

SAN DIEGO YACHT CLUB

San Diego, Cal.

Oct. 11th 1911.

To the Common Council of
San Diego, Cal.

Gentlemen:-

Whereas the tide lands within the city limits have been ceded to the City by the State and

Whereas a municipal harbor will be the greatest asset San Diego possesses and will be the greatest factor in the rapid growth and importance of San Diego as a Seaport and realizing that immediate action is necessary to retain control of tide lands and that delays are dangerous.

Therefore be it resolved by the Directors of the San Diego Yacht Club that they heartily endorse the plans as prepared by our efficient City Engineer Mr. E.M.Capps and that we also commend the Common Council for its untiring and earnest efforts for the improvement of San Diego and its Harbor

Therefor be it further resolved that we the Directors of the San Diego Yacht Club earnestly urge all voters of the city of San Diego to vote for the bonds for Harbor Improvements as this means more to the city of San Diego than any Civic improvement ever inaugerated.

And be it also resolved that this resolution be spread upon our records and that copies be furnished to the press

SAN DIEGO YACHT CLUB
