

THE CITY OF SAN DIEGO

Date of Notice: March 18, 2025

NOTICE OF RIGHT TO APPEAL ENVIRONMENTAL DETERMINATION ENGINEERING & CAPITAL PROJECTS

WBS#: B-25086.02.06

PROJECT NAME: Pump Station H Force Main Emergency Replacement

COMMUNITY PLAN AREA: Midway-Pacific Highway

COUNCIL DISTRICT: 2

LOCATION: The project is located between Interstate 8 and the San Diego River Bikeway, approximately 1,800 feet east of West Mission Bay Drive.

PROJECT DESCRIPTION: A recent inspection of stormwater infrastructure at Pump Station H revealed the failure of an 18-inch diameter force main. The project will replace approximately 13 linear feet (LF) of the failed, 18-inch diameter concrete-lined force main with a new, 18-inch diameter steel force main that will be lined with a fusion-bonded epoxy coating to prevent pipe corrosion.

All permanent repairs will be made within the interior of the pump station structure. Failure to repair the storm drain infrastructure increases the likelihood of flooding and impacts on private property and the public right-of-way. The proposed work is the minimum necessary to ensure adequate operational capacity of the storm drain and public health and safety.

ENTITY CONSIDERING PROJECT APPROVAL: City of San Diego

ENVIRONMENTAL DETERMINATION: This activity is statutorily exempt from CEQA pursuant to CEQA Statute Sections 21080(b)(2) and (4) and CEQA Guidelines Sections 15269(b) and (c) (Emergency Projects).

ENTITY MAKING ENVIRONMENTAL DETERMINATION: City of San Diego Engineering & Capital Projects

STATEMENT SUPPORTING REASON FOR ENVIRONMENTAL DETERMINATION: The City of San Diego conducted an environmental review that determined the project meets the definition of an "Emergency" as defined in CEQA Guidelines Section 15359 (Emergency) as the project involves a sudden, unexpected occurrence, involving a clear and imminent danger, demanding immediate action to prevent or mitigate the loss of, or damage to, life, health, property, or essential public services, including the repair of significant leaks from spalling and cracking concrete in the dam structure. This emergency repair is required in order to protect public health, safety and property, and is supported by the expert opinion of the City Engineer. Thus, this emergency activity is statutorily exempt from CEQA pursuant to CEQA Statute Section 21080(b)(2) and CEQA Guidelines Section 15269(b) (Emergency Projects), which exempts

emergency repairs to publicly or privately owned service facilities necessary to maintain service essential to public health, safety or welfare. This activity is also statutorily exempt from CEQA pursuant to CEQA Statute Section 21080(b)(4) and CEQA Guidelines Section 15269(c) (Emergency Projects) which exempts specific actions necessary to prevent or mitigate an emergency.
