/> | 4204 | MW designated accumulation area not posted with an approved, legible biohazardous waste "warning sign" in English & Spanish which can be read from 25 ft. HSC 118310 |
| <input type="checkbox"/> | 4205 | Medical SOLID WASTE not secured to deny access to unauthorized persons. SDCC 68.1211 |
| <input type="checkbox"/> | 4206 | Spill of MW not properly cleaned up. HSC 118300 |
| <input type="checkbox"/> | 4207 | Sharps not stored in approved and properly marked sharps container. HSC 118285(a) & (d) |
| <input type="checkbox"/> | 4208 | Full sharps container not taped closed or tightly-lidded to preclude loss of contents. HSC 118285(b) |
| <input type="checkbox"/> | 4209 | Primary containers accumulating MW not labeled with generator's name, address, and phone number. SDCC 68.1205 |
| <input type="checkbox"/> | 4210 | Medical waste not stored in approved and properly marked biohazard bags. HSC 118275(a) |
| <input type="checkbox"/> | 4211 | Biohazard bags not tied off to prevent leakage/expulsion of contents during handling and storage. HSC 118280(a) |
| <input type="checkbox"/> | 4212 | Biohazard bags not containerized in rigid, leak resistant, and covered containers or bins when placed for storage, handling, or transport. HSC 118280(b) |
| <input type="checkbox"/> | 4213 | Waste container/bin not labeled with the words "Biohazardous Waste" or with the international biohazard symbol and the word "BIOHAZARD" on the lid and sides. HSC 118280(c) |
| <input type="checkbox"/> | 4214 | Reusable containers/bins for MW storage not kept clean and sanitary. HSC 118295, 118305 |
| <input type="checkbox"/> | 4215 | Frozen (0°C/32°F) biohazardous waste stored >90 days. HSC 118280(e)(2) |
| <input type="checkbox"/> | 4306 | Full sharps container stored >30 days at >0°C. HSC 118285(c) |
| <input type="checkbox"/> | 4307 | Biohazard bag waste stored >7 days at >0°C (for generators of >20lbs/month). HSC 118280(e)(1)(A) |
| <input type="checkbox"/> | 4308 | Biohazard bag waste stored >30 days at >0°C (for generators of <20lbs/month). HSC 118280(e)(1)(B) |
| <input type="checkbox"/> | 4219 | MW interim storage area not marked with warning sign or biohazard symbol legible from 5 ft. HSC 118307, 118310 |
| <input type="checkbox"/> | 4220 | MW interim storage area not properly secured. HSC 118307 |

TREATMENT AND DISPOSAL

- | | | |
|--------------------------|------|--|
| <input type="checkbox"/> | 4251 | MW treated by unapproved method/procedure. HSC 118215 |
| <input type="checkbox"/> | 4252 | Standardized written operating procedures for steam sterilization not available. HSC 118215(a)(2)(A) |
| <input type="checkbox"/> | 4253 | Recording thermometer not calibrated annually. HSC 118215(a)(2)(B) |
| <input type="checkbox"/> | 4254 | No records of annual thermometer calibration checks onsite for at least the past 2 years. HSC 118215(a)(2)(B) |
| <input type="checkbox"/> | 4255 | Heat-sensitive tape/other approved method not used for each load treated onsite. HSC 118215(a)(2)(C) |
| <input type="checkbox"/> | 4256 | Monthly biological indicator or other approved method not used to confirm proper disinfection. HSC 118215(a)(2)(D) |
| <input type="checkbox"/> | 4257 | Onsite steam sterilization did not reach 121°C/250°F for 30 minutes. HSC 118215(a)(2)(B) |
| <input type="checkbox"/> | 4258 | Treatment records/logs of dates, time, and temperature not available for 2 years. HSC 118215(a)(2)(E) |
| <input type="checkbox"/> | 4259 | Disposal of untreated MW to an unauthorized point. HSC 118340 |

