CITY PLANNING DEPARTMENT

PROJECT NAME/NUMBER: Slurry Seal Group 2325, Slurry Seal Group 2326, Slurry Seal Group 2421, Slurry Seal Group 2422, Slurry Seal Group 2424

COMMUNITY PLAN AREA: City Heights, Clairemont Mesa, College Area, Eastern Area, Encanto, Greater North Park, Kearny Mesa, Kensington-Talmadge, La Jolla, Mira Mesa, Mission Valley, Navajo, Otay Mesa, Otay Mesa-Nestor, Peninsula, Rancho Peñasquitos, Skyline-Paradise Hills, Southeastern San Diego, Torrey Highlands, Uptown

COUNCIL DISTRICT: 1, 2, 3, 4, 5, 6, 7, 8, 9

LOCATION: See Attachment A: Location List for specific locations.

PROJECT DESCRIPTION: The Slurry Seal Group Projects involve furnishing all labor, materials, equipment, services, and construction related to surface seal work on existing paved roadways in various areas throughout the City of San Diego. The work includes: placement of rubber polymer modified slurry (RPMS), placement of polymer modified rejuvenating emulsion (PMRE) scrub seal and screenings, micro milling, flush coat application, crack sealing, removal of humps and pavement irregularities, asphalt mill and pave, and digouts, pavement base repairs, milling and disposal of pavement fabric, development of a QA/QC plan that includes inspection and testing for asphalt and surface seal work, replacing traffic signal detection loops and stub outs, adjusting existing City manhole frames and covers to grade, raising appurtenances to grade (water, sewer), raising survey monuments to grade, reconstructing survey monument boxes, street and sidewalk sweeping, removal and replacement of existing thermoplastic striping and markings/legends, implementation of new striping plans, traffic control drawings and permits, weed abatement, storm drain inlet protection, installation of inlet markings, sediment control, and possible night and weekend work. All work would occur within the public right-of-way (paved streets) or previously disturbed non-sensitive areas only, and outside of the City's Multi-Habitat Planning Area (MHPA). No sensitive vegetation would be impacted or removed. Storm Water Best Management Practices (BMPs) for erosion control preventing discharge, as well as a Traffic Control Plan (TCP) would be implemented throughout construction.

This Notice of Right to Repeal an Environmental Determination (NORA) is being posted to include the four additional sections of one street that were added to the project after the previous NOE was adopted by resolution R-314922 (May 26, 2023).

ENTITY CONSIDERING PROJECT APPROVAL: City of San Diego

ENVIRONMENTAL DETERMINATION: Categorically exempt from CEQA pursuant to CEQA Guidelines Section 15301(c) (Existing Facilities).

ENTITY MAKING ENVIRONMENTAL DETERMINATION: City of San Diego Mayor-Appointed Designee.

STATEMENT SUPPORTING REASON FOR ENVIRONMENTAL DETERMINATION:

The City of San Diego conducted an environmental review and determined the project is exempt from CEQA pursuant to CEQA Guidelines Section 15301(c) (Existing Facilities) which exempts the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of existing or former use, including existing highways and streets, sidewalks, gutters, bicycle and pedestrian trails, and similar facilities. The exceptions listed in CEQA Guidelines Section 15300.2 would not apply in that no cumulative impacts were identified, no significant effects on the environment were identified, the project is not adjacent to a scenic highway, and no historical resources would be affected by the action.

As to the exception for hazardous materials, there are locations identified on GeoTracker and EnviroStor within 1,000 feet of the public right-of-way. While these locations are listed, the proposed project would not involve ground disturbance which would expose potential hazardous materials, and as such would not preclude the use of a CEQA exemption pursuant to Section 65962.5 of the Government Code.
