

To the Honorable Council of the City of San Diego:-

We, the undersigned, residents and property owners of La Jolla Park, in said City of San Diego, would respectfully represent, that Prof. Gustav Schulz has constructed and is operating a tunnel leading to the first of the Caves, known as the Mammoth Caves of La Jolla; that said tunnel renders the cave safely and easily accessible at any state of the tides; that said tunnel has given great pleasure to tourists and visitors, and has been one of the principle attractions of said La Jolla Park; That said Prof. Gustav Schulz desires to connect the first cave with the cave adjoining it to the east by a tunnel of about one hundred feet in length; That in the opinion of the City Engineer of said City of San Diego, said proposed tunnel will not in any way endanger the integrity of the caves; That no extra charge will be made to the visiting public on account of said proposed tunnel;

Wherefor we would respectfully petition your Honorable Body to permit said Prof. Gustav Schulz to construct and maintain said tunnel hereinbefore described, believing that it will materially add to the pleasure and instruction of all tourists and visitors and to the permanent benefit of said La Jolla Park.

Dated at La Jolla Park, City of San Diego, California, this 15th. day of September, 1903.
