All moneys placed in the Special Tax Clearance Fund shall, by Auditor's Transfers be credited to the special tax funds.

Section 42 This is an ordinance for the immediate preservation of the public peace, health and safety, and one of urgency, and shall take effect and be in force from and after its passage and approval.

The facts constituting the urgency in this case are that by provisions of the Charter requiring the Common Council and Auditor to estimate the probable expenditures of the various departments for the ensuing fiscal year, and the additional fact that the tax rate for said fiscal year shall be based on said estimated expenditures, it is necessary that an ordinance limiting the amounts to be expended by the various departments should be in effect immediately.

Any refusal by said grantee, its successors or assigns, to file said verified statement, or to pay said percentage of said gross annual receipts, as hereinabove provided, within the time above provided, shall constitute ground for forfeiture of said franchise, and all rights granted thereby.

The Mayor and Common Council of The City of San Diego may, after said statement is made, inspect and examine the books of the grantee of this franchise, or its successors or assigns, at its place of business, and may cause the same to be examined by a expert accountant, and may examine, under oath, any and all of its officers and agents, for the purpose of ascertaining the gross annual receipts under this franchise.

(2) The grantee of this franchise, and its successors and assigns, shall have the right to construct, maintain, operate, renew, repair and remove such traps, manholes, appliances and attachments as may be necessary to properly maintain gas pipes and service connections, together with conduits for transmitting electricity for heat and power, constructed under this franchise, and said traps, manholes, appliances and attachments shall at all times be kept flush with the surface of the street, and so located as to conform to any order of the Common Council in regard thereto, and not to interfere with the use of the streets for highway purposes. Said grantee, and its successors and assigns shall also have the right, subject to such regulations as are now or may hereafter be in force, to make all necessary excavations in said streets for the construction and repair of said gas pipe lines, conduits and service connections and traps, manholes, appliances and attachments. All pipes, conduits, poles, service connections, traps, manholes, attachments and appliances constructed or maintained under the provisions of this franchise shall be constructed and maintained in accordance and in conformity with all of the laws of the State of California and such ordinances, rules and regulations now in force or hereafter adopted or prescribed by the Common Council of The City of San Diego.

The work of erecting, constructing, laying, repairing and removing all poles, pipes, conduits, service connections, traps, manholes, attachments and appliances shall be conducted with the least possible hindrance to the use of the streets and highways, and as soon as the erecting, constructing, laying, repairing and removing of said poles, pipes, conduits, service connections, traps, manholes, attachments and appliances is completed, all portions of the streets or highways which have been excavated or otherwise injured shall be placed in as good condition as the same were in before the erecting, constructing, laying, repairing or removing of any pole, pipe, conduit, service connection, trap, manhole, attachment or appliance, to the satisfaction of the Common Council of The City of San Diego.

(3) The right to grade, sewer, pave, macadamize, or otherwise improve or alter or repair the streets, highways and alleys in The City of San Diego, or to change the grade thereof, shall be reserved to The City of San Diego; such work to be done so as to interfere as little as possible with the rights and privileges enjoyed by the grantee of this franchise, under the terms and provisions thereof.

The grantee, or its successors or assigns, shall change the location of the pipes and conduits, or other appliances, placed in the city streets so as to comply with any change of grade of said streets or highways ordered by the Common Council of said City, and shall maintain and operate said pipes and conduits at all times in accordance with the ordinances and laws of the City of San Diego relating to the government and control of the use of streets; and the grantee, its successors and assigns, shall place all poles and appliances for the support of said poles for carrying electric wires for transmitting electricity for the heat and power on the streets, highways, alleys and public places in said City so as to interfere as little as possible with the ordinary traffic on said streets, highways and alleys, and shall move and relocate said poles and appliances so as to avoid any interference with traffic. The right to place and replace poles and appliances for the purpose of supporting and carrying wires and conduits on the streets, alleys, highways and public places of The City of San Diego shall be subject at all times to the right of the City, in the exercise of its police power, to require the wires and conduits used for the purpose of conveying electrical energy to be placed in conduits under the surface of the ground. All changes in the location of pipes, conduits or poles which may be required under the terms and provisions of this paragraph shall be made at the expense of the grantee, or its successors or assigns.

