

REPORT

THE CITY OF SAN DIEGO TO THE PARKS AND RECREATION BOARD

DATE ISSUED: January 9, 2025

REPORT NO.: 202

ATTENTION: Parks and Recreation Board Agenda of January 16, 2025

SUBJECT: Joint Use Program with School Districts: 2024 Annual Update

THIS IS AN INFORMATIONAL ITEM ONLY. NO ACTION IS REQUIRED.

SUMMARY

The City of San Diego (City) Parks and Recreation Department (Department) provides the Parks and Recreation Board an annual report on the status of the City's joint use program. This report updates the status of the joint use program for calendar year 2024. Key information included in this report include the status of existing and recently opened joint use facilities; the Play All Day Program update, joint use agreements; management of the joint use program; and current opportunities, issues, and goals related to the overall joint use program.

BACKGROUND

In its efforts to provide additional recreation space and to leverage school resources, the City partners with multiple school districts and one community college district to provide joint use facilities for the benefit of its residents in accordance with the Parks Master Plan, which defines joint use as "recreation areas or sports facilities available for public use through (a) long-term, joint use agreement with partners" (page 22). San Diego's Joint Use Program with school districts is one of the oldest and largest programs in the country.

Joint use provides for the shared use of public facilities and resources. A joint use facility typically includes neighborhood park amenities such as multi-purpose turf field, walking track, hardcourts, and/or off-street parking. In some cases, joint use facilities incorporate playgrounds. Joint use facilities are utilized by the public when school is not in session (usually in the evenings, weekends, and vacation days) and are reserved for student use during school hours.

The Department has a dedicated webpage entitled Joint Use Facilities with School Districts with additional information that is available at this link:

<https://www.sandiego.gov/park-and-recreation/parks/jointusefacilities>

DISCUSSION

This report is intended to comply with the annual reporting requirements listed in Section D of Council Policy 700-35, Development of the City's Joint Use Program with School Districts. (Attachment 1)

I. Existing joint use facilities

Currently, there are a total of 105 open to the public joint use facilities that provide over 400 acres of recreational space to San Diego residents. The City currently has joint use agreements with eight (8) school districts. San Diego Unified School District (SDUSD) is the City's largest partner with 94 joint use facilities.

1. Del Mar Union School District
2. Poway Unified School District
3. San Diego Community College District
4. San Diego Unified School District
5. San Dieguito School District
6. San Ysidro School District
7. Solana Beach School District
8. South Bay Union School District

The Joint Use Facilities Tracking Sheet is on the City's *Joint Use Facilities with School Districts* webpage. (Attachment 2)

II. Recently opened joint use facilities

Four new or expanded joint use facilities have opened to the public since the Department's last annual update.

- **Clairemont Canyons Academy** – This new 3.30-acre facility is located at 4133 Mt. Albertine Avenue in the Clairemont Community, Council District 2, and is within the San Diego Unified School District. It includes a multi-purpose turf field, asphalt walking track, asphalt hardcourts, parking lot, shade trees, and associated infrastructure.
- **Emerson Elementary** – This new 1.6-acre facility is located at 1100 S. 36th Street is in the Southeastern San Diego Community, Council District 8, and is within the San Diego Unified School District. It includes a multi-purpose synthetic turf field, asphalt walking track, parking lot, shade trees, and associated infrastructure.
- **Spreckels Elementary**– This expanded 4.99-acre facility is located at 6033 Stadium Street in the University Community, Council District 6, and is within the San Diego Unified School District. It includes multi-purpose natural grass turf fields, sports lighting, ball infield area with backstop, decomposed granite walking track, play equipment with resilient surfacing, asphalt hardcourts, parking lot, shade trees, and associated infrastructure.
- **Wangenheim Middle and Walker Elementary** – This expanded 15.80-acre facility is located at 230 Gold Coast Drive, and 9225 Hillery Drive in the Mira Mesa Community,

Council District 6, and is within the San Diego Unified School District. It includes multi-purpose natural grass turf fields, sports lighting, ball infield areas with backstops, decomposed granite walking track, comfort station, concession stand, play equipment with resilient surfacing, parking lots, shade trees, and associated infrastructure.

