SOLVE IT!

Explore the world of forensics and investigative techniques as you uncover clues and solve cases. Delve into the science behind mystery-solving while enhancing your problem-solving and critical thinking skills during our 9th annual Spring into STEAM event.

All programs run from March through May and are geared towards students aged 6-12.

Please visit our website for event registration and library service locations. Registration required!

Detective Science (Ages 6 - 9)

Use science to crack a case! Learn about the science techniques used to investigate and analyze crime scene evidence. Presented by Mad Science of San Diego.

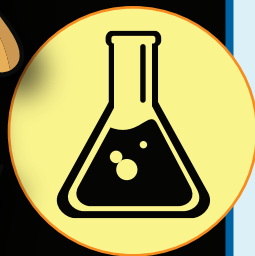

Solve It: Mystery Reveal Puzzle (Ages 6 - 9)

Participants will create a Customized Mystery puzzle which they will solve with a bit of ingenuity and the help of science. Presented by Toshwerks.

The DNA Academy (Ages 9 - 12)

Explore DNA mysteries through hands-on labs and challenges. Using tools like VR, electronics and forensics, tackle topics like DNA replication, mutations and genetic traits while honing problem-solving and teamwork skills. Presented by LKW Stem Foundation.

Forensic Investigators (Ages 9 - 12)

In this "mysterious" program, students use chemistry, physics and observation skills to piece together evidence and crack the case. They learn how to classify mysterious powders, calculate the pH of soils and perform chromatography to separate pigments. Presented by Fleet Science Center.