The grantee, and its successors and assigns, shall waive any and all claims for damages against said City caused by reason of any grading, sewerage, paving, macadamizing, or otherwise improving, altering or repairing any of said streets, highways or alleys.

The grantee of this franchise, and its successors and assigns, shall have the right, during the period for which this franchise is granted, to use said streets, alleys, highways and public places as hereinabove stated, for the purpose of operating and maintaining gas pipes and conduits for carrying gas for heat and power, and poles, wires, conduits and pipes for wires for transmitting electricity for heat and power purposes.

The said grantee shall not sell, transfer nor assign this franchise, or the rights and privileges granted thereby, without the consent of the Common Council.

Any refusal or failure by said grantee, or its successors or assigns, to comply with any of the terms and conditions of this franchise shall constitute ground for forfeiture of said franchise, and all the rights granted hereunder.

Should it ever be finally adjudicated by the Supreme Court of the State of California, or the Supreme Court of the United States of America, that The City of San Diego, or the legislative body thereof, has no power or authority to require the grantee of this franchise, or any other person, firm or corporation operating pursuant to the terms and provisions of Section 19 of Article XI of the Constitution of the State of California as it stood prior to the amendment approved October 10, 1911, to apply for or take out a franchise for maintaining gas pipes and conduits for carrying gas for heat and power, or poles, wires, conduits and pipes for wires for transmitting electricity for heat or power purposes, that then and in that event this franchise shall become null and void, and be of no further effect from the date of the rendering of said decree of said Supreme Court; and the grantee hereunder, then and in that event, shall be thereafter relieved of all obligations imposed by the terms and conditions of this franchise, and particularly of the obligation to pay to said City two per cent (2%) of the gross receipts arising from the use, operation and possession of this franchise; provided, however, that in the event said City is held to be without power or authority to require the taking out of this franchise, said City shall be under no obligation to return any of the moneys paid by the grantee of this franchise, or its successors or assigns, to the City as a rental for that portion of the streets and highways exclusively occupied by said grantee.

This grant of franchise and authority shall be and is subject to the right of a majority of the electors of The City of San Diego voting at any election at any time thereafter to repeal, change or modify the said grant, and such right is hereby expressly reserved to said electors; and it is expressly agreed that at any election held in The City of San Diego a majority of the electors of The City of San Diego voting at said election shall have the right to repeal, change or modify the terms of this franchise and the authority granted hereunder.

In the event that this franchise is forfeited for any reason, the grantee, or its successors or assigns, shall thereafter remove all poles, pipes, conduits, appliances and equipment of every kind and character belonging to said grantee, from the streets, highways and alleys of The City of San Diego, and put the streets, highways and alleys in as good condition as they were prior to such removal."

The proposition shall be presented and printed upon the ballot hereinafter in this ordinance provided for as follows:

WHEREAS, at an election duly and regularly held, the electors of The City of San Diego have authorized the issuance of bonds in the amount of \$300,000.00 for the purpose of constructing various municipal improvements within the City of San Diego and for the purpose of providing work immediately necessary for the relief of the citizens of the City of San Diego who are unemployed; and

WHEREAS, this Common Council has heretofore passed and adopted a resolution providing as follows:

"That the Civil Service Commission and the Superintendent of the Purchasing Department be and they are hereby instructed to co-operate in the matter of selecting men to be employed upon the emergency work under the bond issues, checking carefully the length of residence of applicants within the City of San Diego, giving preference to those who have resided here one year or more, and thereafter taking applicants who have been bona-fide residents of the city for a shorter period."

and

WHEREAS, under the terms of said resolution it is necessary that the Civil Service Commission be authorized to employ an investigator to obtain the necessary data on the multitude of applications for work by persons claiming to reside in the City of San Diego; NOW, THEREFORE,

BE IT ORDAINED, By the Common Council of The City of San Diego, as follows:

Section 1. That the sum of One Thousand Six Hundred Sixty Dollars (\$1660.00), or so much thereof as may be necessary, be, and the same is hereby set aside and appropriated out of the Reserve Fund of The City of San Diego, for the purpose only and exclusively of providing funds for the expenses to be incurred by the Civil Service Commission in the matter of carrying out the direction of this Council in connection with the employment of citizens of San Diego for the construction of the municipal improvements authorized at the election heretofore held on the 15th day of December, 1931; and said Common Council does hereby determine and declare that the public interest and necessity demand such expenditure from the Reserve Fund.