III. Play All Day Program with SDUSD

In 2016 the City and SDUSD launched the Play All Day Program to expand the City's joint use program. This program is made possible by the SDUSD bond measures (Proposition S, Proposition Z, Measure YY, and Measure U), which include funding for capital improvements on school sites. SDUSD utilizes a portion of the bond funds to construct new turf playfields at their school sites and enters into joint use agreements with the City to allow for the shared use of these facilities.

Since 2016, the City and SDUSD have opened 27 new or expanded Play All Day joint use facilities. There are currently 10 joint use facilities under construction, 3 joint use facilities in the design phase, 2 joint use facilities undergoing the GDP public input process, and an additional 12 future joint use facilities in planning phases.

The Play All Day Joint Use Facilities implementation schedule is provided in the report. (Attachment 3)

IV. Joint Use Agreements with SDUSD

A joint use agreement is the formal agreement between the City and school districts defining the terms and conditions of shared use as well as the roles and responsibilities for maintenance and operations of the facility.

In accordance with the recommendations in the City's Audit Report 19-016, "Performance Audit of the City's Administration of Joint Use Agreement with San Diego Unified School District" dated April 2019, the City is required to update all joint use agreements with SDUSD using the approved joint use agreement template.

A total of 68 joint use agreements with SDUSD have been updated to the new approved joint use agreement template or are routing for City Council approval. An additional 32 existing agreements need to be updated with the template.

Recently executed SDUSD Joint Use Agreements with the new agreement template may be found on the City's *Joint Use Facilities with School Districts* webpage.

V. Recent City financial contributions to the joint use program

Parks and Recreation Department Fiscal Contributions for Joint Use		
Description	Fiscal Year 2025	Fiscal Year 2026 Estimated
Number of Joint Use Sites added	4	3
Full-Time Equivalent (FTE) Position Adds	2	1.5
Ongoing Expense Added	\$338,305	\$319,495

NOTES:

- a. Ongoing expenses include personnel expenses, supplies, contracts, and utilities.
- b. The Fiscal Year 2026 estimate is based on the draft Five-Year Financial Outlook, which anticipates several new facilities coming on-line during the outlook period. The budget is subject to change during the upcoming annual budget development process.

VI. Coordination of the Joint Use Program

The Department continues to refine its administration of the City’s joint use program with school districts to manage various aspects of the program.

As the majority of the joint use sites are with SDUSD, the Department coordinates three sets of recurring meetings with SDUSD’s Facilities Planning and Construction (FPC) Department, Real Estate Department, and Physical Plant Operations (PPO) Department as follows:

1. Monthly meeting to coordinate the active Play All Day capital improvement projects that are either in construction, design, and public input phases.
2. Monthly meeting to coordinate with other District-led projects that impact existing joint use facilities including security fencing projects, photovoltaic panel installation, stand-alone projects, and whole site modernization projects.
3. Two monthly meetings to discuss regular operation and maintenance issues at all existing joint use facilities.

Additional meetings are scheduled as needed, including onsite visits, to address maintenance, programming, or operational concerns. The Department recognizes that its

joint use partnership requires significant commitment of staff resources, reinforced lines of communication, and upper management support.

To improve lines of communications with the remaining school district partners, the Department is working to schedule regular, recurring meetings to improve the success of the joint use program.