TRANSPORTATION REQUIREMENTS

- | # | HMD | VIOLATION DESCRIPTION |
|--------------------------|------|---|
| <input type="checkbox"/> | 4260 | Transportation of MW without State Hauler Registration, USPS or requirements of the DOT "Materials of Trade Exceptions." HSC 118025 |
| <input type="checkbox"/> | 4311 | Medical waste tracking documents/logs not in vehicle transporting medical waste. HSC 118040 |

SMALL QUANTITY GENERATORS ONLY

(<200 pounds of medical waste generated per month)

- | | | |
|--------------------------|------|---|
| <input type="checkbox"/> | 4301 | Medical Waste Management Plan (MWMP) not submitted to HMD (initial/updates), if onsite treatment. HSC 117935 |
| <input type="checkbox"/> | 4302 | Did not maintain and show proof of "onsite" medical waste treatment records for 3 years. HSC 117943 |
| <input type="checkbox"/> | 4303 | Did not retain on file disposal receipts, tracking/shipping documents for medical waste shipped offsite for 3 years. HSC 117945 |
| <input type="checkbox"/> | 4309 | MWMP or equivalent information not onsite (only for SQG doing onsite treatment or comply with pharmaceutical waste hauling exemption). HSC 117935, 118032 |

LARGE QUANTITY GENERATORS ONLY

(≥ 200 pounds of medical waste generated per month)

- | | | |
|--------------------------|------|--|
| <input type="checkbox"/> | 4351 | MWMP not submitted to HMD (initial/updates). HSC 117960, 117970 |
| <input type="checkbox"/> | 4352 | Records of medical waste treatment not available for 2 years. HSC 117975, 118215(a)(2)(E) |
| <input type="checkbox"/> | 4353 | Did not make available disposal receipts, tracking/shipping documents for at least 2 years for medical waste shipped offsite. HSC 117975 |

CHEMOTHERAPY, PATHOLOGY, PHARMACEUTICAL HAZARDOUS & UNIVERSAL WASTES

- | | | |
|--------------------------|---------|--|
| <input type="checkbox"/> | 4401 | Trace Chemo waste not segregated from other MW. HSC 118275(a)(4) |
| <input type="checkbox"/> | 4402 | Trace Chemo waste container not labeled "Chemotherapy Waste" or "CHEMO" on the lid and the sides. HSC 118275(a)(4) |
| <input type="checkbox"/> | 4403 | Illegal disposal of chemo waste. HSC 118340 |
| <input type="checkbox"/> | 4411 | Pathology waste not segregated from other MW. HSC 118275(a)(5) |
| <input type="checkbox"/> | 4412 | Pathology waste container not labeled "Pathology Waste" or "PATH" on the lid and the sides. HSC 118275(a)(5) |
| <input type="checkbox"/> | 4413 | Illegal disposal of pathology waste. HSC 118340 |
| <input type="checkbox"/> | 4421 | Pharm waste not segregated from other MW. HSC 118275(a)(6) |
| <input type="checkbox"/> | 4422 | Pharm waste not labeled "Incineration Only or HIGH HEAT" on the lid and the sides. HSC 118275(a)(6) |
| <input type="checkbox"/> | 4423 | Pharm waste stored >90 days when container full, or stored longer than one year (maximum allowable time). HSC 118280(f) |
| <input type="checkbox"/> | 4432 | Illegal disposal of pharm waste. HSC 118340, 118222(b) |
| <input type="checkbox"/> | 4441 | Disposal of photo/hazwaste to an unauthorized point. HSC 25189.5 |
| <input type="checkbox"/> | 3030046 | Failed to keep records of offsite universal waste shipment(s) available for inspection for 3 years. HSC 25185(a)(4); 22 CCR 66273.39(c),(d)(2) |
| <input type="checkbox"/> | 3050003 | Disposed of universal waste to an unauthorized point. HSC 25189.5(a); 25189(c),(d); 25189.2(c); 22 CCR 66273.31(a) |