Section 5. There is hereby established a sinking fund, to be kept by the Treasurer of the City of San Diego, for the fund provided in Section one of this ordinance, and the proceeds of the taxes levied as aforesaid shall be paid into such sinking fund as soon as the same shall be collected, and shall remain in such sinking fund until required for the payment of the principal and interest to be made upon said bonds and coupons. When the respective payments of principal and interest of said bonds and coupons shall fall due, the Treasurer of said City is authorized and directed to pay out of the moneys in said fund the respective sums of principal and interest as they shall fall due on each several bond and coupon, as demand shall be made therefor and upon the surrender of such bond and coupon.

Section 6. Said bonds shall be sold, and in the following manner, to-wit:

The City Clerk shall, when so directed by the Common Council, cause notice to be published in the official paper of said City for ten (10) days previous to the date of sale hereinafter mentioned, to the effect that sealed bids for the purchase of the whole, or any part of such bonds as may be determined by the Common Council, will be received at his office until eleven o'clock A.M. of the day of the meeting of the Common Council next following the completion of said notice, and that said bonds will be sold to the highest bidder or bidders therefor by the Common Council of the City of San Diego, and that the same shall not be sold for less than par. Each bid shall be accompanied by a check certified by a responsible bank equal to one per centum (1%) of the amount of the bid, payable to the City Treasurer of said City, as a guaranty and assurance that the bidder will take so much of said bonds as he shall bid for, and will pay the price bid therefor, should the bonds be awarded to him.

The Common Council shall consider such bids as may have been offered, and shall sell the bonds to the highest bidder, provided the right shall be reserved to reject any and all bids.

The successful bidder or bidders shall be required to take so much of said bonds as he shall bid for, and shall be awarded to him by the Common Council, at the rate fixed, and upon ten days' notice from the City Clerk that said bonds are executed and ready for delivery. In the event of the failure of any such purchaser to take the amount and number of bonds awarded to him upon his bid by the Common Council for ten days after giving the notice last aforesaid, his check accompanying his bid and the sum for which it is drawn, shall be forfeited to the City, and the money shall be paid into the City Treasury.

In the event of the failure of the Common Council to sell said bonds at the time for which bids have been requested as hereinbefore provided, the same may be sold without any further advertisement to any bidder for the best price that can be obtained, but for not less than par, which shall be construed to mean the face of the bond plus accrued interest to the date of delivery.

Section 7. This ordinance is one deemed necessary for the immediate preservation of the public peace, health and safety, and one of urgency, and shall take effect and be in force from and after its passage and approval.

The reason for the urgency is that the issuance of the bonds herein provided for has been heretofore authorized by the electors of The City of San Diego; that the municipal improvements to be constructed by the money raised from the sale of said bonds are, among others, the improvement of public streets in The City of San Diego, and the construction of pedestrian tunnels which are urgently required to protect the safety of school children and the public in the use of the streets at the several points provided, and to prevent the danger of additional accidents at the location of these proposed pedestrian tunnels. Furthermore, The City of San Diego is now faced with a serious problem in connection with the unemployment of its citizens, and as a matter of public peace and safety the money to be realized from the sale of the bonds herein provided for should be made available for expenditure immediately.

AUDITOR'S CERTIFICATE. I Hereby Certify that the appropriation made, or indebtedness incurred, by reason of the provisions of the annexed Ordinance, can be made or incurred without the violation of any of the provisions of the Charter of the City of San Diego, California.

