

It is gratifying to the Board of Park Commissioners to note the increasing popularity of Torrey Pines Lodge, which is fast becoming one of the well known stops between San Diego and Los Angeles. However, the Park Commission feels that the general public is not fully aware of the many advantages it offers or sufficiently informed as to its status with relation to the park department. Although leased to a private party with concession privileges, it is under the direct supervision of the Board of Park Commissioners and is located on park department land.

Equipped with many conveniences for the comfort and recreation of visitors, Torrey Pines Park is ideal for picnic parties; and it is the desire of the Park Commission to correct an apparent misunderstanding among many people with regard to its use for such purposes. Parties seeking picnic grounds are most welcome anywhere in the vicinity of the lodge or on the beach - the only restrictions being against destroying or injuring the native plants and trees; in fact, the public is encouraged to make use of this park and become more familiar with its many beautiful view points and fascinating aspect of natural growth and contour.

The Editor,

Dear Sir:

The foregoing article is furnished for publication, if you care to give it space in your columns.

Very truly yours,