LOG MW ONSITE TREATMENT FACILITY

(≥ 200 pounds of medical waste generated per month)

- | | | |
|--------------------------|------|--|
| <input type="checkbox"/> | 4501 | Onsite MW treatment permit not obtained/renewed. HSC 117950, 118130, 65620, 65623 |
| <input type="checkbox"/> | 4502 | Current copy of the MW treatment permit not available. HSC 65621(f), 65623, 118165, 118180 |
| <input type="checkbox"/> | 4503 | Condition(s) of the MW treatment permit violated. HSC 65623 |

SAN DIEGO COUNTY DEPARTMENT OF ENVIRONMENTAL HEALTH
HAZARDOUS MATERIALS DIVISION
Annual Carcinogen and Reproductive Toxin Reporting List

Business Name: F1 Oncology

Business Address: 11011 Torreyana Road, Suite 244, San Diego, CA 92121

Business Owner or Operator: F1 Oncology

Please complete the following by entering the chemical name in the chemical name column and then place a check ✓ in the quantity column that most closely estimates the amount on hand. If measured by volume, check the appropriate gallon column(s). If measured by weight, check the appropriate pound column(s). If the chemical is a trade secret, you should check the trade secret box. For example, if you have one pint of benzene you would write benzene in the chemical name column and place a check ✓ in the <1-gallon column.

(PLEASE NOTE: the symbol < means less than).

Medical Waste Management Plan

Facility Information	
Business Name F1 Oncology	Unified Program Facility Permit #
Type of Business Biotechnology Research and Development	Date 08/05/2016
Street Address 11011 Torreyana Road, Suite 244	City/ZIP San Diego/92121
Person Responsible for implementing the Medical Waste Management Plan (MWMP)	
Name Michelle Gallardo	
Title Lab Manager	Phone (858) 605-7059 ext. 133
Types of medical wastes (MW) generated	
<input checked="" type="checkbox"/> MW Sharps - e.g., needles, blades, scalpels, or broken glass or syringes contaminated with biohazardous waste. (human or animal) Estimated monthly amount <u>5</u> lbs	<input checked="" type="checkbox"/> Blood or blood products - liquid blood or blood products, or other regulated body fluids, or articles contaminated with liquid blood or body fluids. Estimated monthly amount <u>1</u> lbs
<input checked="" type="checkbox"/> Laboratory wastes - infectious specimens or microbiological cultures, stocks of infectious agents, live and attenuated vaccines, biologicals, and culture media. Estimated monthly amount <u>40</u> lbs	<input type="checkbox"/> Pathology waste - human or animal tissues suspected to be infectious to humans Estimated monthly amount <u> </u> lbs
<input checked="" type="checkbox"/> Liquid or semi-liquid biohazardous laboratory waste - treated on site by chemical disinfection* and discharged to sewer. Estimated monthly amount <u>8</u> lbs	<input type="checkbox"/> Isolation waste - waste contaminated with excretion, exudates or secretions from humans or animals who are isolated due to highly communicable diseases. Estimated monthly amount <u> </u> lbs
<input type="checkbox"/> Trace chemotherapeutic waste Estimated monthly amount <u> </u> lbs	<input type="checkbox"/> Contaminated animals w/Highly communicable animal carcasses, body parts, tissues or fluids suspected to be contaminated by agents which are contagious. Estimated monthly amount <u> </u> lbs
<input type="checkbox"/> California-regulated pharmaceutical waste (non-RCRA, non-radioactive) Estimated monthly amount <u> </u> lbs	<input type="checkbox"/> Other (specify): _____ Estimated monthly amount <u> </u> lbs
Estimate of TOTAL monthly medical waste for generator classification: <u>54</u> lbs	
Estimate of other monthly medical wastes (does not count towards generator class):	
<input type="checkbox"/> Home Generated MW Sharps Estimated Monthly Amount <u> </u> lbs.	<input type="checkbox"/> Home Generated Pharmaceutical Waste Estimated monthly amount <u> </u> lbs.
ONSITE MEDICAL WASTE TREATMENT ONLY: Method & capacity of medical waste treatment <i>if performed onsite</i>:	
<input type="checkbox"/> Steam Autoclaving <input checked="" type="checkbox"/> Other state approved alternative technology (specify below): Liquid waste is treated on-site with bleach and disinfected for 20 minutes.	
Treatment records must be maintained for three years for small quantity generators, and maintained two years for large quantity generators. (HSC§117943; HSC§117975)	