ORDINANCE NO. 13396

AN ORDINANCE AMENDING SECTION 11 OF ORDINANCE NO. 11541 OF THE ORDINANCES OF THE CITY OF SAN DIEGO.

BE IT ORDAINED By the Common Council of The City of San Diego, as follows:

Section 1. That Section 11 of Ordinance No. 11541 of the ordinances of The City of San Diego, entitled, "An ordinance creating a department to be known as the 'Department of Electricity,' regulating the installation, repair, operation and maintenance of all electrical conductors, dynomos, motors and other electrical apparatus or material of any nature whatsoever, whether inside or outside of any building or on any street or public highway within the City of San Diego, State of California, and for the appointment of a City Electrician and assistants, and providing a penalty for its violation; and repealing Ordinance No. 7932 of the ordinances of the City of San Diego, approved February 20th, 1920," approved January 21, 1928, be, and the same is hereby amended to read as follows:

"Section 11. (A) No installation, alteration or addition shall be made to electrical conductors, dynomos, motors, or other electrical apparatus or equipment without securing a permit therefor.

(B) Permits for installation, alteration or addition of electrical conductors, dynomos, motors, or other electrical apparatus or equipment, shall only be issued to persons, firms or corporations having obtained the necessary license to do such work, except that Moving Picture Operators shall be permitted to connect moving picture machines or equipment in moving picture booths and to take out permits for the same.

(C) The city Electrician shall make an inspection for any person, firm or corporation on their own or leased property of any installation existing at the time of passage of this ordinance, or legally installed thereafter, of electrical conductors or apparatus, providing the necessary fees required therefor have been paid.

(D) Whenever a system of electrical conductors or equipment is to be installed, or any alterations or additions are to be made to any existing electrical installation, which comes within the provisions of this ordinance, it shall be the duty of the person, firm or corporation desiring to make such installation, alteration or addition, to file with the City Electrician, an application for a permit, said application to give the name of the owner, the address of the job, and show the amount and character of such work, and if required by the City Electrician, such application shall be accompanied by plans and specifications showing the complete lay-out of the proposed installation, alteration or addition. If the applications or plans and specifications show that the installation, alteration or addition is to be made in accordance with the terms and provisions of this ordinance, then the City of San Diego will issue a permit to make such installation, alteration or addition, upon payment of the fees as hereinafter provided.

(E) Should any person, firm or corporation place or install or cause to be placed or installed, any electrical conductors, dynamos, motors or other electrical apparatus or material, or fail to secure a permit within 24 hours, (Sunday and holidays excepted), from the time work is started, then such permit shall be issued only upon payment of double the regular prescribed fee for said installation under this ordinance.

(F) Upon completion of said electrical alteration, installation or addition, the City Electrician shall be notified of such completion and he shall inspect the same without unnecessary delay, and if said installation, alteration or additions are approved by him, he shall issue a certificate of approval which shall contain the date and outline of his inspection.

(G) If any additions are made to said installation which would require an additional fee or inspection, the person, firm or corporation to whom the permit is issued shall pay The City of San Diego the additional fee therefor within ten (10) days after demand thereof by the City Electrician, and if said person, firm or corporation shall fail or refuse to pay said additional fee within ten (10) days, said City Electrician shall refuse to approve any further applications for permits of said person, firm or corporation until said fees are paid.

(H) Independent permits for each building shall be necessary for the installation of electrical conductors for electric light, heat and power, and for the installation of electrical lighting fixtures, apparatus or equipment. Combined wiring and fixture installations, where not more than ten outlets and five sockets are installed, and where only one inspection is necessary, may be covered by the permit issued for the installation of electrical conductors, providing the lighting fixtures are installed by the person, firm or corporation who is installing the electrical conductors. The term 'lighting fixtures' shall include cords, chandeliers, Edison Base receptacles and brackets.

(J) Fixture permits will not be required for any decorative or temporary lighting, if sockets are installed by the same contractor doing the wiring.

(K) Before any electrical installation is covered up, or in any manner concealed from view, notice of such intention to cover or conceal said installation shall be given the City Electrician, and said installation shall not be covered up, or in any manner concealed from view, until said City Electrician shall have posted his certificate of approval.