VII. Current Overall Joint Use Program Opportunities, Issues and Goals

Joint Use Opportunities

The Department is committed to providing joint use opportunities in all council districts and school districts. Currently there are a total of 105 joint use facilities in the City and are distributed as follows:

<u>Council District</u>	<u>Quantity</u>	<u>Total Overall Acres</u>
Council District 1	13	52.78
Council District 2	12	45.85
Council District 3	6	12.45
Council District 4	9	35.08
Council District 5	5	19.99
Council District 6	13	93.92
Council District 7	22	106.32
Council District 8	8	25.91
Council District 9	17	48.08
Total	105	440.38

The City is challenged to develop new joint use facilities with school districts other than SDUSD. These challenges are largely financial in nature because the other school districts do

Page 6

Joint Use Program with School Districts: 2024 Annual Update

January 9, 2025

not have similar capital improvement bond measures that can be used to develop new joint use fields. Several opportunities exist in the South Bay to add joint use onto school campuses. While there is interest by both the City and some local school districts, there is no capital funding source to commence an improvement program to expand the joint use program in the South Bay. Department staff continue to recommend focusing limited Citywide Park Development Impact Fees and other capital funding sources toward building public parks in the South Bay, such as Riviera Del Sol Park, Beyer Community Park, Hidden Trails Park, Dennery Ranch Park, and Grove Park. However, if funds become available, the Department plans to work with local school districts to identify possible joint use projects in the South Bay.

Prior to the advent of the Play All Day Program with SDUSD, the typical model to develop new joint use facilities was through City funded capital improvement projects. The Department is optimistic that this model can be utilized to develop more joint use facilities with other school districts in the future, however, at the present time the City's priority is to fund the active capital improvement park projects currently in construction and design phases. A list of potential candidates for future joint use facilities with other school districts is listed in Attachment 4.

Regardless of their size or the amenities that are provided, the City's joint use facilities are often the hub of a neighborhood, and they are well used and appreciated by the communities that they serve. Joint use facilities are often the only recreational space within walking distance from people's homes offering respite and the opportunity to play in a safe environment.

Dog Off-leash Activity

Dog off leash activity continues to be an issue on joint use fields along with public parks. Joint use fields are particularly attractive to dog owners because they are fenced enclosures. In recent years, the City and the San Diego Humane Society (SDHS) have spent significant resources to educate the public that dog off leash activity outside of the City's designated dog off leash areas is illegal and will result in a citation. SDHS is the designated animal services provider for the City and has focused its officers on education prior to enforcement.

However, schools continue to grapple with health and safety issues related to dog off leash activity. Dog excrement is of particular concern because it requires staff time to help students who get it on their shoes or clothing. In some cases, students have had to be sent home resulting in a loss of learning. Most of the City's joint use fields are District property and per California Education Code are to be utilized for school curriculum purposes. Joint use of school property is permitted under the Civic Act providing there are no negative impacts to the school curriculum.

The City and SDHS are ramping up their efforts to deter illegal dog off leash use on joint use fields. A progressive warning system, which will be rolled out later this year, will include a green/yellow/red warning signage notifying patrons that a joint use field is in jeopardy of temporary closure due to illegal dog off leash activity. The new signage will also direct members of the public to the City's designated dog off leash areas.

Maintenance

The City's ability to perform landscape maintenance on joint use fields is one of the cornerstones of the joint use partnership, since the City often does not have land available to build more public parks. School districts often struggle to pay for landscape maintenance because their budgets are dedicated to core educational needs like teacher salaries and classroom materials. The City's commitment to maintain joint use fields fills an essential school need. Without the City's assistance, many schools would continue to have decomposed granite play fields instead of natural turf grass.

Scheduling maintenance services is proactively addressed by working with each school to set aside designated landscape maintenance periods during the week to allow City staff to mow, conduct irrigation checks, and utilize machinery to avoid conflicts between maintenance crews and student use of the field. Schools are able to accommodate scheduled City maintenance times and plan alternative activities when students will not be able to use the joint use field. Site Use Schedules are utilized to establish City maintenance times, roles and responsibilities, as well as any special scheduling needs.

