On those designated "L. T." the initial letters are stamped in gold leaf on leather tabs, and on all others the initial letters are printed on drab vellum. Those which regularly have vellum tabs can be furnished with leather tabs at 50 cents additional to the list price.

Of those with Double Columns for Names, the ¾ M Cap, 1 M Cap and 1½ M Demy have the subdivisions printed in both columns on the page, but all other double column styles have the subdivisions printed in left hand column only. The three sizes mentioned are thin enough to place inside the Ledger cover when desired.

Special sizes and capacities—ruled and bound to order only. All of the sizes and styles above mentioned (except those with double columns for names) and, in addition, those mentioned below, can be made to order with any style of perpendicular rulings and printed headings, to suit individual requirements.

10 M " "	"		320	640	16,000	10,000 to 13,000	

Of these special styles, those designated * have the subdivisions Aa, Ab, Ac, etc., printed on the left hand page only, thus allowing the double or open page for entries. All others have the subdivisions printed on each page. The width available for perpendicular rulings and printed headings on each page (exclusive of trimming and marginal cuttings) is 7 inches in Cap size, 7½ inches in Crown, 9½ inches in Demy, 10½ inches in Medium, or 12½ inches in Double Cap.

In Name Column, "M" stands for *thousand*: thus—"5 M Cap" means five thousand name Index, Cap size; "2 M Demy," two thousand name Index, Demy size; and so on. An examination of above table will show the number of lines to be much greater than the estimated capacity. The *printed* lines will give the average capacity claimed, and the *blank* lines will provide for varying proportions in different localities. The cut on opposite page shows the ruling of *Regular Stock* with *Space for Residence or Remarks*, and with but *one column* for names on a page. This is the most desirable and popular style for general use.