(L) If required by the City Electrician, a representative of the person, firm or corporation to whom a permit has been issued under this ordinance, shall accompany said City Electrician on his trip of inspection.

(M) Before issuing a certificate of approval, the City Electrician may give a temporary permit to furnish or use electric current by means of temporary conductors, apparatus or fixtures, for a period not exceeding thirty (30) days, if, in his opinion, such equipment may safely be used, and there exists an urgent necessity for such use. This temporary permit shall expire within thirty (30) days. Under no condition shall this be extended except in writing from the City Electrician, with a new permit issued at the regular fee of one dollar, (\$1.00).

(N) The inspection department may require at least twenty-four (24) hours' notice before making an inspection.

BE IT ORDAINED By the People of The City of San Diego, as follows:

Section 1. That Section 3 of Ordinance No. 8183 of the ordinances of The City of San Diego, entitled, "An Ordinance granting to the San Diego Consolidated Gas and Electric Company, a corporation, and to its successors and assigns, a franchise and authority to erect, lay, operate and maintain gas pipes and conduits in all the public streets, alleys, highways and public places in the City of San Diego, for the the purpose of carrying gas for heat and power, and to erect and maintain poles, wires, conduits and pipes for wires for transmitting electricity for heat and power purposes along and upon all of the public streets, alleys, highways and public places in said city, for a term of fifty years," approved November 23rd, 1920, be, and the same is hereby amended to read as follows:

"Section 3. The franchise granted by the terms and provisions of this ordinance is upon the following conditions and limitations:

(1) The grantee of said franchise, its successors and assigns, shall file with the Clerk of The City of San Diego during the first fifteen days of February of each year after the taking effect of the ordinance granting the said franchise, and during the same period of each successive year thereafter until the 27th day of September, 1970, a statement, verified by the oath of said grantee, its successors or assigns, showing the total gross receipts arising from the use, operation or possession of said franchise for the preceding calendar year (or fraction thereof, for the first and last years, as the case may be); and said grantee, or its successors or assigns, shall thereupon pay, as a rental for that portion or those portions of the streets, highways, roads or alleys exclusively occupied by the grantee of this franchise, or to said City Clerk for said The City of San Diego, the aggregate sum of two per cent (2%) of the gross annual receipts, as shown by said statement. The payment of said percentage of gross receipts by said grantee, or its successors or assigns, to The City of San Diego shall begin upon the taking effect of the ordinance granting this franchise.

Any refusal by said grantee, its successors or assigns, to file said verified statement, or to pay said percentage of said gross annual receipts, as hereinabove provided, within the time above provided, shall constitute ground for forfeiture of said franchise, and all rights granted thereby.

The Mayor and Common Council of The City of San Diego may after said statement is made, inspect and examine the books of the grantee of this franchise, or its successors or assigns, at its place of business, and may cause the same to be examined by an expert accountant, and may examine, under oath, any and all of its officers and agents, for the purpose of ascertaining the gross annual receipts under this franchise.

(2) The grantee of this franchise, and its successors and assigns, shall have the right to construct, maintain, operate, renew, repair and remove such traps, manholes, appliances and attachments as may be necessary to properly maintain gas pipes and service connections, together with conduits for transmitting electricity for heat and power, constructed under this franchise, and said traps, manholes, appliances and attachments shall at all times be kept flush with the surface of the street, and so located as to conform to any order of the Common Council in regard thereto, and not to interfere with the use of the streets for highway purposes. [Said grantee, and its successors and assigns shall also have the right, subject to such regulations as are now or may hereafter be in force, to make all necessary excavations in said streets for the construction and repair of said gas pipe lines, conduits and service connections and traps, manholes, appliances and attachments. All pipes, conduits, poles, service connections, traps, manholes, attachments and appliances constructed or maintained under the provisions of this franchise shall be constructed and maintained in accordance and in conformity with all of the laws of the State of California and such ordinances, rules and regulations now in force or hereafter adopted or prescribed by the Common Council of The City of San Diego.

