ENTITY MAKING ENVIRONMENTAL DETERMINATION: City of San Diego Engineering & Capital Projects Department

STATEMENT SUPPORTING REASON FOR ENVIRONMENTAL DETERMINATION: The City of San Diego conducted an environmental review which determined that the project meets the categorical exemption criteria set forth in CEQA State Guidelines, Section 15301 (Existing Facilities), which allows for the maintenance and minor alteration of existing public structures involving negligible or no expansion of use, such as overlaying existing roadways with asphalt concrete pavement, conducting subgrade repairs, adjusting existing manholes and gate valve covers, and pruning tree roots; Section 15302 (Replacement or Reconstruction), which allows for the replacement of existing facilities where the new structure will be located on the same site and will have substantially the same purpose and capacity as the structure replaced, such as the restriping existing roadways and the replacement of existing curb ramps, cross

gutters, curb and gutter, and sidewalks; Section 15303 (New Construction or Conversion of Small Structures), which allows for the construction and location of limited numbers of new, small facilities or structures, such as the installation of new curb ramps, cross gutters, curb and gutter, sidewalks, and root barriers; and where the exceptions listed in Section 15300.2 would not apply.