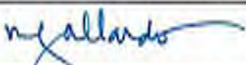

*Per HSC §118215(c), for liquid or semi-liquid biohazardous laboratory waste (§117690(b)(1)(B)), the treatment method must be recognized by the NIH, the CDC, or the American Biological Safety Association. If the chemical disinfection of the medical waste causes the waste to become a hazardous waste, the waste shall be managed in accordance with the requirements of HSC Chapter 6.5 (commencing with §25100) of Division 20.

Medical Waste Management Plan

The following requirements apply to LQGs (HSC§117960), and SQGs that treat MW on-site, or use the Pharmaceutical Waste Hauling Exemption. (HSC§118032)

Emergency Action Plan

This plan is to be followed to ensure the proper disposal of medical waste, including controlled substances in compliance with DEA, approved incineration of pharmaceutical and trace chemotherapy in the event of a natural disaster, spill, treatment system break down, power failure, etc., and closure plan at termination (600 characters max. for WORD interactive form - use additional sheets if necessary). (LQG HSC§117960(h); SQG HSC§117935).

Registered hazardous waste hauler/common carrier used to remove untreated medical waste (if applicable)	
Primary Hauler Name Veolia	Phone # (800) 956-5782
Street Address 9530 Candida Street	City/ZIP San Diego/92126
Contact Person Customer Service	Contact Phone # (800) 956-5782
Offsite treatment facility to which medical waste is transported (if applicable)	
Facility Name Veolia	Phone # (800) 956-5782
Street Address 9530 Candida Street	City/ZIP San Diego/92126
Contact Person Customer Service	Contact Phone # (800) 956-5782
<u>Pharmaceutical Waste Categorization</u>	
<p>If applicable, the steps taken to categorize the pharmaceutical wastes generated at the facility to ensure that the wastes are properly disposed of as follows:</p> <p>(1) Pharmaceutical wastes classified by the federal Drug Enforcement Administration (DEA) as "controlled substances" are disposed of in compliance with DEA requirements.</p> <p>(2) <u>The name and business address of the registered hazardous waste hauler used by the generator to have wastes that are not regulated pursuant to the federal Resource Conservation and Recovery Act of 1976 and nonradioactive pharmaceutical wastes regulated as medical waste safely removed for treatment in compliance with subdivision (b) of Section 118222 as waste requiring specific methods.</u> (LQG:HSC§117960(i); SQG:HSC§117935(i))</p>	
<u>Closure Plan</u>	
<p>A closure plan for the termination of treatment at the facility using, at a minimum, one of the methods of decontamination specified in subdivision (a) or (b) of Section 118295, thereby rendering the property to an acceptable sanitary condition following the completion of treatment services at the site. (LQG: HSC§117960(j); SQG: HSC§117935(j))</p>	
<i>I hereby certify to the best of my knowledge and believe the statements made herein are correct and accurate.</i>