The work of erecting, laying, repairing and removing all poles, pipes, conduits, service connections, traps, manholes, attachments and appliances shall be conducted with the least possible hindrance to the use of the streets and highways, and as soon as the erecting, constructing, laying, repairing and removing of said poles, pipes, conduits, service connections, traps, manholes, attachments and appliances is completed, all portions of the streets or highways which have been excavated or otherwise injured shall be placed in as good condition as the same were in before the erecting, constructing, laying, repairing or removing of any pole, pipe, conduit, service connection, trap, manhole, attachment or appliance, to the satisfaction of the Common Council of The City of San Diego.

(3) The right to grade, sewer, pave, macadamize, or otherwise improve or alter or repair the streets, highways and alleys in The City of San Diego, or to change the grade thereof, shall be reserved to The City of San Diego; such work to be done so as to interfere as little as possible with the rights and privileges enjoyed by the grantee of this franchise, under the terms and provisions thereof.

The grantee, or its successors or assigns, shall change the location of the pipes and conduits, or other appliances, placed in the city streets so as to comply with any change of grade of said streets or highways ordered by the Common Council of said City, and shall maintain and operate said pipes and conduits at all times in accordance with the ordinances and laws of The City of San Diego relating to the government and control of the use of streets; and the grantee, its successors and assigns, shall place all poles and appliances for the support of said poles for carrying electric wires for transmitting electricity for heat and power on the streets, highways, alleys and public places in said City so as to interfere as little as possible with the ordinary traffic on said streets, highways and alleys, and shall move and relocate said poles and appliances so as to avoid any interference with traffic. [The right to place and replace poles and appliances for the purpose of supporting and carrying wires and conduits on the streets, alleys, highways and public places of The City of San Diego shall be subject at all times to the right of the City, in the exercise of its police power, to require the wires and conduits used for the purpose of conveying electrical energy to be placed in conduits under the surface of the ground. All changes in the location of pipes, conduits or poles which may be required under the terms and provisions of this paragraph shall be made at the expense of the grantee, or its successors or assigns.]

The grantee, and its successors and assigns, shall waive any and all claims for damages against said City caused by reason of any grading, sewerage, paving, macadamizing, or otherwise improving, altering or repairing any of said streets, highways or alleys.

The grantee of this franchise, and its successors and assigns, shall have the right, during the period for which this franchise is granted, to use said streets, alleys, highways and public places as hereinabove stated, for the purpose of operating and maintaining gas pipes and conduits for carrying gas for heat and power, and poles, wires, conduits and pipes for wires for transmitting electricity for heat and power purposes.

The said grantee shall not sell, transfer nor assign this franchise, or the rights and privileges granted thereby, without the consent of the Common Council.

Any refusal or failure by said grantee, or its successors or assigns, to comply with any of the terms and conditions of this franchise shall constitute ground for forfeiture of said franchise, and all the rights granted hereunder.

Should it ever be finally adjudicated by the Supreme Court of the State of California, or the Supreme Court of the United States of America, that The City of San Diego, or the legislative body thereof, has no power or authority to require the grantee of this franchise, or any other person, firm or corporation operating pursuant to the terms and provisions of Section 19 of Article XI of the Constitution of the State of California as it stood prior to the amendment approved October 10, 1911, to apply for or take out a franchise for maintaining gas pipes and conduits for carrying gas for heat and power, or poles, wires, conduits and pipes for wires for transmitting electricity for heat or power purposes, that then and in that event this franchise shall become null and void, and be of no further effect from the date of the rendering of said decree of said Supreme Court; and the grantee hereunder, then and in that event, shall be thereafter relieved of all obligations imposed by the terms and conditions of this franchise, and particularly of the obligation to pay to said City two per cent (2%) of the gross receipts arising from the use, operation and possession of this franchise; provided, however, that in the event said City is held to be without power or authority to require the taking out of this franchise, said City shall be under no obligation to return any of the moneys paid by the grantee of this franchise, or its successors or assigns, to the City as a rental for that portion of the streets and highways exclusively occupied by said grantee.