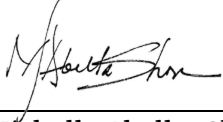

Onetime Maintenance Expenses

Many joint use facilities are older and require repair and replacement projects to maintain improvements. Per the terms of most joint use agreements, the City is required to reimburse school districts for a portion of needed work, such as asphalt paving resurfacing, synthetic turf upgrades, decomposed granite pathway replenishment. In the case of Black Mountain Middle School Joint Use Gymnasium, the City is required to pay one-half of costs for replacing the roof and heating-ventilation-air conditioning (HVAC) system. Recently, Poway Unified School District (PUSD) has elected to proceed with a HVAC and roof replacement project at the Black Mountain Middle School Joint Use Gymnasium even though the City does not currently have available funds. PUSD indicates it will continue to submit invoices for reimbursement until the City is able to pay. Repair and replacement tasks are initiated and completed by school districts based on their available funding and timelines. These maintenance items are not Development Impact Fee (DIF) eligible. As such, the Department must identify onetime funding within its operating budget to pay for these types of maintenance and repair needs.

Joint Use Program Goals

The Department continues to work to improve relationships with school districts and address ongoing concerns and challenges. The City's Joint Use Program with School Districts is one of the largest and oldest joint use programs in the country and is a significant asset to the communities that both agencies serve. The Department looks forward to additional opportunities to expand the joint use program and continued partnership.

Respectfully submitted,

Michelle Abella-Shon
Program Manager, Parks and Recreation

CITY OF SAN DIEGO, CALIFORNIA
COUNCIL POLICY

CURRENT

SUBJECT: DEVELOPMENT OF THE CITY'S JOINT USE PROGRAM WITH
SCHOOL DISTRICTS
POLICY NO.: 700-35
EFFECTIVE DATE: November 8, 2021

BACKGROUND:

The City of San Diego (City) partners with multiple School Districts to maximize the shared use of public facilities for recreational purposes. In particular, the City and San Diego Unified School District have been cooperating in the joint use of numerous recreational facilities since 1948 and have one of the largest Joint Use Programs in the country.

PURPOSE:

To establish guidelines for the strategic vision, objectives, authority, responsibility, and accountability for the development, administration, and operations of the City's Joint Use Program.

DEFINITIONS:

Joint Use Agreement: Joint Use Agreements are the written agreements between the City and a School District setting forth the terms and conditions for the shared use of recreational facilities.

Joint Use Amenity: Recreational amenities including multi-purpose turf fields, walking tracks, parking lots, trees, backstops, bleacher seating areas, picnic areas, sports lighting, swimming pools, playgrounds, tennis courts, gymnasiums, blacktop play areas including basketball courts, and similar amenities.

Joint Use Area: The geographic boundary of School District or City real property, or a combination of both, that comprises the Joint Use Facility. Typically, a Joint Use Area is shown as a boundary line on an exhibit to the Joint Use Agreement.

Joint Use Facility: A facility intended to facilitate the shared use of Joint Use Amenities for the benefit of the School District and the public when school is not in session.

Joint Use Program: A comprehensive program developed by the City with a School District that consists of one or more Joint Use Agreements for the use of one or more Joint Use Facilities with the goal of meeting the recreational and educational needs of the communities both public agencies serve.

CITY OF SAN DIEGO, CALIFORNIA
COUNCIL POLICY

CURRENT

School District: As defined in California Education Code section 17070.15, as may be amended from time to time, and within the City's jurisdictional boundaries.

POLICY:

A. Strategic Vision of the Joint Use Program:

- a. The City's Joint Use Program with School Districts allows for the shared use of public facilities and resources. The Joint Use Program addresses the City's need for more parkland and recreational opportunities in our communities, particularly in the older urbanized communities where there is limited land available for new parks. The Joint Use Program also advances the School Districts' goals to support the needs of the communities they serve.
- b. It is to the mutual benefit of the City and the School Districts to pool resources to provide the land, construction, operations, and maintenance of recreational facilities that can serve the needs of the general public as well as School Districts' students, families, and faculty. The City's Joint Use Program provides for the shared use of public land and facilities that best serve the educational and recreational needs of the residents of the City.
- c. The City may enter into a Memorandum of Understanding with School Districts as necessary to establish roles and responsibilities, to define the partnership, to set consideration for joint use, and to describe each party's responsibilities.
- d. The City will enter into individual Joint Use Agreements for each Joint Use Facility because each Joint Use Facility will have site specific Joint Use Amenities and terms that will be negotiated on an individual site basis.