Medical Waste Management Plan

Facility Information	
Business Name F1 Oncology	Unified Program Facility Permit #
Type of Business Biotechnology Research and Development	Date 08/05/2016
Street Address 11011 Torreyana Road, Suite 244	City/ZIP San Diego/92121
Person Responsible for implementing the Medical Waste Management Plan (MWMP)	
Name Michelle Gallardo	
Title Lab Manager	Phone (858) 605-7059 ext. 133
Types of medical wastes (MW) generated	
<input checked="" type="checkbox"/> MW Sharps - e.g., needles, blades, scalpels, or broken glass or syringes contaminated with biohazardous waste. (human or animal) Estimated monthly amount <u>5</u> lbs	<input checked="" type="checkbox"/> Blood or blood products - liquid blood or blood products, or other regulated body fluids, or articles contaminated with liquid blood or body fluids. Estimated monthly amount <u>1</u> lbs
<input checked="" type="checkbox"/> Laboratory wastes - infectious specimens or microbiological cultures, stocks of infectious agents, live and attenuated vaccines, biologicals, and culture media. Estimated monthly amount <u>40</u> lbs	<input type="checkbox"/> Pathology waste - human or animal tissues suspected to be infectious to humans Estimated monthly amount <u> </u> lbs
<input checked="" type="checkbox"/> Liquid or semi-liquid biohazardous laboratory waste - treated on site by chemical disinfection* and discharged to sewer. Estimated monthly amount <u>8</u> lbs	<input type="checkbox"/> Isolation waste - waste contaminated with excretion, exudates or secretions from humans or animals who are isolated due to highly communicable diseases. Estimated monthly amount <u> </u> lbs
<input type="checkbox"/> Trace chemotherapeutic waste Estimated monthly amount <u> </u> lbs	<input type="checkbox"/> Contaminated animals w/Highly communicable animal carcasses, body parts, tissues or fluids suspected to be contaminated by agents which are contagious. Estimated monthly amount <u> </u> lbs
<input type="checkbox"/> California-regulated pharmaceutical waste (non-RCRA, non-radioactive) Estimated monthly amount <u> </u> lbs	<input type="checkbox"/> Other (specify): _____ Estimated monthly amount <u> </u> lbs
Estimate of <u>TOTAL</u> monthly medical waste for generator classification: <u>54</u> lbs	
Estimate of other monthly medical wastes (does not count towards generator class):	
<input type="checkbox"/> Home Generated MW Sharps Estimated Monthly Amount <u> </u> lbs.	<input type="checkbox"/> Home Generated Pharmaceutical Waste Estimated monthly amount <u> </u> lbs.
ONSITE MEDICAL WASTE TREATMENT ONLY: Method & capacity of medical waste treatment <i>if performed onsite</i>:	
<input type="checkbox"/> Steam Autoclaving <input checked="" type="checkbox"/> Other state approved alternative technology (specify below): Liquid waste is treated on-site with bleach and disinfected for 20 minutes.	
Treatment records must be maintained for three years for small quantity generators, and maintained two years for large quantity generators. (HSC§117943; HSC§117975)	

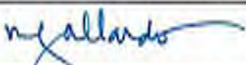

*Per HSC §118215(c), for liquid or semi-liquid biohazardous laboratory waste (§117690(b)(1)(B)), the treatment method must be recognized by the NIH, the CDC, or the American Biological Safety Association. If the chemical disinfection of the medical waste causes the waste to become a hazardous waste, the waste shall be managed in accordance with the requirements of HSC Chapter 6.5 (commencing with §25100) of Division 20.

Medical Waste Management Plan

The following requirements apply to LQGs (HSC§117960), and SQGs that treat MW on-site, or use the Pharmaceutical Waste Hauling Exemption. (HSC§118032)

Emergency Action Plan

This plan is to be followed to ensure the proper disposal of medical waste, including controlled substances in compliance with DEA, approved incineration of pharmaceutical and trace chemotherapy in the event of a natural disaster, spill, treatment system break down, power failure, etc., and closure plan at termination (600 characters max. for WORD interactive form - use additional sheets if necessary). (LQG HSC§117960(h); SQG HSC§117935).