This grant of franchise and authority shall be and is subject to the right of a majority of the electors of The City of San Diego, at any election at any time thereafter to repeal, change or modify the said grant, and such right is hereby expressly reserved to said electors; and it is expressly agreed that at any election held in the City of San Diego a majority of the electors of the city of San Diego voting at said election shall have the right to repeal, change or modify the terms of this franchise and the authority granted hereunder.

In the event that this franchise is forfeited for any reason, the grantee, or its successors or assigns, shall thereafter remove all poles, pipes, conduits, appliances

and equipment of every kind and character belonging to said grantee, from the streets, highways and alleys of The City of San Diego, and put the streets, highways and alleys in as good condition as they were prior to such removal.

I HEREBY CERTIFY that the above and foregoing is a full, true and correct copy of Ordinance No. 13392-B of the ordinances of The City of San Diego, California, as adopted and ratified by the people of said City of San Diego, at the Special Municipal Election held in said City on the 15th day of December, 1931; and,

I FURTHER CERTIFY, that the returns of said election were duly canvassed and declared by the Common Council of said City by Resolution No. 57729 of the resolutions of The City of San Diego, California, adopted on the 21st day of December, 1931.

Such cash reserve shall be subject to execution and satisfaction of any judgment obtained against any member of said association or against any driver or operator of such vehicle by reason of injury or damage to persons and property arising out of the negligent operation of any vehicle by any such owner, member or driver.

No certificate of membership in the association shall be accepted by this City under the terms of this ordinance until and unless satisfactory evidence is submitted, together with such certificate, showing the cash reserve of two thousand five hundred dollars (\$2,500.00) on hand on that date, together with evidence that the said association has been formed and organized according to law with proper stipulations, arrangements, by-laws, agreements and authority under which the terms of this ordinance may be enforced.

Said association, in order to be bound by the terms of this ordinance and to exercise the privilege conferred by this ordinance, shall deposit with the City Treasurer of The City of San Diego, or with a bank in the City of San Diego, as a special trust fund, its cash reserve; together with an agreement properly and lawfully executed by said association and its members authorizing the City Treasurer of The City of San Diego or the proper officers of said bank to disburse said fund and to pay from said fund upon proper evidence, such claims and judgments as may be properly liquidated from such fund according to the terms of this ordinance; and no such certificate shall be accepted by the City under the terms of this ordinance until and unless such deposit has first been made with the proper and necessary instructions and agreements authorizing and providing for the security for the liquidation and satisfaction of claims and judgments, as herein provided for.

Such certificates cannot be cancelled by the association except by written notice filed with the Traffic Commission.

Every such association shall, at any time, on request of the Mayor, or such official as he may designate, exhibit a statement of its financial condition showing the accumulation, maintenance and continued existence of the reserve provided by this ordinance, and such other statistical information as shall be required.

When any owner or operator of a taxicab or automobile for hire shall cease to be a member of said organization, his license to operate said vehicle shall be revoked by the proper authorities of The City of San Diego and he shall no longer be permitted to use the streets for the purpose of operating taxicabs or automobiles for hire, unless he is qualified under other provisions of this ordinance; and he shall have no claim of any kind or nature upon the sums upon deposit with the City Treasurer of The City of San Diego as a cash reserve of said association. In the event that said cash reserve here in this ordinance mentioned and described shall become less than the amounts herein designated and determined, the privilege conferred under subdivision (c) of Section 3 of this ordinance shall cease, and thereafter all members of said association shall have their permits revoked by the proper officers of The City of San Diego and shall no longer be permitted to use the streets for the purpose of operating taxicabs or automobiles for hire, unless and until such members may be properly qualified under and pursuant to the other provisions and terms of this ordinance; provided, however, that in the event said cash reserve falls below the amounts herein designated and in the event the permits to operate taxicabs and vehicles for hire of members of such association have been revoked, the sum of money on deposit in its cash reserve, after first having paid all due and proper charges, liens, claims or judgments against the same, may then be withdrawn by said association and shall no longer be held as a trust fund for the purposes herein indicated.