B. Joint Use Program Objectives:

- a. The City will continue to pursue expansion of existing Joint Use Programs and emphasize expansion with other School Districts to provide joint use opportunities in all communities of the City.
- b. The City will prioritize to the extent reasonable the development of Joint Use Facilities in communities where City staff determines park deficiencies exist, in communities of concern, and where additional park space is desired by the community.

CITY OF SAN DIEGO, CALIFORNIA
COUNCIL POLICY

CURRENT

- c. Because the duration of the Joint Use Agreement will extend over multiple fiscal years, the City and the School District must acknowledge and agree that the City is not obligated to provide any money, funding, financial commitment, in-kind contribution, and work not duly budgeted, appropriated, and authorized by City Council in the respective fiscal year.
- d. In order for the City to program, operate, and maintain the Joint Use Facilities, Joint Use Amenities should be built to City Standards as defined in the “Consultant’s Guide to Park Design and Development.”
- e. City participation in the development of Joint Use Facilities will be in accordance with to the following criteria:
 - i. The City or School District will notify the other party of park and/or physical education needs and establish feasibility of a new Joint Use Facility.
 - ii. The City and School District will collaboratively identify funding sources and implementation schedules for a Joint Use Facility.
 - iii. The Joint Use Area should accommodate the recreational needs of the community and the General Development Plan (GDP) should be designed according to City Council Policy 600-33 as well as the School District’s public input process.
 - iv. The City and School District must approve the contract plans and specifications for the Joint Use Facility prior to the beginning of construction.
 - v. The Joint Use Agreement(s) will outline the community’s use during non-school hours and School District’s use during school hours.

C. City Department Responsibilities:

- a. The Parks and Recreation Department (P&R) is the lead City Department responsible for the operation and management of the Joint Use Program.
- b. P&R shall implement regular lines of communication between the School District and P&R staff and management during pre-design, design, construction, and maintenance of Joint Use Facilities.
- c. P&R and the School Districts shall hold periodic meetings to discuss Joint Use Facility operations and maintenance. Disputes of any nature should be addressed at these meetings.

CITY OF SAN DIEGO, CALIFORNIA
COUNCIL POLICY

CURRENT

- d. The P&R Asset Management Section is responsible for managing the Joint Use Program which includes the following duties:
 - i. Maintaining and regularly updating a tracking sheet to compile information related to Joint Use Agreements, including Joint Use Agreement expiration dates, Joint Use Facility acreage, planning area, locations, and related information;
 - ii. Negotiating and requesting City Council approval of proposed Joint Use Agreements;
 - iii. Coordinating standing meetings with School Districts and acting as a liaison during the GDP public input process;
 - iv. Reviewing and approving contract plans and specifications; and
 - v. Conducting site inspections during construction.
- e. The P&R Community Parks I and II Divisions are responsible for the City's daily operations and maintenance obligations related to the Joint Use Facilities.
- f. The Facility Services Division of the Department of General Services is responsible for any installation, maintenance, and repairs involving specialized trade work at the Joint Use Facilities.
- g. The Engineering and Capital Projects Department is responsible for executing City Capital Improvements Program projects related to Joint Use Facilities.

D. Annual Reporting Requirements

- a. P&R will prepare an annual report to City Council or the applicable Council Committee. The annual report will contain the following information:
 - i. Number and description of Joint Use Facilities with School Districts;
 - ii. Number and description of new Joint Use Facilities opened since the last annual report;
 - iii. Number and description of Joint Use Agreements approved by City Council since the last annual report;
 - iv. Financial contributions by the City to the Joint Use Program since the last annual report;

CITY OF SAN DIEGO, CALIFORNIA
COUNCIL POLICY

CURRENT

- v. Financial contributions by the City to the Joint Use Program planned for the upcoming year;
- vi. Future planned Joint Use Facilities and status; and
- vii. Proposed Joint Use Agreements anticipated to be heard by the City Council in the next year.