On the above date, the County inspected your facility under the authority of the California Health and Safety Code (H&SC), to determine compliance with applicable provisions of the H&SC, the California Code of Regulations (CCR), and the San Diego County Code of Regulatory Ordinances (SDCC). This report serves as a Notice to Comply (H&SC 25187.8 & 25404.1.2) for any minor violations as defined in H&SC 25404 and 25117.6. This report may contain both minor and more significant (Class II) violations. Minor violations do not include repeat violations or violations remaining uncorrected for more than 30 days (or as specified below). Minor violations do not include knowing, willful, intentional, or chronic violations; nor do they include violations showing a pattern of neglect or disregard. The remarks below are intended to provide guidance to correct any violations indicated on the attached violation report. You must submit a written response to this report within 30 days (or as specified below) demonstrating that all violations have been corrected or include a written notice of disagreement that clearly states the reason for any disputed violations. Prompt correction can protect you from penalties for a "minor violation". Penalties can be imposed for each day in violation for all other violations even if they are corrected promptly. However, correction within 30 days (or as specified below) will make a penalty less likely.

NOTE: Reinspection fees will be charged if additional inspections are required to determine compliance.

TITLE: Lab Manager

INTRODUCTION:

Closure inspection completed on 1/26/2018 at this location.

During inspection walk-through no hazardous substances or medical wastes could be observed from F1 Oncology.

Also present during inspection: Ammon Langley, Industrial Hygenist.

Final disposal documents for medical waste and manifests for hazardous waste available for review during inspection.

Per Michelle Gallardo business closure date 12/27/2017.

OK to suspend the permit at this location.

CONSENT TO CONDUCT INSPECTION GRANTED BY: Anastasiya Gonzalez TITLE: EHS Specialist III

INTRODUCTION:

INITIAL INSPECTION

The Hazardous Materials Division (HMD) of the Department of Environmental Health and Quality is the Certified Unified Program Agency (CUPA) for the County of San Diego. As the local CUPA, the HMD implements the Unified Program in the County and regulates businesses that manage hazardous materials in reportable quantities, hazardous wastes and medical wastes in any amount, aboveground petroleum storage tanks, and underground storage tanks. More information: http://www.sandiegocounty.gov/deh/hazmat/hmd_cupa.html

An initial inspection was conducted on 06/23/21 at BD Integrated Diagnostic Solutions 11011 to verify compliance with medical waste (MW) management. This facility is a biotech that specializes in antibody reagent manufacturing. Anastasiya Gonzalez, BD Integrated Diagnostic Solutions 11011 - EHS Specialist III, granted consent to conduct this inspection and review documents.

The following people were also present during today's inspection:

- Michelle Clark - BD Integrated Diagnostic Solutions 11011, EHS Specialist III
- Fernando Gonzalez - ACT, Technician

Per HMD records, Scott Tillinghast (OSI - Consultant) informed HMD that BD Integrated Diagnostic Solutions 11011 had begun moving into the laboratory space in March 2021. Per Anastasiya Gonzalez, medical waste generation began on 05/21/21. Per CERS submittal made on 04/31/21 by BD Integrated Diagnostic Solutions 11011 and statements from Anastasiya Gonzalez, this facility will generate hazardous waste in the future and therefore it is listed within the facility's hazardous materials inventory. No hazardous waste was observed during today's inspection because the laboratories that are anticipated to generate hazardous waste were still in the process of moving in and setting up. Per Anastasiya Gonzalez, this facility will obtain a Unified Program Facility Permit (UPFP) for the generation of medical waste and future generation of hazardous waste.

Facility's Hazardous Materials Inventory was verified during today's inspection, in comparison to the facility's California Environmental Reporting System (CERS) submittal on 04/30/21.

For Reference:

Facility CERS ID Number: 10686991 (last submittal date before this inspection: 04/30/21)
 Facility EPA ID Number: CAL000461666 (active during the time of inspection)

COUNTY OF SAN DIEGO

SUPPLEMENTAL COMPLIANCE INSPECTION REPORT

INSPECTION REMARKS:

ACTION REQUIRED:

1. Obtain a Unified Program Facility Permit (UPFP). In order to obtain a UPFP please pay all fees pertaining to the permit. An initial invoice will be mailed to the facility upon completion of this initial inspection. Once receiving the initial invoice, pay all fees as soon as possible to obtain the UPFP.

