

VOTE for Neighbors Who Will Represent YOU

Uptown Community Planning Group (UpCPG) represents six urban neighborhoods in the community of Uptown: Bankers Hill/Park West, Hillcrest, Medical Complex, Middletown, Mission Hills, and University Heights (west side).

Soon, if you live or own either a business or a property in ANY of these neighborhoods, you can vote to elect new voting members to UpCPG’s board.

Collectively, the diverse board—consisting of renter and owner representatives from every neighborhood as well as from local businesses and a non-profit organization—advises the city regarding community concerns about development and land use. These include new building projects, parks and recreation facilities, infrastructure, parking, historic preservation, and safety for pedestrians, cyclists, and motorists.
