## Pipeline Installation Estimated to Start Next Week in Bay Park

*March 20, 2025*

On Monday, March 24, crews on the Pure Water Morena Conveyance South & Middle and Conveyance Bike Lanes project will begin pipeline installation in Bay Park. They will begin at the Milton Street and Chicago Street intersection, moving north on Chicago Street as they progress. Please see the map below which contains the pipeline route. Throughout this work, crews will be using additional lighting during afternoon hours, and typical noise associated with construction may be heard. Additionally, the contractor will work to mitigate any dust leaving their work site.

Crews will be working between 8:00 a.m. and 4:00 p.m. Monday through Friday to install pipeline, and between 4:00 p.m. and 11:00 p.m. to weld the pipeline. To accommodate the work, **crews will need to close your street to vehicle traffic and parking while work is occurring on your block.** Crews will be working on one block at a time, and **it's estimated that each one-block work zone will need to be closed for up to six weeks.** The pipeline alignment will run along Morena Boulevard, Milton Street, Chicago Street, Jellett Street and Denver Street as shown in the map graphic.

### **Vehicle Access and Parking:**

While work is occurring on your block, your street will be closed to vehicle traffic and for parking. Access to your residence will be maintained via the alley (if applicable), or via the sidewalks on both sides of your street. Access for emergency vehicles will be maintained at all times throughout the work.

### **Trash, Recycling and Deliveries:**

If your trash and recycling containers are serviced from the alley, there will be no impact to your pickup. If your trash and recycling containers are serviced from within the street, you may continue to place them in the street or at the end of your driveway on your designated pickup day like normal. On your pickup day, the contractor will move the containers to the nearest access point at the end of the street so they can be emptied. Once emptied, the contractor will return your containers in front of your home. Your mail and any other third-party deliveries will not be interrupted, as the couriers will be asked to park at the end of your street to make their deliveries on foot using the sidewalk.

**The map below displays the route that crews will be installing pipeline on.**