INSPECTION REMARKS:

- During today's inspection observed several biohazardous red bags throughout the labs, however no biohazardous waste were observed to be generated onsite at this time. Per Fernando Gonzalez, facility had recently received a medical waste disposal pick up. Medical waste disposal records indicate last medical waste disposal pick up occurred on 06/21/21.
- Medical waste disposal records were available for review. Per disposal records, this facility receives weekly medical waste disposal pick ups.
- Facility currently has Lab Debris Waste listed on their hazardous materials inventory, however no lab debris waste was observed during today's inspection. Per Anastasiya Gonzalez, facility is still setting up their laboratory spaces and therefore no hazardous waste has been generated yet but this facility anticipates to generate hazardous waste and therefore will leave Lab Debris Waste listed on their hazardous materials inventory at this time.
- Observed storage room that, per Fernando Gonzalez, will be used as facility's main medical waste accumulation area. Be advised, medical waste accumulation areas must have an approved, legible biohazardous waste "warning sign" in English & Spanish or in another language, in addition to English which can be read from a distance of at least 25 feet.
- This report was issued to and reviewed with Anastasiya Gonzalez and Michelle Clark during a phone call on 06/24/21 and was not signed due to current Public Health Orders and COVID-19 restrictions.

<input type="checkbox"/> HMD4251	MW treated by unapproved method/procedure. HSC 118215
<input type="checkbox"/> HMD4252	Standard written operating procedures for steam sterilization not established. HSC 118215(a)(2)(A)
<input type="checkbox"/> HMD4253	Recording thermometer not calibrated annually. HSC 118215(a)(2)(B)
<input type="checkbox"/> HMD4254	No records of annual thermometer calibration checks onsite for at least the past 2 years. HSC 118215(a)(2)(B)
<input type="checkbox"/> HMD4255	Heat-sensitive tape or other approved method not used for each load treated onsite. HSC 118215(a)(2)(C)
<input type="checkbox"/> HMD4256	Monthly biological indicator or other approved indicator not used to confirm proper sterilization. HSC 118215(a)(2)(D)
<input type="checkbox"/> HMD4257	Onsite steam sterilization did not reach 121° C (250° F) for at least 30 minutes. HSC 118215(a)(2)(B)
<input type="checkbox"/> HMD4258	Treatment records or logs of dates, time, and temperature not maintained for at least 2 years. HSC 118215(a)(2)(E)
<input type="checkbox"/> HMD4259	Disposal of untreated MW to an unauthorized point. HSC 118340

TRANSPORTATION REQUIREMENTS

#	<u>VIOLATION DESCRIPTION</u>
<input type="checkbox"/> HMD4260	Transportation of MW without State Hauler Registration, USPS or requirements of the DOT "Materials of Trade Exceptions." HSC 118025
<input type="checkbox"/> HMD4311	Medical waste tracking documents or logs not in vehicle transporting medical waste. HSC 118040(a)
<input type="checkbox"/> HMD4313	Medical waste tracking documents or logs not complete. HSC 118040(b)

SMALL QUANTITY GENERATORS ONLY

(<200 POUNDS OF MEDICAL WASTE GENERATED PER MONTH)

#	<u>VIOLATION DESCRIPTION</u>
<input type="checkbox"/> HMD4301	Medical Waste Management Plan (MWMP) not submitted to HMD (initial/updates), if onsite treatment. HSC 117935
<input type="checkbox"/> HMD4302	Did not maintain and show proof of "onsite" medical waste treatment records for 3 years. HSC 117943
<input type="checkbox"/> HMD4303	Did not maintain on file disposal receipts, tracking or shipping documents for medical waste shipped offsite for at least 3 years. HSC 117945
<input type="checkbox"/> HMD4309	MWMP or equivalent information not onsite (only for SQG doing onsite treatment or comply with pharmaceutical waste hauling exemption). HSC 117935, 118032

COUNTY OF SAN DIEGO

COMPLIANCE INSPECTION REPORT

INSPECTION DATE: 06/23/2021 PAGE 5 OF 5
 RECORD ID #: DEH2016-HUPFP-002827

Medical Waste Generators (continued)

HMD4310 Did not meet the requirements of the pharmaceutical waste hauling exemption. HSC 118032

LARGE QUANTITY GENERATORS ONLY

(>= 200 POUNDS OF MEDICAL WASTE GENERATED PER MONTH)

- | # | VIOLATION DESCRIPTION |
|----------------------------------|---|
| <input type="checkbox"/> HMD4351 | MWMP not submitted to HMD (initial/updates) or incomplete. HSC 117960, 117970 |
| <input type="checkbox"/> HMD4352 | Records of medical waste treatment not available for 2 years. HSC 117975, 118215(a)(2)(E) |
| <input type="checkbox"/> HMD4353 | Did not make available disposal receipts, tracking or shipping documents for at least 2 years for medical waste shipped offsite. HSC 117975 |

LOG MW ONSITE TREATMENT FACILITY

(>= 200 POUNDS OF MEDICAL WASTE GENERATED PER MONTH)

- | # | VIOLATION DESCRIPTION |
|----------------------------------|--|
| <input type="checkbox"/> HMD4501 | Onsite MW treatment permit not obtained or renewed. HSC 117950, 118130; CCR 65620, 65623 |
| <input type="checkbox"/> HMD4502 | Current copy of the MW treatment permit not available. HSC 118165, 118180; CCR 65621(f), 65623 |
| <input type="checkbox"/> HMD4503 | Condition(s) of the MW treatment permit violated. CCR 65623 |
| <input type="checkbox"/> HMD4504 | Operators who treat medical waste not trained in proper equipment use, proper protective equipment to wear and if necessary, proper cleanup of spills. HSC 117967(a) |
| <input type="checkbox"/> HMD4505 | Initial and/or annual training for operators that treat medical waste not provided. HSC 117967(b) |
| <input type="checkbox"/> HMD4506 | Initial and/or annual training documentation for operators that treat medical waste not available for two years. HSC 117967(c) |

CHEMOTHERAPY, PATHOLOGY, PHARMACEUTICAL HAZARDOUS & UNIVERSAL WASTES

- | # | VIOLATION DESCRIPTION |
|----------------------------------|--|
| <input type="checkbox"/> HMD4401 | Trace chemotherapy waste not segregated from other MW. HSC 118275(a)(4) |
| <input type="checkbox"/> HMD4402 | Trace chemotherapy waste container not labeled "Chemotherapy Waste" or "CHEMO" on the lid and the sides. HSC 118275(a)(4) |

Subject: New CERS Acct Request (BD Integrated Diagnostic Solutions)
Attachments: 20210309-BD POC-HMBP CERS Application - HMF-1000.pdf

Hi Robin,

I am working with Anastasiya Gonzalez, nee Irhkin, on this one. Please find the attached file containing a CERS Application for a new company, BD Integrated Diagnostic Solutions. We will begin setting up the laboratory this month. Let me know if you have any questions. Please cc: me on the notification email once the account is set up.

Thank you for your help,

H. Scott Tillinghast | EHS Consultant | Occupational Services, Inc.

Business Name: BD Integrated Diagnostic Solutions

Business Address: 11011 Torreyana Rd Ste 244

Business Owner or Operator: BD Integrated Diagnostic Solutions

Please complete the following by entering the chemical name in the chemical name column and then place a check ✓ in the quantity column that most closely estimates the amount on hand. If measured by volume, check the appropriate gallon column(s). If measured by weight, check the appropriate pound column(s). If the chemical is a trade secret, you should check the trade secret box. For example, if you have one pint of benzene you would write benzene in the chemical name column and place a check ✓ in the <1-gallon column.

(PLEASE NOTE: the symbol < means less than).

Chemical Name	<1 gal.	<1 lb.	<10 gal.	<10 lbs.	<55 gal.	<500 lbs.	Trade Secret
